Indonesia at a Glance

Strong Footprint in West Java as Key Advantage for Indocement

ITP ASSET BASE
- 25.5 MT CEM Capacity
- 7 CEM Terminal
- 2.8 MT AGG Capacity
- 42 RMC Plants

Indonesia Facts
- Capital City: Jakarta
- Population: ~261.1 Million
- Density: 138/km² (357.4/sq mi)
- GDP (2019E): USD 1,100 Trillion
- GDP Per Capita: USD 4,120
- IDR/USD Rate: ~14,000-14,500

Cement Industry
- No. of Companies: 16
- Cement Capacity: ~110 MTY
- ITP Cement Capacity: 25.5 MTY
- Domestic Consumption: ~70 MT (2018A)

Indonesia Toll Road Network (2019), Ministry of Public Works - gis.bpjt.pu.go.id

+2.1k km of toll roads are built from 2014 to 2019 with additional plan of 2.5k km from 2020-2024
### Indocement Overview YTD Q3 2019

**Strong position with further upside potential**

- Source of growth is now back to our home market – Western Java, +2.0% YoY growth compared to last year.

- Net Revenues increased by +5.3% to IDR 11.3 trillion due to higher average selling price (domestic) by +8.0% YoY combined with lower sales volume by -1.9%

- Margin continues to improve through lower coal price & operational efficiency

- Net Income increased of 90.4% from IDR 617.7bio to IDR 1,175.8bio

- Strong balance sheet with no debt and, cash & cash equivalent to IDR 6.0t

- **Program Launch Initiative:**
  - **TOKO CARE**: short training program for customers as well as prospective customers of material stores that targeted at mason/supervisor around the stores
  - **Tiga Roda Go Digital! TIRO SYSTEM**: a digital system to integrate entire sales process end-to-end, from supply, distribution, warehousing, inventory, sales, administration and customer service in Indocement and all distributors’ network.

*In million ton per annum; including grinding mill capacity

 capacity grew by 3.0% YoY in 2019e.

Source: Asosiasi Semen Indonesia
Regional Shift of Demand:
*West Java remains strong with increasing demand at East side of Indonesia*

*Market shares based on cement domestic sales (YTD September 2018, YTD September 2019)*

Data in Box: Utilization Rate and Growth Rates YoY per area for YTD September 2019

Source: Indonesia Cement Association

Note: Semen Indonesia acquired LafargeHolcim on 31st January 2019 & changed name to Solusi Bangun Indonesia
Total September 2019 Volume is -1.5% YoY

However volume in September started to show recovery

Overall positive demand for remaining of 2019 is expected

Total sales volume in 1st half of 2018 was +31% higher than 2nd half of 2018
Demand shifts back to Java towards end of year

Java vs. Outside Java

- Java holds roughly 50% of Indonesia bag volume as of YTD Q3 2019, with about 40% of Java volume concentrated in overall western Java
Stronger demand for Bulk

- Java holds roughly 70% of Indonesia bulk volume in YTD Q3 2019 in which overall Western Java captures about 60% of Java volume
- Stronger bulk demands remains for rest of the year

EBITDA margin expansion from 13.9% to 18.4% attributed to:
- Higher ASP (domestic) by +8%
- Fuel & power cost per ton decreased by -8%
Strategic cost allocation to capitalize on market growth

Composition of Manufacturing Cost

- Raw Materials & Direct Labor generally follow inflation & wage increase
- Low coal price especially low CV coal reduced Fuel and Power cost
- Manufacturing Overhead increased was due to higher consumables related to repair and maintenance, including Tarjun overhaul

Operating Expenses

- Higher Selling Expenses can be attributed to general inflation and operation of new terminals (Lampung & Palembang) in 2018
Continuing competitive environment, Management focus in taking respective initiatives early on during the year:

- Operational Excellence program
- Fixed cost reduction program
- Managing efficient kiln utilization
Strategy under current tight competition

*Vertical Integration in Ready-Mix Concrete & Aggregates*

**RMC Sales Volume – ‘000 m³**

**ReadyMix business** to continue focus on special infrastructure projects run by SOE/private companies/foreign contractors, including and stronger penetration into small medium enterprise markets.
Major ReadyMix Projects

- Desari - Toll Road
- Bocimi - Toll Road
- Cisumdawu - Toll Road
- Jakarta Cikampek Elevated - Toll Road
- Cirebon 2 - Power Plant
- Tanjung Jati - Power Plant
- Batang - Power Plant

- Major projects from Commercial/Private sector:
  - Pakubuwono Menteng
  - Bintaro Xchange Mall
  - Indonesia One
  - Kingland Avenue
  - The Stature – Kebon Sirih
Persistence of strong Balance Sheet position

- Cash and cash equivalents at IDR 6.0 trn.
- Capital expenditures for YTD Q3 2019 was IDR 366 bio of total 2019 capex planned of IDR 891 bio

## Indocement Vision 2020

*To be the prominent cement producer in Indonesia*

<table>
<thead>
<tr>
<th>Objective</th>
<th>Details</th>
</tr>
</thead>
</table>
| **Highest operating margin in the industry** | - Turn around in selling price  
- Cost leadership |
| **Highest customer satisfaction & increase market share** | - “Sales is a Science” program to increase our sales and create customer value  
- “Customers’ Choice” due to quality and on-time delivery services  
- “Dual-brand strategy” to keep high market share in home market in Java |
| **Stronger vertical integration** | - Expanded aggregates position  
- Strong RMC business in Java with a significant pull-through in cement |
| **Digitalized supply chain** | - Enhance end-to-end supply chain to optimize logistic & distribution cost |
| **Generate higher cash flow** | - Shared service center covers all business lines to enhance working capital management |

Keep position as “Strong & Trusted” products with the prominent quality and services
Controlling Dust Emission

- Replace Kiln Electrostatic Precipitators (EP) to Bag House to reduce dust emission
- Target of dust emission by installing bag house <10 mg/Nm³ (Government regulation <65-75 mg/Nm³)
- Total capex spending 2017 – 2019 for Bag House: IDR 280.2 bio
- Filter Bag Installation Project:

92% LCV

Continuous effort on reducing coal as primary source of energy
Outlook of Indonesian Cement Market

- Foreseen positive growth in Q4 2019 due to stable political situation after inauguration of President and Vice President combined with dry season and most projects to maximize their 2019 budget spending this last quarter. However, it is estimated that full year growth to be flat at maximum.

- Reduction of tax on high end housing and LTV relaxation including recent cut of BI interest rate are expected to increase demand market for residential property.

- Expectation for the new cabinet to provide breakthrough steps that opened up Indonesia's economic opportunities to grow amid on-going trade tension and global slowdown.

- 2020 is deemed to be a busy year for our home market in Jabodetabek and West Java areas as there are further continuation of various infrastructure constructions, e.g., integrated transportation modes, stadiums, roads including residential houses. Therefore, we are optimistic to have positive outlook growth for next year of 3% to 4%.

- ODOL Policy (OverSize & OverDimension) which will increase all cement players trucking cost significantly. More restriction & enforcement have been & will be applied more such as installation of Weigh in Motion (WIM) system at toll gates, system integration b/w Transportation Ministry & Police.

- With over supply condition continues of +40mio ton, tight competition remains and pricing would continue to be one of key strategies for cement players.
