Penjelasan Tema

Theme Explanation

New Way for New Future

Tantangan di industri semen selama 2024 semakin kompleks sejalan dengan kondisi ekonomi yang diwarnai ketidakpastian. Industri semen nyaris tidak mengalami pertumbuhan dari tahun sebelumnya. Di tengah kondisi tersebut, Indocement tetap fokus pada kekuatan yang dimilikinya. Terlebih, sebaran *footprint* Perseroan sudah semakin merata setelah melakukan aksi korporasi penting dalam dua tahun terakhir.

Indocement menjalankan program efisiensi di segala bidang, khususnya di bidang produksi dan distribusi. Perseroan mengoptimalkan kedekatan fasilitas produksi dengan pasar agar dapat meningkatkan kemampuan bersaing. Langkah ini terbukti sangat efektif dalam mempertahankan profitabilitas Perseroan di tengah kondisi pasar yang kelebihan pasokan dan mengarah pada persaingan harga.

Sejalan dengan penerapan strategi tersebut, Indocement juga terus memperkuat aspek tata kelola, termasuk penerapan prinsip keberlanjutan. Perseroan menekankan pentingnya pengembangan usaha yang dilandasi prinsip transparansi dan akuntabilitas, sehingga dapat menjadi perusahaan yang berintegritas. Sedangkan dari aspek keberlanjutan, Perseroan juga terus meningkatkan penggunaan bahan bakar dan bahan baku alternatif yang sejalan dengan *New Purpose* Perseroan, yaitu *Material to Build Our Future*.

The challenges in cement industry during 2024 were increasingly complex in line with the economic conditions filled with uncertainty. The cement industry barely grew from the previous year. In the midst of these conditions, Indocement remained focused on its strengths. Moreover, the Company's footprint has become more evenly distributed after carrying out important corporate actions in the last two years.

Indocement implements efficiency programs in all areas, particularly in production and distribution. The Company optimizes the nearness of production facilities to the market in order to increase competitiveness. This step is proven to be very effective in maintaining the Company's profitability amidst market conditions that are oversupplied and leading to price competition.

In line with the implementation of such strategy, Indocement continues to strengthen its governance aspects, including the integration of sustainability principles. The Company emphasizes the importance of business development based on transparency and accountability to uphold integrity. From a sustainability perspective, the Company remains focused on increasing the use of alternative fuels and raw materials, in line with its *New Purpose*, *Material to Build Our Future*.

Growing Stronger and Greener

2023

Sejalan dengan Indocement *New Purpose* yaitu *Material to Build Our Future*, Perseroan juga terus memperkuat komitmen keberlanjutannya dengan menciptakan operasional yang lebih ramah lingkungan. Perseroan telah mewujudkan peningkatan penggunaan bahan baku alternatif dan bahan bakar alternatif dengan tujuan akhir mengurangi emisi karbon yang dihasilkan Perseroan dan menciptakan masa depan yang lebih hijau.

In line with Indocement's New Purpose, Material to Build Our Future, the Company also continues to strengthen its sustainability commitment by creating more environmentally friendly operations. The Company has realized the increase in the use of alternative materials and alternative fuels with the ultimate goal of reducing the Company's carbon emissions and creating a greener future.

Laying Foundation for a Greener Future

2022

Sejalan dengan upaya untuk meraih pertumbuhan usaha, Indocement terus memperkuat komitmen keberlanjutan Perseroan. Indocement *New Purpose* yaitu *Material to Build Our Future* yang diperkenalkan tahun lalu bukanlah sekedar slogan kosong. Perseroan melakukan berbagai upaya untuk menciptakan operasional yang lebih hijau dan mendorong pemasaran produk yang berwawasan ramah lingkungan.

In line with the efforts to achieve business growth, Indocement continues to strengthen the Company's commitment to sustainability. Indocement's New Purpose, Material to Build Our Future, which was introduced last year, is not merely an empty slogan. The Company carries out various efforts to create a greener operation and encourage an environmentally-sound product marketing.

Path to Growth and Excellence

2021

Pandemi COVID-19 dan tingkat persaingan yang semakin ketat mengharuskan Indocement untuk terus berinovasi dan melakukan efisiensi di berbagai bidang untuk dapat mempertahankan tingkat profitabilitasnya, salah satunya dengan pengembangan teknologi yang diterapkan di bidang produksi dan juga pemasaran. Indocement juga memperkuat komitmen keberlanjutannya dengan berinvestasi dan mengembangkan produk-produk yang ramah lingkungan, hal ini sejalan dengan tujuan Perseroan yaitu *Material to Build Our Future*.

The COVID-19 pandemic and the increasingly fierce competition require Indocement to keep innovating and create efficiency in various fields to maintain its profitability level, one of which is by technology development applied in production and marketing. Indocement also strengthens its commitment to sustainability by investing and developing environmentally friendly products; that is in line with the Company's purpose, which is *Material to Build Our Future*.

Smarter Faster Better

2020

Menyikapi persaingan di industri semen yang semakin ketat, Indocement terus melakukan inovasi untuk meningkatkan daya saingnya, salah satunya dengan meningkatkan peran dan pemanfaatan teknologi informasi, untuk menjadi perusahaan yang *smarter, faster* dan *better*. Indocement mengembangkan tiga pilar digital untuk mengoptimalkan produksi, penjualan, distribusi, dan layanan kepada pelanggan.

In order to address the intensified competition in the cement industry, Indocement constantly innovates to improve its competitiveness, one of which is by improving the role and usage of information technology to become a *smarter, faster, and better* company. Indocement developed three digital pillars to optimize production, sales, distribution, and services for customers.

Laporan Dewan Komisaris

Report of the Board of Commissioners

Para Pemegang Saham dan Pemangku Kepentingan yang terhormat,

Di tengah kondisi ekonomi dan iklim bisnis yang penuh tantangan, PT Indocement Tunggul Prakarsa Tbk. berhasil melalui 2024 dengan mencapai kinerja yang baik. Pencapaian tersebut patut kita syukuri.

Pada kesempatan ini, izinkan saya mewakili Dewan Komisaris menyampaikan pelaksanaan tugas Dewan Komisaris dalam melakukan pengawasan dan memberikan nasihat kepada Direksi untuk memastikan bahwa Perseroan dikelola sesuai dengan rencana bisnis yang telah ditetapkan dan dalam koridor tata kelola yang baik. Dewan Komisaris senantiasa menjunjung tinggi objektivitas dan independensinya sesuai dengan ketentuan yang ditetapkan dalam Anggaran Dasar dan peraturan perundang-undangan. Dewan Komisaris juga mendorong peningkatan penerapan tata kelola perusahaan, antisipasi risiko dan mitigasinya serta memerhatikan praktik-praktik bisnis yang sehat dan memberikan profit bagi Perseroan.

Penilaian Atas Kinerja Direksi

Industri semen menghadapi tantangan yang tidak ringan pada 2024. Hal ini tak lepas dari kondisi perekonomian global dan nasional yang diwarnai ketidakpastian. Pada tingkat global, ketidakpastian disebabkan oleh konflik geopolitik yang berkepanjangan dan meluas ke berbagai kawasan. Selain itu, kebijakan moneter yang ketat dan tingkat suku bunga yang tinggi di sejumlah negara membuat ekonomi sulit untuk bergerak.

Demikian juga halnya dengan ekonomi domestik. Kendati masih dapat meraih pertumbuhan yang cukup solid, namun ekonomi Indonesia menghadapi kondisi yang cukup berat yang ditandai dengan melemahnya daya beli masyarakat. Selain itu, perhelatan pesta demokrasi yang berjalan hampir sepanjang tahun telah membuat pelaku usaha memilih untuk menunggu hingga ada kepastian pemimpin nasional dan daerah yang terpilih.

Kondisi ekonomi tersebut memberikan dampak yang sangat besar terhadap industri semen nasional yang tercatat tidak mengalami pertumbuhan pada 2024.

Dear Honorable Shareholders and Stakeholders,

Amidst the challenging economic conditions and business climate, PT Indocement Tunggul Prakarsa Tbk. successfully went through 2024 by achieving good performance. An achievement that we should be grateful for.

On this occasion, allow me to represent the Board of Commissioners to convey the implementation of duties in supervising and providing advice to the Board of Directors to ensure that the Company is managed in accordance with the established business plan and within the corridor of good governance. The Board of Commissioners always upholds its objectivity and independence in line with the provisions stipulated in the Articles of Association and laws and regulations. The Board of Commissioners also encourages enhanced implementation of corporate governance, risk anticipation, and risk mitigation, as well as pays attention to sound business practices that provide profit for the Company.

Assessment of the Board of Directors' Performance

Cement industry encountered significant challenges in 2024. This was attributed by the global and national economic conditions, which were marked by uncertainty. At global level, uncertainty was caused by prolonged geopolitical conflicts that spread to various regions. Furthermore, tight monetary policies and high interest rates in a number of countries hampered economic growth.

Similarly, domestic economy also encountered challenges. Though Indonesian economy managed to achieve quite solid growth, it encountered quite difficult conditions marked by weakened people's purchasing power. Furthermore, democratic parties that ran for almost the entire year made business players chose to wait for certainty about the elected national and regional leaders.

This economic condition had a very big impact on the national cement industry, recorded as not experiencing growth in 2024.

”

Dewan Komisaris mengapresiasi upaya yang dilakukan Direksi untuk menciptakan operasional Perseroan yang lebih efisien dan “lebih hijau”. Hal tersebut akan menjadi kunci keberhasilan Perseroan di tengah persaingan yang semakin ketat.

The Board of Commissioners acknowledges the Board of Directors for their efforts in enhancing more efficient and “greener” operations within the Company. These efforts are the keys to ensuring the Company’s continued success in an increasingly competitive market.

”

Roberto Callieri

Komisaris Utama
President Commissioner

Pelemahan daya beli masyarakat juga telah mendorong industri semen masuk pada persaingan harga yang kurang sehat untuk pertumbuhan industri secara jangka panjang.

Dewan Komisaris mengapresiasi langkah-langkah yang dijalankan Direksi dalam menyikapi dinamika kondisi ekonomi dan industri semen pada 2024. Perseroan tetap fokus pada upaya pencapaian visi, misi, dan *purpose* Perseroan yang tidak hanya bersifat jangka pendek, tetapi juga berorientasi pada pertumbuhan yang berkelanjutan, dengan tetap menjaga tingkat profitabilitas yang terus dijalankan secara konsisten.

Direksi mampu menciptakan efisiensi biaya distribusi dan logistik dengan memanfaatkan sumber daya yang dimiliki Perseroan. Keputusan Direksi untuk menghentikan operasi di beberapa pabrik dan terminal untuk sementara waktu, merupakan langkah yang tepat agar Perseroan memiliki struktur biaya yang lebih optimal.

Selain itu, sepanjang 2024, Perseroan juga terus meningkatkan penggunaan bahan bakar dan bahan baku alternatif (AFAM) sehingga dapat beroperasi dengan lebih ramah lingkungan. Hal ini sejalan dengan komitmen Heidelberg Materials yang mendorong tercapainya tujuan pembangunan berkelanjutan.

Dari aspek keuangan, pada 2024 Perseroan berhasil membukukan peningkatan pendapatan neto sebesar 3,3% menjadi Rp18.549 miliar. Kenaikan ini sejalan dengan meningkatnya pangsa pasar berkat kontribusi dari Semen Grobogan, merek lokal milik entitas anak yang diakuisisi pada akhir 2023 dan telah memiliki pasar tersendiri di wilayah tersebut.

Perseroan juga berhasil mencatat peningkatan aset sebesar 2,6% menjadi Rp30.420 miliar dan peningkatan ekuitas sebesar 5,5% menjadi Rp22.114 miliar. Hal ini menjadi modal yang sangat berarti bagi Perseroan untuk dapat meraih pertumbuhan usaha yang lebih baik di tahun-tahun mendatang.

Pengawasan terhadap Perumusan dan Penerapan Inisiatif Strategis Perseroan

Dewan Komisaris melakukan pengawasan secara aktif mulai dari perumusan hingga implementasi kebijakan strategis Perseroan. Dalam proses perumusan strategi, Dewan Komisaris dapat memberikan nasihat kepada Direksi terkait kesesuaian strategi yang akan dijalankan dengan visi, misi, dan *purpose* Perseroan.

The weakening of people's purchasing power also pushed cement industry into unhealthy price competition for long-term industrial growth.

The Board of Commissioners appreciates the steps taken by the Board of Directors in responding to the dynamics of economic conditions and cement industry in 2024. The Company remained its focus on efforts to achieve the Company's vision, mission, and purpose, which are not only short-term oriented, but also sustainable growth oriented, by maintaining profitability levels continue to be carried out consistently.

The Board of Directors is able to create distribution and logistics cost efficiency by utilizing the Company's resources. The Board of Directors' decision to stop operations at several factories and terminals temporarily, is the right step, and thus, the Company has a more optimal cost structure.

Furthermore, throughout 2024, the Company continued to increase the use of alternative fuels and alternative materials (AFAM), enabling operations in a more environmentally friendly manner. This is in line with Heidelberg Materials' commitment to encouraging the achievement of sustainable development goals.

From financial perspective, in 2024 the Company managed to record an increase in net revenues of 3.3% to Rp18,549 billion. This increase aligns with the growing market share, driven by contributions from Semen Grobogan, a local brand owned by a subsidiary acquired at the end of 2023, which already has an established market presence in the region.

The Company also managed to record an increase in assets of 2.6% to Rp30,420 billion and an increase in equity of 5.5% to Rp22,114 billion. This served as a very significant capital for the Company to be able to achieve better business growth in the coming years.

Supervision of Formulation and Implementation of the Company's Strategic Initiatives

The Board of Commissioners actively supervises from the formulation to the implementation of the Company's strategic policies. In strategy formulation process, the Board of Commissioners can provide advice to the Board of Directors regarding the suitability of the strategy to be implemented with the Company's vision, mission, and purpose.

Setelah kebijakan strategis dan target Perseroan ditetapkan, Dewan Komisaris akan mengawasi pelaksanaan dari kebijakan strategis tersebut. Dewan Komisaris dapat memberikan arahan kepada Direksi dalam penyusunan rencana dan target dengan mempertimbangkan arahan pemegang saham dan interes pemangku kepentingan lainnya.

Pada 2024, Dewan Komisaris menaruh perhatian yang besar terhadap langkah dan strategi yang dijalankan Perseroan terkait dengan beberapa hal berikut:

1. Efisiensi Operasional

Salah satu fokus pengawasan yang dijalankan Dewan Komisaris pada 2024 adalah upaya yang dilakukan Direksi untuk menjalankan operasional yang lebih efektif dan efisien. Dewan Komisaris selalu mengingatkan Direksi untuk mengoptimalkan sebaran jejak langkah Perseroan untuk menciptakan operasional yang lebih efisien.

Perencanaan produksi harus disesuaikan dengan strategi pemasaran dan distribusi, sehingga biaya logistik Perseroan menjadi lebih efisien. Selain itu, Dewan Komisaris juga selalu mengawasi program pemeliharaan fasilitas produksi agar tidak terjadi *shutdown* yang tidak direncanakan, karena hal tersebut akan mengakibatkan inefisiensi.

2. Pencapaian Peta Jalan Karbon

Perseroan telah menyusun peta jalan penurunan emisi karbon hingga 2030. Pada 2025, perseroan menargetkan pemakaian bahan bakar alternatif sebesar 25%. Dewan Komisaris secara berkala memantau upaya yang dijalankan Direksi untuk mencapai target tersebut.

Dewan Komisaris melihat kesungguhan Direksi untuk terus berupaya menggunakan bahan bakar dan bahan baku alternatif yang memiliki kadar emisi yang lebih rendah. Strategi tersebut juga telah dijalankan di seluruh fasilitas produksi Perseroan.

3. Manajemen Risiko

Manajemen risiko menjadi salah satu fokus utama Dewan Komisaris pada 2024. Dewan Komisaris menyarankan Direksi untuk terus meningkatkan kualitas penerapan manajemen risiko di lingkungan Perseroan, termasuk risiko sosial dan lingkungan. Hal ini menjadi sangat penting mengingat regulasi terkait lingkungan hidup telah semakin ketat dan berpotensi memberikan kerugian finansial kepada Perseroan.

After the Company's strategic policies, and targets are determined, the Board of Commissioners shall supervise the implementation of these strategic policies. The Board of Commissioners may provide direction to the Board of Directors in preparing plans and targets by considering shareholders' direction and other stakeholders' interests.

In 2024, the Board of Commissioners paid great attention to steps and strategies implemented by the Company related to the following matters:

1. Operational Efficiency

One of the focuses of supervision carried out by the Board of Commissioners in 2024 was the efforts made by the Board of Directors to run more effective and efficient operations. The Board of Commissioners constantly reminded the Board of Directors to optimize Company's footprint distribution to create more efficient operations.

Production planning must be adjusted to marketing and distribution strategies, so that the Company's logistics costs become more efficient. In addition, the Board of Commissioners also constantly monitors production facility maintenance program to avoid unplanned shutdowns, as such case would result in inefficiency.

2. Achievement of Carbon Roadmap

The Company has developed a roadmap for reducing carbon emissions until 2030. By 2025, the company targets the use of alternative fuels at 25%. The Board of Commissioners periodically monitored the efforts made by the Board of Directors to achieve this target.

The Board of Commissioners sees the Board of Directors' seriousness in continuing to use alternative fuels and raw materials that have lower emission levels. This strategy is also implemented in all of the Company's production facilities.

3. Risk Management

Risk management is one of the main focuses of the Board of Commissioners in 2024. The Board of Commissioners advises the Board of Directors to continue improving the quality of risk management implementation in the Company's environment, including social and environmental risks. This is crucial considering that environmental regulations have become increasingly stringent and may cause financial

Karena itu, dibutuhkan upaya mitigasi yang bersifat paripurna agar setiap risiko dapat dikelola dengan baik.

4. Peningkatan Kualitas Human Capital

Human Capital (HC) merupakan kunci keberhasilan Perseroan untuk meraih pertumbuhan usaha yang berkelanjutan. Karena itu, peningkatan kualitas HC merupakan hal mutlak yang harus dilakukan Indocement agar dapat menghasilkan HC yang handal yang siap menghadapi berbagai tantangan yang semakin kompleks. Untuk menunjang peningkatan kualitas HC, Perusahaan melakukan seleksi dan rekrutmen yang ketat untuk mendapatkan individu yang sesuai dengan kebutuhan dan budaya Perusahaan, serta berkomitmen memberikan program pelatihan dan pengembangan bagi karyawan secara berkelanjutan.

Mekanisme Pengawasan dan Pemberian Nasihat kepada Direksi

Sesuai ketentuan peraturan perundang-undangan, tugas utama Dewan Komisaris adalah melakukan pengawasan dan memberikan arahan kepada Direksi dalam implementasi strategi Perseroan. Hal tersebut dilakukan untuk memastikan Perseroan dapat mencapai target-target yang telah ditetapkan. Dewan Komisaris harus memastikan strategi yang dijalankan Direksi telah sesuai dengan rencana kerja dan rencana jangka panjang Perseroan.

Dewan Komisaris melakukan pengawasan secara rutin atas kinerja Perseroan dan menyampaikan saran serta nasihat bagi Direksi dalam menjalankan kegiatan usaha termasuk berbagai inisiatif strategis. Salah satu mekanisme pengawasan yang dijalankan Dewan Komisaris adalah melalui mekanisme rapat bersama Direksi yang dilakukan paling sedikit enam kali dalam setahun atau disesuaikan dengan kebutuhan.

Sepanjang 2024, Dewan Komisaris telah melaksanakan rapat bersama Direksi sebanyak tiga kali. Melalui forum rapat tersebut, Dewan Komisaris dapat meminta penjelasan dari Direksi terkait hal-hal yang menjadi perhatian utama Dewan Komisaris. Selain itu, Dewan Komisaris juga dapat melakukan pemantauan secara langsung dengan bertemu audit internal terlebih dahulu.

loss to the Company. Therefore, comprehensive mitigation efforts are needed to properly manage each risk.

4. Improvement of Human Capital Quality

Human Capital (HC) is the key to the Company's success in achieving sustainable business growth. Therefore, improving HC quality is an absolute must for Indocement to provide reliable HC who are ready to face the increasingly complex challenges. To support improvement of HC's quality, the Company carries out strict selection and recruitment to obtain individuals suitable for the Company's needs and culture. The Company is also committed to providing training and development programs for employees sustainably.

Mechanism of Supervisory and Advisory to the Board of Directors

Pursuant to the provisions of laws and regulations, the Board of Commissioners' primary duty is to supervise and provide direction to the Board of Directors in implementing the Company's strategy. This is carried out to ensure that the Company can achieve the targets set. The Board of Commissioners must ensure that strategies implemented by the Board of Directors are in line with the Company's work plan and long-term plan.

The Board of Commissioners regularly supervises the Company's performance and provides suggestions and advice to the Board of Directors in performing business activities, including various strategic initiatives. The Board of Commissioners carries out a supervisory mechanism through a joint meeting mechanism with the Board of Directors, held at least six times a year or adjusted according to the needs.

Throughout 2024, the Board of Commissioners held three joint meetings with the Board of Directors. Through such meeting forum, the Board of Commissioners can request the Board of Directors' explanation regarding matters that are of primary concern to the Board of Commissioners. In addition, the Board of Commissioners can also carry out direct monitoring by previously holding meeting with the internal audit.

Pandangan atas Prospek Usaha yang Disusun Direksi

Ekonomi global diprediksi belum akan mengalami pertumbuhan yang berarti pada 2025. Kendati berbagai lembaga riset dan keuangan dunia memprediksi ekonomi global akan tumbuh stabil, namun sejumlah risiko masih berpotensi membuat perekonomian global kembali tumbuh melambat. Demikian juga dengan ekonomi Indonesia. Kendati transisi kepemimpinan telah berjalan dengan baik dan pemerintahan baru mendukung optimisme yang tinggi, namun potensi perlambatan masih tetap ada dari faktor ekonomi global.

Dewan Komisaris mendukung langkah-langkah yang telah dijalankan Direksi dalam menyambut 2025. Perseroan harus tetap fokus pada program-program yang telah dicanangkan dengan tetap mengedepankan efisiensi dan keberlanjutan sebagai pilar utama. Optimalisasi *footprint* harus terus dijalankan agar Perseroan dapat beroperasi dengan lebih efisien sehingga dapat memaksimalkan nilai bagi pemegang saham.

Pandangan atas Penerapan Tata Kelola Perusahaan yang Baik

Penerapan prinsip tata kelola perusahaan yang baik atau *good corporate governance* (GCG) tetap menjadi fokus dari tugas dan tanggung jawab Dewan Komisaris bersama dengan Direksi. Dalam menjalankan fungsi pengawasannya, Dewan Komisaris tidak hanya bertanggung jawab kepada hasil atau tujuan yang dicapai tetapi juga senantiasa memantau proses untuk mencapai hasil yang diharapkan. Terkait praktik GCG, dalam menjalankan tugas pengawasan dan pemberian nasihat, Dewan Komisaris dibantu oleh Komite Audit serta Komite Nominasi dan Remunerasi.

Dewan Komisaris memandang implementasi GCG di lingkup Indocement terus mengalami peningkatan dari waktu ke waktu. Pengembangan perangkat kebijakan yang terus diperbarui, hingga evaluasi dan pemantauan GCG, menjadi cerminan komitmen Direksi untuk dapat menerapkan prinsip dan praktik GCG di seluruh elemen operasi dan bisnis Perseroan.

Views on Business Prospects Prepared by the Board of Directors

The global economy is predicted to experience non-significant growth in 2025. Though various world research and financial institutions predict that the global economy will grow stably, a number of risks still have the potential to once more cause the global economy to grow slowly. Likewise, Indonesian economy is predicted to experience non-significant growth in 2025. Though leadership transition run smoothly and the new government is optimistic, the potential for a slowdown still exists from global economic factors.

The Board of Commissioners supports the steps taken by the Board of Directors in welcoming 2025. The Company must remain focused on the programs planned while still prioritizing efficiency and sustainability as the main pillars. Footprint optimization must continue to be carried out so that the Company can operate more efficiently to maximize values for shareholders.

Views on the Implementation of Good Corporate Governance

The implementation of good corporate governance (GCG) principles remains the focus of the Board of Commissioners' duties and responsibilities, together with the Board of Directors. In performing its supervisory function, the Board of Commissioners is not only responsible for the results or objectives achieved but also continuously monitors the process to achieve the expected results. Regarding GCG practices, in performing supervisory and advisory duties, the Board of Commissioners is assisted by Audit Committee and Nomination and Remuneration Committee.

The Board of Commissioners views that GCG implementation within Indocement continues to improve from time to time. The development of policy instruments that is continuously updated, to the evaluation and monitoring of GCG, reflects the Board of Directors' commitment to being able to apply GCG principles and practices in all elements of the Company's operations and business.

Dewan Komisaris juga memerhatikan beberapa isu kunci dalam penerapan GCG seperti manajemen risiko dan tanggung jawab sosial lingkungan (TJSL). Hal ini sesuai dengan perkembangan kegiatan usaha perusahaan. Praktik manajemen risiko yang memadai diperlukan agar mampu mengidentifikasi potensi risiko yang mungkin timbul. Atas hal ini, Dewan Komisaris memantau dan memberikan saran atas risiko yang dikelola oleh perusahaan. Secara keseluruhan, Dewan Komisaris menganggap bahwa Perseroan telah membangun sistem pemantauan risiko dan menerapkan pedoman governansi korporat, manajemen risiko, dan sistem pengendalian internal yang baik. Dewan Komisaris bersama Direksi mempunyai komitmen untuk terus memperbaiki implementasi GCG yang dalam pelaksanaannya diwujudkan secara konsisten.

Dewan Komisaris juga memberikan apresiasi yang tinggi atas komitmen Perseroan dalam mengembangkan konsep Pembangunan Berkelanjutan dalam kegiatan operasinya. Perseroan tidak hanya fokus pada aspek ekonomi, tapi juga memberikan perhatian yang sangat besar terhadap aspek sosial dan lingkungan. Hal ini menjadi catatan penting bagi keberhasilan Perseroan dalam kelangsungan usahanya di masa mendatang. Dewan Komisaris berharap, seluruh upaya untuk mengembangkan penerapan prinsip GCG dan bisnis keberlanjutan oleh Direksi turut memberikan fondasi yang kuat bagi pertumbuhan Perseroan yang berkelanjutan bersama-sama seluruh pemangku kepentingan.

Pandangan atas Penerapan Sistem Pelaporan Pelanggaran

Indocement berkomitmen untuk menerapkan prinsip GCG secara komprehensif pada setiap jenjang organisasi. Komitmen tersebut salah satunya diwujudkan dengan menerapkan Sistem Pelaporan atau *Whistleblowing System* (WBS) yang diberi nama "SpeakUp". Sistem ini memungkinkan pemangku kepentingan untuk dapat melaporkan pelanggaran yang terjadi dalam proses bisnis Perseroan. Sistem ini juga memungkinkan pelapor untuk terlindungi identitasnya, selama laporan yang diberikan dapat dipertanggungjawabkan.

Efektivitas pelaksanaan WBS juga menjadi perhatian utama Dewan Komisaris, karena sistem ini juga ditujukan untuk mencegah terjadinya *fraud* di lingkungan Perseroan.

The Board of Commissioners also pays attention to several key issues in GCG implementation, such as risk management and corporate social responsibility (CSR). This is in accordance with the development of the Company's business activities. Adequate risk management practices are necessary to identify potential risks that may arise. In this matter, the Board of Commissioners monitors and provides advice on risks managed by the Company. Overall, the Board of Commissioners considers that the Company has established risk monitoring system and implemented good corporate governance guidelines, risk management, and internal control system. The Board of Commissioners, together with the Board of Directors, is committed to continuously improving GCG implementation to be realized consistently.

The Board of Commissioners also highly appreciates the Company's commitment to developing the concept of Sustainable Development in its operational activities. The Company does not only focus on economic aspect, but also pays great attention to social and environmental aspects. This is an important note for the Company's success in its future business continuity. The Board of Commissioners expects that all efforts to develop the implementation of GCG principles and sustainable business by the Board of Directors will also serve as a strong foundation for the Company's sustainable growth, together with all stakeholders.

Views on the Implementation of Whistleblowing System

Indocement is committed to implementing GCG principle comprehensively at every level of the organization. This commitment is realized by implementing a Whistleblowing System (WBS) called "SpeakUp". This system allows stakeholders to report violations that occurs in the Company's business processes. This system also allows whistleblowers to protect their identity, provided that the report provided can be accounted for.

WBS' effectiveness is also a major concern of the Board of Commissioners, as this system is also intended to prevent fraud within the Company.

Dalam penerapan "SpeakUp", Dewan Komisaris memiliki peran besar untuk dapat menelaah, memetakan serta melaporkan hasil pemeriksaan kepada pemegang saham. Dewan Komisaris menilai, sejauh ini penerapan "SpeakUp" telah berjalan dengan baik. Namun demikian, Dewan Komisaris menyarankan kepada Direksi untuk lebih meningkatkan sosialisasi dan mempermudah pemangku kepentingan untuk menyampaikan laporan.

Penilaian atas Kinerja Komite di Bawah Dewan Komisaris

Dalam rangka meningkatkan efektivitas pengawasan, Dewan Komisaris didukung oleh Komite Audit dan Komite Nominasi dan Remunerasi. Secara berkala, Dewan Komisaris melakukan penilaian terhadap kinerja kedua komite tersebut, baik secara individual maupun kolektif melalui pengukuran kehadiran dalam rapat, kemampuan bekerjasama dan berkomunikasi secara aktif, kemampuan melakukan analisis terhadap kinerja finansial dan operasional, serta kualitas saran/rekomendasi terkait dengan tugas pengawasan terhadap pengelolaan Perseroan.

Dewan Komisaris menilai bahwa Komite Audit telah menjalankan tugas dan tanggung jawabnya dengan baik dan memadai, antara lain dengan melakukan pengawasan terhadap kualitas informasi keuangan, efektivitas dan kecukupan sistem pengendalian internal, efektivitas dan kecukupan manajemen risiko, kepatuhan terhadap peraturan perundang-undangan serta efektivitas pemeriksaan auditor eksternal dan internal sesuai POJK Nomor 9 Tahun 2023 tentang Penggunaan Jasa Akuntan Publik dan Kantor Akuntan Publik dalam Kegiatan jasa Keuangan.

Sedangkan Komite Nominasi dan Remunerasi yang memiliki tugas dan tanggung jawab dalam menelaah dan mengusulkan perencanaan suksesi anggota Direksi dan Dewan Komisaris, telah melaksanakan tugas dengan baik sepanjang 2024. Dewan Komisaris menilai bahwa Komite Nominasi dan Remunerasi telah memberikan rekomendasi yang memadai berdasarkan hasil review yang dilakukan.

In implementing "SpeakUp", the Board of Commissioners has a major role to review, map, and report the examination results to the shareholders. The Board of Commissioners considers that "SpeakUp" has so far been running properly. Nevertheless, the Board of Commissioners recommends the Board of Directors to increase dissemination and facilitate stakeholders to submit reports.

Performance Assessment of Committees under the Board of Commissioners

To improve the effectiveness of supervision, the Board of Commissioners is assisted by Audit Committee and Nomination and Remuneration Committee. Periodically, the Board of Commissioners assesses the performance of the two committees, both individually and collegially, by evaluating attendance at meetings, ability to work together and communicate actively, ability to analyze financial and operational performance, and the quality of advice/recommendations related to supervisory duty on the Company management.

The Board of Commissioners considers that the Audit Committee carries out its duties and responsibilities properly and adequately, including by supervising the quality of financial information, the effectiveness and adequacy of internal control system, the effectiveness and adequacy of risk management, compliance with laws and regulations, and the effectiveness of external and internal auditors' audit in accordance with POJK No. 9 of 2023 on the Use of Public Accounting Services and Public Accounting Firm in Financial Services Activities.

Meanwhile, the Nomination and Remuneration Committee, that has duties and responsibilities to review and propose succession planning for members of the Board of Directors and Board of Commissioners, carried out its duties properly throughout 2024. The Board of Commissioners considers that the Nomination and Remuneration Committee provides adequate recommendations based on the review results.

Perubahan Komposisi Dewan Komisaris

Pada 2024, komposisi Dewan Komisaris Indocement mengalami perubahan sesuai dengan keputusan Rapat Umum Pemegang Saham (RUPS) Tahunan yang diselenggarakan pada 14 Mei 2024 yang mengangkat Roberto Callieri sebagai Komisaris Utama Perseroan menggantikan Kevin Gerard Gluskie, dan mengangkat Kevin Gerard Gluskie sebagai Komisaris Perseroan.

Atas nama Dewan Komisaris Perseroan, kami mengucapkan terima kasih dan apresiasi yang tinggi kepada F.X. Sutijastoto atas kontribusi dan dedikasinya selama menjadi anggota Dewan Komisaris Perseroan. Sehingga susunan Dewan Komisaris Perseroan pada akhir 2024 adalah sebagai berikut:

Changes in the Board of Commissioners' Composition

Laporan Direksi

Report of the Board of Directors

Para Pemegang Saham dan Pemangku Kepentingan yang terhormat,

Pertama-tama, perkenankan kami memanjatkan puji dan syukur ke hadirat Tuhan yang Maha Kuasa atas limpahan karunia-Nya sehingga Indocement berhasil melalui 2024 yang berkembang dinamis dan penuh ketidakpastian dengan kinerja yang baik. Raihan kinerja tersebut telah sejalan dengan misi Indocement untuk menyediakan semen ramah lingkungan dan bahan bangunan bermutu tinggi yang mengutamakan solusi untuk pelanggan dengan mengedepankan aspek Lingkungan, Sosial, dan Tata kelola (ESG).

Di kesempatan yang baik ini, saya atas nama Direksi akan memaparkan pelaksanaan strategi serta kinerja Perseroan pada 2024 disertai dengan langkah-langkah inovatif yang dijalankan dalam rangka menjawab berbagai tantangan bisnis saat ini. Direksi memberikan apresiasi dan ucapan terima kasih kepada seluruh karyawan dan manajemen Perseroan atas kinerja 2024 yang baik ini.

Kondisi Ekonomi dan Industri yang Menantang

Meningkatnya ketegangan geopolitik di kawasan Eropa, Timur Tengah, dan Asia Timur memberikan dampak yang sangat besar terhadap perekonomian global yang semula diharapkan dapat mengalami pemulihan pada 2024. Akan tetapi, Konflik tersebut semakin intens yang mengakibatkan terjadinya perubahan hubungan perdagangan global yang memperburuk fragmentasi ekonomi internasional dan memengaruhi rantai pasok global. Tidak hanya itu, perang dagang antara Amerika Serikat (AS), Eropa, dan Tiongkok juga memberikan dampak yang sangat besar terhadap perekonomian dunia secara umum.

Selain itu, meskipun inflasi telah mengalami penurunan, namun tingkatnya masih berada di bawah target banyak bank sentral, sehingga memaksa banyak negara untuk tetap mempertahankan kebijakan moneter yang ketat dan kebijakan bunga tinggi. Dengan suku bunga yang tinggi dan pertumbuhan melambat, negara maju seperti Amerika Serikat dan Eropa menghadapi risiko resesi teknis, yang dapat berdampak pada ekonomi global secara keseluruhan.

Dear Honorable Shareholders and Stakeholders,

First of all, allow us to express our praise and gratitude to the presence of Almighty God for the abundance of His grace, granting Indocement success to go through 2024 with dynamic development and good performance although the year was full of uncertainty. The performance achievement is in line with Indocement's mission to provide environmentally friendly cement and high-quality building materials that prioritize solutions for customers by prioritizing environmental, social, and governance (ESG) aspects.

On this good occasion, on behalf of the Board of Directors, allow me to explain the implementation of Company's strategy and performance in 2024, and the innovative steps taken to answer various current business challenges. The Board of Directors would like to express appreciation and gratitude to all employees and management of the Company for this good performance in 2024.

Challenging Economic and Industrial Conditions

The increasing geopolitical tensions in Europe, Middle East, and East Asia, which had a huge impact on the global economy, were originally expected to recover in 2024. However, the increasingly intense conflicts resulted in changes in global trade relations that worsened international economy fragmentation and affected global supply chain. Not only that, the trade war between the United States (US), Europe, and China also had a very big impact on the world economy in general.

Furthermore, though inflation decreased, its level was still below the target of many central banks, forcing many countries to maintain tight monetary policies and high interest rates. With high interest rates and slowing growth, developed countries such as the United States and Europe encountered technical recession risk, which could have an impact on the global economy in overall.

”

Salah satu fokus utama Perseroan di tahun 2024 adalah untuk terus meningkatkan efisiensi di operasional pabrik dan logistik serta penggunaan bahan baku dan bahan bakar alternatif. Selain lebih ramah lingkungan, efisiensi yang dihasilkan juga sangat besar. Perseroan merupakan yang terdepan dalam penggunaan bahan baku dan bahan bakar alternatif (AFAM) di industri semen nasional.

A key priority for the Company in 2024 was to increase the efficiency of plant operation and logistic and the use of alternative materials and fuels. This not only contributes to being more environmentally friendly, but also significantly improves operational efficiency. The Company is at the forefront of using alternative materials and fuels (AFAM) in the national cement industry.

Direktur Utama
President Director

Merespon kondisi tersebut, The Fed mengambil kebijakan untuk menurunkan tingkat suku bunga acuan menjadi kisaran 4,25%–4,50% pada Desember 2024. Selain karena tingkat inflasi di AS sudah mulai terkendali, kebijakan tersebut juga ditujukan untuk mendorong pertumbuhan ekonomi AS.

Dana Moneter Internasional (IMF), dalam laporan World Economy Outlook yang terbit pada awal 2025 memproyeksikan pertumbuhan ekonomi global tetap lemah, dengan proyeksi pertumbuhan PDB dunia sekitar 3,2% untuk 2024. Di negara-negara maju, pertumbuhan stagnan diangka 1,7% pada 2023 dan 2024. Sebaliknya, di negara-negara berkembang, pertumbuhan diproyeksikan melambat dari 4,4% pada 2023 menjadi 4,2% di 2024.

Kendati masih menunjukkan ketahanan yang cukup solid dengan pertumbuhan sebesar 5,03%, ekonomi Indonesia juga menghadapi tantangan yang tidak ringan. Daya beli masyarakat mengalami tren penurunan. Terjadi deflasi bulanan selama lima bulan berturut-turut dari Mei hingga September dan kontraksi pada PMI Manufaktur (<50) juga selama lima bulan berturut-turut hingga November. Kendati demikian, konsumsi rumah tangga masih menjadi kontributor utama terhadap pertumbuhan ekonomi Indonesia. Berdasarkan data Badan Pusat Statistik (BPS), konsumsi rumah tangga memberikan kontribusi hingga 54,04% terhadap produk domestik bruto (PDB) nasional pada 2024.

Perhelatan pesta demokrasi, dua peristiwa politik utama Indonesia pada 2024, yaitu Pemilihan Presiden (Februari) dan Pemilihan Kepala Daerah (November) juga telah membuat sebagian besar pelaku usaha untuk menunda rencana ekspansinya. Sampai taraf tertentu, hal ini telah menimbulkan banyak ketidakpastian bagi bisnis secara umum karena orang cenderung bersikap menunggu dan melihat, mengamati hasil setiap kebijakan baru atau perubahan dalam Pemerintah baru. Industri semen di Indonesia pada 2024 menghadapi tantangan signifikan dan total volume melemah 0,4% dari 2023. Faktor-faktor seperti lesunya industri properti, tingginya suku bunga, dan kondisi kelebihan pasokan di pasar semen domestik turut membebani kinerja pemain di industri semen nasional. Suku bunga yang tinggi juga membuat orang menahan pengeluaran dan memperoleh bunga dari bank daripada berinvestasi di properti atau sektor riil. Dampak dari pelemahan

In response to these conditions, The Fed made a policy to lower its benchmark interest rates at a range of 4.25%–4.50% in December 2024. Apart from the fact that inflation rate in the US began to be controlled, this policy was also intended to encourage US economic growth.

The International Monetary Fund (IMF), in its World Economy Outlook report published in the beginning of 2025, projected that global economic growth would be relatively weak, with a projected world GDP growth of around 3.2% for 2024. In developed countries, growth stagnated at 1.7% in 2023 and 2024. In contrast, in developing countries, growth was projected to slow from 4.4% in 2023 to 4.2% in 2024.

Though it still showed quite solid resilience with 5.03% growth, the Indonesian economy also encountered significant challenges. People's purchasing power experienced a downward trend. There were monthly deflations for five consecutive months, from May to September, and contraction in the Manufacturing PMI (<50) for also five consecutive months until November. However, household consumption still became the main contributor to Indonesia's economic growth. Based on the data from Statistics Indonesia (BPS), household consumption contributed up to 54.04% to the national gross domestic product (GDP) in 2024.

The democracy parties celebration of two major political events in Indonesia in 2024, Presidential Election (February) and Regional Head Election (November) also made most business players postpone their expansion plans. To some extent, this matter brought a lot of uncertainty for business in general, as people tend to take a wait-and-see attitude, observing the results and any new policies or changes in the new Government. The Indonesian cement industry in 2024 encountered significant challenges and overall volume weakened 0.4% compared to 2023. Factors such as sluggish property industry, high interest rates, and oversupply conditions in domestic cement market also burdened the players' performance in the national cement industry. High interest rates also made people hold back on spending and earn interest from banks rather than investing in property or real sector. The impact of weakening purchasing power was also very evident with the quite

daya beli masyarakat juga terlihat begitu nyata dengan turunnya permintaan terhadap semen kantong yang cukup besar. Berdasarkan data Asosiasi Semen Indonesia (ASI), pada 2024 permintaan terhadap produk semen kantong mengalami penurunan sebesar 2,7%. Di lain pihak, permintaan terhadap semen curah tumbuh 5,3% yang didorong oleh pembangunan Ibu Kota Negara dan beberapa proyek infrastruktur baik milik pemerintah maupun swasta.

Kondisi kelebihan pasokan semen di Indonesia yang terus berlanjut lebih dari 50 juta ton per tahun pada 2024 telah memengaruhi harga semen yang relatif stagnan. Dengan semakin banyaknya merek murah yang beredar di pasar, tekanan harga terutama pada merek ekonomis meningkat dan pada 2024, kesenjangan harga antara produk premium vs. ekonomis telah meningkat. Konsumen yang mencari merek ekonomis hanya memprioritaskan harga dan tidak terlalu peduli pada produsen, oleh karena itu, ada lebih sedikit penyesuaian harga terutama untuk merek-merek ekonomis.

Tantangan yang Dihadapi Perseroan

Meningkatnya intensitas kompetisi di industri semen akibat permintaan yang melandai menjadi salah satu tantangan utama yang dihadapi Perseroan. Terlebih setelah salah satu pemain besar meluncurkan merek baru yang dipatok dengan harga termurah dibanding seluruh semen yang beredar. Menyikapi kondisi tersebut, Indocement jadi harus meningkatkan sebaran distribusi untuk dua *fighting brand* Perseroan, yaitu Semen Rajawali dan Semen Jempolan, khususnya pada daerah-daerah yang sangat sensitif terhadap harga.

Langkah ini membuahkan hasil yang cukup baik, dimana kondisi tersebut tidak menggerus pangsa pasar Perseroan. Namun demikian, Perseroan tetap membatasi penyebaran produk semen murah tersebut agar tidak menggerus margin.

Selain itu, Perseroan juga dihadapkan pada permintaan dari Heidelberg Materials untuk tetap menjadi *sustainability champion*. Perseroan harus dapat beroperasi dengan lebih ramah lingkungan. Untuk itu, pada 2024 Perseroan berupaya untuk terus meningkatkan penggunaan bahan bakar dan bahan baku alternatif.

large decline in demand for cement bags. Based on the data from Indonesian Cement Association (ASI), in 2024, the demand for cement bag products decreased by 2.7%. On the other hand, the demand for bulk cement grew by 5.3%, driven by the development of Nusantara Capital City and several infrastructure projects both owned by the government and private sector.

The continuing oversupply of cement in Indonesia of more than 50 million tons per year in 2024 affected the relatively stagnant cement price. With the increasing number of cheap brands circulating in the market, price pressures, particularly on economy brands, increased and in 2024, price gap between premium vs. economy products widened. Consumers looking for economic brands only prioritize price and do not pay much attention to the manufacturer, resulting in fewer price adjustments, especially for economic brands.

Challenges Faced by the Company

The increasing intensity of competition in cement industry, due to declining demand, is one of main challenges faced by the Company. This challenge particularly rose after one major player launched a new brand at the lowest price compared to all cement in circulation. In response to such condition, Indocement should increase the distribution of the Company's two fighting brands, Semen Rajawali and Semen Jempolan, especially in areas very sensitive to price.

This step resulted in quite good results, as this condition did not erode the Company's market share. However, the Company continued to limit the distribution of these cheap cement products so as not to erode margins.

Furthermore, the Company was also faced with demands from Heidelberg Materials to become a sustainability champion. The Company must be able to operate in a more environmentally friendly manner. As such, in 2024, the Company strove to continuously increase the use of alternative fuels and raw materials.

Selain meningkatkan volume penggunaan bahan bakar dan bahan baku alternatif, jenis bahan bakar dan bahan baku alternatif yang digunakan Perseroan pun semakin beragam. Pada 2024, Perseroan juga telah memanfaatkan limbah logam (slag) dari industri pengolahan baja, khususnya untuk produksi di Kompleks Pabrik Maros, Kompleks Pabrik Tarjun, dan Unit Penggilingan Semen Banyuwangi.

Hingga akhir 2024, penggunaan bahan bakar alternatif telah mencapai 21,4%, meningkat dari tahun sebelumnya 18,3%. Peningkatan penggunaan bahan bakar alternatif tersebut seiring dengan upaya yang dilakukan Perseroan dengan memasang fasilitas untuk penggunaan bahan bakar alternatif di Kompleks Pabrik Maros dan Kompleks Pabrik Grobogan yang sebelumnya belum menggunakan bahan bakar alternatif.

Inisiatif Strategis Perseroan

Sepanjang 2024, Indocement terus berupaya untuk memperkuat posisinya di pasar dan mencapai pertumbuhan yang berkelanjutan di tengah tantangan industri semen yang kompetitif. Strategi yang dijalankan Perseroan secara umum terfokus pada dua aspek utama, yaitu efisiensi dan keberlanjutan yang diyakini menjadi kunci dalam menghadapi tantangan industri semen saat ini dan ke depan.

Efisiensi merupakan hal yang wajib dijalankan Indocement di tengah kondisi industri semen yang semakin kompetitif untuk meningkatkan daya saing dan mempertahankan tingkat profitabilitas Perseroan. Sedangkan aspek keberlanjutan merupakan bagian dari strategi jangka panjang Perseroan sejalan dengan tuntutan industri yang semakin peduli lingkungan.

Kedua fokus utama tersebut diterjemahkan dalam sejumlah inisiatif strategis yang dijalankan pada 2024, antara lain:

1. Optimalisasi Operasional dan Distribusi

Indocement fokus pada peningkatan efisiensi operasional dan distribusi semen untuk memperkuat posisinya di pasar domestik. Jejak langkah yang semakin tersebar di berbagai wilayah dioptimalkan dengan melakukan perencanaan produksi dan distribusi yang tepat. Untuk menerapkan strategi tersebut, Perseroan mengalihkan operasional beberapa pabrik ke pabrik lainnya agar lebih efisien.

In addition to increasing the volume of alternative fuels and raw materials use, the types were also increasingly diverse. In 2024, the Company also utilized metal waste (slag) from steel processing industry, particularly for production at Maros Factory, Tarjun Factory, and Banyuwangi Cement Grinding Unit.

As of the end of 2024, the use of alternative fuels reached 21.4%, an increase from that of the previous year of 18.3%. The increase in alternative fuel use is in line with the Company's efforts to install facilities for the use of alternative fuels at Maros Factory and Grobogan Factory, which were previously not using alternative fuels.

Strategic Initiatives of the Company

Throughout 2024, Indocement continued to strengthen its position in the market and achieve sustainable growth amidst the challenges of competitive cement industry. Strategies implemented by the Company generally focus on two main aspects, namely efficiency and sustainability, which are deemed to be the keys to facing current and future challenges in cement industry.

Efficiency is a matter that Indocement must carry out amidst the increasingly competitive cement industry conditions to increase the Company's competitiveness and maintain its profitability level. Meanwhile, sustainability aspect is part of the Company's long-term strategy in line with the industry demands that is increasingly concerned about the environment.

These two main focuses are translated into a number of strategic initiatives implemented in 2024, including:

1. Operational and Distribution Optimization

Indocement focused on increasing operational efficiency and cement distribution to strengthen its position in domestic market. The increasingly widespread footprint in various regions was optimized by carrying out appropriate production and distribution planning. To implement this strategy, the Company transferred the operations of several factories to other factories to make them more efficient.

Perseroan mengoptimalkan keberadaan Kompleks Pabrik Grobogan dan Kompleks Pabrik Maros untuk melakukan penetrasi di wilayah-wilayah di mana sebelumnya Perseroan masih relatif lemah karena terkendala dengan biaya distribusi yang tinggi.

Dengan keberadaan dua fasilitas produksi tersebut, Perseroan menata kembali strategi distribusi dan sebaran terminal yang dimilikinya agar dapat menciptakan biaya operasional dan distribusi yang lebih optimal. Perseroan secara bertahap menghentikan operasional Terminal Sepanjang di Sidoarjo di 2024 dan Terminal Nilam di Surabaya di awal 2025, karena keberadaan kedua terminal tersebut menjadi kurang efektif setelah adanya Kompleks Pabrik Grobogan. Di lain pihak, Perseroan memanfaatkan Terminal Siawung di Sulawesi Selatan yang disewa dari Semen Bosowa untuk menunjang penetrasi di kawasan Indonesia Timur, karena Terminal Siawung merupakan terminal keluar utama yang menunjang distribusi semen antar pulau dari Kompleks Pabrik Maros.

2. Pengelolaan Portofolio Merek yang Tepat

Selama 2024, Perseroan setidaknya mengelola lima merek semen utama, yaitu Semen Tiga Roda, Semen Rajawali, Semen Jempolan, Semen Grobogan, dan Semen Bosowa. Keberadaan merek yang cukup beragam tersebut memungkinkan Perseroan untuk menerapkan strategi pemasaran yang berbeda di setiap wilayah sehingga pelanggan tetap memiliki preferensi terhadap produk Perseroan.

Semen Tiga Roda sebagai merek utama Perseroan tetap diposisikan sebagai semen merek premium, merek ini diposisikan untuk memenuhi kebutuhan konsumen terhadap semen yang berkualitas tinggi. Sebaran distribusi Semen Tiga Roda merata di hampir seluruh wilayah Indonesia sedangkan Semen Rajawali dan Semen Jempolan merupakan *fighting brand* yang ditujukan untuk menjadi benteng bagi Perseroan untuk mempertahankan pangsa pasar.

Semen Grobogan diposisikan sebagai merek lokal karena telah memiliki pasar tersendiri di wilayahnya, di Jawa Tengah dan sebagian Jawa Timur. Langkah ini juga ditunjang dengan strategi komunikasi yang mengusung *tagline Mutu Wani Diadu*. Sementara itu, Semen Bosowa yang diproduksi di Kompleks Pabrik Maros ditujukan untuk pasar di Indonesia Timur, Jawa Timur bagian Timur, Bali, Nusa Tenggara, dan utamanya di Sulawesi.

The Company optimized the presence of Grobogan Factory and Maros Factory to penetrate areas where the Company was relatively weak due to high distribution costs previously.

With the presence of these two production facilities, the Company rearranged its distribution strategy and distribution of terminals to create more optimal operational and distribution costs. The Company gradually stopped the operations of Sepanjang Terminal in Sidoarjo in 2024 and Nilam Terminal in Surabaya in early 2025, as the existence of the two terminals became less effective following the presence of Grobogan Factory. On the other hand, the Company utilized Siawung Terminal in South Sulawesi, rented from Semen Bosowa to support penetration in Eastern Indonesia region, as Siawung Terminal served as the main exit terminal that supported inter-island cement distribution from Maros Factory.

2. Appropriate Brand Portfolio Management

Throughout 2024, the Company managed at least five main cement brands, namely Semen Tiga Roda, Semen Rajawali, Semen Jempolan, Semen Grobogan, and Semen Bosowa. The existence of these quite diverse brands allowed the Company to implement different marketing strategies in each region so that customers still preferred the Company's products.

Semen Tiga Roda as the Company's main brand remains positioned as a premium brand of cement to meet consumer needs for high-quality cement. Semen Tiga Roda was evenly distributed in almost all regions of Indonesia, while Semen Rajawali and Semen Jempolan, the fighting brands, were intended to serve as the fortress for the Company to maintain its market share.

Semen Grobogan were positioned as local brands given that they already had their own markets in their regions, in Central Java and part of East Java. Such steps were also supported by the communication strategy that carried the tagline *Mutu Wani Diadu*, referring to quality beyond compare. Meanwhile, the Semen Bosowa produced at the Maros Factory, was aimed at the market in Eastern Indonesia, East Java, Bali, Nusa Tenggara, and especially in Sulawesi.

3. Optimalisasi Sumber Daya Internal

Upaya efisiensi juga dilakukan Perseroan dengan mengoptimalkan sumber daya yang dimiliki Perseroan, yaitu dengan membangun sinergi dengan unit bisnis yang dimiliki Perseroan. Di 2024, salah satu sinergi yang dibangun adalah di bidang transportasi, yaitu dengan mengoptimalkan perusahaan *join venture* yang dibangun Perseroan dengan mitra di bidang transportasi laut untuk mengangkut berbagai kebutuhan Perseroan, seperti batu bara, klinker, semen curah, dan semen kantong.

Pada 2024, Perseroan mengakuisisi tambahan satu unit kapal, MV Harmoni I, sebagai salah satu langkah untuk menciptakan efisiensi lebih besar di bidang logistik. Selain itu, Perseroan juga memanfaatkan sinergi dengan unit bisnis lainnya untuk menciptakan efisiensi, seperti pada bisnis kantong semen, batu bara, dan beberapa unit bisnis lainnya.

4. Pengelolaan CAPEX yang Optimal

Perseroan berupaya untuk mengoptimalkan penggunaan CAPEX sesuai dengan kebutuhan. Perseroan menerapkan skala prioritas yang ketat dalam penggunaan CAPEX. Pada 2024, salah satu prioritas penggunaan CAPEX adalah membangun fasilitas penyediaan dan penggunaan bahan bakar dan bahan baku alternatif untuk Kompleks Pabrik Grobogan dan Kompleks Pabrik Maros, juga adanya penambahan fasilitas di Kompleks Pabrik Citeureup. Selain untuk mencapai target keberlanjutan yang sesuai dengan peta jalan CO₂ Perseroan, pembangunan fasilitas untuk bahan bakar alternatif ini juga ditujukan untuk menciptakan operasional yang lebih efisien di kemudian hari.

5. Peningkatan Penggunaan Bahan Bakar Alternatif dan Bahan Baku Alternatif

Sejalan dengan peta jalan CO₂ yang telah dicanangkan Perseroan, pada 2024 Indocement terus meningkatkan penggunaan bahan bakar dan bahan baku alternatif dalam proses produksi. Langkah ini juga merupakan bagian dari strategi efisiensi operasional yang dijalankan Perseroan.

Di 2024, Perseroan menggunakan limbah baja untuk produksi Semen Slag, di seluruh fasilitas produksi Perseroan kecuali Kompleks Pabrik Grobogan.

3. Optimization of Internal Resources

The Company also made efficiency efforts by optimizing resources owned by the Company, by establishing synergies with the Company's business units. In 2024, one synergy in transportation sector was established by optimizing joint venture company, built by the Company with partners, in sea transportation to transport various Company needs, such as coal, clinker, bulk cement, and bagged cement.

In 2024, the Company acquired one additional vessel, MV Harmoni I, as one of the steps to create more efficiency in logistics sector. In addition, the Company also utilized synergies with other business units to create efficiency, such as in cement bag business, coal, and several other business units.

4. Optimal CAPEX Management

The Company strove to optimize the use of CAPEX according to needs. The Company applied strict priority scale in CAPEX use. In 2024, one priority use of CAPEX was to build facilities for the supply and use of alternative fuels and raw materials for Grobogan Factory and Maros Factory, and also additional facility in Citeureup Factory. In addition to achieving sustainability targets in accordance with the Company's CO₂ roadmap, the facility construction for alternative fuels was also intended to create more efficient operations in the future.

5. Increased Use of Alternative Fuels and Alternative Materials

In line with CO₂ roadmap planned by the Company, in 2024, Indocement continued to increase the use of alternative fuels and raw materials in production process. This step was also part of operational efficiency strategy implemented by the Company.

In 2024, the Company use steel waste for producing Slag Cement, in all Company production facility, except Grobogan Factory.

Selain itu, Perseroan juga terus meningkatkan penggunaan RDF sebagai substitusi batu bara. Untuk itu, Perseroan terus meningkatkan kapasitas pengumpulan bahan bakar alternatif di fasilitas produksinya. Penggunaan RDF sebagai bahan bakar alternatif telah menjadi langkah terobosan untuk solusi penyelesaian masalah sampah khususnya di wilayah Jabodetabek yang selama ini belum dapat diatasi.

Melalui upaya tersebut, pada 2024, penggunaan bahan bakar dan bahan baku alternatif Perseroan meningkat menjadi 21,4% dari tahun sebelumnya sebesar 18,3%.

6. Penguatan Prinsip Tata Kelola dan Keberlanjutan

Untuk mewujudkan pertumbuhan usaha yang berkelanjutan, pada 2024 Indocement terus berupaya untuk memperkuat penerapan prinsip tata kelola dan keberlanjutan. Perseroan meyakini, melalui penerapan prinsip tata kelola dan keberlanjutan secara konsisten pada semua jenjang organisasi dapat mengantarkan Perseroan meraih masa depan yang lebih baik.

Kinerja dan Pencapaian Target Indocement pada 2024

Di tengah kondisi ekonomi dan industri semen yang sangat menantang sepanjang 2024, Indocement berhasil membukukan kinerja yang baik. Realisasi produksi semen mencapai 19,6 juta ton, meningkat 8,8% dari tahun sebelumnya 18,0 juta ton. Peningkatan produksi tersebut salah satunya merupakan kontribusi dari PT Semen Grobogan yang diakuisisi Perseroan pada Desember 2023.

Sejalan dengan peningkatan produksi, pendapatan neto Perseroan juga meningkat menjadi Rp18.549 miliar dari tahun sebelumnya Rp17.950 miliar atau meningkat 3,3%. Namun demikian, pencapaian tersebut masih berada di bawah target yang ditetapkan sebesar Rp21.391 miliar yang semula dianggarkan. Tidak tercapainya target penjualan neto tersebut utamanya disebabkan kondisi pasar semen domestik yang masih berlebih pasokan lebih dari 50 juta ton dan bertumbuh negatif, menyebabkan persaingan ketat dengan harga jual yang stagnan. Selain itu, nilai ekspor klinker Perseroan juga mengalami penurunan yang cukup besar karena persaingan harga dengan negara lain.

Furthermore, the Company also constantly increased RDF use as a substitution for coal. Therefore, the Company continuously increased the capacity of alternative fuel feeders in its production facilities. The usage of RDF as the alternative fuel was also a solution to solve municipal waste issue, particularly in Jabodetabek area, which has not been resolved yet.

Through these efforts, in 2024, the Company's usage of alternative fuels and raw materials increased to 21.4% from that of the previous year of 18.3%.

6. Strengthening Governance and Sustainability Principles

To realize sustainable business growth, in 2024 Indocement constantly strengthened the implementation of governance and sustainability principles. The Company believes that by consistently implementing governance and sustainability principles at all levels of the organization, it can achieve a better future.

Indocement's Performance and Target Achievement in 2024

Amidst the very challenging economic and cement industry conditions throughout 2024, Indocement managed to record good performance. The realization of cement production reached 19.6 million tons, an increase of 8.8% from that of the previous year of 18.0 million tons. The production increase was partly due to the contribution of PT Semen Grobogan, acquired by the Company in December 2023.

In line with production increase, the Company's net revenues also increased to Rp18,549 billion from the previous year of Rp17,950 billion or an increase of 3.3%. However, this achievement was still below the target set at Rp21,391 billion as budgeted. The failure to achieve the net sales target was mainly due to the condition of the domestic cement market which is still oversupplied by more than 50 million tons and growing negatively, causing tight competition with stagnant selling prices. In addition, the Company's clinker export value also experienced a significant decline as due to competitive on price with other countries.

Peningkatan pendapatan neto Perseroan pada 2024 berkontribusi oleh dua segmen usaha Perseroan, yaitu semen dan beton siap-pakai yang masing-masing tumbuh 2,5% dan 14,3%.

Beban pokok penjualan Perseroan meningkat 3,2% menjadi Rp12.488 miliar. Meskipun demikian, laba bruto yang dibukukan Perseroan tetap meningkat sebesar 3,7% menjadi Rp6.061 miliar.

Pada 2024, Perseroan mencatat peningkatan beban usaha sebesar 2,7% menjadi Rp3.725 miliar dan biaya keuangan sebesar 200,1% menjadi Rp182 miliar sebagai dampak dari aksi korporasi akuisisi PT Semen Grobogan di 2023. Namun demikian, laba tahun berjalan tetap naik sebesar 3,0% menjadi Rp2.008 miliar dari tahun sebelumnya sebesar Rp1.950 miliar. Pencapaian laba tahun berjalan tersebut juga berada diatas target yang ditetapkan dalam anggaran Perseroan, yaitu sebesar Rp1.956 miliar di 2024.

Seiring meningkatnya laba tahun berjalan, pada 2024 Perseroan mencatat pertumbuhan jumlah aset sebesar 2,6% menjadi Rp30.420 miliar dari Rp29.650 miliar di 2023 dan peningkatan jumlah ekuitas sebesar 5,5% menjadi Rp22.114 miliar.

Prospek Usaha

Organization for Economic Cooperation and Development (OECD) dalam laporan mereka pada Maret 2025 menyebutkan bahwa pertumbuhan PDB global diproyeksikan akan melambat dari 3,2% pada 2024 menjadi 3,1% pada 2025 dan 3,0% pada 2026, disebabkan oleh sejumlah faktor seperti tekanan inflasi yang masih berlangsung di banyak negara, ketidakpastian kebijakan, serta fragmentasi lebih lanjut dalam perekonomian global.

Industri semen nasional sejatinya masih berharap ada pertumbuhan permintaan semen yang positif pada 2025. Hal ini sejalan dengan berbagai proyek strategis yang telah dicanangkan pemerintah seperti proyek *giant sea wall*, program tiga juta rumah dan program renovasi sekolah yang digagas oleh Pemerintahan Presiden Prabowo. Namun demikian, Perseroan masih menunggu kebijakan dan bentuk pelaksanaan dari program-program tersebut.

The increase in the Company's net revenues in 2024 was contributed by two of the Company's business segments, namely cement and ready-mix concrete, which grew by 2.5% and 14.3%, respectively.

The Company's cost of goods sold increased by 3.2% to Rp12,488 billion. Nevertheless, the Company's gross profit still increased by 3.7% to Rp6,061 billion.

In 2024, the Company recorded an increase in operating expenses of 2.7% to Rp3,725 billion and finance costs of 200.1% to Rp182 billion as a result of the corporate action of acquiring PT Semen Grobogan in 2023. However, the Company's profit for the year increased by 3.0% to Rp2,008 billion from the previous year of Rp1,950 billion. The achievement of profit for the year was also slightly above the target set by the Company, which is Rp1,956 billion in 2024.

With the increase in profit for the year, in 2024 the Company recorded a growth in total assets of 2.6% to Rp30,420 billion from Rp29,650 billion in 2023 and an increase in total equity of 5.5% to Rp22,114 billion.

Business Prospects

The Organization for Economic Cooperation and Development (OECD) in their March 2025 report mentioned Global GDP growth is projected to moderate from 3.2% in 2024, to 3.1% in 2025 and 3.0% in 2026, from factors such as lingering inflationary pressures in many economies, policy uncertainty, and further fragmentation of the global economy.

National cement industry is truly hope to have a positive cement consumption in 2025. This is in line with various strategic projects plans launched by the government such as the projects of giant sea wall, three million housing program and school renovations as initiated by President Prabowo's government. However, the Company still waits for the policies and forms of implementation of these programs.

Menyikapi berbagai proyeksi tersebut, Perseroan akan tetap fokus untuk melakukan pengembangan usaha. Selain berupaya untuk bersaing pada proyek-proyek pemerintah, Perseroan juga telah membidik sejumlah proyek swasta baik yang telah maupun akan berjalan, khususnya pembangunan infrastruktur, kawasan pemukiman, *smelter*, kawasan industri dan pusat data yang belakangan tengah berkembang.

Selain itu, untuk meningkatkan profitabilitas, Perseroan akan terus melanjutkan upaya efisiensi di berbagai bidang dan terus menjalankan inisiatif hijau agar dapat mewujudkan visi, misi, dan *purpose* Perseroan.

Peran Direksi dalam Perumusan Strategi dan Kebijakan Strategis

Kebijakan Strategis Perseroan disusun oleh Direksi yang tertuang dalam target dan rencana kerja dan disetujui oleh Dewan Komisaris. Proses penyusunan kebijakan strategis ini melibatkan tim yang dibentuk oleh Direksi, yaitu *Management Transformation Team* (MTT) yang beranggotakan General Manager dan Kepala Divisi serta Direktur Perseroan. MTT akan memberikan gambaran terkait kondisi Perseroan, termasuk tantangan dan peluang yang akan dihadapi.

MTT menjalankan serangkaian pertemuan untuk membahas dan merumuskan kebijakan strategis yang akan diambil Perseroan dengan juga mempertimbangkan visi, misi, dan *purpose* Perseroan. Selain itu, Direksi juga secara berkala berkomunikasi dengan para manager dan department head dalam forum yang berjenjang, mulai dari forum *Executive Retreat*, *Executive Strategic Forum*, serta *Quantum Challenge Briefing* sedangkan pemantauan dan evaluasi akan dilakukan saat pelaksanaan rapat secara berkala dengan MTT.

Usulan dari MTT akan dipertimbangkan oleh Direksi ketika menyusun target dan strategi pencapaian baik untuk satu tahun ke depan maupun untuk jangka panjang. Rencana dan strategi pencapaian target tersebut kemudian disampaikan kepada Dewan Komisaris, untuk dimintakan persetujuan. Setelah mendapat persetujuan Dewan Komisaris, Direksi mempresentasikan strategi dan target tersebut kepada pemegang saham.

In response to such projections, the Company will stay focus on developing its business. Apart from trying to compete in government projects, the Company has also targeted a number of private projects already or to be running, particularly the development of infrastructure, residential areas, smelters, industrial estates and data centers recently developing.

Furthermore, to increase profitability, the Company will continuously pursue efficiency efforts in various fields and keep implementing green initiatives to realize the Company's vision, mission, and purpose.

Role of Board of Directors in Formulating Strategies and Strategic Policies

The Company's strategic policies are prepared by the Board of Directors, as stated in targets and work plans, and approved by the Board of Commissioners. The process of preparing these strategic policies involves a team established by the Board of Directors, namely Management Transformation Team (MTT), that consists of General Manager, Division Heads, and Directors of the Company. MTT will provide an overview of the Company's condition, including challenges and opportunities that will be encountered.

MTT runs a series of meetings to discuss and formulate strategic policies to be taken by the Company by also considering the Company's vision, mission, and purpose. In addition, the Board of Directors also regularly communicates with managers and department heads in tiered forums, starting from Executive Retreat forum, Executive Strategic Forum, and Quantum Challenge Briefing, while monitoring and evaluation will be carried out during regular meetings with MTT.

Proposals from MTT will be considered by the Board of Directors when setting achievement targets and strategies both for the next year and for the long-term. Plan and strategy to achieve target are then submitted to the Board of Commissioners for approval. After obtaining approval from the Board of Commissioners, the Board of Directors presents the strategy and targets to the shareholders.

Proses yang Diterapkan Direksi untuk Memastikan Implementasi Strategi

Direksi berperan aktif untuk memastikan bahwa seluruh unit bisnis memahami serta menerapkan strategi perusahaan secara konsisten. Untuk itu, Direksi dan MTT terlibat langsung dalam pengawasan implementasi strategi serta mendorong seluruh unit bisnis menerapkan ide inovatif yang dapat mendukung pencapaian tujuan Perseroan.

MTT akan memberikan laporan kepada Direksi terkait setiap perkembangan yang terjadi dalam pelaksanaan kebijakan strategis. Melalui proses komunikasi yang intensif antara Direksi, MTT dan jajaran terkait, Direksi dapat melakukan penyesuaian kebijakan strategis sesuai dengan perkembangan terakhir.

Selain itu, Perseroan juga memiliki Quantum Challenge Officer yang salah satu tugasnya adalah untuk mengadministrasikan, mengevaluasi pencapaian, dan memonitor proyek yang ada serta menjadi PDCA (Plan, Do, Check, Act) Officer untuk MTT.

Penerapan Aspek ESG

Salah satu fokus penting dalam operasional Perseroan saat ini adalah penerapan prinsip ESG. Bagi Indocement, ESG merupakan bagian dari komitmen Perseroan untuk menerapkan prinsip GCG yang diyakini dapat menunjang keberlanjutan usaha dan pertumbuhan usaha yang berkelanjutan. Karena itu, dalam menjalankan kegiatan usahanya, Perseroan tidak hanya fokus untuk mewujudkan kinerja ekonomi yang baik, tapi juga mempertimbangkan aspek sosial dan lingkungan hidup serta ketaatan terhadap peraturan perundang-undangan yang berlaku.

Sebagai bagian dari Heidelberg Materials, Indocement berpegang pada *Sustainability Commitment* (SC) 2030, yaitu komitmen Heidelberg Materials untuk berkontribusi terhadap tujuan pembangunan berkelanjutan. Salah satu poin penting dalam SC 2030 adalah untuk memproduksi produk semen ramah lingkungan yang rendah emisi CO₂, karena kami memiliki target penurunan emisi Cakupan 1 menjadi 535 kg CO₂/t semen ekuivalen pada 2025 dan 490 kg CO₂/t semen ekuivalen pada 2030.

Beberapa produk yang dihasilkan Indocement telah memenuhi spesifikasi ramah lingkungan karena diproduksi dengan efisiensi yang tinggi serta rendah emisi CO₂, dan

Process Applied by the Board of Directors to Ensure Strategy Implementation

The Board of Directors plays an active role in ensuring that all business units understand and consistently implement the Company's strategy. As such, the Board of Directors and MTT are directly involved in supervising strategy implementation and encouraging all business units to implement innovative ideas to support the achievement of the Company's goals.

MTT will provide a report to the Board of Directors regarding any developments that occur in the implementation of strategic policies. Through intensive communication process among the Board of Directors, MTT, and related staff, the Board of Directors can adjust the strategic policies according to the latest developments.

Moreover, the Company has a Quantum Challenge Officer, whose duties include administering, evaluating achievements, monitoring existing projects, and being the PDCA (Plan, Do, Check, Act) Officer for MTT.

Implementation of ESG Aspects

One important focus in the Company's current operations is the implementation of ESG principles. For Indocement, ESG is part of the Company's commitment to implementing the principles of GCG, deemed to support business sustainability and sustainable business growth. Therefore, in performing business activities, the Company not only focuses on realizing good economic performance, but also considers social and environmental aspects as well as its compliance with the applicable laws and regulations.

As part of Heidelberg Materials, Indocement adheres to the Sustainability Commitment (SC) 2030, which is Heidelberg Materials' commitment to contributing to sustainable development goals. One important point in SC 2030 is to produce environmentally friendly cement products with low CO₂ emissions, as we have a target to reduce Scope 1 emissions to 535 kg CO₂/t cement equivalent in 2025 and 490 kg CO₂/t cement equivalent in 2030.

Several products produced by Indocement have met the environmentally friendly specifications because they are produced with high efficiency and low CO₂ emissions that

meminimalkan dampak lingkungan. Semen hijau yang diproduksi Indocement, yaitu Semen Portland Komposit (PCC), Portland Semen Slag (Duracem), dan Semen Hidraulis.

Pada 2024, Indocement telah meluncurkan semen kantong dengan SNI baru (SNI 7064:2022). Semen dengan SNI baru ini merupakan jenis semen yang memiliki kandungan klinker yang lebih rendah dibandingkan dengan jenis sebelumnya sehingga dapat menurunkan emisi CO₂ yang dihasilkan.

Indocement juga telah membangun *rooftop solar panel* di Kompleks Pabrik Citeureup sebagai sumber energi bersih dengan kapasitas 4,5 MWp yang sudah beroperasi dan *ground-mounted solar panel* dengan kapasitas 32,5 MWp yang sedang dibangun. Selain itu, Perseroan juga telah memasang fasilitas *ground-mounted solar panel* di Kompleks Pabrik Tarjun dengan kapasitas 20 MWp yang sampai akhir 2024 masih dalam proses dan menunggu persetujuan dari PLN. Dengan inisiatif tersebut, Perseroan dapat menekan emisi CO₂ yang dihasilkan.

Di 2024, Perseroan juga melakukan investasi berupa penyertaan modal di PT Amita Prakarsa Hijau, perusahaan yang bergerak di bidang pengelolaan limbah industri, dan/atau limbah rumah tangga di Indonesia, yang nantinya akan memasok bahan baku alternatif dan bahan bakar alternatif kepada Indocement dan calon pembeli lainnya. Saat ini sedang dalam proses perizinan dan pembangunan pabrik akan dimulai pada kuartal 4 di 2025.

Pada aspek sosial, Perseroan terus berupaya untuk menjaga hubungan yang harmonis dengan masyarakat dan lingkungan sekitar wilayah operasi. Melalui program TJSL yang fokus pada aktivitas *community development* dan *sustainable development*. Perseroan telah memiliki sejumlah program unggulan, seperti program Desa Wisata, Sekolah Vokasi, dan berbagai kegiatan lainnya. Sepanjang 2024, terdapat 1.741 kegiatan TJSL yang telah dijalankan Perseroan di berbagai wilayah.

Pada aspek tata kelola, pada 2024 Indocement lebih intens untuk meningkatkan kualitas penerapan prinsip tata kelola perusahaan. Perseroan telah mengadopsi berbagai ketentuan yang terkait dengan penerapan GCG, termasuk ASEAN Corporate Governance Scorecard dan Pedoman Umum Governansi Korporat Indonesia (PUGKI).

minimize environmental impacts. Green cement produced by Indocement are Portland Composite Cement (PCC), Portland Slag Cement (Duracem), and Hydraulic Cement.

In 2024, Indocement launched bagged cement with new SNI (SNI 7064:2022). Cement with this new SNI is a type of cement with lower clinker ratio compared to the previous type, therefore, it can reduce CO₂ emissions generated.

Indocement also builds a rooftop solar panel at Citeureup Factory, as a source of clean energy with a capacity of 4.5 MWp, that is already operating. A ground-mounted solar panel with a capacity of 32.5 MWp is also under construction. In addition, the Company also installs a ground-mounted solar panel facility at Tarjun Factory, with a capacity of 20 MWp, which is still in process and awaiting approval from PLN. With such initiatives, the Company can reduce CO₂ emissions generated.

In 2024, the Company also made an investment in form of equity participation in PT Amita Prakarsa Hijau, a company engaged in the management of industrial waste and/or municipal (household) waste in Indonesia, which would later supply alternative raw materials and alternative fuels to Indocement and other prospective buyers. Its licensing is currently underway and plant construction will begin in 4th quarter 2025.

In social aspect, the Company strives to maintain harmonious relations with the community and the environment around operational areas. Through CSR program that focuses on community development and sustainable development, the Company has a number of excellent programs, such as Tourism Village program, Vocational School, and various activities. Throughout 2024, there were 1,741 CSR activities carried out by the Company in various regions.

In governance aspect, in 2024, Indocement intensified its efforts in improving the implementation quality of corporate governance principles. The Company adopted various provisions related to GCG implementation, including the ASEAN Corporate Governance Scorecard and General Guidelines for Indonesian Corporate Governance (PUGKI).

Agar penerapan prinsip GCG menjadi budaya, Perseroan menjalankan aktivitas *Legal Compliance Week* (LCC Week) yang telah memasuki tahun keenam. Pada kegiatan tersebut, Perseroan menekankan pentingnya aspek kepatuhan terhadap peraturan perundang-undangan dalam operasional perusahaan. Selain itu, Perseroan juga memberikan pelatihan kepatuhan kepada seluruh karyawan.

Sebagai upaya untuk meningkatkan penerapan prinsip GCG, pada 2024 Perseroan telah menyusun kembali piagam (*charter*) untuk setiap komite di bawah Direksi yang dimiliki Perseroan. Hal ini ditujukan agar setiap organ memiliki tugas, fungsi, tanggung jawab, dan wewenang yang lebih jelas dan dapat saling mendukung satu dengan lainnya.

Penilaian Kinerja Komite di Bawah Direksi

Dalam melaksanakan tugas kepengurusan, Direksi dibantu oleh empat Komite di bawah Direksi. Direksi menilai Komite-Komite di bawah Direksi tersebut selama 2024 telah menjalankan tugas dan tanggung jawabnya dengan baik.

Komite Keselamatan

Komite Keselamatan dibentuk langsung di bawah kepemimpinan Direktur Utama untuk memastikan terlaksananya manajemen keselamatan dan kesehatan kerja dengan baik dan benar serta menekan tingkat kecelakaan kerja. Kami bersyukur bahwa selama 2024 tidak terjadi kecelakaan kerja yang menyebabkan korban jiwa (*zero fatality*). Pada 2024 Komite Keselamatan telah melakukan rapat sebanyak empat kali dan telah melaksanakan lima tugas di antaranya melakukan evaluasi strategi dan hambatan serta menyusun penerapan Kesehatan dan Keselamatan Kerja (K3).

Komite Etika

Komite Etika bertanggung jawab untuk memastikan Pedoman Etika Indocement telah dilaksanakan dengan baik pada setiap jenjang organisasi. Pada 2024 Komite Etika telah mengadakan sosialisasi kembali atas

To promote GCG principles implementation as a culture, the Company carried out the Legal Compliance Week (LCC Week), currently in its sixth year. Here, the Company emphasizes the importance of compliance with laws and regulations in the Company's operations. In addition, the Company also provides compliance training to all employees.

As an effort to improve GCG principles implementation, in 2024, the Company re-drafted the charter for each committee under the Board of Directors. This is intended to ensure that each organ has clearer duties, functions, responsibilities, and authorities, and can support each other.

Performance Assessment of Committees Under the Board of Directors

In performing management duties, the Board of Directors is assisted by four Committees under the Board of Directors. The Board of Directors considers that the Committees under the Board of Directors carried out their duties and responsibilities properly throughout 2024.

Safety Committee

The Safety Committee is established directly under the leadership of President Director to ensure a proper and correct implementation of occupational safety and health management and reduce occupational accident rates. We are grateful that in 2024, we achieved zero fatality. In 2024, the Safety Committee has held four meetings and carried out five tasks, including evaluating strategies and obstacles as well as formulating the implementation of Occupational Health and Safety (OHS).

Ethics Committee

The Ethics Committee is responsible for ensuring that Indocement Code of Conduct is implemented properly at every level of the organization. In 2024, the Ethics Committee re-organized dissemination of Indocement

Pedoman Etika Indocement kepada Insan Perseroan yang dilakukan oleh manajer unit di masing-masing Plant dan Divisi. Komite Etika juga melakukan pengawasan atas pelaksanaan implementasi Pedoman Etika Indocement dan pada 2024, tidak ada pelanggaran etika yang dilakukan oleh Insan Perseroan. Selama 2024, Komite Etika telah melakukan rapat sebanyak satu kali dengan mengundang Direksi Perseroan.

Dalam rangka menyesuaikan dengan perubahan struktur organisasi Perseroan, Direksi telah melakukan reorganisasi dalam struktur organisasi Komite Etika. Selain itu, juga telah dilakukan revisitasi atas piagam (*charter*) Komite Etika.

Komite ESG

Komite ESG dibentuk dengan tujuan untuk memastikan seluruh aspek operasional Perseroan telah sesuai dengan tujuan pembangunan berkelanjutan pada aspek sosial, lingkungan, dan tata kelola. Pada 2024 Komite ESG telah melaksanakan koordinasi selama tahun berjalan termasuk dengan pihak eksternal, seperti perusahaan pemeringkat ESG yang melakukan evaluasi terhadap peningkatan kinerja keberlanjutan Perseroan secara terus menerus.

Sehubungan adanya rotasi dari beberapa pejabat Perseroan, maka Direksi melakukan beberapa pergantian anggota Komite ESG.

Komite HAM

Komite Hak Asasi Manusia (HAM) dibentuk untuk membantu Direksi dalam memastikan bahwa setiap aktivitas yang dijalankan Perseroan, baik yang terkait dengan pihak internal maupun eksternal telah sesuai dengan prinsip dan aturan terkait HAM. Pada 2024, Komite HAM telah melakukan penilaian mandiri atas pelaksanaan HAM dalam operasional Perseroan seiring dengan penilaian yang dilakukan oleh Heidelberg Materials. Selain itu, Komite HAM juga telah menyusun piagam Komite HAM (*charter*) dan telah ditetapkan dalam Surat Keputusan Direksi. Rapat koordinasi dengan Direksi dilakukan sebanyak satu kali dan disepakati untuk melakukan beberapa perubahan dalam keanggotaan Komite HAM.

Code of Conduct to the Company's Personnel, carried out by unit managers in each Plant and Division. The Ethics Committee also monitors the implementation of Indocement Code of Conduct. In 2024, there were no ethical violations committed by the Company's Personnel. Throughout 2024, the Ethics Committee held one meeting by inviting the Company's Board of Directors.

In adjusting to the changes in the Company's organizational structure, the Board of Directors reorganizes the organizational structure of the Ethics Committee. In addition, a revision of the Ethics Committee charter has also been carried out.

ESG Committee

The ESG Committee is established with the aim of ensuring that all operational aspects of the Company are in accordance with the sustainable development goals in social, environmental, and governance aspects. In 2024, the ESG Committee carried out coordination were carried out throughout the year with all related functions including communication with external parties such as ESG rating companies and taking into considerations of their evaluations to continuously improve the Company's sustainability performance.

In relation to the rotation of several Company officials, the Board of Directors made several changes to the members of ESG Committee.

HR Committee

The Human Rights (HR) Committee is established to assist the Board of Directors in ensuring that every activity carried out by the Company, both those related to internal and external parties, is in accordance with the principles and regulations related to human rights. In 2024, HR Committee independently assessed the implementation of human rights in the Company's operations in line with the assessment by Heidelberg Materials. Furthermore, HR Committee also prepares HR Committee charter that is stipulated under the Board of Directors' Decision Letter. One coordination meeting with the Board of Directors was held and several changes were agreed upon the membership of HR Committee.

Perubahan Komposisi Direksi

Pada 2024, komposisi Direksi Perseroan mengalami perubahan sesuai keputusan Rapat Umum Pemegang Saham Luar Biasa yang diselenggarakan pada 4 Desember 2024, yang menerima pengunduran diri David Jonathan Clarke sebagai anggota Direksi Perseroan dan mengangkat Sunnira Ly sebagai Direksi Perseroan, sehingga komposisi Direksi Perseroan menjadi sebagai berikut:

Changes in the Board of Directors' Composition

In 2024, the composition of the Company's Board of Directors underwent changes in accordance with the resolutions of Extraordinary General Meeting of Shareholders, held on 4 December 2024, which accepted the resignation of David Jonathan Clarke as member of the Company's Board of Directors and appointed Sunnira Ly as the Director of the Company, and thus, the composition of the Company's Board of Directors is as follows:

On behalf of the Company's Board of Directors and Employees, we would like to express our gratitude and high appreciation to David Jonathan Clarke for his contribution and dedication during his time as the member of the Company's Board of Directors and would like to welcome Sunnira Ly, we hope his presence will further strengthen the Company's Board of Directors.

Appreciation

On behalf of the Board of Directors, allow us to express our gratitude to the Board of Commissioners for the guidance, direction, and supervision provided, and to

pemegang saham, mitra bisnis dan pelanggan yang telah memberikan kepercayaan besar sehingga Indocement tetap dapat mencatatkan kinerja operasional maupun kinerja keuangan yang baik di tahun yang diliputi ketidakpastian dan penuh dinamika. Kami juga berterima kasih kepada regulator dan para pemangku kepentingan lainnya atas dukungan maupun kerja sama yang telah terjalin baik selama 2024.

Kami juga menyampaikan apresiasi kepada segenap karyawan atas dedikasi penuh dan kerja kerasnya sehingga Perseroan dapat terus berkembang dan terus berupaya untuk mewujudkan visi dan misi yang kita emban bersama. Mari kita jadikan kinerja yang baik ini sebagai landasan bagi pencapaian kinerja yang semakin unggul di tahun-tahun berikutnya, sehingga kita semua dapat mewujudkan *purpose* Perseroan, yaitu *Material to Build Our Future*.

the shareholders, business partners, and customers for the great trust given, so that Indocement can continue to record good operational and financial performance in the year filled with uncertainty and full of dynamics. We would also like to thank the regulators and other stakeholders for their support and cooperation that was well established throughout 2024.

Furthermore, we would like to express our appreciation to all employees for their full dedication and hard work so that the Company can continuously grow and strive to realize visions and missions that we hold together. Let us make this good performance a foundation for achieving increasingly excellent performance in the following years, so that we can all realize the Company's purpose, which is *Material to Build Our Future*.

Riwayat Singkat Perusahaan

Company Brief History

PT Indocement Tungal Prakarsa Tbk. (selanjutnya disebut "Indocement", "Perseroan" atau "Perusahaan") telah memiliki sejarah yang sangat panjang dalam industri semen nasional. Inisiatif pendirian Perseroan dimulai pada tahun 1975 dengan didirikannya PT Distinct Indonesia Cement Enterprise ("DICE") yang memiliki pabrik semen dengan kapasitas terpasang sebesar 500.000 ton di kawasan Citeureup, Jawa Barat. Pendirian DICE diikuti dengan pendirian perusahaan dan pabrik lainnya, yaitu PT Perkasa Indonesia Cement Enterprise, PT Perkasa Indah Indonesia Cement Putih Enterprise, PT Perkasa Agung Utama Indonesia Cement Enterprise, PT Perkasa Inti Abadi Indonesia Cement Enterprise, dan PT Perkasa Abadi Mulia Indonesia Cement Enterprise, dengan total kapasitas terpasang sebesar 7,7 juta ton per tahun.

Pada 1985, berdasarkan Akta Nomor 227 tanggal 16 Januari 1985, yang dibuat di hadapan Notaris Ridwan Suselo, S.H., dan telah diumumkan dalam Berita Negara Republik Indonesia (BNRI) Nomor 57, Tambahan Nomor 946 tanggal 16 Juli 1985, keenam pabrik tersebut melakukan konsolidasi dan membentuk PT Inti Cahaya Manunggal. Nama perusahaan kemudian diubah menjadi PT Indocement Tungal Prakarsa, berdasarkan akta Nomor 81 tanggal 11 Juni 1985, yang dibuat di hadapan Benny Kristianto, S.H., Notaris Publik di Jakarta dan telah diumumkan dalam BNRI Nomor 75, Tambahan Nomor 947 tanggal 16 Juli 1985.

Pada 5 Desember 1989, Perseroan menjadi perusahaan publik setelah melakukan Penawaran Umum Saham Perdana di Bursa Efek di Indonesia dengan menggunakan kode saham INTP.

Seiring dengan perkembangan usahanya, Perseroan terus meningkatkan kapasitas produksi, baik dengan membangun pabrik baru maupun mengakuisisi pabrik lain. Hingga akhir 2000, Perseroan memiliki 12 pabrik yang tersebar di tiga lokasi, yaitu Citeureup, Bogor, Jawa Barat; Cirebon, Jawa Barat, dan Tarjun, Kotabaru, Kalimantan Selatan.

Pada 2001, HeidelbergCement AG yang pada 2022 berubah nama menjadi Heidelberg Materials AG menjadi pemegang saham mayoritas setelah mengakuisisi 61,7% saham Perseroan, melalui entitas anaknya, Kimmeridge Enterprise Pte. Ltd. Pada 2008, HeidelbergCement AG mengalihkan seluruh sahamnya di Indocement kepada

PT Indocement Tungal Prakarsa Tbk. (hereinafter referred to as "Indocement" or the "Company") has had a very long history in the national cement industry. The initiative to incorporate the Company started in 1975 with the incorporation of PT Distinct Indonesia Cement Enterprise ("DICE"), which had a cement factory with an installed capacity of 500,000 tons in Citeureup area, West Java. DICE incorporation was followed by the incorporation of other companies and factories, namely PT Perkasa Indonesia Cement Enterprise, PT Perkasa Indah Indonesia Cement Putih Enterprise, PT Perkasa Agung Utama Indonesia Cement Enterprise, PT Perkasa Inti Abadi Indonesia Cement Enterprise, and PT Perkasa Abadi Mulia Indonesia Cement Enterprise, with a total installed capacity of 7.7 million tons per year.

In 1985, these six factories consolidated and incorporated PT Inti Cahaya Manunggal based on Deed No. 227 dated 16 January 1985, made before Notary Ridwan Suselo, S.H., which has been announced in the Official Gazette of the Republic of Indonesia (BNRI) No. 57, Supplement No. 946 dated 16 July 1985. The Company's name was later changed to PT Indocement Tungal Prakarsa based on Deed No. 81 dated 11 June 1985, made before Benny Kristianto, S.H., a Public Notary in Jakarta and has been announced in BNRI No. 75, Supplement No. 947 dated 16 July 1985.

On 5 December 1989, the Company became a public company after conducting an Initial Public Offering on Indonesia Stock Exchange with ticker code INTP.

Along with its business development, the Company continues to increase production capacity, both by building new factories and acquiring other factories. As of the end of 2000, the Company owned 12 factories spread over three locations, namely Citeureup, Bogor, West Java; Cirebon, West Java; and Tarjun, Kotabaru, South Kalimantan.

In 2001, HeidelbergCement AG, which in 2022 changed its name to Heidelberg Materials AG, became the majority shareholder after acquiring 61.7% of the Company's shares, through its subsidiary, Kimmeridge Enterprise Pte. Ltd. In 2008, HeidelbergCement AG transferred all of its shares in Indocement to Birchwood Omnia Limited (England),

Birchwood Omnia Limited (Inggris), yang 100% dimiliki oleh Heidelberg Materials AG. Pada 2009 Birchwood Omnia Limited menjual 14,1% sahamnya kepada publik sehingga kepemilikan saham Indocement oleh Heidelberg Materials AG melalui Birchwood Omnia Limited di Perseroan menjadi 51%.

Pada Oktober 2016, Perseroan mulai mengoperasikan pabrik ketiga belas yang disebut Plant 14 di Kompleks Pabrik Citeureup. Pabrik dengan kapasitas produksi 4,4 juta ton semen per tahun ini merupakan pabrik semen terintegrasi terbesar yang pernah dibangun oleh Indocement dan Heidelberg Materials. Dengan beroperasinya Plant 14, kapasitas terpasang Perseroan meningkat menjadi 25,5 juta ton semen per tahun.

Pada 2022, Indocement sebagai bagian dari Heidelberg Materials meluncurkan *New Purpose* Indocement yaitu *Material to Build Our Future* seiring dengan komitmen Perseroan untuk menjalankan kegiatan usaha dengan berlandaskan pada aspek keberlanjutan dan aspek ESG selain itu, Indocement juga melakukan perjanjian sewa pakai aset dengan PT Semen Bosowa Maros dan PT Semen Bosowa Banyuwangi untuk menyewa Kompleks Pabrik Maros serta Unit Penggilingan Semen di Banyuwangi.

Pada 2023, Perseroan mengambil langkah besar dengan mengakuisisi PT Semen Grobogan yang berlokasi di Jawa Tengah yang memiliki kapasitas produksi sebesar 2,7 juta ton semen per tahun. Langkah ini merupakan bagian dari strategi Perseroan untuk terus menambah jejak langkah di industri semen nasional.

Pada November 2023, Birchwood Omnia Limited mengalihkan seluruh saham Perseroan yang dimilikinya kepada Heidelberg Materials AG. Tidak ada perubahan pemegang saham pengendali pada Perseroan karena Heidelberg Materials adalah pemilik 100% saham Birchwood Omnia Limited.

which is 100% owned by Heidelberg Materials AG. In 2009, Birchwood Omnia Limited sold 14.1% of its shares to public, and therefore, Heidelberg Materials AG shares ownership of Indocement through Birchwood Omnia Limited became 51%.

In October 2016, the Company started operating its thirteenth factory called Plant 14 in Citeureup Factory. This plant, which has production capacity of 4.4 million tons of cement per year, is the largest integrated cement plant built by Indocement and the Heidelberg Materials. With the operation of Plant 14, the Company's installed capacity has increased to 25.5 million tons of cement per year.

In 2022, Indocement, as part of Heidelberg Materials, launched the Indocement New Purpose, namely *Material to Build Our Future* in line with the Company's commitment to carry out business activities based on sustainability and ESG aspects. In addition, Indocement also entered into an asset lease agreement with PT Semen Bosowa Maros and PT Semen Bosowa Banyuwangi to rent Maros Factory and Banyuwangi Cement Grinding Unit.

In 2023, the Company took a big step by acquiring PT Semen Grobogan, located in Central Java, which has a production capacity of 2.7 million tons of cement per year. This step is part of the Company's strategy to continue to increase its footprint in the national cement industry.

In November 2023, Birchwood Omnia Limited transferred all of its shares to Heidelberg Materials AG. There is no change in the Company's controlling shareholder as Heidelberg Materials owns 100% of Birchwood Omnia Limited shares.

Integrasi sistem pengelolaan *Human Capital* (HC) dengan strategi pengembangan usaha Perseroan menjadi kunci keberhasilan Indocement dalam menghadapi 2024 yang sangat dinamis dan menantang bagi Perseroan.

Strategi Pengelolaan HC pada 2024

Peran penting HC dalam pengelolaan dan mendukung strategi Perseroan terlihat nyata pada 2024. Di tengah kondisi industri semen yang sangat dinamis, Perseroan tetap dapat membukukan kinerja yang positif. Hal tersebut salah satunya berkat dukungan yang diberikan oleh seluruh karyawan Perseroan dalam menjalankan strategi yang ditetapkan oleh manajemen.

Pada 2024, dalam rangka mendukung strategi Perusahaan, Corporate Human Capital Division (CHCD) melakukan sejumlah penyesuaian agar dapat sejalan dengan strategi Perseroan. Hal tersebut dimungkinkan karena Perseroan telah menerapkan *Human Capital Management System* (HCMS) yang terintegrasi dengan strategi yang dirancang dan dijalankan Perseroan.

The integration of Human Capital (HC) management system with the Company's business development strategy was the key to Indocement's success in facing 2024, a very dynamic and challenging year for the Company.

HC Management Strategy in 2024

The important role of HC management in supporting the Company's strategy was evident in 2024. Amidst the very dynamic cement industry conditions, the Company was still able to record positive performance. This was partly due to the support provided by all Company employees in implementing strategies set by the management.

In 2024, in order to support Corporate strategy, the Corporate Human Capital Division (CHCD) made a number of adjustments to be in line with the Company's strategy. This was made possible as the Company implemented a Human Capital Management System (HCMS), integrated with the strategies designed and implemented by the Company.

Salah satu fokus HC pada 2024 adalah meningkatkan pelatihan yang berkaitan dengan keselamatan dan kesehatan kerja (K3). Hal ini disebabkan karena terjadi kasus kecelakaan kerja dan adanya *fatality* di tahun sebelumnya, sehingga HC merasa perlu untuk kembali mengingatkan karyawan akan pentingnya K3.

Selain itu, dengan bergabungnya operasional dari Semen Grobogan dan Semen Bosowa ke dalam Perseroan, maka dirasa perlu untuk menyamakan standar kualitas K3 di lokasi-lokasi tersebut.

Sepanjang 2024, Perseroan memberikan berbagai pelatihan K3 kepada karyawan, baik dengan materi baru maupun yang bersifat penyegaran. Bahkan, Perseroan membuat kegiatan *townhall* khusus yang disampaikan oleh Direktur Utama terkait dengan keselamatan kerja. Kegiatan tersebut diikuti oleh seluruh pimpinan kunci hingga level manager di setiap fasilitas produksi.

Selain aspek K3, fokus HC pada 2024 adalah pengembangan budaya dan nilai Perusahaan, khususnya bagi karyawan dari Semen Grobogan dan Semen Bosowa, agar tercipta budaya dan pola kerja yang sesuai nilai-nilai yang dianut Perseroan.

Perseroan meyakini bahwa selama ini ASIST (*Accountability, Strive for Excellence, Integrity, Service Mindedness*, dan *Teamwork*) dan *Indocement Leadership Style* merupakan salah satu kunci yang menentukan keberhasilan Perseroan. Karena itu, penguatan nilai-nilai tersebut merupakan hal yang sangat penting, khususnya pada fungsi-fungsi produksi yang baru bergabung dengan Perseroan dalam dua tahun terakhir.

Disamping kedua hal tersebut, HC juga terus meningkatkan kesadaran dan pemahaman terkait dengan kepatuhan. Hal ini juga sejalan dengan kebijakan Heidelberg Materials untuk memberikan pelatihan melalui *workday system (e-learning)* dan juga tengah gencar mengkampanyekan aspek kepatuhan terhadap peraturan perundang-undangan, termasuk di dalamnya adalah penerapan Hak Asasi Manusia (HAM).

One focus of HC in 2024 was to improve training related to occupational health and safety (OHS). This was due to cases of occupational accidents and fatalities that occurred in the previous year, and as a result, HC considered it necessary to remind employees of the importance of OHS.

Furthermore, with the merger of Semen Grobogan's and Semen Bosowa's operations into the Company, it is deemed necessary to align the quality standards of OHS in production facilities operated by the Company.

Throughout 2024, the Company provided various OHS training to employees with new and refresher materials. Moreover, the Company organized a special townhall activity, delivered by the President Director, related to occupational safety. The activity was attended by all key leaders up to manager levels in each production facility.

In addition to OHS aspect, the HC's focus in 2024 was the development of Corporate culture and values particularly for employees of Semen Grobogan and Semen Bosowa, aiming to establish a culture and work patterns in line with the values adopted by the Company.

The Company believes that ASIST (*Accountability, Strive for Excellence, Integrity, Service Mindedness*, and *Teamwork*) and *Indocement Leadership Style* have all along been the keys to determining the Company's success. Therefore, strengthening such values is crucial, particularly in production functions that have just joined the Company in the past two years.

In addition to these two matters, HC also continues to increase awareness and understanding related to compliance. This is also in line with Heidelberg Materials' policy to provide training through *workday system (e-learning)* and to actively campaign for aspects of compliance with laws and regulations, including the implementation of Human Rights (HR).

Program Strategis Tahun 2024

Program yang dijalankan HC merupakan kelanjutan dari program yang telah dijalankan pada tahun-tahun sebelumnya. Namun, di 2024, terdapat beberapa penyesuaian yang dilakukan sesuai dengan arah dan strategi Perseroan.

Beberapa program yang dijalankan HC pada 2024 antara lain:

1. Penyesuaian Struktur Organisasi

Sejalan dengan komitmen Perseroan untuk terus meningkatkan penggunaan bahan bakar dan bahan baku alternatif, Perseroan melakukan reorganisasi dengan memindahkan Divisi Purchasing, yang semula berada di bawah Direktur Keuangan menjadi dibawah koordinasi General Manager Procurement & Energy Alternative Fuel & Alternative Material yang berada di bawah Direktur Utama. Selain sebagai penegasan komitmen terhadap penggunaan Energi dan AFAM, hal tersebut juga ditujukan agar proses pengambilan keputusan terkait penggunaan Energi dan AFAM menjadi lebih cepat.

2. Mutasi Karyawan

Untuk menciptakan operasional yang lebih efektif dan efisien, produksi di beberapa pabrik di Kompleks Pabrik Citeureup dialihkan ke Kompleks Pabrik Maros dan Kompleks Pabrik Grobogan. Hal tersebut ditujukan agar tercipta efektivitas dan efisiensi di bidang produksi, logistik, dan distribusi. Karena itu, Perseroan melakukan mutasi karyawan dari Kompleks Pabrik Citeureup dan Kompleks Pabrik Cirebon ke Kompleks Pabrik Grobogan. Program mutasi tersebut berjalan dengan baik.

3. Upgrade Aplikasi Workday

Setelah di 2023 Perseroan menerapkan aplikasi Workday yang merupakan aplikasi HC yang didapatkan dari Heidelberg Materials, maka pada 2024 Perseroan melakukan *upgrade* aplikasi Workday pada seluruh aspek pengelolaan HC. Hal ini ditujukan untuk meningkatkan kualitas pengelolaan HC di Perseroan untuk mendukung strategi dan rencana pengembangan Perseroan ke depan.

4. Pengembangan Modul Artificial Intelligence dan Digital

Sejalan dengan perkembangan dunia digital dan *artificial intelligence* (AI), Perseroan juga berupaya untuk meningkatkan kesadaran dan kompetensi karyawan terkait bidang tersebut. Karena itu, di 2024, Perseroan mengembangkan modul pelatihan yang berkaitan dengan AI dan Digital, dimana

Strategic Programs in 2024

The programs implemented by HC are actually ongoing programs, which are a continuation of programs implemented in the previous years. However, in 2024, there were several adjustments made in line with the Company's direction and strategy.

Several programs implemented by HC in 2024 included:

1. Adjustment of Organizational Structure

In line with the Company's commitment to continuously increasing the use of alternative fuels and alternatif materials, the Company reorganized by moving the Purchasing Division, which was originally under the Director of Finance to be under the coordination of the General Manager of Procurement & Energy Alternative Fuel & Alternative Material who was under the President Director. In addition to affirming the commitment to Energy and AFAM use, this adjustment is also intended to speed up the decision-making process related to Energy and AFAM use.

2. Employee Transfer

To create a more effective and efficient operation, production at several factories in Citeureup Factory was shifted to Maros Factory and Grobogan Factory. This was intended to create effectivity and efficiency in production, logistics, and distribution sectors. Therefore, the Company transferred employees from Citeureup Factory to Grobogan Factory. The transfer program went well.

3. Upgrade of Workday Application

In 2023, the Company started implementing the Workday application, which is an HC application obtained from Heidelberg Materials, in 2024 the Company upgraded Workday application in all aspects of HC management. This was intended to improve HC management quality at the Company to support the Company's future development strategies and plans.

4. Development of Artificial Intelligence and Digital Modules

In line with the development of digital world and artificial intelligence (AI), the Company also seeks to increase employee awareness and competence related to these fields. Therefore, in 2024, the Company developed training modules related to AI and Digital, in which the director in charge of

direktur yang menangani *cybersecurity* di Heidelberg Materials membawakan materi tentang pentingnya *cybersecurity* dalam acara *townhall meeting* kepada karyawan Perseroan. Selain pelatihan diatas, Perseroan juga secara rutin telah melaksanakan pelatihan terkait *cybersecurity awarness* kepada seluruh karyawan.

Percepatan Pembangunan Budaya dan Transfer Knowledge

Aksi korporasi berupa sewa fasilitas produksi milik Semen Bosowa dan akuisisi Semen Grobogan yang dilakukan dalam dua tahun terakhir menjadi tantangan tersendiri bagi Perseroan, khususnya bagi HC. Kedua fasilitas produksi tersebut sebelumnya telah berjalan sesuai dengan standar kualitas dan nilai-nilai yang dikembangkan oleh pemilik lama. Oleh karenanya Perseroan harus menyesuaikan standar kualitas produksi seperti yang digunakan Perseroan di kedua fasilitas produksi tersebut. Terlebih untuk Kompleks Pabrik Grobogan yang sudah menjadi milik Perseroan.

Perseroan berusaha untuk mempercepat proses transisi dan percepatan *transfer knowledge* di kedua fungsi produksi tersebut. Pada 2024 Perseroan menjalankan program mutasi karyawan dari Kompleks Pabrik Citeureup dan Kompleks Pabrik Cirebon ke Kompleks Pabrik Grobogan. Langkah tersebut merupakan upaya yang dilakukan Perseroan untuk percepatan pembangunan budaya dan nilai Perseroan. Selain itu, sebagai bagian dari upaya percepatan, Perseroan juga menempatkan karyawan Indocement yang sudah berpengalaman di Kompleks Pabrik Grobogan. Pola yang sama juga dilakukan di Kompleks Pabrik Maros. Hal ini dilakukan karena Perseroan meyakini standar kerja dan nilai serta budaya perusahaan merupakan faktor yang sangat penting untuk pengembangan di kedua pabrik tersebut.

Program ini berjalan dengan baik yang ditandai dengan antusiasme yang tinggi yang ditunjukkan oleh karyawan di kedua pabrik tersebut untuk mengikuti standar yang ditetapkan Perseroan dan pelatihan-pelatihan yang terkait dengan hal tersebut.

Diversity and Inclusion Committee

Pada 2024, Indocement turut berpartisipasi dalam *Diversity and Inclusion Committee* yang mulai dijalankan oleh Heidelberg Materials Asia. Komite ini mendorong keterbukaan, kesetaraan dan saling menghormati dalam lingkungan kerja. Komite ini terbagi atas 4 kelompok, Inclusive Leadership, Inclusive Policies & Practices, Psychological Safety, and Emotional & Cultural Intelligence.

cybersecurity at Heidelberg Materials presented materials on the importance of *cybersecurity* to the Company employees at the townhall meeting. In addition to the training programs, the Company also regularly conducts *cybersecurity awarness* training for all employees.

Acceleration of Cultural Development and Knowledge Transfer

Corporate action in leasing production facilities owned by Semen Bosowa and acquisition of Semen Grobogan carried out in the past two years have become challenges for the Company, particularly for HC. The two production facilities were previously run in accordance with the quality standards and values developed by the previous owner. Therefore, the Company must adjust the production quality standards as used by the Company in both production facilities. Particularly for Grobogan Factory, which now already belongs to the Company.

The Company seeks to accelerate transition process and accelerate knowledge transfer in both production functions. In 2024, the Company implemented employee transfer program from Citeureup Factory and Cirebon Factory to Grobogan Factory. This step was an effort made by the Company to accelerate the development of the Company's culture and values. Furthermore, as part of the acceleration efforts, the Company also placed experienced Indocement employees in Grobogan Factory. The same effort was carried out at Maros Factory. The Company believes that work standards as well as values and corporate culture are very important factors for the development of these two factories.

This program was implemented properly, as shown by employees' high enthusiasm in both factories to follow the standards set by the Company and the relevant training programs.

Diversity and Inclusion Committee

In 2024, Indocement participated in the *Diversity and Inclusion Committee* initiated by Heidelberg Materials Asia. This Committee encourages openness, equality and mutual respect at work. This Committee is divided into 4 groups, Inclusive Leadership, Inclusive Policies & Practices, Psychological Safety, and Emotional & Cultural Intelligence.

Kebijakan dan Pelaksanaan Manajemen HC

Indocement telah mengembangkan sistem pengelolaan HC yang komprehensif dan berkesinambungan. Proses tersebut sudah berjalan dengan sangat baik dan terbukti dapat mendukung Perseroan untuk mewujudkan target dan tujuan usahanya.

Rekrutmen

Rekrutmen merupakan proses yang sangat penting dalam proses pengelolaan HC di Indocement. Melalui proses ini, Perseroan berupaya untuk mendapatkan karyawan yang tidak hanya memiliki kompetensi yang sesuai dengan kebutuhan, tapi juga memiliki sikap yang sesuai dengan nilai dan budaya perusahaan.

Dalam beberapa tahun terakhir, kebijakan rekrutmen di Indocement mengalami perubahan, dimana Perseroan tidak lagi menjalankan program rekrutmen secara besar-besaran. Rekrutmen dilakukan sesuai kebutuhan, khususnya untuk posisi baru atau posisi yang kosong.

Pada 2024, Indocement juga menjalankan program rekrutmen internal, dimana Perseroan memberikan kesempatan kepada karyawan untuk mengikuti seleksi pada jabatan tertentu yang kosong. Jika Perseroan tidak mendapatkan kandidat dari internal, maka Perseroan akan mencari kandidat dari eksternal.

Selama 2024, Perseroan merekrut 50 pegawai baru secara selektif dengan prinsip *job person organization fit* guna mencari calon pegawai yang memiliki potensi dan prestasi untuk ditempatkan pada unit kerja yang tepat. Sebagian besar pegawai yang direkrut pada 2024 adalah peserta program *management trainee* dan *professional hiring*.

Manajemen Karir

Perseroan memberikan kesempatan yang sama kepada setiap karyawan untuk mengembangkan karirnya dan menduduki jabatan yang sesuai dengan minat dan kompetensinya. Perseroan telah merancang sistem manajemen karir yang jelas pada setiap fungsi, sehingga karyawan dapat terus memotivasi diri agar dapat menduduki posisi dan jenjang yang lebih tinggi sesuai dengan kompetensi dan kapasitasnya.

Pada 2024, pengelolaan manajemen karir di Perseroan menjadi lebih transparan dengan penerapan aplikasi Workday. Melalui aplikasi tersebut, Perseroan memiliki data yang lengkap terkait kompetensi yang dimiliki oleh setiap karyawan, sehingga proses promosi dapat

HC Management Policies and Implementation

Indocement develops a comprehensive and sustainable HC management system. The process runs very well and is proven to support the Company in realizing its business targets and objectives.

Recruitment

Recruitment is a crucial process in Indocement's HC management process. Through this process, the Company strives to obtain employees with not only competencies that match the needs, but also attitudes that match the Company's values and culture.

In recent years, the recruitment policy at Indocement has changed, in which the Company no longer runs large-scale recruitment programs. Recruitment is carried out according to needs, especially for new positions or vacant positions.

In 2024, Indocement also ran an internal recruitment program, in which the Company provided employees with opportunities to take part in the selection for certain vacant positions. In the event the Company does not get the candidates from within, the Company will then look for external candidates.

Throughout 2024, the Company selectively recruited 50 new employees based on the principle of job person organization fit to find candidates with potential and achievements suitable for placement in the right work units. Most of the employees recruited in 2024 are participants of management trainee and professional hiring programs.

Career Management

The Company provides equal opportunities for all employees to develop their career and occupy positions that match their interests and competencies. The Company has designed a clear career management system for each function, so that employees can continue to motivate themselves to occupy higher positions and levels according to their competencies and capacities.

In 2024, the Company's career management became more transparent with the implementation of Workday application. Through this application, the Company has complete data regarding each employee's competencies, thus the promotion process can be carried out more

dilakukan secara lebih transparan. Indocement memiliki sejumlah program yang disiapkan untuk para *key talent* di dalam organisasi dan diharapkan dapat memperkuat kualitas kepemimpinan Perseroan di masa mendatang.

Pendidikan dan Pelatihan

Program pendidikan dan pelatihan menjadi kunci dalam proses pengelolaan HC di Indocement. Melalui program pendidikan dan pelatihan, Perseroan dapat menciptakan sumber daya yang unggul yang dapat memberikan dukungan terhadap rencana strategi yang dijalankan Perseroan.

Program pendidikan dan pelatihan dilaksanakan secara *in-house training* maupun *public training*. Di 2024, Perseroan masih menjalankan program yang sudah dijalankan sejak tahun sebelumnya. Fokus program pelatihan dan pendidikan pada 2024 adalah terkait teknik dan SHE academy. Hal ini sejalan dengan perkembangan di industri semen, khususnya didorong oleh Heidelberg Materials yang terus menciptakan industri semen yang aman dan lebih ramah lingkungan.

Program pendidikan dan pelatihan di 2024 sebagian besar dilaksanakan dengan metode *e-learning*, khususnya pada program-program yang bersifat umum dan menjangkau karyawan dalam jumlah yang besar. Namun demikian, untuk program-program yang bersifat khusus dan membutuhkan praktik langsung tetap dilakukan secara luring.

Selama 2024, Perseroan telah menyelenggarakan 1.128 program pendidikan dan pelatihan yang diikuti oleh 32.943 peserta. Total biaya yang dikeluarkan untuk menyelenggarakan program pendidikan dan pelatihan tersebut mencapai Rp5,2 miliar, menurun 10% dibandingkan tahun sebelumnya sebesar Rp5,8 miliar. Penurunan biaya program pendidikan dan pelatihan tersebut utamanya disebabkan karena terdapat penyesuaian program dan sebagian akan dilaksanakan di 2025.

Pada 2024, Perseroan juga mengikutsertakan karyawan pada program pelatihan dan pendidikan yang diselenggarakan di luar negeri, baik yang diselenggarakan oleh Heidelberg Materials maupun oleh pihak ketiga, seperti International REFRA Academy Training di Jerman, Women Rising Leadership Program di Jerman, AFCM 26th Technical Symposium & Exhibition di Malaysia, dan ICQCC di Sri Lanka. Perseroan juga mengirim karyawan untuk mengikuti program JET Wave 3 Assignment di Thailand.

transparently. Indocement has a number of programs prepared for key talents in the organization, which are expected to strengthen the Company's leadership quality in the future.

Education and Training

Education and training programs are keys in the HC management process at Indocement. Through education and training programs, the Company can generate excellent resources that can support the strategic plans implemented by the Company.

Education and training programs are carried out through in-house training and public training. In 2024, the Company still ran the programs as continuation from the previous years. Focus of the 2024 training and education programs was related to technical and SHE academy. This was in line with the developments in cement industry, which are particularly driven by Heidelberg Materials, that constantly encourage the creation of a more safety and environmentally friendly cement industry.

The education and training programs in 2024 were primarily held by using e-learning method, particularly for general programs to reach a large number of employees. Nevertheless, specific programs requiring direct practice were still held offline.

Throughout 2024, the Company held 1,128 education and training programs, attended by 32,943 participants. The total cost incurred to organize the education and training programs reached Rp5.2 billion, a decrease of 10% compared to that of the previous year of Rp5.8 billion. The decrease in education and training program costs is mainly due to program adjustments and some will be implemented in 2025.

In 2024, the Company also included employees in training and education programs held abroad, both organized by Heidelberg Materials and third parties, such as the International REFRA Academy Training in Germany, Women Rising Leadership Program in Germany, AFCM 26th Technical Symposium & Exhibition in Malaysia, and ICQCC in Sri Lanka. In addition, the Company assigned employees to attend JET Wave 3 Assignment program in Thailand.

Penilaian Kinerja

Perseroan melakukan evaluasi kinerja karyawan secara berkala. Hal ini merupakan bagian dari sistem manajemen karir yang dikembangkan Perseroan. Proses penilaian kinerja dilakukan sesuai dengan *key performance indicators* (KPI) dari masing-masing karyawan. Penilaian dilakukan secara berjenjang mulai dari penilaian individu, tim hingga unit dari karyawan tersebut. Dalam hal ini, Perseroan tidak hanya fokus pada individu, karena *teamwork* juga merupakan hal yang sangat penting.

Sistem penilaian kinerja juga dapat menjadi langkah yang dijalankan Perseroan untuk terus meningkatkan kinerja karyawan dan memberikan kesempatan kepada karyawan untuk meraih jenjang karir yang lebih tinggi.

Perseroan memberikan apresiasi kepada karyawan yang memiliki kinerja yang baik dalam bentuk insentif atau tunjangan kinerja. Selain itu, penilaian kinerja ini dapat dijadikan acuan dalam pemberian kesempatan pengembangan karir berupa kenaikan golongan atau promosi jabatan. Perseroan juga memberikan pembinaan melalui proses *coaching* dan *counseling* peningkatan kinerja karyawan, agar mampu meningkatkan kinerjanya di periode berikutnya. Penilaian diberikan secara adil berdasarkan prestasi kerja karyawan tanpa melihat latar belakang individu atau perihal lainnya.

Hubungan Industrial

Perseroan berupaya untuk terus dapat menciptakan hubungan industrial yang harmonis dengan seluruh karyawan. Hal ini sejalan dengan komitmen Perseroan untuk menjadikan karyawan sebagai mitra untuk meraih kesuksesan bersama.

Untuk membangun hubungan industrial yang harmonis, Perseroan memastikan untuk menaati peraturan perundang-undangan yang berlaku. Perseroan memenuhi seluruh hak-hak normatif karyawan sebagaimana yang diatur dalam peraturan perundang-undangan. Selain itu, Perseroan juga selalu mengkomunikasikan berbagai program dan rencana kepada karyawan yang diwakili oleh Serikat Pekerja.

Performance Assessment

The Company periodically evaluates employee performance, which is part of the career management system developed by the Company. Performance assessment process is carried out in accordance with the key performance indicators (KPI) of each employee in phases starting from individual, team, to unit assessments of the employee. As such, the Company not only focuses on individuals, but also on teamwork, which is also a very important matter.

The performance assessment system can also be a step taken by the Company to continue to improve employees' performance and provide employees with opportunities to achieve higher career levels.

The Company provides appreciation to employees with great performance through incentives or performance allowances. Furthermore, this performance assessment can be used as a reference in providing career development opportunities in the form of level advancement or position promotion. The Company also provides guidance through coaching and counseling process for employees with sub-standard performance, and thus, improving their performance in the next period. Assessment is given fairly based on employee's performance without looking at individual background or other matters.

Industrial Relations

The Company strives to continuously maintain harmonious industrial relations with all employees. This is in line with the Company's commitment to making employees partners to achieve mutual success.

To build harmonious industrial relations, the Company ensures compliance with applicable laws and regulations. The Company fulfills all employee normative rights as stated in laws and regulations. In addition, the Company always communicates various programs and plans to employees represented by the Labor Union.

Saat ini, terdapat tiga organisasi Serikat Pekerja yang berada di lingkungan Indocement, yaitu di Kompleks Pabrik Citeureup, Kompleks Pabrik Cirebon, dan Kompleks Pabrik Tarjun. Perseroan berupaya untuk membangun sinergi yang positif dengan Serikat Pekerja yang merupakan perwakilan karyawan agar hubungan industrial yang harmonis dapat terus terjaga.

Sebagai bagian dari upaya membangun hubungan industrial yang harmonis dengan karyawan, Perseroan telah menandatangani Perjanjian Kerja Bersama (PKB) XI dengan Serikat Pekerja Indocement.

Demografi Karyawan Segmen Bisnis Semen

Jumlah karyawan segmen bisnis semen pada akhir 2024 tercatat sebanyak 3.391 karyawan, mengalami peningkatan 174 karyawan atau 5,4% dibandingkan jumlah karyawan per 31 Desember 2023 yaitu 3.217 karyawan. Peningkatan jumlah karyawan tersebut seiring dengan akuisisi yang dilakukan Perseroan terhadap PT Semen Grobogan.

Jumlah Karyawan Segmen Bisnis Semen Total Employees of Cement Business Segment

There are currently three Labor Union organizations within Indocement, which are in Citeureup Factory, Cirebon Factory, and Tarjun Factory. The Company strives to build positive synergy with Labor Union, which is the employee representative, and thus, maintaining constant harmony in industrial relations.

As part of efforts to build harmonious industrial relations with employees, the Company signed the Collective Labor Agreement (CLA) XI with the Labor Union of Indocement.

Employee Demographics in Cement Business Segment

The number of cement business segment employees at the end of 2024 was 3,391 employees, an increase of 174 employees or 5.4% compared to the number of employees as of 31 December 2023, which was 3,217 employees. The increase in the number of employees is in line with the Company's acquisition of PT Semen Grobogan.

Teknologi Informasi

Information Technology

Dalam rangka meningkatkan mutu kualitas dan layanan, Perseroan terus menyempurnakan infrastruktur teknologi informasi (TI) dan melakukan inovasi untuk mendukung mobilitas layanan secara menyeluruh. Seiring hal itu, kemajuan teknologi juga menghadirkan kemudahan akses yang mendorong kebutuhan konsumen akan kecepatan, ketepatan, efisiensi, hingga pelayanan yang optimal. Dalam konteks tersebut, Perseroan terus berupaya memanfaatkan perkembangan TI dalam menjaga efisiensi, akurasi, dan daya tanggap atas pemecahan masalah, sebagai hal yang penting guna menjaga keberhasilan proses bisnis Perseroan.

Expert System

Expert system merupakan bagian penting dalam proses produksi semen yang dijalankan Perseroan. Melalui penerapan sistem ini, Perseroan dapat menciptakan operasional yang lebih efektif dan efisien. Hal ini telah dibuktikan sejak Perseroan pertama kali menerapkan sistem tersebut pada 2020.

Melalui penerapan *expert system*, Perseroan dapat mengoptimalkan seluruh proses produksi secara daring dan *real time*, mulai dari tahap awal produksi semen yaitu penggilingan bahan baku, tahap pembakaran, hingga tahap selanjutnya yaitu penggilingan akhir dengan memberikan rekomendasi kepada operator dan *engineer* di seluruh unit operasi.

Sistem ini dapat memberikan informasi yang akurat dari setiap parameter dalam proses produksi dan akan dianalisa secara otomatis dan sistem akan memberikan rekomendasi guna mengoptimalkan proses produksi. Analisa dari *expert system* bersifat lebih stabil karena *human-free* atau dilakukan tanpa intervensi manusia. Sistem ini terbukti meningkatkan kapasitas produksi dan membuat konsumsi energi menjadi lebih efisien. Selain itu, dengan *expert system* ini kualitas dan konsistensi produk juga lebih terjaga.

In order to improve the quality and service, the Company continues to refine its information technology (IT) infrastructure and make innovation to support the overall service mobility. Along with that matter, technology advancement also provides ease of access that drives consumer needs for speed, accuracy, efficiency, and optimal services. In such context, the Company strives to utilize IT developments in maintaining efficiency, accuracy, and responsiveness to problem solving, as important matters to maintain the Company's success in business processes.

Expert System

The expert system is an important part of cement production processes carried out by the Company. Through the application of this system, the Company can create more effective and efficient operations. This has been proven since the first time the Company applied the system in 2020.

Through applying expert system, the Company can optimize the entire production process online and in real time, starting from the initial stages of cement production, namely raw milling, combustion stage or pyro processing, to the next stage, namely clinker grinding, by providing recommendations to operators and engineers in all operating units.

This system can provide accurate information from each parameter in production process to be analyzed automatically. Then, the system will make recommendations to optimize the production process. The analysis from the expert system is more stable as it is human-free or carried out without human intervention. This system is proven to increase production capacity and make energy consumption more efficient. In addition, product quality and consistency are also better maintained with this expert system.

Pada 2024, *expert system* juga telah diterapkan di Kompleks Pabrik Maros dan Kompleks Pabrik Grobogan. Langkah ini diharapkan dapat memberikan efisiensi yang besar dalam operasional pabrik tersebut.

Pada dasarnya, automasi proses robotik adalah hal yang terus dikembangkan lebih lanjut, dengan menggunakan algoritma sistem yang dapat melakukan pekerjaan yang seharusnya dilakukan oleh orang. Langkah ini untuk memastikan bahwa Perseroan dapat mengautomatisasi efisiensi dan meminimalisasi pekerjaan manual. Perseroan telah melakukannya selama beberapa tahun terakhir dan akan terus melakukannya.

Peningkatan Cybersecurity

Pada 2024, Perseroan telah membuat langkah maju yang sangat signifikan dalam *cybersecurity*. Perseroan telah melakukan apa yang disebut audit National Institute of Standards and Technology (NIST) 2.0 yang dibantu oleh auditor eksternal yang berstandar internasional. NIST merupakan standar global yang berasal dari Amerika Serikat untuk menilai kemampuan Perseroan dalam menahan serangan siber.

Berdasarkan audit yang dilakukan, sistem telah berjalan cukup baik pada semua area. Perseroan telah melakukan semua hal yang tepat dalam hal desain keamanan dan membatasi jejak serangan.

Pada 2024, Perseroan juga menyelesaikan implementasi sistem *cyber recovery*. Sistem ini menggunakan AI untuk menganalisis dan memastikan bahwa tidak ada serangan siber dalam data tersebut. Sebagai bagian dari antisipasi, sistem ini dibuat terpisah dari sistem utama, agar tidak ada perangkat lunak jahat yang dapat masuk, sehingga data dapat terlindungi dengan sangat baik.

Hal lain yang dilakukan Perseroan dalam hal keamanan siber adalah uji penetrasi eksternal, sehingga Perseroan dapat mengetahui jika ada serangan peretasan dari eksternal. Perseroan telah memperbaiki area yang teridentifikasi. Saat ini Perseroan berada dalam posisi aman berkaitan dengan *cybersecurity*.

In 2024, the expert system was also applied at Maros Factory and Grobogan Factory. This step is expected to provide great efficiency in the factories' operations.

Basically, robotic process automation is a matter that continues to be developed further, by using system algorithms that can do work that should be done by people. This step is carried out to ensure that the Company can automate efficiency and minimize manual work. The Company has been doing it for the past few years and will continue to do so.

Cybersecurity Improvement

In 2024, the Company took very significant measures in cybersecurity. The Company conducted National Institute of Standards and Technology (NIST) 2.0 audit, assisted by an external global auditor. NIST is a global standard from the United State to assess the Company's ability to withstand cyber-attacks.

Based on the audit conducted by, the system ran quite properly in all areas. The Company carried out all the right steps in security design and limited the attack footprint.

In 2024, the Company also completed the implementation of cyber recovery system. This system uses AI to analyze and ensure that there are no cyber-attacks in the data. As part of the anticipation, this system is made separate from the main system, so that no malware can enter, and therefore, the data can be protected excellently.

Another measure taken by the Company in cybersecurity is external penetration test, which enables the Company to identify any external hacking attacks. The Company has fixed the identified areas. The Company is currently in a secure position in terms of cybersecurity.

Analisis dan Pembahasan Manajemen

Management Discussion and Analysis

Tinjauan Ekonomi dan Industri

Economic and Industrial Overview

Analisis Ekonomi Global

Perekonomian global masih berada dalam posisi yang lemah pada 2024. Kendati tingkat inflasi mengalami penurunan, namun belum serta merta menurunkan suku bunga yang melonjak cukup tinggi dalam dua tahun terakhir, namun tingkatnya masih berada di bawah target banyak bank sentral, sehingga memaksa banyak negara untuk tetap mempertahankan kebijakan moneter yang ketat dan kebijakan suku bunga tinggi. Dengan suku bunga yang tinggi, pertumbuhan ekonomi cenderung melambat.

Selain itu, konflik geopolitik yang semakin intens di kawasan Eropa, Timur Tengah, dan Asia Timur juga menjadi faktor yang menghambat pertumbuhan ekonomi global karena telah membuat harga komoditas energi mengalami fluktuasi serta terjadi disrupsi rantai perdagangan dunia. Kondisi tersebut semakin diperberat dengan semakin memanasnya perang dagang antara Amerika Serikat, Eropa, dan Tiongkok. Kondisi ini telah membuat ekonomi Tiongkok mengalami perlambatan sehingga berdampak pada perekonomian negara-negara yang memiliki hubungan dagang dengan Tiongkok, termasuk Indonesia.

Global Economic Analysis

The global economy remained in a weak position in 2024. Though inflation rate decreased, it did not immediately lower interest rates that soared quite high in the past two years, with rates still below many central banks' target, forcing many countries to maintain tight monetary policies and high interest rates. With high interest rates, economic growth tend to slow down.

Furthermore, the increasingly intense geopolitical conflicts in Europe, the Middle East, and East Asia were also factors hindering global economic growth as these conflicts caused energy commodity prices to fluctuate and disrupted the world trade chain. Such condition was further aggravated by the escalating trade war between the United States, Europe, and China. This situation caused China economy to slow down, thereby affecting the economies of countries engaged in trade with China, including Indonesia.

Berbagai tantangan tersebut membuat ekonomi global menghadapi ketidakpastian sepanjang 2024. Hal ini membuat sebagian besar negara berkembang sulit keluar dari jebakan negara berpendapatan menengah atau *middle-income trap*, karena juga dihadapkan pada menuanya masyarakat produktif sebelum mampu menjadi kaya atau berpendapatan tinggi.

Bank Sentral AS, The Fed, sejatinya telah memberikan respon yang positif untuk mendorong perekonomian global dengan mengambil kebijakan untuk menurunkan tingkat suku bunga menjadi 4,25%–4,50%. Namun, hal tersebut belum memberikan dampak yang besar, selain karena penurunan suku bunga yang relatif kecil, hal tersebut juga dilakukan menjelang akhir tahun.

Dengan kondisi tersebut, Dana Moneter Internasional (IMF), dalam laporan World Economy Outlook yang terbit pada awal 2025, memproyeksikan pertumbuhan ekonomi global tetap lemah, dengan proyeksi pertumbuhan PDB dunia sekitar 3,2% untuk 2024. Di negara-negara maju, pertumbuhan stagnan diangka 1,7% pada 2023 dan 2024. Sebaliknya, di negara-negara berkembang, pertumbuhan diproyeksikan melambat dari 4,4% pada 2023 menjadi 4,2% pada 2024.

Mempertimbangkan kondisi di 2024, IMF memangkas proyeksi pertumbuhan ekonomi global pada 2025 dan memperingatkan meningkatnya risiko dari perang hingga proteksionisme perdagangan. IMF memperkirakan Produk Domestik Bruto (PDB) global akan meningkat 3,2% di 2025. Proyeksi ini lebih rendah 0,1 poin proyeksi sebelumnya. Sedangkan inflasi global diperkirakan melambat menjadi 4,3% pada 2025 dari 5,8% tahun ini.

Analisis Ekonomi Indonesia

Pada 2024, ekonomi Indonesia masih tumbuh cukup solid kendati juga mengalami tren perlambatan. Berdasarkan data Badan Pusat Statistik (BPS) Indonesia, ekonomi Indonesia tumbuh 5,03% pada 2024, sedikit lebih rendah dibandingkan tahun sebelumnya sebesar 5,05% dan berada di bawah target yang ditetapkan pemerintah sebesar 5,2%.

Melambatnya pertumbuhan ekonomi tersebut salah satunya disebabkan masih tingginya ketidakpastian dan berbagai tantangan global yang masih membayangi, seperti fragmentasi geoekonomi dan ketegangan geopolitik.

These various challenges made the global economy encountered uncertainty throughout 2024. This matter left most developing countries struggling to break out of the middle-income trap, as they were also faced with the aging productive community before being able to be rich or have high incomes.

The US Central Bank, The Fed, actually gave a positive response to boost global economy by implementing a policy to lower interest rates to 4.25%–4.50%. However, this gave no major impact yet, apart from the relatively small interest rate cut, it was also carried out near the end of the year.

With such conditions, the International Monetary Fund (IMF), in its World Economy Outlook report published in early 2025, projected the global economic growth to remain weak, with a projected world GDP growth of around 3.2% for 2024. In developed countries, growth stagnated at 1.7% in 2023 and 2024. In contrast, in developing countries, growth was projected to slow down from 4.4% in 2023 to 4.2% in 2024.

Considering the conditions in 2024, IMF cut its projection for global economic growth in 2025 and warned of increasing risks from war to trade protectionism. IMF predicts that global Gross Domestic Product (GDP) will increase by 3.2% in 2025. This projection is 0.1 points lower than the previous projection. Meanwhile, global inflation is expected to slow down to 4.3% in 2025 from 5.8% this year.

Indonesian Economic Analysis

In 2024, the Indonesian economy still grew quite solidly, although it also experienced a slowdown trend. Based on data from Statistics Indonesia (BPS), the Indonesian economy grew by 5.03% in 2024, slightly lower than the previous year of 5.05% and below the government's target of 5.2%.

The slowing economic growth was partly due to the high uncertainty and looming global challenges, such as geoeconomic fragmentation and geopolitical tensions.

Secara spasial, pertumbuhan ekonomi terjadi di seluruh wilayah, meski ada pelambatan di beberapa wilayah seperti Sumatra, Sulawesi, dan Maluku-Papua. Wilayah Jawa, Kalimantan, Bali, dan Nusa Tenggara menunjukkan pertumbuhan yang lebih kuat dibandingkan wilayah lainnya.

Kendati ekonomi tumbuh cukup solid, namun daya beli masyarakat cenderung mengalami penurunan dibandingkan tahun sebelumnya. Hal ini tercermin dengan terjadinya deflasi selama lima bulan berturut-turut dari Mei hingga September 2024. Namun demikian, konsumsi domestik masih menjadi kontributor utama terhadap pertumbuhan ekonomi Indonesia. Berdasarkan data BPS, konsumsi rumah tangga memberikan kontribusi hingga 54,04% terhadap PDB nasional tahun 2024.

Kinerja ekspor yang cukup baik juga menjadi pendorong pertumbuhan ekonomi Indonesia. Sepanjang 2024, nilai ekspor Indonesia tercatat sebesar USD264,70 miliar, meningkat 2,29% dari tahun sebelumnya USD258,82 miliar namun demikian, ekspor migas mengalami penurunan menjadi USD15,88 miliar. Dengan pencapaian tersebut, Neraca Perdagangan Indonesia tetap menunjukkan performa positif dengan kembali mencatatkan surplus sebesar USD31,04 miliar pada 2024. Capaian tersebut memperpanjang tren surplus neraca perdagangan Indonesia menjadi 55 bulan secara berturut-turut sejak Mei 2020 hingga Desember 2024.

Namun demikian, indeks PMI manufaktur Indonesia mengalami tren penurunan sejak April 2024 dan berada di bawah 50 selama periode Juli hingga November 2024. Indeks PMI manufaktur Indonesia baru kembali naik pada Desember 2024 menjadi 51,2. Angka ini menunjukkan bahwa aktivitas manufaktur Indonesia baru mengalami kebangkitan pada akhir 2024. Hal ini salah satunya disebabkan pelaku usaha sangat berhati-hati dalam melakukan ekspansi di tahun politik, dimana hampir sepanjang 2024 Indonesia menyelenggarakan pesta demokrasi dengan agenda utama pergantian pemimpin nasional.

Ekonomi Indonesia diproyeksikan akan tumbuh stabil di tahun 2025 pada kisaran 5,0%–5,2%. Bank Dunia dalam World Bank East Asia and The Pacific Economic Update yang dirilis pada Oktober 2024 memperkirakan ekonomi Indonesia tumbuh sebesar 5,1% pada 2025. Bank Dunia menunjukkan keyakinan terhadap kekuatan ekonomi Indonesia di tengah tantangan yang dihadapi negara-negara di kawasan Asia Timur dan Pasifik.

Spatially, economic growth occurred in all areas, though there was a slowdown in several areas such as Sumatra, Sulawesi, and Maluku-Papua. The areas of Java, Kalimantan, Bali, and Nusa Tenggara showed stronger growth than other regions.

Although the economy grew quite solidly, people's purchasing power tended to decline compared to the previous year. This was reflected in the deflation for five consecutive months from May until September 2024. Nevertheless, domestic consumption still became the main contributor to Indonesia's economic growth. Based on BPS data, household consumption contributed up to 54.04% to the national GDP in 2024.

The favorable export performance was also a driver of Indonesia's economic growth. Throughout 2024, Indonesia's export value was recorded at USD264.70 billion, an increase of 2.29% from the previous year of USD258.82 billion, however, oil and gas exports decreased to USD15.88 billion. With such achievement, Indonesia's Trade Balance continued to show positive performance by again recording a surplus of USD31.04 billion in 2024. This achievement extended the trend of Indonesia's trade balance surplus to 55 consecutive months from May 2020 to December 2024.

Nevertheless, Indonesia's manufacturing PMI index experienced a downward trend since April 2024 and was below 50 during the period from July to November 2024. Indonesia's manufacturing PMI index started to rise again in December 2024 to 51.2. This figure showed that Indonesia's manufacturing activity only experienced a revival at the end of 2024. This was partly due to the very cautious expansion by business players in the political year, in which Indonesia held democratic parties for almost the whole of 2024 with main agenda of changing national leaders.

The Indonesian economy is projected to grow steadily in 2025 in range of 5.0%–5.2%. The World Bank in World Bank East Asia and The Pacific Economic Update released in October 2024 estimates that the Indonesian economy will grow by 5.1% in 2025. The World Bank shows its confidence in Indonesia's economic strength amidst the challenges faced by countries in the East Asia and Pacific region.

Analisis Industri Semen Nasional

Tahun 2024, permintaan terhadap produk semen di pasar domestik cenderung stagnan dari tahun sebelumnya. Bahkan, pada paruh pertama 2024, permintaan terhadap produk semen cenderung mengalami penurunan yang cukup signifikan. Selain karena adanya perhelatan pesta demokrasi, banyaknya hari libur juga turut mempengaruhi terhadap permintaan produk semen. Namun, musim kemarau dan lebih sedikit hari libur pada Semester II-2024 berdampak positif terhadap keseluruhan aktivitas konstruksi dan industri semen.

Berdasarkan data Asosiasi Semen Indonesia (ASI), permintaan semen di pasar domestik tahun 2024 mencapai 64,9 juta ton, relatif tidak mengalami peningkatan dibandingkan tahun sebelumnya 65,5 juta ton.

Daya beli masyarakat yang lemah turut menekan permintaan terhadap produk semen. Hal ini dapat dilihat dari penurunan permintaan terhadap semen kantong di tahun 2024. Berdasarkan data ASI, permintaan semen kantong mengalami kontraksi 3,1% menjadi 45,1 juta ton. Di lain pihak, permintaan terhadap semen curah justru tumbuh cukup baik, yaitu sebesar 4,4% menjadi 19,8 juta ton, yang didorong oleh pembangunan Ibu Kota Negara (IKN) dan beberapa proyek infrastruktur milik pemerintah maupun swasta.

Stagnasi permintaan terhadap produk semen membuat intensitas kompetisi di industri semen meningkat dan mendorong terjadinya perang harga. Kondisi ini sejatinya tidak sehat untuk perkembangan industri semen, karena dapat menggerus margin ditengah meningkatnya biaya produksi akibat peningkatan biaya energi.

Selain itu, industri semen nasional juga masih menghadapi persoalan kelebihan pasokan yang telah berlangsung sejak beberapa tahun terakhir. Kondisi ini juga menjadi tantangan yang cukup berat bagi pelaku industri semen.

Tidak berhenti sampai di situ, tantangan lain yang dihadapi industri semen nasional di 2024 adalah menurunnya permintaan dari pasar ekspor karena pelemahan ekonomi global. Produk klinker asal Indonesia menjadi kurang kompetitif dari sisi harga untuk bersaing di pasar ekspor, karena hampir seluruh produsen semen dunia memiliki kapasitas berlebih.

National Cement Industry Analysis

In 2024, demand for cement products in domestic market was likely stagnant from the previous year. In fact, in the first half of 2024, demand for cement products tended to decline significantly. Apart from the democratic party events, the large number of holidays also affected the demand for cement products. However, the drought and fewer holidays in Semester II of 2024 positively affected the overall construction and cement industry activities.

Based on data from Indonesia Cement Association (ICA), domestic cement demand in 2024 reached 64.9 million tons, showing no significant increase compared to the previous year's 65.5 million tons.

Weak consumer purchasing power has also pressured demand for cement products. This can be seen from the decline in demand for bagged cement in 2024. According to ASI data, demand for bagged cement contracted by 3.1% to 45.1 million tons. On the other hand, demand for bulk cement grew quite well, by 4.4% to 19.8 million tons, driven by the construction of the National Capital City (IKN) and several infrastructure projects by both the government and private sector.

The stagnation in demand for cement products increased competition intensity in cement industry and encouraged a price war. This condition was actually unhealthy for the development of cement industry, as it might erode margins amidst increasing production costs due to increasing energy costs.

In addition, the national cement industry still encountered the oversupply issue for the past few years. This condition also became a fairly tough challenge for cement industry players.

Not only that, another challenge faced by the national cement industry in 2024 was the decline in export market demand due to the weakening global economy. Clinker products from Indonesia became less competitive pricing in export market as almost all cement producers in the world had excessive capacity.

Tinjauan Operasional

Operational Overview

Kebijakan Strategis 2024

Indocement sangat menyadari, tantangan yang dihadapi di industri semen nasional pada 2024 tidaklah ringan. Dengan pengalaman panjang yang dimilikinya, Perseroan telah memperkirakan bahwa tahun 2024 akan menjadi tahun yang sangat menantang.

Perhelatan pesta demokrasi yang berlangsung hampir sepanjang tahun merupakan salah satu faktor yang dapat mempengaruhi permintaan terhadap produk semen. Selain itu, Perseroan juga memperkirakan dampak dari banyaknya hari libur nasional di 2024, khususnya pada semester pertama juga akan memengaruhi permintaan terhadap produk semen.

Namun demikian, Perseroan tetap berupaya untuk dapat meraih pertumbuhan usaha yang berkelanjutan. Setidaknya, Perseroan berupaya untuk mempertahankan pangsa pasar dan tingkat profitabilitas di tengah kondisi persaingan yang semakin ketat. Untuk itu, Perseroan telah mengambil sejumlah inisiatif dan kebijakan strategis, baik yang bersifat taktikal untuk merespon kondisi di 2024, maupun yang bersifat strategis jangka panjang. Kebijakan strategis Perseroan pada 2024 difokuskan pada dua aspek inti, yaitu peningkatan efisiensi dan aspek keberlanjutan. Perseroan meyakini, kedua aspek tersebut merupakan hal yang sangat relevan dengan kondisi di 2024 dan perkembangan industri semen ke depan.

Untuk meningkatkan efisiensi, Perseroan melakukan pembenahan pada beberapa sektor, antara lain:

1. Integrasi Rencana Produksi dan Distribusi

Perseroan telah melakukan sejumlah aksi korporasi penting dalam dua tahun terakhir, yaitu sewa pakai pabrik semen di Maros, Sulawesi Selatan dan unit penggilingan semen di Banyuwangi, Jawa Timur serta mengakuisisi PT Semen Grobogan di Jawa Tengah. Untuk itu, pada 2024 Perseroan berupaya untuk mengoptimalkan volume produksi dari tambahan tiga fasilitas produksi tersebut dengan menyusun perencanaan produksi yang terintegrasi dengan distribusi dan logistik. Hal tersebut ditujukan agar dapat tercipta efisiensi biaya produksi dan distribusi, khususnya untuk melayani pasar di Jawa Tengah, Jawa Timur, dan Indonesia bagian Timur.

Strategic Policies in 2024

Indocement was very aware that the challenges faced in the national cement industry in 2024 were not easy. With its long-standing experience, the Company already estimated that 2024 would be a very challenging year.

The democratic party taking place for almost throughout the year was one of the factors that could affect cement product's demands. In addition, the Company also estimated the impact of numerous national holidays in 2024, particularly in the first semester, that would also affect demand for cement products.

Nevertheless, the Company constantly strives to achieve sustainable business growth. At least, the Company strives to maintain market share and profitability levels amidst the increasingly tight competition. To that end, the Company took a number of initiatives and adopted strategic policies, both tactically to respond to conditions in 2024, and strategically to prepare for the long-term. The Company's strategic policies in 2024 were focused on two core aspects, namely increasing efficiency and sustainability aspects. The Company believes that both aspects are very relevant to the conditions in 2024 and the future development of cement industry.

To increase efficiency, the Company made improvements in several sectors, including:

1. Integration of Production and Distribution Plans

The Company took a number of important corporate actions in the past two years, which were leasing cement factory in Maros, South Sulawesi, and cement grinding unit in Banyuwangi, East Java, and acquiring PT Semen Grobogan in Central Java. To that end, in 2024, the Company sought to optimize the production volume of these three additional production facilities by preparing production plans integrated with distribution and logistics. These were intended to create efficiency in production and distribution costs, particularly to serve the markets in Central Java, East Java, and Eastern Indonesia.

Untuk menerapkan strategi tersebut, Perseroan mengambil langkah strategis dengan mengoptimalkan operasi pabrik sesuai dengan pasar demi mencapai biaya logistik yang lebih efisien. Produksi di Kompleks Citeureup lebih di arahkan untuk menggarap pasar Jawa Barat, DKI Jakarta, Banten, dan Sumatra. Demikian juga Kompleks Pabrik Cirebon saat ini difokuskan untuk mengisi pasar di wilayah Jawa Barat.

Dengan *footprint* yang lebih tersebar, Perseroan dapat menciptakan efisiensi yang cukup besar dalam hal produksi dan distribusi.

2. Optimalisasi Strategi Distribusi

Untuk menekan biaya operasional dan distribusi, pada 2024 Perseroan juga meninjau kembali keberadaan fasilitas terminal yang dimilikinya. Hal ini dilakukan untuk menciptakan biaya operasional dan distribusi yang lebih efisien. Perseroan memindahkan beban operasional Terminal Sepanjang di Sidoarjo dan Terminal Tanjung Perak di Surabaya ke Kompleks Pabrik Grobogan dan Unit Penggilingan Semen Banyuwangi.

Untuk penetrasi di wilayah Jawa Tengah, Jawa Timur, Bali, dan Nusa Tenggara, Perseroan mengoptimalkan Kompleks Pabrik Grobogan dan Unit Penggilingan Semen Banyuwangi.

Di samping itu, Perseroan mengakuisisi Terminal Siawung di Sulawesi Selatan dan Terminal Samarinda untuk menunjang penetrasi di kawasan Indonesia Timur dan wilayah Kalimantan, khususnya untuk pasar IKN.

3. Optimalisasi Sumber Daya Internal

Upaya efisiensi juga dilakukan Perseroan dengan mengoptimalisasi sumber daya yang dimiliki Perseroan, yaitu dengan membangun sinergi dengan unit bisnis yang dimiliki Perseroan. Di 2024, salah satu sinergi yang dibangun adalah di bidang transportasi, yaitu dengan mengoptimalkan perusahaan *joint venture* yang dibangun Perseroan dengan mitra di bidang transportasi laut untuk mengangkut berbagai kebutuhan Perseroan, seperti batu bara, klinker, semen curah, dan semen kantong.

Pada 2024, Perseroan mengakuisisi satu unit kapal MV Harmoni I sebagai salah satu langkah untuk menciptakan efisiensi di bidang logistik.

To implement such strategies, the Company taking strategic steps by optimizing factory operations according to market demands to achieve more efficient logistics costs. Production in Citeureup Factory is more directed to address the market in West Java, DKI Jakarta, Banten, and Sumatra. Likewise, Cirebon factory is focused on fulfilling the market in West Java region.

With the more widespread footprints, the Company can create significant efficiencies in production and distribution.

2. Optimization of Distribution Strategy

To reduce operational and distribution costs, in 2024, the Company also reviewed the conditions of its terminal facilities. This was carried out to create more efficient operational and distribution costs. The Company is transferring the operational load from Sepanjang Terminal in Sidoarjo and Tanjung Perak Terminal in Surabaya to the Grobogan Factory and the Banyuwangi Cement Grinding Unit.

To penetrate Central Java, East Java, Bali, and Nusa Tenggara regions, the Company optimized the operations of Grobogan Factory and Banyuwangi Cement Grinding Unit.

On the other hand, the Company acquired Siawung Terminal in South Sulawesi and Samarinda Terminal to support penetration in Eastern Indonesia area and Kalimantan region, particularly for IKN market.

3. Optimization of Internal Resources

The Company also made efficiency efforts by optimizing resources owned by the Company, that was by establishing synergies with the Company's business units. In 2024, one synergy in transportation sector was established by optimizing joint venture company, built by the Company with partners in sea transportation to transport various Company's needs, such as coal, clinker, bulk cement, and bagged cement.

In 2024, the Company acquired one unit vessel MV Harmoni I as one of the steps to create efficiency in logistics sector.

Selain itu, Perseroan juga memanfaatkan sinergi dengan unit bisnis lainnya untuk menciptakan efisiensi, seperti pada bisnis kantong semen, batu bara, dan beberapa unit bisnis lainnya.

Selain fokus untuk menciptakan efisiensi, Perseroan juga semakin memperkuat komitmennya terhadap aspek keberlanjutan untuk menciptakan operasional yang lebih ramah lingkungan. Beberapa inisiatif keberlanjutan yang dilakukan tahun 2024 antara lain:

1. Instalasi Fasilitas AFAM di Kompleks Pabrik Grobogan

Salah satu prioritas penggunaan CAPEX Indocement di 2024 adalah membangun fasilitas penggunaan bahan bakar alternatif di Kompleks Pabrik Grobogan. Langkah ini sangat penting sejalan dengan target keberlanjutan Perseroan. Sebelumnya, Kompleks Pabrik Grobogan belum dapat menggunakan bahan bakar dan bahan baku alternatif (AFAM).

Selain untuk mencapai target keberlanjutan, langkah ini juga dapat memberikan efisiensi produksi bagi Perseroan, karena dari sisi biaya, penggunaan bahan bakar alternatif lebih efisien dibandingkan bila menggunakan batu bara.

2. Peningkatan Penggunaan Energi Baru dan Terbarukan

Sejalan dengan peta jalan pengurangan CO₂ yang telah dicanangkan Perseroan, pada 2024 Indocement terus meningkatkan penggunaan bahan bakar dan bahan baku alternatif dalam proses produksi. Langkah ini juga merupakan bagian dari strategi efisiensi operasional yang dijalankan Perseroan.

Pada 2024, Perseroan telah menyepakati kerjasama penggunaan limbah baja dari industri pengolahan baja untuk produksi semen slag, khususnya di Kompleks Pabrik Maros, Kompleks Pabrik Tarjun, dan Unit Penggilingan Semen Banyuwangi.

Selain itu, Perseroan juga terus meningkatkan penggunaan RDF sebagai substitusi batu bara. Untuk itu, Perseroan terus meningkatkan kapasitas pengumpan bahan bakar alternatif di fasilitas produksinya. Penggunaan RDF juga menjadi solusi masalah sampah khususnya di wilayah Jabodetabek yang selama ini belum dapat diatasi.

Furthermore, the Company also utilized synergies with other business units to create efficiency, such as in cement bag business, coal, and several other business units.

In addition to focusing on creating efficiency, the Company also strengthens its commitment to sustainability aspects to establish more environmentally friendly operations. Some of the sustainability initiatives carried out in 2024 included:

1. Installing AFAM facility in Grobogan Factory

One priority for Indocement's CAPEX use in 2024 was building facilities for the use of alternative fuels at the Grobogan Factory. This is a very important step in accordance with the Company's sustainability targets. Previously, Grobogan Factory could not use alternative fuels and alternative materials (AFAM).

In addition to achieving sustainability targets, this step can also provide production efficiency for the Company, as in terms of cost, the use of alternative fuels is more efficient than using coal.

2. Increasing the Use of New and Renewable Energy

In line with CO₂ road map planned by the Company, in 2024, Indocement continued to increase the use of alternative fuels and raw materials in the production process. This step was also part of operational efficiency strategy implemented by the Company.

In 2024, the Company agreed to cooperate in using steel waste from steel processing industry for producing slag cement, particularly in Maros Factory, Tarjun Factory, and Banyuwangi Cement Grinding Unit.

Furthermore, the Company also constantly increased RDF use as a substitution for coal. Therefore, the Company continuously increased the capacity of alternative fuel feeders in its production facilities. The use of RDF was also a solution to waste issue, particularly in Jabodetabek area, which was not yet resolved.

Melalui upaya tersebut, pada 2024, penggunaan bahan bakar dan bahan baku alternatif Perseroan meningkat menjadi 21,4% dari tahun sebelumnya sebesar 18,3%.

Di samping inisiatif strategis tersebut, Perseroan juga fokus pada penguatan budaya kerja dan nilai perusahaan, khususnya di Kompleks Pabrik Maros dan Kompleks Pabrik Grobogan. Langkah ini menjadi sangat penting mengingat kedua pabrik tersebut sebelumnya sudah berjalan dengan budaya dan nilai dari pemilik sebelumnya. Karena itu, di 2024, Perseroan melakukan berbagai kegiatan untuk membangun budaya dan nilai yang sejalan dengan nilai Perseroan.

Aspek Pemasaran

Intensitas persaingan di industri semen nasional mengalami peningkatan yang cukup tajam di 2024. Permintaan produk semen yang relatif stagnan dan penurunan daya beli masyarakat menjadi faktor utama yang mendorong meningkatnya tensi persaingan karena kelebihan pasokan.

Hal tersebut diperburuk setelah salah satu produsen semen mengeluarkan produk semen kantong yang dipatok dengan harga yang paling murah. Kondisi ini akhirnya memaksa Perseroan untuk memberikan respon untuk mempertahankan pangsa pasarnya. Dalam hal ini, Perseroan menggunakan merek Semen Rajawali dan Semen Jempolan untuk menghadapi perang harga di beberapa wilayah dimana semen murah kompetitor diedarkan. Namun demikian, Perseroan tetap membatasi volume penjualan semen murah agar dapat tetap menjaga profitabilitas yang baik.

Terlepas dari persaingan harga, strategi pemasaran yang dilakukan Perseroan selama 2024 difokuskan pada pengelolaan portofolio merek. Sebagaimana diketahui, saat ini Perseroan mengelola lima merek semen utama, yaitu Semen Tiga Roda, Semen Rajawali, Semen Jempolan, Semen Grobogan, dan Semen Bosowa. Keberadaan merek yang cukup beragam tersebut memungkinkan Perseroan untuk menerapkan strategi pemasaran yang berbeda di setiap wilayah sehingga pelanggan tetap memiliki preferensi terhadap produk Perseroan.

Through these efforts, in 2024, the Company's use of alternative fuels and alternative materials increased to 21.4% from that of the previous year of 18.3%.

Apart from such strategic initiatives, the Company also focuses on strengthening the company's work culture and values, particularly in Maros Factory and Grobogan Factory. This step becomes very important considering that the two factories previously operated under previous owner's culture and values. Therefore, in 2024, the Company carried out various activities to establish culture and values that are in line with the Company's values.

Marketing Aspect

The intensity of competition in the national cement industry increased quite dramatically in 2024. The relatively stagnant demand for cement products and the decline in people's purchasing power were the main factors driving the increasing tension of competition due to over supply.

This phase worsen subsequent to one cement producer that released bagged cement product with the cheapest price. This condition eventually forced the Company to respond to maintain its market share. In this case, the Company used Semen Rajawali and Semen Jempolan brands to counter price wars in some areas to which competitor's cheap cement was distributed. However, the Company continued to limit the sales volume of cheap cement to maintain good profitability.

Apart from price competition, the marketing strategy carried out by the Company during 2024 was focused on managing brand portfolio. As is well-known, the Company currently manages five main cement brands, namely Semen Tiga Roda, Semen Rajawali, Semen Jempolan, Semen Grobogan, and Semen Bosowa. The existence of these quite diverse brands allows the Company to implement different marketing strategies in every area for the customers to have preferences in the Company's products.

Semen Tiga Roda sebagai merek utama Perseroan tetap diposisikan sebagai *premium brand*. Merek ini diposisikan untuk konsumen yang lebih mementingkan kualitas dan tidak sensitif terhadap harga. Sebaran distribusi Semen Tiga Roda merata di hampir seluruh wilayah Indonesia.

Semen Rajawali dan Semen Jempolan merupakan *fighting brand* yang ditujukan untuk menjadi benteng bagi Perseroan untuk mempertahankan pangsa pasar.

Sementara Semen Bosowa dan Semen Grobogan diposisikan sebagai *brand* lokal karena telah memiliki pasar tersendiri di wilayahnya. Semen Bosowa ditujukan untuk pasar di Indonesia Timur, Jawa Timur bagian Timur, Bali, Nusa Tenggara, dan utamanya di Sulawesi. Sedangkan Semen Grobogan didistribusikan di wilayah Jawa Tengah dan sebagian Jawa Timur. Langkah ini juga ditunjang dengan strategi komunikasi yang mengusung *tagline* “Mutu Wani Diadu”, merujuk pada kualitas yang tak tertandingi.

Pangsa Pasar

Pangsa pasar Perseroan secara keseluruhan mengalami kenaikan dibandingkan tahun sebelumnya, yaitu dari 26,7% di 2023 menjadi 29,2% di 2024. Peningkatan pangsa pasar tersebut disebabkan adanya kontribusi dari Semen Grobogan.

Peningkatan pangsa pasar Perseroan di 2024 utamanya dikontribusi oleh penjualan di luar Pulau Jawa. Pangsa pasar Indocement di Pulau Jawa sebesar 36,9%, lebih tinggi 4,1% dibandingkan 2023. Sementara di luar Pulau Jawa pangsa pasar Indocement 21,0% di 2024 lebih tinggi 0,8% dibandingkan 2023.

Semen Tiga Roda as the Company's main brand remains positioned as a premium brand. This brand is positioned for consumers who prioritize quality and are not sensitive to price. Semen Tiga Roda is evenly distributed in almost all areas of Indonesia.

Semen Rajawali and Semen Jempolan are fighting brands intended to serve as the fortress for the Company to maintain its market share.

Meanwhile, Semen Bosowa and Semen Grobogan are positioned as local brands as they already have their own markets in their regions. Semen Bosowa is aimed at the market in Eastern Indonesia, East Java, Bali, Nusa Tenggara, and especially in Sulawesi. Meanwhile, Semen Grobogan is distributed in Central Java and part of East Java. Such steps are also supported by the communication strategy that carried the *tagline* “Mutu Wani Diadu”, referring to quality beyond compare.

Market Share

The Company's overall market share increased compared to the previous year, from 26.7% in 2023 to 29.2% in 2024. Such increase in market share was due to the contribution of Semen Grobogan.

The increase in the Company's market share in 2024 was mainly contributed by sales outside Java. Indocement's market share in Java was 36.9%, 4.1% higher than that in 2023. Meanwhile, outside Java, Indocement's market share was 21.0% in 2024, 0.8% higher than that in 2023.

Segmen Semen

Proses Produksi Semen

Segmen usaha semen menjadi usaha utama bagi Perseroan. Perseroan merupakan salah satu pemain terbesar di industri semen nasional. Kualitas produk, distribusi yang cukup merata dan citra merek yang baik merupakan kunci keberhasilan Perseroan di segmen usaha semen.

Pada 2024, kapasitas terpasang produksi semen Perseroan mencapai 33,5 juta ton per tahun yang tersebar di beberapa lokasi. Saat ini Perseroan mengoperasikan fasilitas produksi yang tersebar di enam wilayah, yaitu Kabupaten Bogor, Jawa Barat; Kabupaten Cirebon, Jawa Barat; Kabupaten Kotabaru, Kalimantan Selatan; Maros, Sulawesi Selatan; Grobogan, Jawa Tengah; dan Banyuwangi, Jawa Timur. Hasil produksi dipasarkan dengan menggunakan merek Semen Tiga Roda, Semen Rajawali, Semen Jempolan, Duracem (semen slag), Semen Bosowa, Semen Grobogan, dan Mortar Tiga Roda.

Sebagai pemain utama di industri semen nasional, Perseroan berupaya untuk menetapkan standar yang tinggi dalam operasionalnya. Terlebih saat ini dimana tuntutan terhadap industri semen untuk dapat beroperasi dengan lebih ramah lingkungan, Perseroan terus meningkatkan komitmen keberlanjutannya.

Cement Segment

Cement Production Process

Cement business segment is the main business for the Company. The Company is one of the largest players in the national cement industry. Product quality, fairly even distribution, and favorable brand image are keys to the Company's success in cement business segment.

In 2024, the Company's installed cement production capacity reached 33.5 million tons per year spread across some locations. Currently, the Company operates production facilities located across six regions, namely Bogor Regency, West Java; Cirebon Regency, West Java; Kotabaru Regency, South Kalimantan; Maros, South Sulawesi; Grobogan, Central Java; and Banyuwangi, East Java. The Company's cement production is marketed by using brands Semen Tiga Roda, Semen Rajawali, Semen Jempolan, Duracem (slag cement), Semen Bosowa, Semen Grobogan, and Mortar Tiga Roda.

As a major player in the national cement industry, the Company strives to set high standards in its operations. Particularly at this time wherein cement industry is demanded to operate in a more environmentally friendly manner, the Company continues to increase its sustainability commitment.

Perseroan berupaya untuk menciptakan proses produksi yang efektif dan efisien dengan meningkatkan aspek keberlanjutan dalam operasionalnya. Hal ini sejalan dengan komitmen Perseroan untuk terus menekan jumlah karbon yang dihasilkan dari proses produksi semen, salah satunya dengan meningkatkan penggunaan bahan baku dan bahan bakar alternatif.

Tidak hanya dalam proses produksi, Perseroan juga berupaya untuk menghasilkan produk semen yang lebih ramah lingkungan. Indocement juga terus mendorong pengembangan semen ramah lingkungan dengan terus melakukan inovasi. Saat ini, Indocement tercatat memiliki beberapa jenis produk yang masuk kategori semen ramah lingkungan, antara lain Semen tipe PPC dan PCC, Semen Hidraulis, dan Semen Slag.

Selain produk semen, Perseroan juga merambah pada produk mortar untuk menjawab kebutuhan pelanggan, khususnya pelanggan segmen komersial yang membutuhkan jenis semen yang lebih praktis dan efisien namun tetap memiliki kualitas yang tinggi. Produksi mortar yang dipasarkan oleh Perseroan menggunakan merek dagang TR-10 Mortar Serbaguna, TR-15 Thinbed/Perekat Bata Ringan, TR-18 Perekat Bata Ringan/daya rekat kuat dan tipis saat diaplikasikan, TR-20 Plester Plus/Plester Bata Ringan, dan TR-30 Acian Putih Mortar.

The Company strives to create an effective and efficient production process by increasing sustainability aspects in its operations. This is in line with the Company's commitment to continuously reducing the amount of carbon generated by cement production process, one of which is by increasing the use of raw materials and alternative fuels.

Not only in production process, the Company also strives to produce more environmentally friendly cement products. Indocement also continues to encourage the development of environmentally friendly cement by continuing to do innovation. Currently, Indocement has several types of products that fall into the environmentally friendly cement category, including PPC and PCC type Cement, Hydraulic Cement, and Slag Cement.

In addition to cement products, the Company also enters into mortar products to address customer needs, particularly customers in the commercial segment who require a more practical and efficient yet high quality type of cement. The Company's mortar marketed under the brand TR-10 Mortar Serbaguna, TR-15 Thinbed/Perekat Bata Ringan, TR-18 Perekat Bata Ringan/strong and thin adhesion when applied, TR-20 Plester Plus/Plester Bata Ringan, and TR-30 Acian Putih Mortar.

tahun terakhir. Perseroan meyakini, di tengah kondisi industri semen yang sangat menantang dengan tingkat persaingan yang sangat tinggi, efisiensi merupakan hal wajib yang harus dilakukan untuk mempertahankan tingkat profitabilitas Perseroan.

Selain itu, Perseroan juga terus menjalankan inisiatif digitalisasi dan otomatisasi baik dalam proses produksi dan distribusi agar dapat memperoleh struktur biaya yang lebih efisien. Penggunaan *expert system* terus ditingkatkan dan saat ini mulai digunakan di Kompleks Pabrik Grobogan. Demikian juga dengan TIRO System yang terus diperbaharui fitur-fiturnya agar dapat semakin memudahkan tim penjualan dan juga *retailer* dalam mendistribusikan produk Perseroan.

Pada 2024, langkah efisiensi dilakukan dengan membuat perencanaan produksi yang terintegrasi dengan rencana distribusi. Hal ini ditujukan agar Perseroan dapat memperoleh efisiensi dalam biaya distribusi dan logistik. Selain itu, Perseroan juga berupaya untuk mengoptimalkan portofolio merek yang dimilikinya, antara lain dengan tetap mempertahankan merek Semen Grobogan karena diyakini telah memiliki pasar tersendiri, khususnya di wilayah domisili merek tersebut.

challenging cement industry conditions with very high competition level, efficiency is mandatory to maintain the Company's profitability level.

Furthermore, the Company also continues to carry out digitalization and automation initiatives in both production and distribution processes to obtain a more efficient cost structure. The use of expert systems continues to be enhanced and is currently started to be used at Grobogan Factory. Likewise, TIRO System has its features continuously updated to facilitate sales team and retailers to distribute the Company's products.

In 2024, efficiency measures were conducted by creating production planning integrated with the distribution plans. This was aimed at enabling the Company to gain efficiency in distribution and logistics costs. In addition, the Company also seeks to optimize its brand portfolio, including by maintaining Semen Grobogan brands as the Company believes these brands have their own markets, especially in the brands' domicile areas.

Indocement menjalankan kegiatan usaha di bidang Beton Siap-Pakai (RMC) melalui entitas anak PT Pionirbeton Industri (PBI). Segmen ini merupakan bagian dari integrasi bisnis yang dijalankan Perseroan.

PBI mengembangkan berbagai produk inovatif yang ditujukan untuk *niche market*. Selain itu, PBI juga menyediakan berbagai jenis produk RMC yang ditujukan untuk berbagai kebutuhan dan berbagai segmen pelanggan, mulai dari ritel hingga komersial. Adapun produk yang ditawarkan oleh PBI, antara lain:

1. B-0 dan K-100 adalah mutu beton yang digunakan untuk konstruksi non-struktural;
2. K-125, K-150, K-175, K-200, K-225, K-250, K-275, dan K-300 adalah mutu beton untuk konstruksi struktural (pelat lantai, balok, kolom, jalan, dsb.);

Ready-Mix Concrete Segment

Ready-Mix Concrete Production Process

Indocement carries out Ready-Mix Concrete (RMC) business activities through its subsidiary, PT Pionirbeton Industri (PBI). This segment is part of business integration carried out by the Company.

PBI develops various innovative products aimed at niche market. In addition, PBI also provides various types of RMC products aimed at various needs and various customer segments, from retail to commercial. The products offered by PBI are:

1. B-0 and K-100 refer to concrete quality used for non-structural construction;
2. K-125, K-150, K-175, K-200, K-225, K-250, K-275, and K-300 refer to concrete quality for structural construction (floor plates, beams, columns, roads, etc.);

3. K-350, K-325, K-375, K-400, K-450, dan K-500 adalah beton untuk konstruksi khusus/pratekan;
4. K-300, K-350, K-400, dan K-450 dengan spesifikasi percepatan kuat tekan 1 hari, 3 hari, dan 7 hari;

6. FS 45 normal untuk beton *rigid construction*;
7. K-600 s.d K-800: merupakan mutu beton yang digunakan untuk gedung pencakar langit (gedung tinggi dengan lebih dari 30 lantai) yang memungkinkan pengurangan dimensi balok, meningkatkan manfaat ekonomis bagi pemilik dengan kapasitas ruang yang lebih tinggi;
8. *Self-compacting concrete* yang merupakan beton yang dapat mengalir dan tidak memerlukan proses pemadatan. Sangat cocok untuk elemen konstruksi yang memiliki tulangan rapat atau lokasi yang sulit dijangkau;
9. Beton Poros yang merupakan beton khusus dengan porositas tinggi dimana memungkinkan air dapat mengalir melalui celah-celah perkerasan dengan baik. Cocok untuk trotoar pejalan kaki dan tempat parkir mobil terbuka yang mengalirkan air ke tanah sehingga dapat menghindari banjir dan untuk menampung air hujan;

Proses Produksi Beton Siap-Pakai:

1. Bahan baku pembuatan beton siap-pakai seperti semen *portland*, pasir, *split*, *fly-ash*, dan *admixture* yang sesuai dengan standar yang berlaku disimpan di area *batching plant*;
2. Operator di Beton Control Center (BCC) mengoperasikan sistem otomatisasi jarak jauh dari kantor pusat ke setiap *batching plant* untuk memulai proses pembuatan beton siap-pakai sesuai dengan spesifikasi dan pemesanan dari pelanggan. Proses dimulainya produksi ditandai dengan pembunyian sirene di *batching plant*;

Ready-Mix Concrete Production Process:

1. Raw materials for ready-mix concrete production such as portland cement, sand, split, fly-ash, and admixture that meet the applicable standards are stored in the batching plant area;
2. Operator at Beton Control Center (BCC) operates a remote automated system from the head office to start the process of ready-mix concrete production at each batching plant according to the customer specifications and orders. The production process is started when the siren at the batching plant goes off;

3. Sistem secara otomatis akan memulai proses produksi dan semua peralatan. Operator BCC melakukan pengawasan pada sistem untuk memastikan proses produksi yakni penimbangan material secara otomatis dan komposisi yang *ter-loading* sesuai dengan spesifikasi; dan
4. Beton siap-pakai dikirim menggunakan truk *mixer*, dimana posisi dan kondisi setiap truk *mixer* dapat dipantau melalui GPS oleh operator di BCC.

Salah satu keunggulan bersaing PBI adalah karena didukung oleh Indocement yang dikenal memiliki kualitas prima. Selain itu, PBI juga menggunakan bahan baku seperti pasir, air, maupun agregat dengan kualitas terbaik. Dalam proses produksi, PBI juga telah menggunakan teknologi modern yang minim intervensi manusia, sehingga kualitas beton yang dihasilkan lebih terjamin. PBI juga didukung oleh riset yang sangat kuat untuk menghasilkan bahan aditif yang sesuai dengan jenis mutu beton yang diproduksi.

Strategi Segmen Beton Siap-Pakai

Pada 2024, pasar RMC belum mengalami pertumbuhan yang signifikan. Hal ini disebabkan kondisi bisnis properti, khususnya *high-rise building*, apartemen, mal, dan perkantoran masih dalam kondisi kelebihan pasokan, khususnya di kota-kota besar seperti Jakarta dan Surabaya. Namun demikian, pasar RMC mengalami pertumbuhan yang cukup baik di wilayah *suburbs* (pinggir kota), seperti Bekasi, Karawang, dan Jawa Tengah.

Sejalan dengan hal tersebut, pasar RMC juga telah mengalami perubahan dimana saat ini pasar dari kalangan Usaha Mikro, Kecil, dan Menengah (UMKM) tumbuh dengan sangat baik. Karena itu, PBI berupaya untuk membagi fokusnya dengan menggarap pasar UMKM dan ritel serta terus menjalin hubungan dengan pelanggan-pelanggan besar.

Untuk meningkatkan penetrasi di segmen UMKM dan ritel, pada 2024 PBI mengubah strategi komunikasinya dengan mengoptimalkan penggunaan media sosial, seperti Instagram, Facebook, dan TikTok. Dalam hal ini, PBI menggandeng *influencer* dan figur publik sebagai *endorser* produk PBI.

Selain itu, PBI juga melakukan inovasi dengan menghasilkan produk-produk yang lebih sesuai dengan kebutuhan pelanggan dan beton ramah lingkungan, seperti penggunaan *granulated blast furnace slag* (GBFS) dan semen hidraulis. PBI mulai masuk ke pasar dengan penetrasi ramah lingkungan. PBI merupakan salah

3. The system will automatically start the production process and all equipment. BCC operators supervise the system to ensure the smooth process of production namely automatic weighing of loaded ingredients and compositions to specifications; and
4. The finished ready-mix concrete is delivered in ready-mixed concrete trucks whose position and condition can be monitored through GPS by operators at BCC.

One competitive advantage of PBI is the fact that it is supported by Indocement, which is known for its prime quality. In addition, PBI also uses raw materials such as sand, water, and aggregates with excellent quality. In the production process, PBI also applies modern technology with least human intervention, and thus, producing concrete with more reliable quality. PBI is also supported strongly by researches to come up with additive materials that are suitable for the types of concrete quality produced.

Ready-Mix Concrete Segment Strategy

In 2024, RMC market did not show any significant growth. This was due to the condition of property business, particularly high-rise building, apartment, mall, and office that had oversupply, especially in big cities such as Jakarta and Surabaya. However, RMC market grew relatively good in suburban areas, such as Bekasi, Karawang, and Central Java.

In line with this matter, the RMC market also underwent some changes in which the current market from Micro, Small, and Medium Enterprise (MSME) sector grew extremely good. Therefore, PBI tries to divide its focus by working on MSME and retail markets while continuing to build relationships with large customers.

To increase penetration in MSME and retail segments, in 2024, PBI changed its communication strategy by optimizing the use of social media, such as Instagram, Facebook, and TikTok. In this case, PBI cooperated with *influencer* and public figure as *endorsers* of PBI products.

Moreover, PBI also innovates by producing products more tailored to customer needs and environmentally friendly concrete, such as the use of *granulated blast furnace slag* (GBFS) and hydraulic cement. PBI starts to enter the market with environmentally friendly penetration. PBI is one of the pioneers for environmentally friendly

satu pionir untuk beton ramah lingkungan. Edukasi ke pelanggan juga tidak mudah, tetapi PBI secara konsisten menyelenggarakan seminar, *workshop* yang mengundang *civitas academic*, dan pameran yang bekerjasama dengan Indocement.

Pada 2024, PBI juga terus mendorong penjualan daring melalui situs web Toko Tiga Roda dan penjualan telemarketing. Strategi ini telah dijalankan PBI sejak pandemi COVID-19 melanda Indonesia. Langkah ini telah menunjukkan hasil yang sangat baik dimana penjualan daring telah mengalami pertumbuhan dalam tiga tahun terakhir.

concrete. Educating customers is a challenging issue, but PBI consistently holds seminars, workshops inviting academic community, and exhibitions in collaboration with Indocement.

In 2024, PBI also continued to encourage online sales through Toko Tiga Roda website and telemarketing sales. This strategy has been implemented by PBI since the COVID-19 pandemic hit Indonesia. These steps show excellent results wherein online sales have grown in the past three years.

Segmen Tambang Agregat

Proses Produksi Segmen Tambang Agregat

Aggregates Quarries Segment

Aggregates Quarries Segment Production Process

Segmen tambang agregat dikelola oleh dua entitas anak Perseroan, yaitu PT Mandiri Sejahtera Sentra mengelola tambang agregat yang berlokasi di Purwakarta, Jawa Barat, dan PT Tarabatuh Manunggal mengelola tambang agregat yang berlokasi di Cariu, Jawa Barat. Segmen ini ditujukan untuk mendukung segmen beton siap-pakai, dimana kedua entitas anak tersebut harus dapat memastikan ketersediaan jumlah dan kualitas salah satu bahan baku utama pada industri beton siap-pakai, yaitu andesit dan *M-sand* (pasir industri) yang digunakan untuk proses produksi RMC, dan umumnya digunakan dalam proyek konstruksi.

Namun, dengan kapasitas yang dimiliki, kedua entitas anak tersebut juga dapat memasarkan produknya ke pemain lain yang membutuhkan jenis batu tersebut. Terlebih di 2024 produksi agregat mengalami peningkatan yang cukup baik seiring dengan membaiknya produksi di tambang Purwakarta.

The aggregates quarries segment is managed by two of the Company's subsidiaries, namely PT Mandiri Sejahtera Sentra managing aggregates quarries located in Purwakarta, West Java, and PT Tarabatuh Manunggal managing aggregates quarries located in Cariu, West Java. This segment is aimed at supporting ready-mix concrete segment, in which the two subsidiaries must ensure the availability and quality of one of the main raw materials of ready-mix concrete industry, namely andesite and *M-sand* (manufactured sand) used in RMC production process which is generally used in construction projects.

However, with their own capacity, the two subsidiaries can also market their products to other players that are in need of this type of rock. Moreover, in 2024, aggregates production increased fairly good, along with the improving production at Purwakarta quarry.

Strategi Segmen Tambang Agregat

Pada 2024, bisnis agregat tumbuh cukup baik. Hal ini sejalan dengan proyek infrastruktur pemerintah serta proyek swasta yang kembali bergulir di 2024. Demikian juga dengan sektor konstruksi, baik BUMN maupun swasta yang mulai tumbuh, khususnya pada semester kedua 2024.

Namun demikian, bisnis agregat menghadapi tantangan yang tidak ringan. Terjadinya La Nina cukup memberikan dampak bagi produksi agregat karena lahan tambang produksi menjadi basah dan lengket. Menghadapi tantangan tersebut, Perseroan mempersiapkan pematangan lahan kerja dengan baik serta membuat saluran air yang terarah sehingga area produksi tetap bisa dioperasikan. Di 2024, Perseroan mulai membidik pasar eksternal, karena kebutuhan internal sudah dapat dipenuhi. Volume produksi cukup baik ditambah lokasi Pamoyanan yang strategis menjadi salah satu keunggulan kompetitif Perseroan.

Kinerja dan Profitabilitas Segmen Tambang Agregat

Pada 2024, produksi agregat Perseroan meningkat menjadi 2.337 ribu ton dari tahun sebelumnya sebanyak 2.322 ribu ton. Peningkatan produksi tersebut juga diimbangi dengan peningkatan penjualan menjadi sebanyak 2.116 ribu ton dari tahun sebelumnya sebanyak 2.075 ribu ton.

Aggregates Quarries Segment Strategy

In 2024, the aggregates business grew relatively good. This was in line with the government's and private's infrastructure projects that resumed in 2024. Likewise, the construction sector, both State-Owned Enterprise and private, began to grow, particularly in the second semester of 2024.

Nevertheless, the aggregates business encountered significant challenges. The occurrence of La Nina had a considerable impact on aggregates production due to the production mining land become wet and sticky. To address this challenge, the Company prepared better land preparation and create direct drainage channels so the production area can still be operated. In 2024, the Company began targeting external markets, as the internal demands were already fulfilled. The reasonably good production volume with its strategic location of Pamoyanan is one of the Company's competitive advantages.

Aggregates Quarries Segment Performance and Profitability

In 2024, the Company's aggregates production increased by 2,337 thousand tons from that of the previous year of 2,322 thousand tons. Such production increase was also followed by an increase in sales to 2,116 thousand tons from 2,075 thousand tons in the previous year.

Segmen usaha semen masih menjadi kontributor utama bagi pendapatan neto Perseroan 2024, yaitu sebesar Rp16.914 miliar atau setara dengan 91,2% dari total pendapatan neto Perseroan. Dibandingkan tahun sebelumnya, pendapatan neto dari segmen usaha semen mengalami peningkatan 2,5%, di mana pada 2023 pendapatan neto dari segmen usaha semen tercatat sebesar Rp16.509 miliar. Kenaikan tersebut terutama didorong oleh peningkatan volume penjualan sebagai hasil dari strategi pemasaran Perseroan yang difokuskan pada pengelolaan portofolio merek. Keragaman merek tersebut memungkinkan penerapan strategi pemasaran yang lebih tepat sasaran di setiap wilayah, sehingga produk semen Perseroan tetap menjadi pilihan utama pelanggan.

Cement business segment was still the main contributor to the Company's net revenues in 2024, which was Rp16,914 billion or equivalent to 91.2% of the Company's total net revenues. Compared to the previous year, the net revenues from cement business segment increased by 2.5%, in which in 2023, the net revenues from cement business segment were recorded at Rp16,509 billion. The increase was primarily driven by higher sales volumes resulting from the Company's marketing strategy, which focused on managing brand portfolio. This brand diversity enabled the implementation of more targeted marketing strategies in every area, ensuring the Company's cement products remained the customers' preferred choice.

Pada 2024 segmen usaha beton siap-pakai juga mengalami peningkatan pendapatan neto sebesar 14,3% menjadi Rp1.560 miliar. Namun, segmen usaha agregat mengalami penurunan pendapatan neto sebesar 1,3% menjadi Rp75 miliar.

In 2024, the ready-mix concrete business segment also experienced an increase in net revenue of 14.3%, reaching Rp1,560 billion. However, the aggregates business segment saw a decrease in net revenue of 1.3%, amounting to Rp75 billion.

Pendapatan neto Perseroan pada 2024 utamanya masih berasal dari penjualan dalam negeri, yaitu mencapai Rp18.355 miliar atau mencapai 99,0% dari total pendapatan neto Perseroan. Pendapatan di Pulau Jawa masih mendominasi dengan peningkatan sebesar Rp763 miliar atau 6,4% menjadi Rp12.654 miliar di 2024. Kenaikan ini sejalan dengan meningkatnya pangsa pasar berkat kontribusi dari Semen Grobogan, merek lokal milik entitas anak yang diakuisisi pada akhir 2023 dan telah memiliki pasar tersendiri di wilayah tersebut.

Pada 2024, pendapatan ekspor turun 44,5% menjadi Rp194 miliar, terutama akibat penurunan ekspor klinker yang kurang kompetitif secara harga dibandingkan negara lain.

The Company's net revenue in 2024 primarily originated from domestic sales, amounting to Rp18,355 billion, which accounts for 99.0% of the Company's total net revenue. Revenue from Java Island continued to dominate, with an increase of Rp763 billion or 6.4%, reaching Rp12,654 billion in 2024. This increase aligns with the growing market share, driven by contributions from Semen Grobogan, a local brand owned by a subsidiary acquired at the end of 2023, which already has an established market presence in the region.

In 2024, export revenue decreased by 44.5% to Rp194 billion, primarily due to a reduction in clinker exports, which were less price-competitive compared to other countries.

Beban pokok pendapatan Perseroan pada 2024 tercatat sebesar Rp12.488 miliar, meningkat 3,2% dari periode sebelumnya sebesar Rp12.103 miliar. Kenaikan ini sejalan dengan peningkatan volume penjualan semen domestik serta penggunaan bahan bakar dan bahan baku alternatif dalam produksi, sesuai peta jalan penurunan emisi CO₂ dan strategi efisiensi operasional Perseroan.

The Company's cost of goods sold in 2024 was recorded at Rp12,488 billion, reflecting an increase of 3.2% from the previous period's figure of Rp12,103 billion. This increase was in line with higher domestic cement sales volumes and the use of alternative fuels and raw materials in production, aligning with the Company's roadmap for reducing CO₂ emissions and operational efficiency strategies.

Laba Bruto

Laba bruto Perseroan pada 2024 tercatat sebesar Rp6.061 miliar, meningkat 3,7% dibandingkan tahun sebelumnya sebesar Rp5.847 miliar. Peningkatan ini terutama didorong oleh pertumbuhan pendapatan neto yang lebih tinggi dibandingkan kenaikan beban pokok pendapatan pada periode yang sama, mencerminkan keberhasilan Perseroan dalam menjaga efisiensi operasional dan meningkatkan kinerja penjualan.

Beban Usaha

Beban usaha Perseroan, yang terdiri dari beban penjualan serta beban umum dan administrasi, tercatat sebesar Rp3.725 miliar pada 2024. Jumlah tersebut mengalami kenaikan sebesar Rp99 miliar atau 2,7% dibandingkan tahun sebelumnya yang mencapai Rp3.626 miliar. Peningkatan ini terutama disebabkan oleh kenaikan beban penjualan sebesar Rp85 miliar.

Beban Penjualan

Gross Profit

The Company's gross profit in 2024 was recorded at Rp6,061 billion, an increase of 3.7% compared to the previous year's amount of Rp5,847 billion. This increase was primarily driven by net revenues growth that exceeded the rise in the cost of revenues during the same period, reflecting the Company's success in maintaining operational efficiency and improving sales performance.

Operating Expenses

The Company's operating expenses, comprising selling expenses and general and administrative expenses, were recorded at Rp3,725 billion in 2024. This represents an increase of Rp99 billion or 2.7% compared to the previous year's figure of Rp3,626 billion. The increase was primarily due to higher selling expenses, which rose by Rp85 billion.

Sementara itu, beban umum dan administrasi pada 2024 tercatat sebesar Rp740 miliar, naik 2,0% dibandingkan tahun sebelumnya sebesar Rp726 miliar. Kenaikan tersebut terutama disebabkan oleh meningkatnya biaya gaji, upah, dan kesejahteraan karyawan, diimbangi oleh pembalikan cadangan kerugian penurunan nilai piutang usaha selama periode tersebut.

Meanwhile, general and administrative expenses in 2024 were recorded at Rp740 billion, an increase of 2.0% compared to Rp726 billion in the previous year. This rise was primarily due to higher employee salaries, wages and employee benefits, offset by the reversal of allowance for impairment loss on trade receivables during the period.

Laba sebelum Beban Pajak Penghasilan

Laba sebelum beban pajak penghasilan yang dibukukan Perseroan di 2024 tercatat sebesar Rp2.463 miliar, meningkat 2,8% dari tahun sebelumnya sebesar Rp2.396 miliar.

Profit before Income Tax

The profit before income tax recorded by the Company in 2024 was Rp2,463 billion, representing an increase of 2.8% from the previous year's amount of Rp2,396 billion.

Beban Pajak Penghasilan

Jumlah beban pajak penghasilan Perseroan di 2024 tercatat sebesar Rp455 miliar, meningkat 2,0% dari tahun sebelumnya Rp446 miliar.

Laba Tahun Berjalan

Perseroan mencatatkan laba tahun berjalan sebesar Rp2.008 miliar, meningkat 3,0% dibandingkan tahun sebelumnya yang sebesar Rp1.950 miliar. Pertumbuhan ini terutama didukung oleh kenaikan pendapatan neto serta keberhasilan Perseroan dalam mengoptimalkan biaya operasional dan distribusi melalui perencanaan produksi serta distribusi yang lebih efisien.

Penghasilan Komprehensif Lain

Pada 2024, Perseroan mencatat penghasilan komprehensif lain sebesar Rp2.020 miliar, mengalami peningkatan 3,5% dibandingkan dengan tahun sebelumnya Rp1.952 miliar. Kenaikan ini berasal dari kenaikan keuntungan pengukuran kembali liabilitas imbalan kerja.

Laba per Saham Dasar

Seiring dengan meningkatnya laba tahun berjalan yang dibukukan Perseroan di 2024, laba per saham dasar Perseroan pada 2024 juga mengalami peningkatan menjadi Rp591,49 dari periode sebelumnya sebesar Rp568,41 atau meningkat 4,1%.

Income Tax Expense

The total income tax expense of the Company in 2024 was recorded at Rp455 billion, reflecting an increase of 2.0% from the previous year's figure of Rp446 billion.

Profit for the Year

The Company recorded a profit of the year of Rp2,008 billion for the year, representing a 3.0% increase compared to Rp1,950 billion in the previous year. This growth was primarily driven by higher net revenues and the Company's successful optimization of operational and distribution costs through more efficient production and distribution planning.

Other Comprehensive Income

In 2024, the Company recorded other comprehensive income of Rp2,020 billion, an increase of 3.5% compared to Rp1,952 billion in the previous year. This increase was mainly due to higher re-measurement gain on employee benefit liabilities.

Earnings per Share

In line with the increase in profit for the year recorded by the Company in 2024, the earnings per share of the Company also increased to Rp591.49 from the previous period's figure of Rp568.41, reflecting an increase of 4.1%.

Pada akhir 2024, saldo kas dan setara kas Perseroan tercatat naik sebesar 41,2%, menjadi Rp4.497 miliar dari posisi awal tahun yang tercatat Rp3.185 miliar.

Arus Kas dari Aktivitas Operasi

Pada 2024, arus kas bersih diperoleh dari aktivitas operasi tercatat sebesar Rp3.348 miliar, turun dibandingkan tahun sebelumnya sebesar Rp3.485 miliar. Penurunan tersebut terutama disebabkan oleh meningkatnya pembayaran kepada pemasok, kontraktor, karyawan dan pihak lainnya, sejalan dengan peningkatan aktivitas produksi dan operasional setelah akuisisi PT Semen Grobogan pada akhir 2023. Penurunan tersebut diimbangi oleh peningkatan penerimaan dari pelanggan yang sejalan dengan pertumbuhan pendapatan Perseroan.

Arus Kas dari Aktivitas Investasi

Arus kas bersih yang digunakan untuk aktivitas investasi pada 2024 tercatat sebesar Rp464 miliar, turun dibandingkan tahun sebelumnya yang sebesar Rp1.717 miliar. Penurunan penggunaan kas ini terutama disebabkan oleh besarnya pembayaran pada 2023 terkait akuisisi entitas anak, PT Semen Grobogan, pada akhir tahun serta peningkatan perolehan aset tetap untuk pembangunan fasilitas bahan bakar dan bahan baku alternatif. Penurunan tersebut diimbangi oleh meningkatnya penerimaan dividen tunai dari entitas asosiasi pada 2024.

Arus Kas dari Aktivitas Pendanaan

Arus kas bersih yang digunakan untuk aktivitas pendanaan pada 2024 tercatat sebesar Rp1.588 miliar, turun dibandingkan tahun sebelumnya sebesar Rp3.095 miliar. Penurunan ini terutama disebabkan oleh berkurangnya pembayaran utang jangka panjang, pinjaman kepada pihak ketiga, serta pembayaran dividen tunai, diimbangi oleh adanya pembelian saham treasury yang dilakukan Perseroan pada 2024.

At the end of 2024, the Company's cash and cash equivalents recorded an increase of 41.2%, rising to Rp4,497 billion from the beginning of the year, which was recorded at Rp3,185 billion.

Cash Flows from Operating Activities

In 2024, net cash flow provided from operating activities was recorded at Rp3,348 billion, a decrease compared to Rp3,485 billion in the previous year. This decline was primarily due to increased payments to suppliers, contractors, employees and other parties, driven by heightened production and operational activities following the acquisition of PT Semen Grobogan at the end of 2023. The decline was partially offset by increased cash receipts from customers, aligning with the Company's revenue growth.

Cash Flows from Investing Activities

Net cash flow used in investing activities in 2024 was recorded at Rp464 billion, down from Rp1,717 billion in the previous year. This decrease was primarily due to higher payments in 2023 related to the acquisition of a subsidiary, PT Semen Grobogan, at the end of the year, as well as increased capital expenditures for fixed assets to construct facilities for alternative fuel and raw materials. The decline was partially offset by higher cash dividend receipts from associated entities in 2024.

Cash Flows from Financing Activities

Net cash flow used in financing activities in 2024 was recorded at Rp1,588 billion, decreasing compared to Rp3,095 billion in the previous year. This decline was primarily due to reduced payments of long-term other payables, loans to third parties and cash dividends, offset by the Company's purchase of treasury shares in 2024.

At the end of 2024, the Company's accounts receivable was recorded at Rp3,064 billion. This amount represents an increase of 2.2% compared to the previous period's figure of Rp2,999 billion.

The Company is committed to managing its accounts receivable by implementing structured collection activities. Additionally, the Company conducts periodic reviews of the collectibility of its receivables.

At the end of 2024, 64.7% of the Company's accounts receivable was classified as current. Meanwhile, receivables that were overdue for more than 365 days amounted to Rp229 billion, which is equivalent to 7.5% of the total accounts receivable. To address this, the Company has established an allowance for impairment losses amounting to Rp226 billion.

Perseroan berupaya untuk terus meningkatkan kolektibilitas terhadap piutang yang diberikan kepada pelanggan. Perseroan memiliki strategi khusus untuk meningkatkan kolektibilitas, antara lain dengan menerapkan kebijakan untuk memastikan penjualan produk hanya dilakukan kepada pelanggan yang dapat dipercaya dan dapat dibuktikan kepercayaannya, atau mempunyai sejarah kredit yang baik, membatasi jumlah kredit untuk pelanggan tertentu, seperti mengharuskan distributor dan pelanggan untuk memberikan uang muka atau bank garansi. Selain itu, saldo piutang dimonitor secara terus-menerus untuk mengurangi kemungkinan piutang yang tidak tertagih.

The Company continues to enhance the collectibility of receivables extended to customers. It has implemented specific strategies to improve collectibility, including policies to ensure that product sales are conducted only with trustworthy customers who have a proven track record or good credit history. The Company also limits credit amounts for certain customers, requiring distributors and customers to provide advance payments or bank guarantees. Furthermore, the accounts receivable balance is continuously monitored to reduce the likelihood of uncollectible receivables.

Kebijakan Struktur Modal

Untuk menunjang operasional dan rencana pengembangan usahanya, Perseroan berupaya memiliki permodalan yang kuat dan sehat. Karena itu, kebijakan struktur modal yang diterapkan Perseroan adalah dengan bertumpu pada ekuitas atau modal sendiri. Hal ini merupakan langkah mitigasi yang dilakukan Perseroan dalam mengantisipasi ketidakstabilan industri dan pasar. Selain itu, dengan kebijakan struktur modal tersebut, Perseroan dapat memaksimalkan nilai bagi pemangku kepentingan.

Dasar Pemilihan Kebijakan Manajemen atas Struktur Modal

Kebijakan manajemen atas struktur modal didasarkan untuk melindungi kemampuan Perseroan dalam mempertahankan kelangsungan usaha sehingga dapat tetap memberikan imbal hasil bagi pemegang saham dan manfaat bagi pemangku kepentingan lainnya dan mempertahankan struktur permodalan yang optimal untuk mengurangi biaya modal.

Perseroan mematuhi peraturan pajak yang berlaku, yaitu Peraturan Menteri Keuangan Nomor 169/PMK.010/2015, dimana rasio maksimum untuk *debt-to-equity* (DER) yang diperbolehkan untuk tujuan pajak adalah 4:1. Pada 2024, DER yang dimiliki oleh Perseroan adalah 0,38x. Dengan kondisi tersebut, rasio utang terhadap modal Perseroan masih berada pada kategori yang baik.

Ikatan Material untuk Investasi Barang Modal

Selama 2024, Perseroan tidak memiliki ikatan yang material dengan pihak manapun terkait investasi barang modal.

Investasi Barang Modal yang Direalisasikan pada Tahun Buku

Capital Structure Policy

To support its operations and business development plans, the Company strives to maintain strong and healthy capitalization. Therefore, the capital structure policy implemented by the Company relies on equity or its own capital. This approach serves as a mitigation measure by the Company to anticipate industry and market instability. Additionally, with this capital structure policy, the Company can maximize value for stakeholders.

Basis for Management's Capital Structure Policy

The management's policy on capital structure is based on protecting the Company's ability to maintain business continuity, thereby continuing to provide returns to shareholders and benefits to other stakeholders, while maintaining an optimal capital structure to reduce the cost of capital.

The Company complies with the applicable tax regulations, specifically the Minister of Finance Regulation No. 169/PMK.010/2015, which stipulates a maximum debt-to-equity ratio (DER) of 4:1 for tax purposes. In 2024, the Company's DER was recorded at 0.38x. Under these conditions, the Company's debt-to-equity ratio remains within a favorable category.

Material Commitments for Capital Expenditures

During 2024, the Company did not have any material commitments with any parties related to capital expenditures.

Perbandingan Target dan Realisasi

Perseroan menetapkan sejumlah target yang hendak dicapai di 2024. Target tersebut disusun berdasarkan sejumlah asumsi dan prediksi baik dari pihak internal Perseroan maupun eksternal. Namun demikian, seiring dengan berjalannya waktu, asumsi dan prediksi yang digunakan Perseroan dalam penyusunan target dapat mengalami perubahan. Karena itu, target-target yang disusun Perseroan juga bersifat dinamis dan dapat disesuaikan.

Target yang ditetapkan Perseroan juga harus mendapat persetujuan dari Dewan Komisaris dan pemegang saham pengendali, Heidelberg Materials AG.

Throughout 2024, the Company has realized capital expenditures amounting to Rp1,133,541 billion. These capital investments are primarily aimed at supporting the Company's operations.

Information and Material Facts Occurring After the Accountant's Report Date

There are no material information or facts that have occurred after the date of the accountant's report.

Comparison of Targets and Realizations

The Company has established a number of targets to be achieved in 2024. These targets were formulated based on various assumptions and predictions from both internal and external sources. However, as time progresses, the assumptions and predictions used by the Company in setting these targets may change. Therefore, the targets set by the Company are also dynamic and can be adjusted.

The targets established by the Company must also receive approval from the Board of Commissioners and the controlling shareholder, Heidelberg Materials AG.

Realisasi dari beberapa target Perseroan di 2024 adalah berikut:

The realization of several targets set by the Company in 2024 is as follows:

Uraian Description	Satuan Unit	Target 2024 Target in 2024	Realisasi 2024 Realization in 2024

Produksi Semen

Indocement menargetkan produksi semen sebanyak 20-21 juta ton pada 2024. Namun demikian, hingga akhir 2024, produksi semen Perseroan terealisasi sebanyak 19,6 juta ton. Tidak tercapainya target produksi semen tersebut disebabkan oleh koreksi pasar sebagai dampak adanya dua acara nasional di 2024.

Cement Production

Indocement set a target to produce 20–21 million tons of cement in 2024. However, by the end of 2024, the Company realized a total cement production of 19.6 million tons. The shortfall in achieving the production target was due to a market correction triggered by two major national events that took place during the year.

Pendapatan Neto

Pada 2024, Perseroan membukukan pendapatan neto sebesar Rp18.549 miliar. Pencapaian tersebut masih berada di bawah target yang ditetapkan yaitu sebesar Rp21.391 miliar. Hal tersebut dikarenakan menurunnya penjualan selama 2024.

Net Revenue

In 2024, the Company recorded a net revenue of Rp18,549 billion. This achievement was below the set target of Rp21,391 billion. The shortfall was due to a decline in sales throughout the year 2024.

Laba Tahun Berjalan

Laba tahun berjalan yang dibukukan Perseroan pada 2024 tercatat sebesar Rp2.008 miliar, lebih tinggi dibandingkan target yang ditetapkan sebesar Rp1.956 miliar. Keberhasilan tersebut utamanya disebabkan efisiensi biaya dan efektivitas pengelolaan operasional yang dilakukan perseron di tengah kelesuan pasar.

Profit for the Year

In 2024, the Company recorded a profit for the year of Rp2,008 billion, which exceeded the set target of Rp1,956 billion. This achievement was mainly attributable to the Company's cost efficiency measures and effective operational management, despite the challenging market conditions.

Struktur Modal

Struktur modal Perseroan tahun 2024 ditargetkan tetap bertumpu pada modal sendiri (ekuitas), sedangkan komponen liabilitas menjadi penunjang. Secara umum, target tersebut dapat direalisasi pada 2024. Namun demikian, jumlah ekuitas dan liabilitas serta aset yang dibukukan Perseroan pada 2024 belum dapat memenuhi target yang ditetapkan.

Pada 2024, jumlah aset Perseroan terealisasi sebesar Rp30.420 miliar, jumlah tersebut masih berada di bawah target sebesar Rp30.744 miliar. Hal tersebut disebabkan rendahnya pengeluaran barang modal.

Demikian juga dengan jumlah ekuitas yang terealisasi sebesar Rp22.114 miliar yang masih berada di bawah target sebesar Rp22.734 miliar. Tidak tercapainya target jumlah ekuitas tersebut disebabkan adanya program pembelian kembali saham.

Sedangkan pada komponen liabilitas, terealisasi di atas target, yaitu sebesar Rp8.306 miliar dari target sebesar Rp8.010 miliar. Tingginya realisasi liabilitas tersebut disebabkan peningkatan aktivitas produksi di akhir tahun 2024.

Proyeksi Satu Tahun ke Depan

Perseroan optimis menghadapi 2025. Terdapat sejumlah proyek strategis yang akan dijalankan di 2025 baik proyek pemerintah maupun swasta. Hal tersebut diharapkan dapat meningkatkan kebutuhan terhadap produk semen.

Selain itu, Perseroan juga berharap kondisi perekonomian global dan nasional dapat terus mengalami perbaikan sehingga industri properti dan konstruksi dapat kembali mengalami pertumbuhan.

Di 2025, Perseroan menetapkan target yang disusun berdasarkan asumsi eksternal dan mempertimbangkan kondisi internal. Perseroan menargetkan untuk meraih pertumbuhan volume penjualan semen hingga 20,9 juta ton yang sejalan dengan asumsi pertumbuhan industri semen. Dengan program efisiensi yang terus dijalankan, EBITDA diharapkan bertahan di level 20%–21% dan ROCE pada level 11,5%–12% yang menggambarkan target perbaikan timbal hasil yang lebih baik atas modal yang dipergunakan.

Capital Structure

The Company's capital structure in 2024 was targeted to remain primarily equity-based, with liabilities serving a supporting role. Overall, this target was achieved in 2024. However, the total equity, liabilities, and assets recorded by the Company fell short of the set targets.

In 2024, the Company's total assets amounted to Rp30,420 billion, which was below the target of Rp30,744 billion. This shortfall was primarily due to lower capital expenditure.

Similarly, the realized equity was Rp22,114 billion, still below the target of Rp22,734 billion. The underachievement in equity was mainly attributed to the implementation of a share buyback program.

On the other hand, the liability component exceeded the target, with a realization of Rp8,306 billion compared to the target of Rp8,010 billion. This higher-than-target realization was driven by increased production activities towards the end of 2024.

One-Year Projection

The Company is optimistic about facing the year 2025. There are several strategic projects planned for 2025, including both government and private sector initiatives. This is expected to increase the demand for cement products.

Additionally, the Company hopes that the global and national economic conditions will continue to improve, allowing the property and construction industries to experience growth once again.

In 2025, the Company has set targets based on external assumptions while considering internal conditions. The Company aims to achieve a growth in cement sales volume of up to 20.9 million tons, which aligns with the assumption of industry growth in cement. With ongoing efficiency programs, EBITDA is expected to remain at the level of 20%–21% and ROCE at 11.5%–12%, reflecting an improvement in the return on capital employed.

Kebijakan dan Pembagian Dividen

Kebijakan Dividen

Sesuai Undang-Undang Nomor 40 Tahun 2007 tentang Perseroan Terbatas, Indocement melakukan pembagian dividen berdasarkan keputusan RUPS Tahunan. Sebelum tahun buku keuangan berakhir, Perseroan juga dapat membagikan dividen interim yang ditetapkan oleh Direksi atas persetujuan Dewan Komisaris sepanjang diperbolehkan oleh Anggaran Dasar Perseroan. Pembagian dividen interim ditetapkan oleh Direksi dan disetujui oleh Dewan Komisaris. Ketika RUPS menetapkan pembagian dividen kepada pemegang saham, maka Perseroan wajib melakukan pembayaran paling lambat 30 hari setelah tanggal pengumuman.

Pembagian dividen merupakan upaya Perseroan untuk memberikan nilai tambah kepada seluruh pemegang saham dalam bentuk imbal hasil yang lebih baik kepada pemegang saham.

Dividen Tahun Buku 2023

Berdasarkan keputusan RUPS Tahunan yang diadakan pada 14 Mei 2024, dividen tunai dibagikan kepada pemegang saham Perseroan sebesar Rp90 per saham, tanpa memperhitungkan jumlah saham yang dikuasai Perseroan karena pembelian saham kembali. Sisa laba tahun berjalan tahun buku 2023 setelah pembagian dividen tunai tersebut akan dicatat sebagai bagian dari saldo laba ditahan yang belum ditentukan penggunaannya. Total dividen tunai yang dibagikan Perseroan kepada pemegang saham atas kinerja tahun buku 2023 adalah sebesar Rp308 miliar dan telah dibayarkan kepada pemegang saham pada 14 Juni 2024.

Dividend Policy and Distribution

Dividend Policy

According to Law No. 40 of 2007 on Limited Liability Companies, Indocement distributes dividends based on the Annual GMS resolutions. Before the fiscal year ends, the Company can also distribute interim dividends determined by the Board of Directors with the approval of Board of Commissioners as long as it is permitted by the Company's Articles of Association. Interim dividend distribution is determined by the Board of Directors and approved by the Board of Commissioners. When the GMS decides to distribute dividends to shareholders, the Company must make payments no later than 30 days after the announcement date.

Dividend distribution is the Company's effort to provide added value to all shareholders in form of better returns to shareholders.

Dividends for the 2023 Fiscal Year

Based on the resolutions adopted by the Annual GMS dated 14 May 2024, cash dividends distributed to the Company's shareholders in the amount of Rp90 per share, without considering the number of shares owned by the Company due to share buyback. The remaining profit for the year for 2023 fiscal year after the distribution of cash dividend was recorded as part of unappropriated retained earnings. The total cash dividend distributed by the Company to the shareholders for the 2023 fiscal year performance was Rp308 billion and was paid to the shareholders on 14 June 2024.

Perubahan Peraturan Perundang-Undangan yang Berdampak terhadap Perusahaan

Sepanjang 2024, terdapat sejumlah peraturan perundang-undangan yang diterbitkan oleh regulator yang berdampak pada Perseroan, antara lain:

Amendments to Laws and Regulations that Have an Impact on the Company

Throughout 2024, there were a number of laws and regulations issued by regulators that had an impact on the Company, among others:

No	Peraturan Regulation	Penjelasan Explanation	Pengaruh terhadap Indocement Impact on Indocement
1	Peraturan Menteri Hukum dan Hak Asasi Manusia Nomor 11 Tahun 2024 tentang Perubahan atas Peraturan Menteri Hukum dan Hak Asasi Manusia Nomor 22 Tahun 2023 Tentang Visa dan Izin Tinggal Minister of Law and Human Rights Regulation No. 11 of 2024 on Amendments to Minister of Law and Human Rights Regulation No. 22 of 2023 on Visas and Residence Permits	Dalam Permenkumham tersebut Direktorat Jenderal Imigrasi sebagai garda terdepan yang mengurus mengenai keimigrasian Indonesia memperkenalkan Visa Peralihan atau <i>Bridging Visa</i> . Visa ini berfungsi sebagai izin tinggal peralihan bagi Tenaga Kerja Asing (TKA) dan keluarga yang izin tinggalnya akan masa berlakunya, atau yang ingin mengubah status visanya, tanpa harus keluar dari Indonesia. In the Permenkumham, the Directorate General of Immigration as the frontline who takes care of Indonesian immigration introduces a Transitional Visa or Bridging Visa. This visa serves as a transitional residence permit for Foreign Workers (TKA) and their families whose residence permit will expire, or who want to change their visa status, without having to leave Indonesia.	Dalam Permenkumham tersebut, terdapat klausul terkait Exit Permit Only (EPO) TKA yang semula harus keluar Indonesia, kemudian masuk kembali dengan visa yang baru. Dengan <i>bridging</i> visa yang terbit di Kementerian, TKA tidak perlu EPO ke luar Indonesia, namun TKA sudah dapat mendapatkan visa baru dengan melakukan pengurusan di KemenkumHAM. Hal tersebut berdampak TKA dapat lebih produktif pada pekerjaannya dan juga cost <i>efficiency</i> bagi perusahaan In the Permenkumham, there is a clause related to Exit Permit Only (EPO) for foreign workers who initially have to leave Indonesia, then re-enter with a new visa. With a bridging visa issued at the Ministry, foreign workers do not need to EPO outside Indonesia, but foreign workers can get a new visa by making arrangements at the Ministry of Law and Human Rights. This has the impact that foreign workers can be more productive in their work and also cost efficiency for the company.
2	Peraturan Pemerintah Republik Indonesia Nomor 45 Tahun 2024 tentang Jenis dan Tarif atas Jenis Penerimaan Negara Bukan Pajak yang Berlaku pada Kementerian Hukum dan Hak Asasi Manusia Government Regulation of the Republic of Indonesia No. 45 of 2024 concerning Types and Tariffs on Types of Non-Tax State Revenue Applicable to the Ministry of Law and Human Rights	Dalam Permenkumham tersebut Ditjenim menyesuaikan beberapa Tarif Penerimaan Bukan Pajak (PNBP) In the Permenkumham, the Directorate General of Justice adjusted several Non-Tax Revenue (PNBP) Tariffs	Khususnya pembayaran untuk Visa Izin Tinggal Terbatas dibayarkan dalam Rupiah dan dapat dibayarkan melalui banyak kanal pembayaran, sehingga perusahaan dapat segera membayar PNBP Visa, sehingga proses visa menjadi lebih cepat In particular, payments for Limited Stay Permit Visas are paid in Rupiah and can be paid through many payment channels, so that companies can immediately pay PNBP Visa, so that the visa process becomes faster.

3	Peraturan Menteri Perindustrian Republik Indonesia Nomor 26 tahun 2024 tentang Pemberlakuan Standar Nasional Indonesia (SNI) untuk Semen secara Wajib Regulation of the Minister of Industry of the Republic of Indonesia No. 26 of 2024 on the Compulsory Application of the Indonesian National Standard (SNI) for Cement	Dalam Permen Ini mengatur : 1. Pengajuan SPPT SNI melalui sistem SIINAS Kementerian Perindustrian 2. Penambahan jumlah SNI semen wajib dengan penyesuaian nomor SNI. 3. Perubahan alur permohonan menjadi 2 tahapan • Tahap pertama: Sertifikat SNI • Tahap kedua: Surat Persetujuan Penggunaan Tanda SNI (SPPT SNI) • Kedua tahapan tersebut di proses melalui Sistem SIINAS 4. Penambahan pada tata cara pembubuhan tanda SNI pada kantong semen, dan tanda elektronik berupa QR Code. This regulation stipulates: 1. SPPT SNI submission through the Ministry of Industry's SIINAS system 2. Increase in the number of mandatory cement SNIs by adjusting the SNI number. 3. Change of application flow into 2 stages • First stage: SNI certificate • Second stage: SNI Mark Usage Approval Letter (SPPT SNI) • Both stages are processed through the SIINAS system. 4. Additions to the procedure for affixing the SNI mark on cement bags, and an electronic mark in the form of a QR Code is also included.	1. Indocement dan seluruh anak usaha melakukan penyesuaian SPPT SNI wajib yang telah dimiliki melalui sistem SIINAS Kementerian Perindustrian dengan beberapa ketentuan tambahan penandaan, salah satunya berupa QR Code pada kantong semen, dan penyesuaian SPPT SNI Wajib dimiliki oleh industri semen selambat-lambatnya 18 bulan sejak Permen berlaku. 2. Laporan SIINAS Kementerian Perindustrian secara periodik harus diupdate oleh Indocement dan anak usahanya, karena kelalaian pelaporan SIINAS berdampak pada pengurusan SPPT SNI melalui SIINAS. 1. Indocement and all subsidiaries have adjusted the mandatory SNI SPPT that has been owned through the Ministry of Industry's SIINAS system with several additional marking provisions, one of which is in the form of a QR Code on cement bags, and the adjustment of SNI SPPT must be owned by the cement industry no later than 18 months after the Permen takes effect. 2. The Ministry of Industry's SIINAS report must be updated periodically by Indocement and its subsidiaries, because negligence in SIINAS reporting has an impact on the processing of SPPT SNI through SIINAS.
4	Peraturan Pemerintah Republik Indonesia Nomor 35 Tahun 2023 tentang Ketentuan Umum Pajak Daerah dan Retribusi Daerah. Government Regulation of the Republic of Indonesia No. 35 of 2023 concerning General Provisions of Local Taxes and Local Retributions.	Dalam PP ini mengatur mengenai penambahan jenis pajak, yakni: • Pajak Barang Jasa Tertentu (PBJT) Tenaga Listrik • Opsen MBLB • Pajak alat berat 1. Penyesuaian tarif pajak Mineral Bukan Logam dan Batuan (MBLB) dari semula 25% menjadi maksimal 20%. 2. Perubahan waktu pembayaran. 3. Kewajiban pembayaran Opsen MBLB dengan tarif sebesar 25% dari Pajak MBLB terutang. This PP regulates the addition of tax types, namely • Electricity Goods and Services Tax (PBJT) • MBLB Opsen • Heavy equipment tax 1. Adjustment of Non-Metallic Minerals and Rocks (MBLB) tax rate from 25% to a maximum of 20%. 2. Change in payment time. 3. Obligation to pay MBLB Opsen at a rate of 25% of the MBLB Tax payable.	1. Prospek Usaha

Seperti yang telah disampaikan oleh Presiden Direktur kami sebelumnya, Organization for Economic Cooperation and Development (OECD) dalam laporan mereka pada Maret 2025 menyebutkan bahwa pertumbuhan PDB global diproyeksikan melambat dari 3,2% pada 2024 menjadi 3,1% pada 2025 dan 3,0% pada 2026, disebabkan oleh sejumlah faktor seperti tekanan inflasi yang masih berlangsung di banyak negara, ketidakpastian kebijakan, serta fragmentasi lebih lanjut dalam perekonomian global.

Ekonomi Indonesia juga diproyeksikan akan tumbuh terbatas. Bank Indonesia memproyeksikan pertumbuhan ekonomi Indonesia di 2025 akan berada pada kisaran 4,7%–5,5%. Sedangkan pemerintah dalam APBN 2025 menargetkan pertumbuhan ekonomi sebesar 5,2%.

Sejalan dengan proyeksi pertumbuhan ekonomi yang relatif terbatas, industri semen juga diproyeksikan akan tumbuh tipis. Asosiasi Semen Indonesia (ASI) memperkirakan pasar semen nasional hanya akan tumbuh pada kisaran 1%–2%. Prediksi tersebut dipengaruhi penurunan daya beli masyarakatnya dan pemangkasan anggaran infrastruktur serta konstruksi pada proyek-proyek pemerintah.

Namun demikian, terdapat sejumlah peluang bagi industri semen untuk dapat terus berkembang. Terdapat sejumlah proyek yang diharapkan dapat meningkatkan permintaan terhadap produk semen, seperti proyek *giant sea wall*, Ibu Kota Negara (IKN) Nusantara, dan program tiga juta rumah yang digagas oleh pemerintah.

Indocement berupaya untuk tetap fokus dalam memperkuat pengembangan usaha. Perseroan tetap fokus untuk melakukan program efisiensi dan pengembangan usaha yang berlandaskan pada prinsip keberlanjutan.

Perseroan akan berupaya untuk bersaing pada proyek-proyek pemerintah, Perseroan juga telah membidik sejumlah proyek swasta baik yang telah maupun akan berjalan, khususnya pembangunan infrastruktur, kawasan pemukiman, smelter dan pusat data yang belakangan tengah berkembang.

Selain itu, untuk meningkatkan profitabilitas, Perseroan akan terus melanjutkan upaya efisiensi di berbagai bidang dan terus menjalankan inisiatif hijau agar dapat mewujudkan visi, misi, dan *purpose* Perseroan.

Business Prospects

As mentioned by our President Director previously, the Organization for Economic Cooperation and Development (OECD) in their March 2025 report mentioned Global GDP growth is projected to moderate from 3.2% in 2024, to 3.1% in 2025 and 3.0% in 2026, from factors such as lingering inflationary pressures in many economies, policy uncertainty, and further fragmentation of the global economy.

The Indonesian economy is also projected to grow limitedly. Bank Indonesia projects that Indonesia's economic growth in 2025 will be in the range of 4.7%–5.5%. Meanwhile, the government in the 2025 State Budget targets the economic growth of 5.2%.

In line with the projection of relatively limited economic growth, the cement industry is also projected to grow slightly. The Indonesian Cement Association (ASI) estimates that the national cement market will only grow in the range of 1%–2%. This prediction is influenced by the decline in people's purchasing power and cut in infrastructure and construction budget for government's projects.

Nevertheless, there are a number of opportunities for the cement industry to continuously grow. There are a number of projects expected to increase cement product demand, such as the projects of giant sea wall, Indonesian National Capital (IKN), and three million houses program initiated by the government.

Indocement strives to remain its focus on strengthening business development. The Company remains focus on implementing efficiency and business development programs based on the principle of sustainability.

The Company will strive to compete in government projects, the Company has also targeted a number of private projects already or to be running, particularly the development of infrastructure, residential area, smelter, and data center currently under development.

Furthermore, to increase profitability, the Company will continuously pursue efficiency efforts in various fields and keep implementing green initiatives to realize the Company's vision, mission, and purpose.

10. Best practices and internationally accepted standards such as the *ASEAN Corporate Governance Scorecard*.

Purpose of GCG Implementation

The purpose of implementing GCG within the Company is to:

1. Optimizing the Company's values for the shareholders in respect to considering the stakeholders' interests and achieve business sustainability based on the principles of transparency, accountability, responsibility, independence, fairness, and equality;
2. Encourage the Company's organs, which are the General Meeting of Shareholders (GMS), Board of Commissioners, and Board of Directors, to make decisions and act based on high moral value and compliance with the provisions of the articles of association and the applicable laws and regulations;
3. Drive the Company's management to be more professional, transparent, and efficient, as well as empower function, and increase the independence of the Company's organs;

4. Mendorong dan mendukung pengembangan, pengelolaan sumber daya Perseroan, dan pengelolaan risiko usaha Perseroan dengan penerapan prinsip kehati-hatian, akuntabilitas, dan bertanggungjawab dalam mengimplementasikan prinsip-prinsip GCG;
5. Mendorong timbulnya kesadaran dan tanggung jawab sosial Perseroan terhadap masyarakat dan kelestarian lingkungan terutama di sekitar wilayah operasional Perseroan;
6. Memberikan pedoman bagi setiap anggota Dewan Komisaris, Direksi dan Karyawan Perseroan dalam menjalankan pengelolaan Perseroan secara profesional, transparan, dan efisien serta memberdayakan fungsi dan meningkatkan kemandirian, dilandasi nilai moral dan kepatuhan terhadap peraturan perundang-undangan serta kesadaran akan tanggung jawab sosial Perseroan terhadap pemangku kepentingan dan lingkungan; dan
7. Meningkatkan daya saing Perseroan baik secara nasional maupun internasional, sehingga mampu mendapatkan kepercayaan pasar guna mendorong arus investasi dan pertumbuhan ekonomi nasional yang berkesinambungan.

Prinsip GCG

Perseroan menerapkan lima prinsip dasar GCG sebagaimana didefinisikan oleh Organisation for Economic Cooperation and Development (OECD) yaitu transparansi, akuntabilitas, pertanggungjawaban, independensi, serta kewajaran dan kesetaraan, yang diuraikan sebagai berikut:

Transparansi Transparency	Keterbukaan dalam melaksanakan proses pengambilan keputusan dan keterbukaan dalam mengungkapkan informasi material dan relevan mengenai Perseroan. Transparency in the decision-making process and transparency in disclosing material and relevant information about the Company.
Akuntabilitas Accountability	Kejelasan fungsi, pelaksanaan dan pertanggungjawaban organ sehingga pengelolaan Perseroan terlaksana secara efektif. Clarity of the function, implementation, and accountability of the organs, therefore the Company's management is performed effectively.
Pertanggungjawaban Responsibility	Kesesuaian bahwa pengelolaan Perseroan terhadap peraturan perundang-undangan dan prinsip-prinsip korporasi yang sehat. Conformity in the Company's management to the applicable laws and regulations and the principles of a sound corporation.
Independensi Independence	Perseroan dikelola secara profesional tanpa benturan kepentingan dan pengaruh/tekanan dari pihak manapun yang tidak sesuai dengan peraturan perundang-undangan dan prinsip-prinsip korporasi yang sehat. Managing the Company professionally without conflict of interest and influence/pressure from any parties that are not in accordance with the applicable laws and regulations and principles of a sound corporation.
Kewajaran dan Kesetaraan Fairness and Equality	Keadilan dan kesetaraan di dalam memenuhi hak-hak pemangku kepentingan yang timbul berdasarkan perjanjian dan peraturan perundang-undangan yang berlaku. Fairness and equality in fulfilling stakeholders' rights arising based on agreement and the applicable laws and regulations.

4. Encourage and support the development and management of the Company's resources and business risks by applying the principles of prudent, accountability, and responsibility for the implementation of GCG principles;
5. Improve the Company's awareness of and social responsibility for the community and environmental preservation, especially those of around the Company's operational areas;
6. Providing the Guidelines for each member of Board of Commissioners, Board of Board of Directors, and Employees in managing the Company professionally, transparently, and efficiently as well as empower the function and increase independence, based on moral values and compliance with laws and regulations as well as awareness of social responsibility to the stakeholders and environment; and
7. Improve the Company's competitiveness at the national and international levels in order to gain market confidence to drive investment flows, and thus, achieve sustainable national economic growth.

Principles of GCG

The Company implements the five basic principles of GCG as defined by the Organization for Economic Cooperation and Development (OECD), namely transparency, accountability, responsibility, independence, and fairness and equality, which are described as follows:

Kompleks Pabrik Grobogan
Grobogan Factory

Selain itu, Perseroan juga telah mengadaptasi empat pilar governansi korporat sesuai Pedoman Umum Governansi Korporat Indonesia (PUGKI) yang dikeluarkan KNKG pada 2021, yaitu:

Furthermore, the Company has also adapted the four pillars of corporate governance in accordance with the General Guidelines for Indonesian Corporate Governance (PUGKI) issued by KNKG Policy in 2021, which are:

Perilaku Beretika Ethical Conduct	Dalam melaksanakan kegiatannya, Perseroan senantiasa mengedepankan kejujuran, memperlakukan semua pihak dengan hormat (<i>respect</i>), memenuhi komitmen, membangun serta menjaga nilai-nilai moral dan kepercayaan secara konsisten. Perseroan memperhatikan kepentingan pemegang saham dan pemangku kepentingan lainnya berdasarkan asas kewajaran dan kesetaraan (<i>fairness</i>) dan dikelola secara independen sehingga masing-masing organ perusahaan tidak saling mendominasi dan tidak dapat diintervensi oleh pihak lain. In carrying out its activities, the Company always prioritizes honesty, treats all parties with respect, fulfills its commitments, as well as consistently builds and maintains moral values and beliefs. The Company pays attention to the interests of shareholders and other stakeholders based on the principle of fairness and equality, and each organ of the company is managed independently so that each corporate body does not dominate the other and cannot be intervened by other parties.
Akuntabilitas Accountability	Perseroan dapat mempertanggungjawabkan kinerjanya secara transparan dan wajar. Untuk itu Perseroan harus dikelola secara benar, terukur dan sesuai dengan kepentingan Perseroan dengan tetap memperhitungkan kepentingan pemegang saham dan pemangku kepentingan. Akuntabilitas merupakan prasyarat yang diperlukan untuk mencapai kinerja yang berkelanjutan. The Company is accountable for its performance in a transparent and fair manner. For this reason, the Company must be managed properly, measurably, and in accordance with Company's interests, while still considering the interests of shareholders and stakeholders. Accountability is the prerequisite needed to achieve the sustainable performance.
Transparansi Transparency	Untuk menjaga obyektivitas dalam menjalankan bisnis, korporasi menyediakan informasi yang material dan relevan dengan cara yang mudah diakses dan dipahami oleh pemangku kepentingan. Perseroan mengambil inisiatif untuk mengungkapkan tidak hanya masalah yang disyaratkan oleh peraturan perundang-undangan, tetapi juga hal yang penting untuk pengambilan keputusan oleh pemegang saham, kreditur dan pemangku kepentingan lainnya. To maintain objectivity in conducting business, the corporate shall provide relevant material information that is easily accessible and understood by the stakeholders. Penetapan Standar Kualitas Tata Kelola Perusahaan

Indocement telah menetapkan standar kualitas terbaik dalam penerapan GCG. Sebagai perusahaan publik, penerapan GCG di Indocement harus mengacu pada ketentuan yang ditetapkan oleh regulator pasar modal.

OJK telah mengatur prosedur dan mekanisme GCG pada perusahaan publik yang dituangkan dalam POJK 21/2015 dan SEOJK 32/2015, serta PUGKI yang diterbitkan oleh KNKG. Sedangkan acuan lainnya yang bersifat global, Perseroan mengacu pada prinsip-prinsip tata kelola perusahaan yang dikembangkan oleh OECD tahun 2015 dan ASEAN Corporate Governance Scorecard (ACGS), yaitu standar penerapan GCG yang berlaku secara internasional, khususnya di wilayah Asia Tenggara, yang diterbitkan Asian Development Bank.

Selain itu, sebagai bagian dari Heidelberg Materials, Indocement juga wajib untuk memenuhi ketentuan yang diterbitkan oleh Heidelberg Materials.

Kebijakan yang menjadi acuan penerapan GCG di Indocement, mengatur peran dari masing-masing organ Perseroan, baik RUPS sebagai mekanisme utama dalam melindungi dan melaksanakan hak-hak Pemegang Saham, Dewan Komisaris sebagai fungsi pengawasan dan pemberian nasihat kepada Direksi, maupun Direksi sebagai fungsi pengelolaan dan pengurusan Perseroan. Masing-masing organ Perseroan, memiliki tugas dan tanggung jawab yang saling bersinergi dalam mencapai tujuan Perseroan. Kebijakan yang berlaku, mengatur organ Perseroan agar melaksanakan fungsinya secara utuh dan sesuai dengan ketentuan yang berlaku.

Sosialisasi GCG

Penerapan GCG wajib dijalankan oleh seluruh Insan Indocement. Karena itu, pemahaman Insan Indocement terhadap prinsip GCG menjadi bagian yang sangat penting untuk menentukan keberhasilan penerapan GCG di Perseroan.

Untuk mewujudkan tujuan tersebut, Perseroan secara berkesinambungan melakukan kegiatan sosialisasi dan pelatihan terkait GCG kepada seluruh Insan Indocement. Pada 2024, kegiatan sosialisasi dan pelatihan terkait GCG yang dilaksanakan Perseroan antara lain:

Determination of Quality Standards for Corporate Governance

Indocement has determined the best quality standards in implementing GCG. As a public company, the implementation of GCG in Indocement must refer to the provisions set by the capital market regulator.

OJK has stipulated the procedures and mechanisms of GCG in public companies as outlined in POJK 21/2015 and SEOJK 32/2015, as well as PUGKI issued by KNKG. In relation to other global references, the Company refers to corporate governance principles developed by the OECD in 2015 and the ASEAN Corporate Governance Scorecard (ACGS), which is the GCG implementation standards that are applied internationally, especially in Southeast Asia region, issued by the Asian Development Bank.

Furthermore, as part of the Heidelberg Materials, Indocement is also required to comply with the provisions issued by the Heidelberg Materials.

The policies that serve as references for implementing GCG in Indocement stipulate the role of each Company's organ, including the GMS as the main mechanism for protecting and implementing the rights of Shareholders, the Board of Commissioners as a supervisory function and providing advice to the Board of Directors, and the Board of Directors as a control and management function of the Company. Each Company organ has duties and responsibilities that correlate with each other in achieving the Company's objectives. The applicable policies stipulates the Company's organs to carry out their functions in full and in accordance with the applicable provisions.

Socialization of GCG

GCG must be implemented by all Indocement Personnel. Therefore, the understanding of Indocement Personnel regarding GCG principles is a very important part in determining the success of GCG implementation in the Company.

To realize such objectives, the Company continuously conducts dissemination and training activities related to GCG to all Indocement Personnel. In 2024, the dissemination and training activities related to GCG carried out by the Company included:

Mekanisme dan Proses Tata Kelola

Setiap organ tata kelola dan seluruh Insan Indocement memiliki peran dan fungsi yang berbeda dalam penerapan GCG. Karena itu, dibutuhkan kebijakan dan prosedur yang tepat yang mengatur fungsi, tugas dan wewenang masing-masing organ agar dapat mencapai tujuan yang diharapkan serta mengatur pola hubungan antar organ, sehingga terjadi hubungan yang sehat yang dilandasi prinsip saling menghormati masing-masing organ. Kebijakan terkait GCG yang dimiliki Perseroan antara lain:

Pursuant to Law No. 40 of 2007 on Limited Liability Companies, the organs at Indocement consist of:

1. General Meeting of Shareholders (GMS) is the Company's organ that has authority not given to the Board of Directors or Board of Commissioners;
2. Board of Commissioners is the Company's organ with duties to generally and/or specifically supervise in accordance with the articles of association as well as to provide advice to the Board of Directors;
3. Board of Directors is the Company's organ that has full authorities and responsibilities on the Company's management for the Company's interest, in accordance with the Company's purposes and objectives, as well as representing the Company, either inside or outside the court, in accordance with the articles of association.

Apart from such three main organs, in accordance with the laws and regulations, the Company may establish supporting organs to assist the Board of Commissioners and Board of Directors in carrying out their functions, duties, and responsibilities to achieve the Company's purpose, vision, and mission.

Until the end of 2024, the supporting organs of the Company are as follows:

1. Board of Commissioners' supporting organs:

Dewan Komisaris

Board of Commissioners

Dewan Komisaris merupakan organ perusahaan yang bertugas dan bertanggung jawab secara kolektif untuk melakukan pengawasan dan pemberian nasihat kepada Direksi. Selain itu, Dewan Komisaris juga senantiasa memastikan pelaksanaan GCG di seluruh tingkatan atau jenjang organisasi sudah berjalan efektif sesuai dengan prinsip dan peraturan yang berlaku.

Dasar Hukum

1. Undang-Undang Nomor 40 Tahun 2007 tentang Perseroan Terbatas;
2. Peraturan Otoritas Jasa Keuangan Nomor 33/POJK.04/2014 tentang Direksi dan Dewan Komisaris Emiten atau Perusahaan Publik (POJK 33/2014);
3. Anggaran Dasar Perseroan; dan
4. Piagam Dewan Komisaris.

Piagam Dewan Komisaris

Piagam Dewan Komisaris merupakan pedoman kerja bagi Dewan Komisaris dalam menjalankan fungsi, tugas dan tanggung jawabnya. Pada 2022, Perseroan melakukan pengkinian terhadap Piagam Dewan Komisaris yang disahkan berdasarkan Surat Keputusan Nomor 004/Kpts/Kom/ITP/XI/2022 tanggal 29 November 2022.

Secara garis besar, isi Piagam Dewan Komisaris adalah sebagai berikut:

The Board of Commissioners is the company's organ with collective duties and responsibilities to supervise and give advice to the Board of Directors. In addition, the Board of Commissioners also always ensures that GCG implementation at all organizational levels or hierarchy is effective in accordance with the applicable principles and regulations.

Legal Basis

1. Law No. 40 of 2007 on Limited Liability Company;
2. Financial Services Authority Regulation No. 33/POJK.04/2014 on Board of Directors and Board of Commissioners of Issuers or Public Companies (POJK 33/2014);
3. Company's Articles of Association; and
4. Board of Commissioners Charter.

Board of Commissioners Charter

The Board of Commissioners' Charter is the guidelines for the Board of Commissioners in performing its functions, duties, and responsibilities. In 2022, the Company updated the Board of Commissioners Charter which was ratified based on Decision Letter No. 004/Kpts/Kom/ITP/XI/2022 dated 29 November 2022.

In general, the contents of the Board of Commissioners Charter are as follows:

7. Melakukan perubahan pada anggota Komite Nominasi dan Remunerasi dari semula Bapak Kevin Gerard Gluskie menjadi Bapak Roberto Callieri.

Program Orientasi Dewan Komisaris

Anggota Dewan Komisaris yang diangkat untuk pertama kalinya diberikan program orientasi/pengenalan mengenai Perseroan. Program ini bertujuan untuk memberikan pemahaman tentang visi, misi dan nilai-nilai Perseroan, kode etik dan pedoman tingkah laku, struktur organisasi, serta Pedoman dan Tata Tertib Kerja Dewan Komisaris.

Berdasarkan Keputusan RUPS Tahunan yang diselenggarakan pada 14 Mei 2024, Perseroan mengangkat Roberto Callieri menggantikan Kevin Gerard Gluskie sebagai Komisaris Utama dan Kevin Gerard Gluskie sebagai anggota Komisaris Perseroan. Untuk itu Perseroan telah menyelenggarakan program pengenalan (orientasi) perusahaan yang diselenggarakan pada 14 Mei 2024.

Pelatihan dan Pengembangan Kompetensi Dewan Komisaris

Untuk menunjang Dewan Komisaris dalam melaksanakan tugas dan tanggung jawabnya, Indocement memberikan kesempatan kepada anggota Dewan Komisaris untuk mengikuti program pelatihan dan pengembangan kompetensi, baik yang diselenggarakan oleh internal Perseroan atau yang diselenggarakan oleh pihak eksternal. Sepanjang 2024, anggota Dewan Komisaris Perseroan telah mengikuti program pelatihan dan pengembangan kompetensi sebagai berikut:

(member firm of PwC global network), and Lukmanul Arsyad, S.E. as Public Accountant to audit the Company's consolidated financial statements for 2024 fiscal year; and

7. Making changes to the members of Nomination and Remuneration Committee from Mr. Kevin Gerard Gluskie to Mr. Roberto Callieri.

Orientation Program for the Board of Commissioners

Members of the Board of Commissioners, who are appointed for the first time, shall be given an orientation/introduction program on the Company. This program is intended to provide understanding on the vision, mission, and values of the Company, code of conduct and behavior, organizational structure, and Charter of the Board of Commissioners.

Based on the Resolutions of the Annual GMS held on 14 May 2024, the Company appointed Roberto Callieri to replace Kevin Gerard Gluskie as President Commissioner and Kevin Gerard Gluskie as member of the Company's Commissioners. For this reason, the Company organized an introduction (orientation) program held on 14 May 2024.

Training and Competence Development of the Board of Commissioners

In order to support the Board of Commissioners in performing its duties and responsibilities, Indocement provides opportunities for members of the Board of Commissioners to attend training and competence development programs, organized by parties either internal or external to the Company. Throughout 2024, members of the Board of Commissioners attended training and competence development programs as follows:

Mekanisme Pengunduran Diri dan Pemberhentian Dewan Komisaris

Sesuai ketentuan yang tercantum dalam Piagam Dewan Komisaris, anggota Dewan Komisaris berhak mengundurkan diri dari jabatannya dengan memberitahukan secara tertulis mengenai maksud tersebut kepada Perseroan paling sedikit 60 hari kalender sebelum tanggal pengunduran dirinya. Terhadap pengunduran diri yang diajukan tersebut, Perseroan wajib menyelenggarakan RUPS dalam jangka waktu paling lambat 90 hari kalender setelah diterimanya surat pengunduran diri anggota Dewan Komisaris yang bersangkutan, termasuk untuk menetapkan berlakunya pengunduran diri yang lebih awal dari jangka waktu 60 hari kalender tersebut, serta untuk mengisi lowongan bila pengunduran dirinya disetujui oleh RUPS.

Dalam hal Perseroan tidak menyelenggarakan RUPS dalam jangka waktu 90 hari setelah diterimanya surat pengunduran diri, maka dengan lampaunya kurun waktu tersebut, pengunduran diri anggota Dewan Komisaris menjadi sah tanpa memerlukan persetujuan RUPS.

Pengunduran diri dan/atau pemberhentian Dewan Komisaris diputuskan dalam RUPS sesuai peraturan perundangan yang berlaku.

Mechanism of Resignation and Dismissal of the Board of Commissioners

According to the provisions of the Board of Commissioners Charter, a member of the Board of Commissioners is entitled to resign from the position by giving written notification regarding such intention to the Company at least 60 calendar days prior to the resignation date. With respect to the proposed resignation, the Company is required to hold a GMS within 90 calendar days after the resignation letter of such member of the Board of Commissioners is received, including to determine the validity of the resignation that is earlier than the 60 calendar-day period, and to fill in vacancy in the event that the resignation is approved by the GMS.

In the event that the Company does not hold the GMS within 90 days after the receipt of the resignation letter, then by such elapsed time period, the resignation of the said members of the Board of Commissioners becomes valid without requiring approval of the GMS.

The resignation and/or dismissal of the Board of Commissioners shall be resolved in the GMS in accordance with the applicable laws and regulations.

4. The Board of Directors are jointly responsible for the loss of the Company due to errors or intentional mistakes in performing the duties. However, each Director who fails to meet the reporting requirement of share ownership must be responsible individually for the Company's loss caused by such matters.

5. The Director is not responsible for the Company's loss in the event that:
- a. Such loss is not due to errors or intentional mistakes in performing the duties;
 - b. The duties have been performed with full responsibility, in good faith and prudence, and perseverance for the interests and in line with the Company's purposes and objectives;
 - c. There is no direct or indirect conflict of interest that causes the loss suffered by the Company; and
 - d. Reasonable preventive actions have been taken towards the occurrence and continuation of such loss.

Duties and Responsibilities of Each Member of Board of Directors

To optimally perform its duties and responsibilities, the Board of Directors divides the duties and responsibilities to each member of Board of Directors according to the respective expertise, reviews and updates on the division of roles and responsibilities from time to time.

Wewenang Direksi

Sebagaimana dituangkan dalam Piagam Direksi dan Anggaran Dasar Perseroan wewenang Direksi meliputi:

1. Melakukan pengelolaan Perseroan sesuai dengan kebijaksanaan Perseroan guna tercapainya maksud dan tujuan Perseroan.
2. Menetapkan, memelihara dan mengelola kebijakan Perseroan;
3. Mengelola ketenagakerjaan Perseroan, termasuk penetapan gaji, pensiun, dan tunjangan lainnya bagi karyawan Perseroan sesuai dengan peraturan perundang-undangan yang berlaku dan/atau keputusan RUPS (jika ada);
4. Mengangkat dan memberhentikan karyawan Perseroan sesuai dengan ketentuan peraturan perundang-undangan yang berlaku;
5. Mendelegasikan wewenang Direksi untuk mewakili Perseroan kepada seorang atau beberapa orang anggota Direksi yang khusus ditunjuk untuk itu atau kepada seorang atau lebih karyawan Perseroan, baik sendiri-sendiri maupun bersama-sama dengan orang lain atau badan hukum; dan
6. Melakukan tindakan-tindakan lain sesuai dengan petunjuk dan rekomendasi Dewan Komisaris.

Authority of the Board of Directors

As stipulated in the Board of Directors Charter and the Company's Articles of Association, the authority of the Board of Directors includes:

1. Manage the Company in line with the Company's policies to achieve the Company's purposes and objectives.
2. Establishing, maintaining, and regulating the Company's policies;
3. Managing the Company's workforce, including determining salary, pension, and other allowances of the Company's employees in accordance with the applicable laws and regulations and/or GMS resolutions (if any);
4. Appointing and terminating Company's employees in accordance with the applicable laws and regulations;
5. Delegating the Board of Directors' authority to represent the Company to one or more members of Board of Directors who are specifically appointed for such matter or to one or more employees of the Company, either individually or jointly with other person or entity; and
6. Performing other actions according to the directions and recommendation of Board of Commissioners.

7. Seorang Direktur berwenang untuk mewakili Perseroan, kecuali:

- a. Memiliki perselisihan dengan Perseroan;
- b. Mempunyai benturan kepentingan dengan Perseroan. Dalam kondisi demikian, maka pihak yang berwenang mewakili Perseroan adalah:
 - Direksi lainnya yang tidak memiliki benturan kepentingan dengan Perseroan; atau
 - Dewan Komisaris, apabila seluruh anggota Direksi mempunyai benturan kepentingan dengan Perseroan; atau
 - Pihak lain yang ditunjuk oleh RUPS apabila seluruh anggota Direksi dan Dewan Komisaris mempunyai benturan kepentingan dengan Perseroan.

Selain mengatur mengenai kewenangan Direksi, Piagam Direksi, dan Anggaran Dasar Perseroan juga mengatur pembatasan kewenangan Direksi Indocement, sebagai berikut:

1. Pembatasan kewenangan dalam hal:

- a. Meminjam atau meminjamkan uang atas nama Perseroan dengan nilai melebihi 20 juta Dolar AS atau nilai yang setara dalam mata uang lain dalam satu transaksi;
- b. Membeli, menjual atau dengan cara lain mendapatkan atau melepaskan hak atas barang tidak bergerak termasuk bangunan dan hak atas tanah, apabila nilai setiap transaksi melebihi 5 juta Dolar AS atau jumlah yang setara dalam mata uang lainnya;
- c. Menggadaikan atau membebankan aset Perseroan sebagai jaminan utang untuk transaksi non operasional dengan nilai melebihi 20 juta Dolar AS atau nilai yang setara dalam mata uang lainnya;
- d. Mengikat Perseroan sebagai penjamin/ penanggung;
- e. Mendirikan entitas anak dengan modal dasar melebihi 5 juta Dolar AS atau nilai yang setara dalam mata uang lainnya;
- f. Mengambil bagian atau ikut serta dalam perusahaan atau badan hukum lain atau menyelenggarakan perusahaan baru yang memiliki modal dasar melebihi 5 juta Dolar AS atau nilai yang setara dalam mata uang lainnya; dan
- g. Melepaskan sebagian atau seluruh penyertaan Perseroan dalam perusahaan atau badan hukum lain dengan nilai transaksi melebihi 5 juta Dolar AS atau nilai yang setara dalam mata uang lainnya.

7. The Director has the authority to represent the Company, except such member is:

- a. Having dispute with the Company;
- b. Having conflict of interest with the Company. In such matters, the authorized party representing the Company shall be:
 - Another member of the Board of Directors without conflict of interest with the Company; or
 - Board of Commissioners, in the event that all members of the Board of Directors have conflict of interest with the Company; or
 - Another party appointed by the GMS, in the event that all members of the Board of Directors and Board of Commissioners have conflict of interest with the Company.

Not only regulating the authority of the Board of Directors, but the Board Charter and Articles of Association also limits the authority of Indocement's Board of Directors as follows:

1. Limitations of the authority in the event of:

- a. Borrowing or lending money on behalf of the Company with a value exceeding 20 million US Dollar or its equivalent value in another currency in one transaction;
- b. Buying, selling, or in any ways acquiring or releasing rights to immovable property including buildings and land rights, in the event that each transaction's value exceeds 5 million US Dollar or its equivalent amount in another currency;
- c. Pledging or charging the Company's assets as collateral for non-operational transactions with value exceeding 20 million US Dollar or its equivalent value in another currency;
- d. Binding the Company as guarantor/warranter;
- e. Incorporating a subsidiary with an authorized capital of more than 5 million US Dollar or its equivalent value in another currency;
- f. taking part or participating in another company or legal entity or organizing a new company that has an authorized capital of more than 5 million US Dollar or its equivalent value in another currency; and
- g. Releasing part or all of the Company's investment in another company or legal entity with a transaction value exceeding 5 million US Dollars or its equivalent value in another currency.

Apabila pembatasan kewenangan tersebut terlampaui, maka Direksi harus mendapat persetujuan terlebih dahulu dari Dewan Komisaris sesuai dengan Anggaran Dasar Perseroan.

2. Untuk mengalihkan, melepaskan atau menjadikan jaminan hutang lebih dari 50% dari jumlah kekayaan bersih Perseroan, baik dalam satu transaksi atau beberapa transaksi yang berdiri sendiri ataupun yang berkaitan satu sama lain, Direksi harus mendapat persetujuan RUPS yang dihadiri oleh paling sedikit $\frac{3}{4}$ bagian dari jumlah seluruh saham dengan hak suara, dan disetujui lebih dari $\frac{3}{4}$ bagian dari jumlah seluruh suara yang dikeluarkan dalam RUPS.
3. Untuk menjalankan perbuatan hukum berupa transaksi yang memuat benturan kepentingan antara kepentingan ekonomis pribadi anggota Direksi, Dewan Komisaris atau pemegang saham dengan kepentingan ekonomis Perseroan sesuai ketentuan tentang transaksi afiliasi dan transaksi benturan kepentingan, Direksi memerlukan persetujuan RUPS berdasarkan suara setuju terbanyak dari pemegang saham yang tidak mempunyai benturan kepentingan.

Rapat Direksi

Kebijakan Rapat

Sesuai POJK 33/2014, Direksi wajib mengadakan rapat paling kurang satu kali dalam satu bulan. Selain itu, Direksi juga wajib mengadakan rapat bersama Dewan Komisaris paling kurang satu kali dalam empat bulan.

Namun demikian, Direksi dapat mengadakan rapat sewaktu-waktu atas permintaan satu atau beberapa anggota Direksi atau permintaan Dewan Komisaris, dengan menyebutkan hal-hal yang akan dibicarakan. Dalam setiap rapat Direksi dibuatkan risalah rapat dan ditandatangani oleh pimpinan rapat serta seluruh anggota Direksi yang hadir dalam rapat. Risalah rapat berisi hal-hal yang dibicarakan dan hal-hal yang diputuskan.

Frekuensi, Agenda, dan Kehadiran dalam Rapat

Sepanjang 2024 Direksi telah memenuhi kriteria rapat yang dipersyaratkan, yang telah dilaksanakan sebanyak 31 kali dan rapat bersama Dewan Komisaris sebanyak tiga kali. Adapun agenda dan rekapitulasi kehadiran Direksi dalam rapat di 2024 adalah sebagai berikut:

In the event that it is necessary to exceed such authority limit, the Board of Directors must obtain prior approval from the Board of Commissioners in accordance with the Company's Articles of Association.

2. To transfer, release, or make collateral of more than 50% of the total net assets of the Company, either in one transaction or several transactions that are independent or related to one another, the Board of Directors must obtain approval from the GMS attended by at least $\frac{3}{4}$ of the total shares with voting rights, and approved by more than $\frac{3}{4}$ of the total votes casted at the GMS.
3. To perform legal actions in form of transactions that contain conflicts of interest between personal economic interests of the members of Board of Directors, Board of Commissioners, or shareholders and the Company's economic interests in accordance with the provisions on the affiliated transactions and conflict of interest transactions, the Board of Directors requires approval of the GMS based on the most affirmative votes from the shareholders who do not have any conflict of interest.

Board of Directors' Meeting

Meeting Policy

Pursuant to POJK 33/2014, the Board of Directors is required to hold a meeting at least once a month. In addition, the Board of Directors is also required to hold a meeting with the Board of Commissioners at least once every four months.

However, the Board of Directors may hold a meeting upon request from one or several members of the Board of Directors or request from the Board of Commissioner, by stating the matters to be discussed. In each Board of Directors' meeting, minutes of meetings are prepared and signed by the chairman of the meeting and all members of the Board of Directors present at the meeting. The minutes of the meeting contain the matters discussed and the matters resolved.

Frequency, Agenda, and Attendance of Meetings

Throughout 2024, the Board of Directors fulfilled the required criteria for the meeting, wherein 31 meetings and and three joint meetings with the Board of Commissioners were held. The agenda and attendance recapitulation of the Board of Directors at meetings in 2024 are as follows:

Mekanisme Pengunduran Diri dan Pemberhentian Direksi

Sesuai ketentuan yang tercantum dalam Anggaran Dasar Perseroan dan Piagam Direksi, anggota Direksi berhak mengundurkan diri dari jabatannya dengan memberitahukan secara tertulis mengenai maksud tersebut kepada Perseroan paling sedikit 60 hari kalender sebelum tanggal pengunduran dirinya. Terhadap pengunduran diri yang diajukan tersebut, Perseroan wajib menyelenggarakan RUPS dalam jangka waktu paling lambat 90 hari kalender setelah diterimanya surat pengunduran diri anggota Direksi yang bersangkutan, termasuk untuk menetapkan berlakunya pengunduran diri yang lebih awal dari jangka waktu 60 hari kalender tersebut, serta untuk mengisi lowongan bila pengunduran dirinya disetujui oleh RUPS.

Dalam hal Perseroan tidak menyelenggarakan RUPS dalam jangka waktu 90 hari kalender setelah diterimanya surat pengunduran diri, maka dengan lampaunya kurun waktu tersebut, pengunduran diri anggota Direksi menjadi sah tanpa memerlukan persetujuan RUPS. Pengunduran diri dan/atau pemberhentian Direksi diputuskan dalam RUPS sesuai peraturan perundangan yang berlaku.

Penilaian Kinerja Komite dan Organ di bawah Direksi

Dalam menjalankan fungsi, tugas dan tanggung jawabnya, Direksi dibantu oleh organ di bawah Direksi yang bersifat struktural. Selain itu, Direksi juga dapat membentuk komite yang bersifat *ad-hoc* yang menangani bidang tertentu yang dianggap penting oleh Direksi.

Direksi menilai kinerja organ dan komite di bawah Direksi telah sesuai dengan tugas dan tanggung jawab yang diembannya dan telah memperoleh pencapaian sebagaimana yang ditetapkan.

Mechanism of Resignation and Dismissal of Board of Directors

According to the provisions of the Articles of Association and Board of Directors Charter, member of the Board of Directors is entitled to resign from the position by giving written notification regarding such intention to the Company at least 60 calendar days prior to the resignation date. With respect to the proposed resignation, the Company is required to hold a GMS within 90 calendar days after the resignation letter of the member of the Board of Directors is received, including to determine the validity of the resignation that is earlier than the 60 calendar-day period, and to fill in vacancies if the resignation is approved by the GMS.

In the event that the Company does not hold a GMS within 90 calendar days of the receipt of the resignation letter, then by the elapsed time period, the resignation of the said members of the Board of Directors becomes valid without requiring approval from the GMS. The resignation and/or dismissal of the Board of Directors shall be resolved in the GMS in accordance with the applicable laws and regulations.

Performance Assessment of Committees and Organs under the Board of Directors

In performing the functions, duties and responsibilities, the Board of Directors is assisted by structural organs under the Board of Directors. Besides, the Board of Directors may also form an ad-hoc committee to manage certain areas that are considered important by the Board of Directors.

The Board of Directors considered that the performances of the organs and committees under the Board of Directors are in accordance with their duties and responsibilities and have achieved the achievements as stipulated.

Independensi dan Transparansi Dewan Komisaris dan Direksi

Independence and Transparency of Board of Commissioners and Board of Directors

Sesuai ketentuan perundang-undangan, dalam menjalankan tugas dan tanggung jawabnya, Dewan Komisaris dan Direksi harus bersikap independen dan terbebas dari kepentingan. Berikut adalah informasi terkait independensi Dewan Komisaris dan Direksi Perseroan.

Pengelolaan Benturan Kepentingan

Salah satu faktor pendorong terjadinya *fraud* adalah perilaku benturan kepentingan, yang merupakan suatu kondisi dimana pertimbangan pribadi dan/atau golongan mempengaruhi dan/atau menyingkirkan profesionalitas Dewan Komisaris dan Direksi dalam melaksanakan kewajibannya.

Benturan Kepentingan Dewan Komisaris

Benturan kepentingan Dewan Komisaris adalah suatu kondisi tertentu di mana kepentingan individual anggota Dewan Komisaris berpotensi untuk bertentangan dengan kepentingan Perseroan untuk meraih laba, meningkatkan nilai Perseroan, mencapai visi dan menjalankan misi Perseroan serta melaksanakan keputusan RUPS. Benturan kepentingan dapat mempengaruhi kemampuan anggota Dewan Komisaris untuk melaksanakan tugasnya secara efektif dan adil. Dewan Komisaris Perseroan mematuhi Peraturan Otoritas Jasa Keuangan Nomor 42/POJK.04/2020 tentang Transaksi Afiliasi dan Transaksi Benturan Kepentingan. Beberapa prinsip yang dianut untuk mencegah terjadinya benturan kepentingan dan implikasi lanjutan yang sering ditimbulkannya antara lain adalah sebagai berikut:

1. Dewan Komisaris selalu menghindari adanya benturan kepentingan di dalam melaksanakan tugasnya dan harus menghindari setiap aktivitas yang dapat mempengaruhi independensinya dalam tugas pengawasan Perseroan;
2. Dewan Komisaris tidak akan memanfaatkan jabatan untuk kepentingan pribadi atau untuk kepentingan orang atau pihak lain yang terkait;
3. Dewan Komisaris wajib mengungkapkan jika ada anggota Dewan Komisaris atau anggota keluarganya (suami-istri, anak-anak, atau anggota keluarga dekat lainnya) memiliki atau memperoleh, hadiah, warisan atau dengan cara lain memiliki suatu kepentingan dalam relasi bisnis Perseroan;

In accordance with the laws and regulations, in performing the duties and responsibilities, the Board of Commissioners and Board of Directors shall be independent and free from conflicts of interests. Below are information on independence of Board of Commissioners and Board of Directors.

Management of Conflict of Interest

One of the driving factors for fraud is the behavior of conflict of interest, which is a condition in which personal and/or group considerations affect and/or eliminate the professionalism of Board of Commissioners and Board of Directors in performing their obligations.

Conflict of Interest of the Board of Commissioners

Conflict of interest of the Board of Commissioners means a certain condition where the individual interest of a member of the Board of Commissioners has the potential to be against the Company's interest in gaining profit, increasing the Company's value, achieving vision, and performing mission, as well as executing GMS resolutions. Conflicts of interest may affect the ability of members of Board of Commissioners to perform their duties effectively and fairly. The Board of Commissioners complies with Financial Services Authority Regulation No. 42/POJK.04/2020 on Affiliated Transactions and Conflict of Interest Transactions. Some of the principles applied to avoid conflict of interest and further implication that often occur among others are as follows:

1. The Board of Commissioners shall always avoid any conflict of interest in performing its duties and shall avoid any activity that can affect its independence in supervising the Company;
2. The Board of Commissioners shall never use its position for personal interest or for other person's or other related party's interest;
3. The Board of Commissioners must disclose in the event that members of the Board of Commissioners or their family members (spouse, children, or other close family members) own or receive gifts, inheritance, or in any ways have interest in the Company's business relations;

4. Dewan Komisaris tidak boleh memiliki kepentingan pada perusahaan yang produknya bersaing dengan salah satu lini produk Perseroan (yaitu semen, beton siap-pakai, dan agregat). Selain itu anggota Dewan Komisaris tidak boleh melakukan jasa dalam bentuk apapun kepada pesaing Perseroan;
5. Dewan Komisaris berkewajiban mengisi daftar khusus yang berisikan kepemilikan sahamnya dan atau keluarganya;
6. Apabila terjadi benturan kepentingan, maka harus diungkapkan, dan Dewan Komisaris yang bersangkutan tidak boleh melibatkan diri dalam proses pengambilan keputusan Perseroan; dan
7. Dewan Komisaris berkewajiban membuat pernyataan apabila terdapat benturan kepentingan terhadap hal-hal yang termaktub dalam Rencana Kerja Perseroan dan/atau rencana tindakan korporasi Perseroan.

Benturan Kepentingan Direksi

Benturan kepentingan Direksi adalah suatu kondisi tertentu di mana kepentingan pribadi Direksi berpotensi bertentangan dengan kepentingan perusahaan untuk meningkatkan nilai perusahaan, meraih laba serta pencapaian visi dan misi perusahaan sebagaimana diamanatkan oleh pemegang saham.

Beberapa prinsip yang dianut Indocement untuk mencegah terjadinya benturan kepentingan dan implikasi lanjutan yang sering ditimbulkannya antara lain adalah sebagai berikut:

1. Direksi harus menghindari adanya potensi benturan kepentingan di dalam melaksanakan tugasnya. Untuk mencegah terjadinya hal tersebut Direksi perlu memenuhi beberapa prinsip yaitu:
 - a. Direksi wajib menyelenggarakan dan mengisi daftar khusus yang berisikan kepemilikan sahamnya dan atau keluarganya pada perusahaan lain secara benar dan akurat;
 - b. Direksi harus menghindari setiap aktivitas yang dapat mempengaruhi independensinya dalam pengambilan keputusan;
 - c. Direksi tidak boleh berpartisipasi dalam setiap kegiatan pengadaan yang melibatkan suatu perusahaan di mana yang bersangkutan atau keluarganya mempunyai kepemilikan saham yang signifikan atau mempunyai kepentingan finansial atas transaksi tersebut; dan
 - d. Direksi wajib membuat pernyataan apabila terdapat benturan kepentingan terhadap hal-hal yang tercatat dalam rencana kerja Perseroan.

4. The Board of Commissioners shall not have interest in a company whose products compete with one of the Company's product lines (which are cement, ready-mix concrete, and aggregates). In addition, members of the Board of Commissioners shall not perform services in any form to the Company's competitors;
5. The Board of Commissioners shall complete a special register with information on the share ownership and/or the family's;
6. In the event that a conflict of interest occurs, it shall be disclosed and the relevant member of Board of Commissioners shall not be involved in the Company's decision making process; and
7. The Board of Commissioners is obliged to make a statement if there is a conflict of interest on matters set out in the Company's Work Plan and/or the Company's corporate action plan.

Conflict of Interest of the Board of Directors

Conflict of interest of the Board of Directors means a certain condition where the Director's personal interest has the potential to be against the Company's interest to increase Company's value, gain profit, and achieve vision and mission, as mandated by the shareholders.

Some of the principles applied by Indocement to avoid conflict of interest and its further implication that often occur, among others, are as follows:

1. The Board of Directors shall always avoid any conflict of interest in performing its duties. To prevent such matter, the Board of Directors shall comply with several principles, which are:
 - a. The Board of Directors shall organize and complete a special register with true and accurate information on the share ownership or the family's;
 - b. The Board of Directors shall avoid any activities that can affect its independence in decision making;
 - c. The Board of Directors shall not participate in any procurement activities involving a company in which the related Director or the family has significant share ownership or has financial interest of such transaction; and
 - d. The Board of Directors is obliged to make a statement if there is a conflict of interest on matters set out in the Company's work plan.

2. Direksi wajib mengungkapkan jika ada anggota Direksi atau anggota keluarganya (suami-istri, anak-anak, atau anggota keluarga dekat lainnya) memiliki atau memperoleh, hadiah, warisan atau dengan cara lain memiliki suatu kepentingan dalam relasi bisnis Perseroan;
3. Direksi tidak boleh memiliki kepentingan pada perusahaan yang produknya bersaing dengan salah satu lini produk Perseroan. Selain itu anggota Direksi tidak boleh melakukan jasa dalam bentuk apapun kepada pesaing Perseroan;
4. Apabila terjadi sesuatu hal, dimana kepentingan Perseroan berbenturan dengan kepentingan salah seorang anggota Direksi, maka dengan persetujuan Dewan Komisaris, Perseroan akan diwakili oleh anggota Direksi lainnya. Apabila benturan kepentingan tersebut menyangkut semua anggota Direksi, maka Perseroan akan diwakili oleh Dewan Komisaris atau seorang yang ditunjuk oleh Dewan Komisaris. Dalam hal seluruh anggota Direksi dan Dewan Komisaris memiliki benturan kepentingan, maka RUPS mengangkat pihak lain untuk mewakili Perseroan dalam menjalankan tugas tersebut di atas.

Kepemilikan Saham Dewan Komisaris dan Direksi

Indocement menyelenggarakan daftar khusus bagi seluruh anggota Dewan Komisaris dan Direksi sebagai salah satu bentuk komitmen dalam menghindari aktivitas yang berpotensi menimbulkan benturan kepentingan. Daftar khusus tersebut berisi informasi kepemilikan saham anggota Dewan Komisaris dan Direksi beserta anggota keluarganya di Perseroan.

Pada 2024, tidak terdapat anggota keluarga anggota Dewan Komisaris Perseroan yang memiliki saham di Perseroan, sebagaimana dirinci dalam tabel berikut:

2. The Board of Directors must disclose in the event that members of the Board of Directors or their family members (spouse, children, or other close family members) own or receive gifts, inheritance, or in any ways have interest in the Company's business relations;
3. The Board of Directors shall not have interest in a company whose products compete with one of the Company's product lines. In addition, members of the Board of Directors shall not perform services in any form to the Company's competitors;
4. In the event that the conflict of interest is between the Company and one member of Board of Directors, then with approval from the Board of Commissioners, the Company shall be represented by another member of Board of Directors. In the event that the conflict of interest involves all members of Board of Directors, the Company shall be represented by the Board of Commissioners or a person appointed by the Board of Commissioners. In the event that all members of the Board of Directors and Board of Commissioners have a conflict of interest, the GMS shall appoint other party to represent the Company in performing the above mentioned duties.

Share Ownership of Board of Commissioners and Board of Directors

Indocement has a special register for all members of the Board of Commissioners and Board of Directors as a manifestation of commitment to avoiding activities that may cause conflict of interest. The special register contains share ownership information of the members of Board of Commissioners and their family in the Company.

In 2024, there were not family members of members of the Board of Commissioners who owned shares in the Company, as detailed in the following table:

Kebijakan Rangkap Jabatan Dewan Komisaris dan Direksi

Anggota Dewan Komisaris dan Direksi Perseroan diperbolehkan merangkap jabatan lain dengan ketentuan sebagai berikut:

Rangkap Jabatan Dewan Komisaris

Sesuai POJK 33/2014 dan ketentuan pada Piagam Dewan Komisaris Indocement, kebijakan rangkap jabatan Dewan Komisaris adalah sebagai berikut:

- Anggota Dewan Komisaris dapat merangkap jabatan sebagai:
 - Anggota Direksi paling banyak pada dua emiten atau perusahaan publik lain; dan
 - Anggota Dewan Komisaris paling banyak pada dua emiten atau perusahaan publik lain.

Concurrent Position Policy of Board of Commissioners and Board of Directors

The members of Board of Commissioners and Board of Directors are allowed to have concurrent positions under the following provisions:

Concurrent Positions of Board of Commissioners

According to POJK 33/2014 and the Board Charter provisions of Indocement's Board of Commissioners, the concurrent position policy of the Board of Commissioners is as follows:

- Members of the Board of Commissioners may have concurrent positions as:
 - Member of Board of Directors at no more than two other issuers or public companies; and
 - Member of Board of Commissioners at no more than two other issuers or public companies.

2. Dalam hal anggota Dewan Komisaris tidak merangkap jabatan sebagai anggota Direksi, anggota Dewan Komisaris yang bersangkutan dapat merangkap jabatan sebagai anggota Dewan Komisaris paling banyak pada empat emiten atau perusahaan publik lain; dan
3. Anggota Dewan Komisaris dapat merangkap sebagai anggota komite paling banyak pada lima komite di emiten atau perusahaan publik dimana yang bersangkutan juga menjabat sebagai anggota Direksi atau anggota Dewan Komisaris. Rangkap jabatan sebagai anggota komite tersebut hanya dapat dilakukan sepanjang tidak bertentangan dengan peraturan perundang-undangan lainnya.

Pengungkapan rangkap jabatan anggota Dewan Komisaris Perseroan dapat dilihat pada tabel berikut:

2. In the event that a member of Board of Commissioners does not hold a concurrent position as member of Board of Directors, the said member of Board of Commissioners may have concurrent position as a member of Board of Commissioners at no more than four other issuers or public companies; and

Penilaian Kinerja Dewan Komisaris dan Direksi

Performance Assessment of Board of Commissioners and Board of Directors

Mengacu pada Peraturan Otoritas Jasa Keuangan Nomor 21/2015 yang dijabarkan dalam Surat Edaran Otoritas Jasa Keuangan Nomor 31/2015, dalam rangka meningkatkan kualitas pelaksanaan tugas dan tanggung jawab Dewan Komisaris dan Direksi, kinerja Dewan Komisaris dan Direksi di evaluasi setiap tahun. Kinerja Dewan Komisaris dan Direksi dievaluasi oleh pemegang saham melalui mekanisme RUPS, setelah sebelumnya Dewan Komisaris dan Direksi melakukan penilaian mandiri atas kinerja individual maupun kolektif kolegial.

Hasil evaluasi kinerja Dewan Komisaris dan Direksi secara individual merupakan salah satu dasar pertimbangan bagi pemegang saham untuk melakukan penunjukan kembali. Hasil evaluasi terhadap kinerja Dewan Komisaris secara keseluruhan dan kinerja masing-masing anggota Direksi merupakan bagian yang tidak terpisahkan dalam skema remunerasi untuk Dewan Komisaris dan Direksi.

Penilaian Kinerja Dewan Komisaris

Kinerja Dewan Komisaris dievaluasi setiap tahun oleh pemegang saham dalam RUPS. Secara umum, kinerja Dewan Komisaris ditentukan berdasarkan tugas kewajiban yang tercantum dalam peraturan perundang-undangan yang berlaku dan anggaran dasar maupun amanat pemegang saham. Kriteria evaluasi formal disampaikan secara terbuka kepada Dewan Komisaris sejak pengangkatannya.

Hasil evaluasi terhadap kinerja Dewan Komisaris dilakukan secara kolegial dan merupakan bagian yang tidak terpisahkan dalam skema kompensasi dan pemberian insentif bagi Dewan Komisaris. Hasil evaluasi kinerja masing-masing anggota Dewan Komisaris merupakan salah satu dasar pertimbangan bagi pemegang saham untuk pemberhentian dan/atau penunjukan kembali anggota Dewan Komisaris yang bersangkutan. Hasil evaluasi kinerja Dewan Komisaris secara kolegial merupakan sarana penilaian serta peningkatan efektivitas Dewan Komisaris.

Referring to Financial Services Authority Regulation No. 21/2015 as outlined in Financial Services Authority Circular No. 31/2015, in increasing the quality of duties and responsibilities implementation of the Board of Commissioners and Board of Directors, the performance of the Board of Commissioners and Board of Directors is evaluated annually. The Board of Commissioners' and Board of Directors' performance is evaluated by shareholders through the GMS mechanism, after the Board of Commissioners and Board of Directors conducted the independent assessments of individual performance as well as collective collegial performance.

The performance evaluation result for each member of the Board of Commissioners and Board of Directors individually becomes one of the basis of Shareholders considerations for re-appointment. The evaluation results of the Board of Directors' overall performance and each member's performance will form an integral part of the remuneration scheme for the Board of Commissioners and Board of Directors.

Performance Assessment of Board of Commissioners

Performance of the Board of Commissioners is evaluated annually by the shareholders at the GMS. In general, the Board of Commissioners' performance shall be determined based on the duties and obligations stated in the applicable laws and regulations, articles of association, and shareholders' mandate. Formal evaluation criteria shall be submitted openly to members of the Board of Commissioners from the moment they are appointed.

The results of performance evaluation of the Board of Commissioners that is conducted collegially are an integral part of the compensation and incentives scheme for the Board of Commissioners. The performance evaluation result of each member of the Board of Commissioners is one of the basis of considerations for the shareholders to dismiss and/or re-appoint the relevant member of Board of Commissioners. The results of performance evaluation of the Board of Commissioners that is conducted collegially will be a means of assessment and improvement on the effectiveness of the Board of Commissioners.

Prosedur Pelaksanaan Penilaian Kinerja Dewan Komisaris

Tugas dan kewajiban Dewan Komisaris yang tercantum dalam peraturan perundang-undangan yang berlaku dan Anggaran Dasar Perseroan maupun amanat pemegang saham wajib dievaluasi secara berkala. Dewan Komisaris Perseroan melakukan penilaian mandiri (*self-assessment*) atas kinerjanya, yang kemudian akan diserahkan dan dievaluasi oleh pemegang saham dalam RUPS.

Prosedur pelaksanaan penilaian atas kinerja Dewan Komisaris dapat diilustrasikan dalam bagan sebagai berikut:

Kriteria Evaluasi Kinerja Dewan Komisaris

Kriteria evaluasi kinerja Dewan Komisaris berdasarkan rekomendasi Komite Nominasi dan Remunerasi kepada Dewan Komisaris, sekurang-kurangnya terdiri atas:

1. Tingkat kehadiran dalam Rapat Dewan Komisaris, Rapat Dewan Komisaris dengan Direksi maupun Rapat Dewan Komisaris dengan Komite;
2. Kontribusi dalam melakukan tugas-tugas pengawasan dan pemberian nasihat kepada Direksi atas pengelolaan Perseroan, termasuk namun tidak terbatas pada:
 - a. Audit dan Laporan Keuangan;
 - b. Tata Kelola, Nominasi dan Remunerasi;
 - c. Manajemen Risiko;
 - d. Operasional Perseroan; dan
 - e. Eksekusi Proyek.
3. Pencapaian program kerja komite-komite di bawah Dewan Komisaris;
4. Pengetahuan bisnis dan identifikasi risiko bisnis;
5. Komitmen dalam mendukung kepentingan Perseroan;
6. Penerapan Tata Kelola Perusahaan yang Baik;

Procedure for Assessing Board of Commissioners' Performance

The duties and obligations of the Board of Commissioners stated in the applicable laws and regulations, the Company's Articles of Association, and shareholders' mandate must be evaluated periodically. The Board of Commissioners conducts self-assessment for its performance, which will then be submitted and evaluated by the shareholders in the GMS.

The procedure of performance assessment of the Board of Commissioners is illustrated in the following chart:

Criteria for Performance Evaluation of Board of Commissioners

The criteria for performance evaluation of the Board of Commissioners based on the Nomination and Remuneration Committee's recommendation to the Board of Commissioners shall at least consist of:

1. The attendance level of Board of Commissioners' Meetings, Joint Meeting of Board of Commissioners and Board of Directors, and Meetings of the Board of Commissioners with the Committees;
2. Contribution in performing supervisory and advisory duties to the management of the Company performed by the Board of Directors, including but not limited to:
 - a. Audit and Financial Statements;
 - b. Corporate Governance, Nomination and Remuneration;
 - c. Risk Management;
 - d. Company's Operations; and
 - e. Projection Execution.
3. Achievement of work program of committees under the Board of Commissioners;
4. Business knowledge and business risk identification;
5. Commitment to promoting the Company's interests;
6. Good Corporate Governance implementation;

7. Kepatuhan terhadap peraturan perundang-undangan yang berlaku, Anggaran Dasar Perseroan, keputusan RUPS, serta kebijakan Perseroan.

Penilai

Penilai melakukan penilaian dan evaluasi terhadap kinerja Dewan Komisaris adalah pemegang saham melalui mekanisme RUPS, di mana pertimbangan penilaian tersebut diambil berdasarkan laporan hasil *self-assessment* yang dilakukan Dewan Komisaris.

Penilaian Kinerja Direksi

Kinerja Direksi akan dievaluasi setiap tahun oleh Dewan Komisaris dan disampaikan kepada pemegang saham dalam RUPS. Secara umum, kinerja Direksi ditentukan berdasarkan target kinerja. Kriteria evaluasi formal disampaikan secara terbuka kepada Direksi sejak pengangkatannya.

Hasil evaluasi terhadap kinerja Direksi secara keseluruhan dan kinerja masing-masing anggota Direksi merupakan bagian yang tidak terpisahkan dalam pemberian skema kompensasi bagi Direksi. Hasil evaluasi kinerja masing-masing anggota Direksi merupakan salah satu dasar pertimbangan bagi pemegang saham untuk pemberhentian dan/atau penunjukan kembali anggota Direksi yang bersangkutan. Hasil evaluasi kinerja Direksi baik secara kolektif maupun individu juga merupakan sarana penilaian serta peningkatan efektivitas Direksi.

Prosedur Pelaksanaan Penilaian Kinerja Direksi

Sama halnya dengan Dewan Komisaris, kinerja Direksi juga dievaluasi secara rutin berdasarkan pemenuhan tugas, tanggung jawab, dan kewajiban Direksi yang telah ditetapkan. Evaluasi Direksi dilaksanakan oleh Dewan Komisaris dalam rapat gabungan Dewan Komisaris dengan Direksi yang diselenggarakan setiap akhir periode tahun buku.

7. Compliance with the applicable laws and regulations, the Company's Articles of Association, GMS resolutions, and Company's policies.

Assessor

The assessor conducting assessment and evaluation of the Board of Commissioners' performance is the shareholders through the GMS mechanism, in which considerations for such assessment are taken from the reports of self-assessment performed by the Board of Commissioners.

Performance Assessment of Board of Directors

Board of Directors' performance will be evaluated every year by the Board of Commissioners and submitted to shareholders in the GMS. Generally, the Board of Directors' performance is determined based on performance targets. Formal evaluation criteria shall be submitted openly to members of the Board of Directors from the moment they are appointed.

The overall evaluation results of the Board of Directors' performance and the performance of each member of the Board of Directors form an integral part of the compensation scheme for the Board of Directors. Performance evaluation result of each member of the Board of Directors is one of the basis of considerations for the shareholders to dismiss and/or re-appoint the relevant member of Board of Directors. The Board of Directors' performance evaluation results, as a Board and an individual, are also means of assessment and improvement to the Board of Directors' effectiveness.

Procedure of Assessing Board of Directors' Performance

Similar to that of Board of Commissioners, the Board of Directors' performance is also routinely evaluated based on the fulfillment of the Board of Directors' pre-determined duties, responsibilities, and obligations. The Board of Directors' evaluation is performed by the Board of Commissioners in the joint meeting of the Board of Commissioners and Board of Directors held at every end of the fiscal year.

Direksi melakukan penilaian mandiri *self-assessment* atas kinerjanya berdasarkan pencapaian tugas manajemen. Hasil *self-assessment* Direksi tersebut dievaluasi dan disetujui Dewan Komisaris, yang dalam hal ini dibantu oleh Komite Nominasi dan Remunerasi, untuk kemudian dilaporkan kepada pemegang saham dalam RUPS Tahunan. Sistem tersebut akan terus disempurnakan sejalan dengan perkembangan organisasi Indocement.

Skema prosedur pelaksanaan penilaian (*assessment*) atas kinerja Direksi dapat diilustrasikan sebagai berikut:

Kriteria Evaluasi Kinerja Direksi

Kriteria yang digunakan dalam pelaksanaan penilaian atas kinerja Direksi sekurang-kurangnya:

1. Tingkat kehadiran dalam Rapat Direksi, Rapat gabungan Direksi, dan Dewan Komisaris maupun Rapat Direksi dengan Komite;
2. Pencapaian program kerja Direksi;
3. Pencapaian program kerja Komite di bawah Direksi;
4. Pengetahuan bisnis dan identifikasi risiko bisnis;
5. Komitmen dalam memajukan kepentingan Perseroan;
6. Penerapan Tata Kelola Perusahaan yang Baik; dan
7. Kepatuhan terhadap peraturan perundang-undangan yang berlaku, Anggaran Dasar Perseroan, keputusan RUPS, serta kebijakan Perseroan.

Penilai

Penilaian kinerja Direksi dilakukan oleh Dewan Komisaris dan hasilnya dilaporkan kepada pemegang saham dalam RUPS Tahunan.

The Board of Directors performs self-assessment on its performance based on the achievement of management duties. The Board of Directors' self-assessment results evaluated and approved by the Board of Commissioners, which in this case is assisted by the Nomination and Remuneration Committee, to subsequently be reported to the shareholders in the Annual GMS. This system will be continuously refined in line with the Indocement's organizational development.

The procedure scheme of performance assessment of the Board of Directors is illustrated in the following chart:

Criteria for Performance Evaluation of Board of Directors

The criteria used in conducting performance assessment of the Board of Directors shall at least include:

1. Attendance level in Board of Directors' Meetings, Joint Meeting of Board of Directors and Board of Commissioners, and Board of Directors' Meetings with the Committee;
2. Achievement of Board of Directors' work program;
3. Achievement of work program of Committees under the Board of Directors;
4. Business knowledge and business risk identification;
5. Commitment to promoting the Company's interests;
6. Good Corporate Governance implementation; and
7. Compliance with the applicable laws and regulations, the Company's Articles of Association, GMS resolutions, and Company's policies.

Assessor

The Board of Directors' performance assessment is conducted by the Board of Commissioners and its results are reported to the shareholders in the Annual GMS.

Penilaian Penerapan GCG Dewan Komisaris dan Direksi

Kinerja Dewan Komisaris dan Direksi juga diukur dari efektivitas pelaksanaan GCG sesuai dengan kriteria ASEAN Corporate Governance Scorecard. Adapun penilaian mandiri terhadap kriteria tersebut pada 2024 adalah sebagai berikut:

Assessment of GCG Implementation for Board of Commissioners and Board of Directors

The performance of the Board of Commissioners and Board of Directors is also measured by the effectiveness of GCG implementation according to the ASEAN Corporate Governance Scorecard criteria. The independent assessment of such criteria in 2024 is as follows:

Kebijakan Suksesi Direksi

Dalam rangka memastikan keberlanjutan bisnis Perseroan, kesinambungan proses regenerasi kepemimpinan di Perseroan merupakan hal yang terus menjadi perhatian Perseroan.

Sejalan dengan hal tersebut salah satu tugas Komite Nominasi dan Remunerasi adalah menyusun, menelaah dan mengusulkan perencanaan suksesi anggota Direksi dengan memperhatikan antara lain kriteria kompetensi, profesionalitas, dan etika kerja yang dibutuhkan oleh Perseroan guna meningkatkan nilai Perseroan terhadap pemegang saham dan pemangku kepentingan lainnya. Kriteria tersebut merupakan acuan bagi Komite Nominasi dan Remunerasi dalam melakukan identifikasi calon yang memenuhi syarat sebagai anggota Direksi (baik dari kalangan internal maupun dari eksternal), melakukan evaluasi kinerja Direksi, serta menyusun program pengembangan kepemimpinan yang diperlukan. Kandidat yang terpilih melalui mekanisme tersebut kemudian diajukan kepada RUPS untuk dimintai persetujuannya.

Komite Lainnya

Hingga akhir 2024, Dewan Komisaris Indocement hanya membentuk Komite Audit dan Komite Nominasi dan Remunerasi. Dewan Komisaris menilai, keberadaan kedua Komite tersebut sudah mencukupi dalam rangka membantu pelaksanaan fungsi, tugas, dan tanggung jawab Dewan Komisaris.

Board of Directors' Succession Policy

To ensure the sustainability of the Company's business, the continuity of the leadership regeneration process in the Company is a matter of concern for the Company.

In line with this matter, one of the duties of the Nomination and Remuneration Committee is to compile, review, and propose the succession plan for the Board of Directors' members by considering the competence criteria, professionalism, and work ethics required by the Company in order to increase the Company's values towards the shareholders and other stakeholders. These criteria are references for the Nomination and Remuneration Committee in identifying candidates who meet the requirements as the Board of Directors' members (both internally and externally), evaluating the Board of Directors' performance, and preparing the necessary leadership development programs. Candidates selected through such mechanism are proposed to the GMS for approval.

Other Committees

Until end of 2024, Indocement's Board of Commissioners only established Audit Committee and Nomination and Remuneration Committee. The Board of Commissioners considers that these two Committees are sufficient to assist the Board of Commissioners' functions, duties, and responsibilities.

Organ Pendukung Direksi

Board of Directors' Supporting Organs

Direksi dapat membentuk organ yang dapat membantu dalam pelaksanaan tugas pengelolaan Perusahaan. Organ yang dibentuk Direksi dapat bersifat *ad-hoc* maupun struktural. Hingga akhir 2024, Direksi memiliki empat komite yang bersifat *ad-hoc*, yaitu Komite Keselamatan, Komite Etika, Komite ESG, dan Komite HAM. Selain itu, Direksi juga dibantu oleh organ struktural, yaitu Corporate Secretary dan Divisi Internal Audit. Seluruh organ tersebut dibentuk untuk memastikan pelaksanaan prinsip GCG dan ketaatan terhadap peraturan perundang-undangan yang berlaku.

Komite Keselamatan

Sejalan dengan komitmen Perseroan untuk memastikan terlaksananya manajemen keselamatan dan kesehatan kerja dengan baik dan benar serta menekan tingkat kecelakaan kerja, Direksi membentuk Komite Keselamatan atau Indocement Safety Committee (I-SC). Komite ini dibentuk untuk membantu Direksi dalam menentukan strategi pencegahan kecelakaan dan penyakit akibat kerja, mendukung dan memastikan strategi, inisiasi, dan program keselamatan dan kesehatan kerja dalam semua kegiatan Perseroan terlaksana dengan baik.

Dasar Hukum

1. Undang-Undang Republik Indonesia Nomor 13 Tahun 2003 tentang Ketenagakerjaan yang mengamankan kewajiban perlindungan keselamatan dan kesehatan kerja melalui penerapan sistem manajemen keselamatan dan kesehatan kerja yang terintegrasi dengan sistem manajemen perusahaan;
2. Undang-undang Republik Indonesia Nomor 1 Tahun 1970 tentang Keselamatan Kerja yang mengamankan kewajiban pemenuhan persyaratan keselamatan, pembinaan sebagai upaya pencegahan kecelakaan dan kebakaran serta pembentukan panitia pembina keselamatan dan kesehatan kerja;
3. Peraturan Pemerintah Nomor 50 Tahun 2012 tentang Pedoman Penerapan Sistem Manajemen Keselamatan dan Kesehatan Kerja (SMK3);
4. Pedoman Keselamatan dan Kesehatan Kerja Heidelberg Materials; dan
5. Surat Keputusan Direksi Nomor 011/Kpts/Dir/ITP/IX/2019 tanggal 17 September 2019 tentang Komite Keselamatan.

The Board of Directors may establish organs that can assist in performing its duties to manage the Company. The Board of Directors may create *ad-hoc* or structural organs. Until the end of 2024, the Board of Directors had four *ad-hoc* committees, namely Safety Committee, Ethics Committee, ESG Committee, and Human Rights Committee. In addition, the Board of Directors is also assisted by structural organs, namely Corporate Secretary and Internal Audit Division. All of these organs are established to ensure the implementation of GCG principles and its compliance with the applicable laws and regulations.

Safety Committee

In line with the Company's commitment to ensuring proper and correct implementation of occupational health and safety management and reducing occupational accident rates, the Board of Directors established the Safety Committee or Indocement Safety Committee (I-SC). This committee is established to assist the Board of Directors in determining strategies to prevent occupational accidents and diseases, to support and ensure that the strategy, initiation, and occupational health and safety programs in all Company activities are well implemented.

Legal Basis

1. Law of the Republic of Indonesia No. 13 of 2003 on Manpower, which mandates the obligation to provide protection on occupational health and safety by implementing occupational health and safety management system that is integrated with the company's management system;
2. Law of the Republic of Indonesia No. 1 of 1970 on Occupational Safety, which mandates the obligation to fulfill safety requirements, guidance as an effort to prevent accidents and fires, as well as the establishment of a steering committee of occupational health and safety;
3. Government Regulation No. 50 of 2012 on Guidelines for Implementing Occupational Health and Safety Management Systems (OHSMS);
4. Heidelberg Materials Occupational Health and Safety Guidelines; and
5. Board of Directors' Decision Letter No. 011/Kpts/Dir/ITP/IX/2019 dated 17 September 2019 on Safety Committee.

Hubungan Investor

Investor Relations

Dalam rangka menjaga dan meningkatkan komunikasi antara Perseroan dengan para investor baik di tingkat lokal maupun internasional, Perseroan memiliki Hubungan Investor yang merupakan fungsi pendukung Direksi yang berperan penting dalam menyediakan informasi yang dibutuhkan komunitas pasar modal terkait dengan kondisi keuangan, saham, kinerja, dan prospek usaha Perseroan secara rutin.

Fungsi dari Hubungan Investor antara lain untuk memberikan informasi terkini terkait kinerja keuangan dan prospek perusahaan kepada para pemegang saham dan investor secara umum. Penyebarluasan informasi dilakukan secara langsung dan aktif kepada investor maupun kepada para analis pasar modal melalui penyelenggaraan kegiatan atau aktivitas yang dilaksanakan secara berkala. Kegiatan tersebut dilakukan melalui pertemuan resmi secara berkelompok maupun perorangan (*small group* atau *one-on-one meeting*), *conference call*, pengungkapan informasi dan publikasi terkini dari Perseroan pada situs web Perseroan di www.Indocement.co.id.

To maintain and improve communication between the Company and investors, both locally and internationally, the Company has Investor Relations, a support function for the Board of Directors, which plays an important role in providing information required by capital market communities regarding financial condition, stocks, performance, and business prospects of the Company in a routine manner.

The Investor Relations' functions are, among others, providing the latest information on financial performance and the Company's prospects to shareholders and investors in general. Information is disseminated directly and actively to investors as well as to capital market analysts through the implementation of regular activities. Such activities are carried out through small group or one-on-one meetings, conference calls, information disclosure and the latest Company publications on the Company's website at www.Indocement.co.id.

Risk Management

Perseroan menyadari bahwa risiko telah menjadi bagian yang tidak terpisahkan dalam setiap proses bisnis yang dijalankan organisasi. Dampak dari risiko tersebut secara signifikan dapat memengaruhi kestabilan organisasi, yang tentu saja melekat pada semua aktivitas dan pengambilan keputusan dalam menjalankan bisnis.

Pengelolaan risiko Perseroan dilaksanakan dengan mempertimbangkan perubahan lingkungan baik eksternal maupun internal. Pengelolaan risiko juga diperlukan dalam rangka penguatan penerapan prinsip-prinsip GCG terutama terkait dengan penegakan praktik bisnis yang sehat dan memberikan nilai tambah yang sesuai dengan harapan para pemangku kepentingan.

Mengacu dengan kerangka kerja tata perusahaan yang diterbitkan oleh OJK, tanggung jawab untuk manajemen risiko terletak terutama pada Direksi, sementara Dewan Komisaris melakukan pengawasan.

Tujuan utama Perseroan dalam penerapan manajemen risiko adalah menjaga kelangsungan bisnis untuk jangka panjang dengan memastikan pasokan produk yang konsisten dan andal kepada pelanggan untuk menjaga pertumbuhan di masa depan dan memastikan manfaat yang cukup kepada pemegang saham.

Kebijakan Manajemen Risiko

Perseroan telah menetapkan kebijakan Manajemen Risiko di seluruh lini organisasi dalam rangka mewujudkan penerapan manajemen risiko yang efektif dan terintegrasi. Kebijakan tersebut dikomunikasikan secara terus-menerus kepada seluruh pemangku kepentingan untuk dipahami serta dievaluasi keefektifannya secara berkala.

Perseroan memiliki komitmen yang kuat untuk senantiasa mengungkapkan secara transparan risiko-risiko yang dapat memengaruhi jalannya Perseroan secara signifikan. Hal ini ditujukan agar semua pihak yang berkepentingan, dapat memperhitungkan risiko-risiko yang relevan apabila melakukan transaksi bisnis dengan Perseroan.

The Company realizes that risk has become an integral part of every business process carried out by the organization. The impact of such risk can significantly affect the organization's stability, which of course is inherent in all activities and decision-making in running business.

The Company's risk management is carried out by considering changes in the external and internal environment. Risk management is also required in order to strengthen the implementation of GCG principles, particularly related to enforcing sound business practices and providing added value in line with the expectations of stakeholders.

Pursuant to corporate governance framework issued by OJK, the responsibility for risk management lies primarily with the Board of Directors, while the Board of Commissioners carries out supervision.

The Company's main objective in implementing risk management is to maintain long-term business continuity by ensuring consistent and reliable product supply to customers to maintain future growth and ensure sufficient benefits to shareholders.

Risk Management Policy

The Company has established Risk Management policies in all organizational lines in order to realize an effective and integrated risk management implementation. Such policy is continuously communicated to all stakeholders to be understood and evaluated for its effectiveness on a regular basis.

The Company has a strong commitment to disclosing continuously in a transparent manner the risks that can affect the Company's operations significantly. The objective is so that all interested parties can calculate the relevant risks when they do business transactions with the Company.

Struktur Pengelolaan Manajemen Risiko

Pengelolaan manajemen risiko di Perseroan menerapkan *Three Lines of Defense* yang dikembangkan Perseroan dan Internal Audit Division bertanggung jawab menjalankan fungsi *Third Line of Defense* dengan berkoordinasi secara langsung dengan Direksi dan Dewan Komisaris atau Komite Audit.

Risk Management Structure

Risk management in the Company implements the Three Lines of Defense developed by the Company and Internal Audit Division is responsible for carrying out the function of Third Line of Defense by directly coordinating with the Board of Directors and Board of Commissioners or Audit Committee.

Perseroan merancang sistem manajemen risiko untuk mendukung proses pengelolaan risiko di lingkungan Perseroan. Sistem manajemen risiko tersebut digunakan di seluruh lingkungan Perseroan sebagai perangkat untuk membantu pelaksanaan manajemen risiko.

Sistem manajemen risiko yang dijalankan Perseroan disusun berdasarkan ketentuan perundang-undangan dan *best practices* di dunia usaha. Sistem tersebut mencakup seluruh proses dalam pengelolaan dan pengendalian risiko, yang prosesnya sendiri merupakan proses yang berjalan secara terus menerus.

Proses manajemen risiko di lingkungan Perseroan dilaksanakan dalam suatu kerangka kerja yang komprehensif mencakup semua risiko yang teridentifikasi sebagai risiko yang dihadapi Perseroan. Perseroan berupaya untuk mengelola unsur ketidakpastian baik berasal dari lingkungan internal maupun eksternal yang dapat memberi pengaruh terhadap pencapaian tujuan Perseroan. Unsur-unsur ketidakpastian menjadi semakin besar akibat perubahan iklim bisnis yang semakin cepat dan kompleks.

The Company designs a risk management system that supports the risk management process within the Company. Such risk management system is applied within the Company as a tool to assist risk management implementation.

The risk management system implemented by the Company is prepared based on the provisions of laws and best practices in the business world. Such system includes all processes in risk management and control, in which the process itself runs continuously.

The risk management process within the Company is carried out in a comprehensive framework covering all risks identified as risks faced by the Company. The Company strives to manage the elements of uncertainty, both from the internal and external environments, which can influence the achievement of the Company's objectives. The elements of uncertainty are getting bigger due to the changing business climate that is increasingly fast and complex.

Perseroan telah menyusun kebijakan Manajemen Risiko sebagai acuan dalam pengelolaan risiko yang mungkin dihadapi Perseroan dan penentuan upaya mitigasi terhadap risiko tersebut. Kebijakan Manajemen Risiko tersebut berlaku di setiap divisi yang ada di Perseroan.

Pengelolaan manajemen risiko di Perseroan ditangani oleh Direksi dengan pengawasan dari Dewan Komisaris. Perseroan secara berkala melakukan penilaian dan evaluasi atas efektivitas pengendalian manajemen risiko. Jika dibutuhkan, Dewan Komisaris dapat memberikan rekomendasi terhadap penerapan sistem manajemen risiko yang komprehensif, sehingga memungkinkan Perseroan secara efektif mengelola risiko dan dapat memperhitungkan portofolio risiko dan mengambil tindakan-tindakan preventif agar dapat memaksimalkan pencapaian laba.

Profil Risiko dan Upaya Mitigasi

Perseroan mengidentifikasi risiko utama yang berpotensi memiliki dampak terhadap operasional bisnis, serta dirumuskan langkah mitigasi yang bertujuan mengendalikan dampak dari risiko yang dihadapi.

Beberapa risiko utama beserta langkah mitigasi yang telah dirumuskan oleh Perseroan adalah sebagai berikut:

1. Risiko Pasar

Risiko pasar adalah risiko dimana nilai wajar dari arus kas masa depan dari suatu instrumen keuangan akan berfluktuasi karena perubahan harga pasar. Perseroan dipengaruhi oleh risiko pasar, terutama risiko mata uang asing dan risiko harga komoditas.

Upaya mitigasi:

Perseroan membatasi jumlah eksposur risiko pasar sesuai dengan batasan yang diizinkan dan memonitor tingkat volatilitas harga pasar instrumen keuangan yang dimiliki dan melakukan perubahan posisi sesuai dengan batasan *risk appetite* Perseroan.

2. Risiko Mata Uang Asing

Risiko mata uang asing adalah risiko dimana nilai wajar atau arus kas masa mendatang dari suatu instrumen keuangan berfluktuasi karena perubahan dari nilai tukar mata uang asing. Pengaruh dari risiko perubahan nilai tukar mata uang asing terutama berhubungan dengan aktivitas Perseroan ketika pendapatan dan beban terjadi dalam mata uang yang berbeda dari mata uang fungsional Perseroan.

The Company has prepared a Risk Management policy as a reference in managing the risks that may be faced by the Company and determining mitigation efforts against these risks. The Risk Management Policy applies to every division in the Company.

Risk management in the Company is handled by the Board of Directors with supervision from the Board of Commissioners. The Company regularly assesses and evaluates the effectiveness of risk management control. If necessary, the Board of Commissioners can provide recommendations on the implementation of a comprehensive risk management system, thus, enabling the Company to effectively manage risk and be able to calculate risk portfolios and take preventive actions in order to maximize profit achievement.

Risk Profile and Mitigation Efforts

The Company identifies the main risks that may potentially influence business operations, and formulates mitigation measures aimed at controlling the impact of such risks.

Some of the main risks along with the mitigation measures that have been formulated by the Company are as follows:

1. Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The Company is exposed to market risks, in particular, foreign currency risk and commodity price risk.

Mitigation efforts:

The Company limits the number of market risk exposures in accordance with the permitted limits and monitors the volatility level of market price of the financial instruments held and changes position in accordance with the Company's risk appetite limits.

2. Risk of Foreign Currency

Risk of foreign currency is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities when revenue or expenses are denominated in a currency different from the Company's functional currency.

Mata uang fungsional dan mata uang penyajian Perseroan adalah Rupiah. Perseroan menghadapi risiko nilai tukar mata uang asing karena penjualan ekspor dan beban atas beberapa pembelian utama dalam mata uang USD atau harganya secara signifikan dipengaruhi oleh tolak ukur dalam mata uang asing (terutama USD) seperti yang ditetapkan pada pasar internasional. Dalam hal terdapat pendapatan dan pembelian oleh Perseroan dalam mata uang selain Rupiah, maka Perseroan menghadapi risiko mata uang asing.

Upaya mitigasi:

Perseroan memonitor secara ketat fluktuasi dari nilai tukar mata uang asing dan ekspektasi pasar sehingga dapat mengambil langkah-langkah yang akan menguntungkan Perseroan pada waktu yang tepat. Manajemen tidak menganggap perlu untuk melakukan transaksi *forward/swap* mata uang asing saat ini.

3. Risiko Harga Komoditas

Dampak risiko harga komoditas yang dihadapi Perseroan terutama sehubungan dengan pembelian bahan baku utama seperti gipsum, batu bara dan bahan bakar. Harga bahan baku tersebut secara langsung dipengaruhi oleh nilai tukar mata uang asing (USD) serta tingkat permintaan dan penawaran di pasar.

Upaya mitigasi:

Kebijakan Perseroan untuk meminimalkan risiko yang berasal dari fluktuasi harga komoditas adalah dengan mengadakan kontrak pembelian dengan para pemasok, menjaga tingkat optimal persediaan gipsum, batu bara, dan bahan bakar untuk produksi yang berkelanjutan. Selain itu, Perseroan juga berusaha mengurangi risiko tersebut dengan cara mengalihkan kenaikan harga kepada pelanggannya.

4. Risiko Kredit

Risiko kredit adalah risiko bahwa Perusahaan akan mengalami kerugian yang timbul dari pelanggan atau pihak lawan yang gagal memenuhi kewajiban kontraktual mereka. Risiko kredit terutama berasal dari piutang usaha dari para pelanggan sehubungan dengan penjualan produk semen dan beton siap-pakai.

The Company's functional currency and presentation currency are both the Rupiah. The Company faces foreign exchange risk as export sales and the costs of certain key purchases are either denominated in USD or whose price is significantly influenced by their benchmark price movements in foreign currencies (mainly USD) as quoted in the international markets. To the extent that the revenues and purchases of the Company are denominated in currencies other than Rupiah, the Company has an exposure to foreign currency risk.

Mitigation efforts:

The Company closely monitors the foreign exchange rate fluctuation and market expectation so it can take necessary actions that will benefit the Company in due time. Management currently does not consider the necessity to enter into any currency forward/swaps.

3. Commodity Price Risk

The Company's exposure to commodity price risk relates primarily to the purchase of major raw materials, such as gypsum, coal and fuel. The prices of these raw materials are directly affected by the foreign exchange rates (USD) and the level of demand and supply in the market.

Mitigation efforts:

The Company's policy is to minimise the risks arising from the fluctuations in the commodity prices by entering purchase contracts with suppliers, maintaining the optimum inventory level of gypsum, coal and fuel to ensure continuous production. In addition, the Company may seek to mitigate its risks by passing on the price increases to its customers.

4. Credit Risk

Credit risk is the risk that the Company will incur a loss arising from its customers' or counterparties' failure to fulfill their contractual obligations. Credit risk arises mainly from trade receivables from customers relating to sale of cement and ready-mix concrete products.

Upaya mitigasi:

Untuk mengurangi risiko ini, Perseroan mempunyai kebijakan untuk memastikan penjualan produk hanya dilakukan kepada pelanggan yang dapat dipercaya dan mempunyai sejarah kredit yang baik. Ini merupakan kebijakan Perseroan dimana semua pelanggan yang akan melakukan pembelian secara kredit harus melalui prosedur verifikasi kredit. Perseroan memiliki kebijakan yang membatasi jumlah kredit untuk pelanggan tertentu, seperti, mengharuskan distributor dan pelanggan untuk memberikan uang muka/bank garansi. Selain itu, saldo piutang dimonitor secara terus menerus untuk mengurangi kemungkinan piutang yang tidak tertagih.

Ketika pelanggan tidak mampu melakukan pembayaran dalam jangka waktu yang telah diberikan, Perseroan akan menghubungi pelanggan untuk menindaklanjuti piutang yang telah lewat jatuh tempo. Jika pelanggan tidak melunasi piutang yang telah jatuh tempo dalam jangka waktu yang wajar, maka Perseroan dapat menggunakan uang jaminan pelanggan atau mencairkan bank garansi sebagai penyelesaian piutang. Perseroan akan menindaklanjuti melalui jalur hukum jika dianggap perlu. Tergantung pada penilaian Perseroan, cadangan khusus mungkin dibuat jika piutang dianggap tidak tertagih.

Untuk mengurangi risiko kredit, Perseroan akan menghentikan penyediaan semua produk kepada pelanggan jika terjadi keterlambatan pembayaran atau wanprestasi.

5. Risiko Likuiditas

Perseroan mengelola profil likuiditasnya untuk dapat membiayai pengeluaran modalnya dan membayar utang yang jatuh tempo dengan menjaga kecukupan kas, dan ketersediaan pendanaan melalui analisa proyeksi keuangan yang dilakukan pada awal tahun.

Upaya mitigasi:

Perseroan secara berkala mengevaluasi proyeksi arus kas dan arus kas aktual untuk memastikan ketersediaan dana untuk memenuhi kebutuhan operasional dan pembayaran liabilitas yang jatuh tempo. Secara umum, dana yang dibutuhkan untuk melunasi liabilitas jangka pendek diperoleh dari kegiatan penjualan kepada pelanggan.

Mitigation efforts:

To mitigate this risk, the Company has policies in place to ensure that sales of products are made only to creditworthy customers and have a good credit history. It is the Company's policy that all customers who wish to trade on credit are subject to credit verification procedures. The Company has policies that limit the amount of credit exposure to any articular customer, such as requiring distributors and customers to provide deposits/bank guarantee. In addition, receivable balances are monitored on an ongoing basis to reduce the exposure to bad debts.

When a customer fails to make payment within the credit term granted, the Company contacts the customer to act on the overdue receivable. If the customer does not settle the overdue receivable within a reasonable time, then the Company may apply the customer's deposit against the receivable or collect from available bank guarantee. The Company may proceed to commence legal proceedings if deemed necessary. Depending on the Company's assessment, specific provision may be made if the receivable is deemed uncollectible.

To reduce credit risk, the Company will stop providing all products to such customer in the event of late payment or default.

5. Liquidity Risk

The Company manages its liquidity profile to be able to finance its capital expenditure and service its maturing debts by maintaining sufficient cash and the availability of funding through an analysis of financial projection which is performed at the beginning of the year.

Mitigation efforts:

The Company regularly evaluates its projected and actual cash flows to ensure the availability of funds for its operations and to settle its maturing obligations. In general, the funds needed to settle the current liabilities are obtained from sales activities to customers.

Peran Aktif Dewan Komisaris dan Direksi

Dalam skema *Three Lines of Defense* yang dikembangkan Perseroan, Dewan Komisaris melalui Komite Audit menjalankan peran aktif dalam pengawasan penerapan tata kelola risiko di Perseroan. Komite Audit secara berkala melakukan koordinasi dengan Internal Audit Division untuk melakukan penilaian dan evaluasi secara berkala atas efektivitas pengendalian tata kelola risiko serta memberikan rekomendasi jika dianggap perlu. Sedangkan, kewenangan atas pelaksanaan dan pengelolaan kerangka kerja manajemen risiko telah diberikan kepada Direksi dengan menyusun dan menetapkan struktur manajemen risiko Perseroan dan struktur akuntabilitas dari setiap lini organisasi sampai tingkat terbawah.

Evaluasi Efektivitas Sistem Manajemen Risiko

Manajemen risiko telah berkontribusi positif dalam proses perencanaan, pengambilan keputusan, dan penguatan penerapan tata kelola Perseroan yang baik di Indocement. Berdasarkan evaluasi yang dilakukan di 2024, penerapan Manajemen Risiko telah berjalan semestinya. Namun, Perseroan tetap perlu menyusun rencana sosialisasi secara konsisten penerapan manajemen risiko, membangun sistem manajemen risiko secara menyeluruh untuk penerapan manajemen risiko, dan implementasi tindak lanjut hasil rekomendasi *risk maturity level*.

Pernyataan Direksi dan/atau Dewan Komisaris atau Komite Audit atas Kecukupan Sistem Manajemen Risiko

Manajemen risiko dilakukan oleh Direksi bersama dengan Internal Audit Division dan Komite Audit untuk menjaga kelangsungan bisnis jangka panjang dengan memastikan pasokan produk Perseroan yang konsisten dan dapat diandalkan kepada pelanggan dengan margin yang memadai untuk menjaga pertumbuhan di masa depan dan memastikan keuntungan bagi para pemegang saham. Dewan Komisaris dan Direksi berkomitmen untuk memastikan bahwa risiko-risiko utama telah diidentifikasi, dievaluasi, dimitigasi, dan dikelola secara efektif.

Active Roles of Board of Commissioners and Board of Directors

In the scheme of Three Lines of Defense developed by the Company, the Board of Commissioners through Audit Committee plays an active role in supervising the implementation of risk governance in the Company. The Audit Committee periodically coordinates with the Internal Audit Division to assess and evaluate regularly the effectiveness of risk governance controls and provide recommendations if deemed necessary. Meanwhile, the authority over the implementation and management of the risk management framework has been given to the Board of Directors by compiling and determining the Company's risk management structure and accountability structure from every line of the organization to the lowest level.

Evaluation of the Effectiveness of Risk Management System

Risk management has contributed positively to the planning process, decision making, and strengthening the implementation of good corporate governance at Indocement. Based on the evaluation conducted in 2024, the Risk Management was implemented properly. However, the Company still needs to prepare a plan to consistently disseminate the implementation of risk management, build a comprehensive risk management system for the implementation of risk management, and implement follow-up actions on recommendation results of risk maturity levels.

Statement of Board of Directors and/or Board of Commissioners or Audit Committee on the Adequacy of Risk Management System

Risk management is carried out by the Board of Directors together with Internal Audit Division and Audit Committee to maintain the long-term business continuity by ensuring consistent and reliable supply of the Company's products to customers with adequate margins to maintain future growth and ensure profits for shareholders. The Board of Commissioners and Board of Directors are committed to ensuring that the key risks have been identified, evaluated, mitigated, and managed effectively.

Pedoman Etika Indocement

Indocement Code of Conduct

Untuk mewujudkan visi dan misi Perseroan, dibutuhkan dukungan dari seluruh pemangku kepentingan, khususnya dari seluruh Insan Indocement. Untuk itu, Perseroan telah menyusun Pedoman Etika Indocement merupakan panduan perilaku (*code of conduct*) secara umum yang memuat beberapa komitmen Perseroan dan ketentuan standar tindakan atau sikap Insan Perseroan yang sejalan dengan visi, misi, dan nilai Perseroan.

Pedoman Etika Indocement ditetapkan melalui Keputusan Direksi Perseroan Nomor 019/Kpts/Dir/ITP/XI/2018 tanggal 1 November 2018, dan terakhir direvisi pada tahun 2023 melalui Keputusan Direksi Nomor 013/Kpts/Dir/ITP/VII/2023 tanggal 7 Juli 2023.

Pedoman Etika Indocement tersebut adalah bagian dari tata kelola Perseroan untuk mencapai keberhasilan jangka panjang.

Tujuan Pedoman Etika Indocement

Tujuan dari Pedoman Etika Indocement adalah untuk:

1. Menjadi pedoman bagi Insan Perseroan dalam berperilaku dan berkontribusi untuk mencapai visi dan misi Perseroan serta dalam implementasi GCG;
2. Menjadi pedoman dalam hubungan antara Perseroan dengan pemangku kepentingan;
3. Menjamin keberlanjutan usaha Perseroan dan pemangku kepentingan; dan
4. Membangun dan menjaga reputasi Perseroan.

Pokok-Pokok Pedoman Etika Indocement

Pedoman Etika Indocement terbagi atas dua bagian utama, yaitu Etika Bisnis dan Etika Kerja sebagai berikut:

1. Etika Bisnis merupakan standar perilaku yang diterapkan Perseroan dalam berinteraksi dengan pemangku kepentingan:

Dissemination of Indocement's Code of Conduct is held online and offline.

Code of Conduct Enforcement for All Organizational Levels

All Company Personnel are required to understand, internalize, and implement Indocement's Code of Conduct as the basis for morals, attitudes, and ethics in acting and behaving. Such commitment is stated in a statement on compliance with Indocement Code of Conduct signed by all Company Personnel.

Sanctions for Violating Code of Conduct

As stated in Indocement Code of Conduct, violations of the Code of Conduct will be subject to sanctions in accordance with the Company's provisions or the Collective Agreement, which can be warnings from level 1 to 3 and the last one would be Termination of Employment.

Violations and Follow Up

Throughout 2024, there were no violations of Indocement Code of Conduct.

Kebijakan Antikorupsi dan Gratifikasi

Anti-Corruption and Gratification Policy

Indocement telah menerbitkan Surat Keputusan Direksi Nomor 018/Kpts/Dir/ITP/VIII/2018 tanggal 1 Agustus 2018 tentang Pencegahan Korupsi dan Gratifikasi (SK 018/2018) serta Petunjuk Pelaksanaan Pencegahan Korupsi, Kolusi, Nepotisme, dan Gratifikasi (Juklak Antikorupsi) yang diterbitkan pada 11 September 2023. SK 018/2018 dan Juklak Antikorupsi tersebut mengacu pada Undang-Undang Nomor 31 Tahun 1999 dan Undang-Undang Nomor 20 Tahun 2001 tentang Pemberantasan Tindak Pidana Korupsi serta panduan antikorupsi dari Grup.

Keberadaan SK 018/2018 dan Juklak Antikorupsi tersebut merupakan wujud komitmen Perseroan untuk terciptanya praktik bisnis yang bersih dan bebas dari potensi korupsi dan suap serta mendukung upaya pencegahan dan pemberantasan korupsi di Perseroan. Hal ini diharapkan dapat terus menjaga serta meningkatkan kepercayaan pemangku kepentingan terhadap Perseroan.

Insan Perseroan dilarang untuk menerima atau memberi uang, barang, rabat (diskon), komisi, pinjaman tanpa bunga, tiket perjalanan, fasilitas penginapan, perjalanan wisata, pengobatan cuma-cuma, penerimaan/pemberian jaminan berharga atau hak atas tanah, pekerjaan, pembebasan dari pelaksanaan kewajiban atau tanggung jawab lainnya, dukungan atau manfaat tertentu dan fasilitas lainnya dengan nilai berapapun, baik yang diterima di dalam negeri maupun di luar negeri yang dilakukan secara elektronik maupun non-elektronik, yang dapat menimbulkan benturan kepentingan.

Perseroan akan terus memelihara kebijakan antikorupsi yang bertujuan untuk mencegah kerugian baik materiil maupun immateriil yang dapat mengganggu kelangsungan usaha Perseroan, dengan cara:

1. Tidak menerima segala jenis gratifikasi yang diketahui dan patut diduga bahwa hal tersebut diberikan untuk menggerakkan agar melakukan atau tidak melakukan sesuatu dalam tanggungjawabnya atau yang bertentangan dengan kewajibannya atau memengaruhi dalam pengambilan keputusan;
2. Mematuhi batasan pemberian atau penerimaan hadiah atau keramahtamahan, namun tetap memperhatikan risiko korupsi serta peraturan perundangan yang berlaku, yaitu dimana:
 - a. Hal tersebut jarang terjadi (sekali atau dua kali per tahun per mitra usaha);

Indocement has issued Board of Directors' Decision Letter No. 018/Kpts/Dir/ITP/VIII/2018 dated 1 August 2018 on Prevention of Corruption and Gratification (SK 018/2018) and Implementation Instructions for the Prevention of Corruption, Collusion, Nepotism, and Gratification (Anti-Corruption Juklak) issued on 11 September 2023. SK 018/2018 and Anti-Corruption Juklak refer to Law No. 31 of 1999 and Law No. 20 of 2001 on Eradication of Criminal Acts of Corruption as well as Group's anti-corruption guidelines.

The existence of SK 018/2018 and Anti-Corruption Juklak is a manifestation of the Company's commitment to creating clean business practices that are free from potential corruption and bribery and supporting efforts to prevent and eradicate corruption in the Company. This is expected to continue to maintain and increase stakeholders' trust in the Company.

The Company Personnel are prohibited from receiving or giving money, goods, rebate (discount), commission, interest-free loan, travel ticket, lodging facility, travel tour, free medical treatment, receipt/provision of valuable guarantee or right to land, employment, exemption from implementation of other obligation or responsibility, certain support or benefit, and other facility of any value, whether received domestically or abroad, carried out by using electronical or non-electronical means, which may cause conflict of interest.

The Company will continue to maintain anti-corruption policies that aim to prevent material and immaterial losses that may interfere with the Company's business, by:

1. Not accepting any type of gratification that is known and shall be suspected to be given to encourage to do or not to do something in its responsibilities or that is contrary to its obligations or influencing decision making;
2. Comply with the limitation of giving or receiving gifts or hospitality, but still paying attention to the risk of corruption and the applicable laws and regulations, where:
 - a. Such matter rarely happens (once or twice per year per business partner);

- b. Bernilai tidak signifikan, sebagaimana diatur dalam Surat Keputusan Direksi;
- c. Diberikan hanya dari keramah-tamahan Perseroan yang lazim dan praktik bisnis yang normal;
- d. Menerimanya bukan merupakan pelanggaran terhadap hukum atau peraturan; dan
- e. Tidak ada kemungkinan yang wajar atau kesimpulan bahwa keputusan untuk mengikatkan diri dalam kontrak dengan pihak lain dipengaruhi oleh penerimaan hadiah atau keramah-tamahan tersebut.

Insan Perseroan dalam menjalankan tugasnya agar mematuhi hal-hal sebagai berikut:

1. Tidak melakukan tindakan memperkaya diri sendiri atau kelompok yang dapat merugikan Perseroan;
2. Tidak menyalahgunakan wewenang, kesempatan atau sarana Perseroan untuk keuntungan pribadi atau kelompok;
3. Tidak melakukan segala bentuk tindak kecurangan atau pemufakatan jahat;
4. Tidak menawarkan, menjanjikan, mengesahkan atau memberikan ijin, meminta atau menerima untuk keuntungan pribadi atau kelompok dalam bentuk apapun; dan
5. Tidak melakukan pemerasan dalam bentuk apapun.

Perseroan akan terus menjalankan bisnis dengan cara yang sah, etis, jujur dan profesional serta sejalan dengan kode etik dan visi misi Perseroan. Praktik ini akan diterapkan pada setiap aktivitas-aktivitas yang dilakukan oleh Perseroan.

Sanksi bagi Insan Perseroan yang teridentifikasi melakukan tindakan korupsi adalah hukuman atau konsekuensi tegas kepada pelanggaran yang dilakukan baik secara individu atau kelompok dengan cara:

1. Memberhentikan secara tidak hormat;
2. Mempidanakan yang bersangkutan ke ranah hukum yang berlaku di wilayah Republik Indonesia.

Salah satu wujud komitmen Perseroan untuk menghindari segala bentuk praktik korupsi adalah dengan mewajibkan karyawan pada level tertentu untuk mengikuti pelatihan antikorupsi yang dilakukan oleh Grup melalui Workday System dan Townhall Meeting.

Sosialisasi Kebijakan Antikorupsi di 2024 dilakukan pada 9–12 Desember 2024 melalui Townhall Meeting, yang diikuti oleh 204 Karyawan Indocement yang tidak memiliki Workday System.

- b. Value is not significant, as stipulated in the Decision Letter of the Board of Directors;
- c. It is given solely due to the Company's reasonable hospitality and normal business practices;
- d. Accepting is not a violation of law or regulation; and
- e. There is no reasonable possibility or conclusion that the decision to enter into a contract with another party is affected by the acceptance of such gift or hospitality.

The Company Personnel in carrying out their duties to comply with the following matters:

1. Not taking action to enrich themselves or groups that can harm the Company;
2. Not abusing the authority, opportunities, or facilities of the Company for personal or group gain;
3. Not committing any forms of fraud or conspiracy;
4. Not offering, promising, authorizing, or giving permission, requesting or accepting for personal or group benefits in any forms; and
5. Not blackmailing in any forms.

The Company will continue to run its business in a legal, ethical, honest, and professional manner and in line with the Company's code of conduct and vision and mission. This practice will be applied to every activity carried out by the Company.

Sanctions for the Company Personnel who are identified as having committed acts of corruption are punishments or strict consequences for violations committed either individually or in groups by:

1. Discharging the employee dishonorably;
2. Prosecuting the person responsible according to the applicable law in Indonesia.

One manifestation of the Company's commitment to avoiding all forms of corrupt practices is by requiring employees at certain levels to attend anti-corruption training conducted by the Group through Workday System and Townhall Meeting.

The dissemination on Anti-Corruption Policy in 2024 was carried out on 9–12 December 2024 through a Townhall Meeting, attended by 204 Indocement Employees who did not have Workday System.

Sistem *Whistleblowing*

Whistleblowing System

Perseroan telah menerapkan sistem pelaporan pelanggaran yang dikenal sebagai *whistleblowing system* (WBS) dengan nama "SpeakUp." Sistem ini bertujuan untuk mencegah tindak kecurangan melalui pelaporan kejadian perilaku pelanggaran dan mendorong budaya kejujuran serta keterbukaan di lingkungan perusahaan. SpeakUp dikelola oleh pihak ketiga, yaitu People Intouch, sehingga menjamin pengelolaan yang independen dan transparan.

SpeakUp memiliki peran penting dalam pengembangan sistem pelaporan pelanggaran yang terkelola dengan baik dan dapat menjadi pondasi bagi Perseroan dalam merancang evaluasi serta tindak lanjut yang diperlukan. Selain itu, WBS juga berfungsi sebagai mekanisme deteksi dini (*early warning system*) atas kemungkinan terjadinya masalah akibat suatu pelanggaran. SpeakUp dapat diakses melalui tautan berikut <https://heidelbergmaterials.speakup.report/speakup>.

Sistem ini menyediakan kesempatan bagi seluruh Insan Perseroan dan pihak eksternal untuk melaporkan dugaan pelanggaran terhadap prinsip-prinsip GCG serta nilai-nilai etika yang berlaku di Perseroan.

Pedoman Sistem *Whistleblowing*

Pada prinsipnya setiap jenis pelanggaran terhadap peraturan perundangan dan kebijakan Perseroan atau kecurigaan atas pelanggaran dapat dilaporkan, terutama jika menyangkut aspek-aspek:

1. Masalah terkait akuntansi/audit;
2. Alkohol dan obat-obatan terlarang;
3. Pemasaran atau persaingan ilegal atau tidak wajar/curang;
4. Kerja paksa pada anak/penyalahgunaan anak;
5. Benturan kepentingan;
6. Kepatuhan atau pelanggaran peraturan;
7. Korupsi/penipuan/suap;
8. Kejahatan dunia maya;
9. Kebocoran data/pelanggaran privasi;
10. Diskriminasi;
11. Penggelapan;
12. Hubungan karyawan;
13. Isu lingkungan/keberlanjutan;
14. Kecurangan;
15. Pelecehan;

The Company has implemented violation reporting system known as whistleblowing system (WBS) called "SpeakUp." This system aims to prevent fraud by reporting incidents of violation and encouraging a culture of honesty and openness within the company. SpeakUp is managed by a third party, namely People Intouch, thus ensuring an independent and transparent management.

SpeakUp plays an important role in developing a well-managed violation reporting system and can be a basis for the Company to design necessary evaluation and follow-up. In addition, WBS also functions as an early warning system for potential problems due to violations. SpeakUp is accessible through this link <https://heidelbergmaterials.speakup.report/speakup>.

This system provides opportunities for all Company Personnel and external parties to report the alleged violations of GCG principles and ethical values that apply in the Company.

Guidelines of Whistleblowing System

In principle, every type of violation of laws and regulations and Company policies or suspicion of violations can be reported, especially if it involves the following aspects:

1. Accounting/auditing related problems;
2. Alcohol and drugs;

Mekanisme Whistleblowing

Pelaporan insiden melalui SpeakUp dapat dilakukan dengan dua cara, yaitu:

1. Melalui internet, dengan mengakses <https://heidelbergmaterials.speakup.report/speakup>. Sistem ini menggunakan bahasa yang disesuaikan dengan negara pilihan pelapor dan laporan dapat disampaikan pada kotak pesan yang tersedia di halaman situs web;
2. Melalui telepon (khusus wilayah Indonesia): Sistem bekerja seperti *voice mailbox*, menggunakan bahasa Indonesia, tanpa operator layanan ini adalah layanan bebas pulsa. Nomor telepon bebas pulsa yang dapat dihubungi adalah +62 21-8063-0074 dengan kode akses 107810.

Pihak yang Mengelola Sistem Whistleblowing

SpeakUp dikelola oleh manajemen Perseroan yang bekerjasama dengan Heidelberg Materials dan pihak ketiga, yaitu People Intouch dalam rangka menciptakan situasi kerja yang bersih dan bertanggung jawab.

Perlindungan bagi Whistleblower

Penerapan sistem pelaporan pelanggaran melalui SpeakUp secara konsisten dalam Perseroan dapat meminimalisir terjadinya praktik penyimpangan dan kecurangan seperti korupsi, suap, gratifikasi, pencurian serta praktik kecurangan dan pelanggaran hukum lainnya. Dewan Komisaris dan Direksi Perseroan memandang bahwa sistem pelaporan pelanggaran yang efektif menjadi keharusan diterapkan, sehingga mengapresiasi setiap karyawan dan pihak eksternal yang telah berjasa membantu upaya pencegahan, pemberantasan, atau pengungkapan tindakan korupsi sesuai dengan kebijakan Perseroan dan menjamin perlindungan bagi pelapor pelanggaran dengan merahasiakan identitas mereka. Perlindungan juga diberikan kepada karyawan yang melakukan penyelidikan dan bagi yang memberikan informasi terkait dengan penyelidikan pelanggaran.

16. Occupational health and safety;
17. Money laundering;
18. Theft;
19. Unlawful or unethical acts involving consumers or vendors; and
20. Other compliance-related issues.

Whistleblowing Mechanism

Incident reporting through SpeakUp can be done in two ways, which are:

1. Through the internet, by accessing <https://heidelbergmaterials.speakup.report/speakup>. This system uses the language tailored to the country selected by the whistleblower and the report can be submitted in the message box available on the website page;
2. Through the telephone (Indonesia region only): The system works like a voice mailbox, using Indonesian, without an operator. This service is a toll free service. The toll free telephone number that can be contacted is +62 21-8063-0074 with access code 107810.

Party that Manage Whistleblowing System

SpeakUp is managed by the Company's management in collaboration with Heidelberg Materials and third party, namely People Intouch, to create a clean and responsible work environment.

Protection for Whistleblowers

The whistleblowing system consistent implementation through SpeakUp in the Company can minimize practices of irregularities and frauds, such as corruption, bribery, gratification, theft, as well as other fraud practices and law violations. The Company's Board of Commissioners and Board of Directors believe that effective whistleblowing system is deemed necessary to be applied, and therefore, appreciate every employee and external party who has contributed to the efforts to prevent, eradicate, or disclose acts of corruption in accordance with Company policy and ensure protection for whistleblower by keeping the identities confidential. Protection is also given to employees who conduct investigation and those who provide information related to such investigation.

Mekanisme Tindak Lanjut Pelaporan

Apabila terdapat pelaporan yang masuk ke dalam sistem SpeakUp, maka Perseroan berhak untuk memutuskan menindaklanjuti atau tidak menindaklanjuti informasi yang diberikan, kecuali apabila diwajibkan oleh undang-undang. Pelapor yang memberikan informasi palsu dapat dituntut sesuai dengan undang-undang yang berlaku berdasarkan analisa tim pengelolaan pelanggaran (*management team of violation reporting system*).

Investigator bertanggung jawab untuk melakukan penelaahan dan terhadap setiap laporan kejadian yang masuk ke dalam sistem pelaporan. Mekanisme yang dijalankan adalah sebagai berikut:

1. Membaca laporan yang masuk ke dalam saluran SpeakUp;
2. Berkomunikasi dengan karyawan/pihak pelapor;
3. Memahami seluruh fakta dan keadaan;
4. Mendokumentasikan seluruh langkah investigasi dan tindakan yang harus diambil;
5. Dalam setiap kasus, pelapor akan diinformasikan apabila investigasi telah selesai; dan
6. Menyimpan semua dokumen yang terkait dengan investigasi.

Sosialisasi Sistem Whistleblowing

Sosialisasi SpeakUp senantiasa dilakukan bukan hanya dengan webinar tetapi juga dengan *banner* dan *flyer* yang diletakkan di setiap lokasi kompleks pabrik, gudang dan juga terminal Perseroan yang mudah dibaca. Perseroan terus melakukan revidi untuk meningkatkan dan menyempurnakan pelaksanaan sistem pelaporan pelanggaran serta melakukan sosialisasi secara berkala melalui berbagai forum pertemuan dan diskusi dengan karyawan agar dapat diterapkan secara efektif.

Jumlah Pelaporan

Sepanjang 2024, terdapat 12 laporan mengenai relasi antar-karyawan.

Mechanism to Follow-Up Report

If there is an incoming report into the SpeakUp system, the Company has the right to decide whether to follow up or not on the information provided, except otherwise when required by law. Whistleblower who provides false information can be prosecuted in accordance with the applicable laws based on the analysis of the management team of violation reporting system.

The investigator is responsible for conducting review of every incident report that enters the whistleblowing system. The mechanism used is as follows:

1. Read the report that enters the SpeakUp channel;
2. Communicate with employee/whistleblower;
3. Understand all facts and circumstances;
4. Document all investigation steps, and actions that must be taken;
5. In each case, the whistleblower will be informed when the investigation has been completed; and
6. Keep all documents related to the investigation.

Dissemination of Whistleblowing System

SpeakUp is consistently disseminated, not only through webinars but also banners and flyers that are easy to read, placed at every Company's location of factory, warehouse, and terminal. The Company always conducts reviews to improve and refine the implementation of the whistleblowing system as well as periodical dissemination through various meeting and discussion forums with employees for an effective implementation of the system.

Pembelian Kembali Saham dan Pembelian Kembali Obligasi

Pada 2024, Perseroan melakukan pembelian kembali saham Perseroan, sesuai dengan keputusan Pemegang Saham Perseroan yang diadakan pada 14 Mei 2024. Periode pembelian kembali saham Perseroan dimulai sejak 15 Mei sampai dengan 31 Desember 2024, dengan keseluruhan biaya sebanyak-banyaknya Rp895 miliar termasuk komisi perantara pedagang efek dan biaya-biaya lainnya, diambil dari kas internal Perseroan.

Shares Buyback and Bonds Buyback

In 2024, the Company bought back its shares, in accordance with the resolution of the Company's Shareholders held on 14 May 2024. The Company's share buyback period started from 15 May to 31 December 2024, with a total cost of up to Rp895 billion, including securities broker-dealer commissions and other costs, taken from the Company's internal cash.

Pertimbangan dilakukannya pembelian kembali saham karena Perseroan berkeyakinan bahwa saham Perseroan sedang *undervalued*. Pembelian kembali saham dapat menjadi salah satu cara untuk meningkatkan dan memperbaiki persepsi pasar terhadap Perseroan yang masih dalam posisi *net cash* dan manajemen yakin dengan masa depan Perseroan.

The share buyback is conducted with due regards to the Company that believes that its shares are undervalued. The share buyback is one way to improve and repair market perception of the Company which is still in a net cash position and of the management that is confident in the Company's future.

Hasil pembelian kembali saham periode 15 Mei 2024 sampai dengan 31 Desember 2024 adalah sebagai berikut:

The results of share buyback for the period of 15 May 2024 to 31 December 2024 are as follows:

Praktik Transparansi *Bad Corporate Governance*

Bad Corporate Governance Transparency Practice

Indocement memegang teguh komitmen dalam menerapkan GCG dengan memenuhi seluruh regulasi dan tanggung jawab terkait dengan aktivitas Perseroan. Bagi Perseroan penerapan GCG telah menjadi kebutuhan dalam menjalankan kegiatan usahanya dalam rangka menjaga pertumbuhan usaha secara berkelanjutan, meningkatkan nilai Perseroan, dan sebagai upaya dalam menghadapi tantangan dunia usaha. Untuk itu penerapan GCG perlu dilakukan secara konsisten melalui strategi dan program kerja yang terarah.

Perseroan maupun fungsi yang berada di dalamnya yaitu organ inti Perseroan dan organ pendukung dalam menjalankan kegiatan operasionalnya tidak melakukan praktik *bad corporate governance*. Hal tersebut dirangkum dalam tabel singkat berikut ini:

Indocement upholds its committed to implementing GCG by complying with all regulations and responsibilities related to the Company's activities. For the Company, GCG implementation has become a necessity in performing its business activities in order to maintain business growth sustainably, increase the Company's value, and face the challenges of the business world. Therefore, GCG should be implemented consistently through guided work program and strategies.

The Company and its functions, which are the Company's core organs and supporting organs, in carrying out its operational activities do not carry out bad corporate governance practices. This is reflected in the following independence table:

No	Keterangan Description	Praktik Practice
1	Terdapat laporan atas kegiatan perusahaan yang mencemari lingkungan Reports on Company activities that pollute the environment	Nihil None
2	Ketidakpatuhan dalam pemenuhan kewajiban perpajakan Non-compliance in fulfilling tax obligations	Nihil None
3	Ketidaksesuaian penyajian laporan tahunan dan laporan keuangan dengan peraturan yang berlaku dan standar akuntansi keuangan (SAK) Inconsistency of presentation of annual report and financial statements with the applicable regulations and Financial Accounting Standards (SAK)	Nihil None

5	Tidak mengungkapkan tinjauan segmen operasi No disclosures on operational segment review	Nihil None
6	Ketidaksesuaian berkas Laporan Tahunan Discrepancy of Annual Report file	Nihil None

Dalam rangka menerapkan GCG, Perseroan mewajibkan setiap Insan Perseroan untuk menjalankan praktik-praktik usaha yang sehat dengan menjunjung tinggi standar etika dan perilaku. Setiap karyawan diwajibkan untuk menandatangani pernyataan komitmen untuk menjalankan standar etika dan perilaku sesuai dengan ketentuan yang diatur dalam Pedoman Etika Indocement. Hal ini dilakukan sebagai bagian dari kepatuhan Insan Perseroan dalam melaksanakan prinsip-prinsip GCG. Bagi mereka yang terbukti melakukan pelanggaran terhadap ketentuan Pedoman Etika Indocement akan diberikan sanksi sesuai dengan ketentuan yang telah ditetapkan Perseroan.

In order to implement GCG, the Company requires all of its Personnel to adopt sound business practices by upholding ethics and behavior standards. Every employee must sign a commitment declaration on the application of ethical and behavioral standards according to the provisions contained in the Indocement Code of Conduct. It is done as part of the compliance of the Company's Personnel with GCG principles. Those who are proven to have violated the Indocement Code of Conduct will be sanctioned according to the provisions made by the Company.

Tanggung Jawab Sosial dan Lingkungan

Corporate Social Responsibility

Industri yang dijalankan Perseroan memiliki keterkaitan yang cukup besar terhadap lingkungan hidup dan masyarakat sekitar. Oleh karena itu, Perseroan memiliki komitmen kuat terhadap penerapan prinsip-prinsip keberlanjutan dalam aspek bisnisnya dengan menjadikan lingkungan hidup dan sosial kemasyarakatan sebagai pertimbangan utama, di samping aspek ekonomi.

Penerapan keberlanjutan tidak hanya sebagai bentuk kepatuhan terhadap peraturan perundang-undangan, tetapi juga wujud kepedulian Perseroan untuk melindungi hak-hak dan kepentingan para pemegang saham serta pemangku kepentingan lainnya, juga memastikan keberlanjutan usaha Perseroan.

The industry operated by the Company has a significant relationship to environment and surrounding communities. Therefore, the Company has a strong commitment to implement sustainability principles in its business aspects by placing environment and social community as the main consideration, in addition to the economic aspect.

Sustainability implementation is not only a form of compliance with laws and regulations, but also a manifestation of the Company's concern to protect the rights and interests of shareholders and other stakeholders, as well to ensure the Company's business sustainability.

”

Program tanggung jawab sosial dan lingkungan merupakan bagian dari strategi keberlanjutan Perseroan.

Corporate social responsibility programs are part of the Company's sustainability strategy.

”

Komitmen terhadap Pembangunan Berkelanjutan

Indocement memiliki komitmen yang besar untuk mendukung terwujudnya Tujuan Pembangunan Berkelanjutan (TPB). Komitmen tersebut bahkan telah ada jauh sebelum Perserikatan Bangsa Bangsa (PBB) membuat resolusi tentang *Sustainable Development Goals* (SDGs) pada 2015.

Terbitnya resolusi TPB yang kemudian disusul dengan komitmen keberlanjutan Heidelberg Materials yang disebut *Sustainable Commitment 2030* (SC 2030) yang memuat komitmen dan target jangka panjang Group hingga 2030, semakin memperkuat komitmen Perseroan untuk mewujudkan TPB.

Salah satu wujud dari komitmen tersebut adalah dibentuknya CSR Division yang bertanggungjawab terhadap pengelolaan kegiatan *Corporate Social Responsibility* (CSR) Perseroan, mulai dari perencanaan hingga pelaksanaannya, termasuk melakukan pengawasan dan evaluasi dari program yang telah dijalankan.

Visi CSR Indocement

Pada 2030 menjadi Perusahaan yang dikenal memiliki reputasi yang sangat baik dalam kontribusinya terhadap pembangunan berkelanjutan dengan cara meningkatkan kemandirian masyarakat dan menjaga kelestarian lingkungan di sekitarnya, sehingga tercipta hubungan yang harmonis dengan masyarakat.

Misi CSR Indocement

Dengan bersungguh-sungguh menjalankan kegiatan tanggung jawab sosial yang harmonis dan bersinergi dengan pemangku kepentingan untuk:

1. Meningkatkan pemberdayaan masyarakat yang mendorong inisiatif kolektif masyarakat untuk memanfaatkan potensi dan sumber daya lokal;
2. Meningkatkan pengelolaan keberlanjutan lingkungan hidup yang berkelanjutan bersama dengan masyarakat; dan
3. Mendukung tercapainya keberlanjutan bisnis Perusahaan.

Commitment to Sustainable Development

Indocement has a strong commitment to supporting the realization of Sustainable Development Goals (SDGs). This commitment has even existed far before the United Nations (UN) makes a resolution on Sustainable Development Goals (SDGs) in 2015.

The issuance of SDGs resolution is then followed by Heidelberg Materials' sustainability commitment called the Sustainable Commitment 2030 (SC 2030), which contains the Group's long-term commitments and targets until 2030, and further strengthens the Company's commitment to realizing SDGs.

One manifestation of this commitment is the establishment of CSR Division that is responsible for managing the Company's Corporate Social Responsibility (CSR) activities, from planning to implementation, including monitoring and evaluating the programs implemented.

CSR Vision of Indocement

By 2030, to become a company well-known for having an excellent reputation in its contribution to sustainable development, by increasing community independence and preserving the surrounding environment, thus creating a harmonious relationship with the community.

CSR Mission of Indocement

Seriously carrying out harmonious social responsibility activities and synergizing with stakeholders to:

1. Empower community, thus encouraging collective community initiatives to utilize local potential and resources;
2. Improve sustainable environmental sustainability management together with the community; and
3. Support the achievement of the Company's business sustainability.

Filosofi CSR Indocement

CSR PT Indocement Tunggal Prakarsa Tbk. berlandaskan pada prinsip pembangunan berkelanjutan yang mengintegrasikan pemberdayaan masyarakat, pengelolaan lingkungan, dan sinergi dengan pemangku kepentingan. Kami percaya bahwa kemandirian masyarakat, pengelolaan sumber daya lokal, serta kelestarian lingkungan adalah kunci untuk mencapai keberlanjutan yang sesungguhnya. Melalui kolaborasi yang harmonis dengan berbagai pihak, kami berkomitmen untuk menciptakan nilai bersama yang berkelanjutan, mengurangi dampak perubahan iklim, dan meningkatkan kesejahteraan sosial. CSR kami dirancang untuk mengelola risiko sosial dan reputasi, sekaligus mendorong pengembangan kapasitas masyarakat dan memajukan ekonomi lokal, sehingga menghasilkan dampak positif yang nyata bagi masyarakat dan lingkungan sekitar.

Tujuan CSR Indocement

Tujuan umum CSR adalah mengelola risiko sosial, turut mengelola risiko reputasi, dan mengelola dampak dari risiko operasional, dengan cara:

1. Memberikan advokasi kepada masyarakat dalam kegiatan yang dapat menciptakan nilai (*value creation*) dan meningkatkan kemandirian ekonomi masyarakat.
2. Meningkatkan sumber daya manusia di masyarakat melalui kegiatan untuk pengembangan kapasitas dan aksesibilitas.
3. Mengoptimalkan potensi lokal untuk meningkatkan peluang yang mendorong kesejahteraan masyarakat.
4. Mengembangkan tata kelola lingkungan yang berkontribusi pada pengurangan dampak perubahan iklim.
5. Meningkatkan kesadaran masyarakat untuk melakukan pengelolaan lingkungan yang berkelanjutan.
6. Membangun kolaborasi dan meningkatkan kerja sama dengan komunitas lain dalam rangka menjamin tercapainya efektivitas atau efisiensi kegiatan.
7. Meningkatkan dan menjaga reputasi positif sebagai Perusahaan yang memiliki komitmen tinggi terhadap masyarakat, komunitas, dan lingkungan.

Seiring dengan berjalannya waktu dan berkembangnya konsep ESG (*environment, social, and governance*), pelaksanaan program CSR Perseroan juga turut mengalami perubahan. Saat ini CSR menjadi bagian dari strategi keberlanjutan yang fokus pada aspek lingkungan, sosial dan tata kelola.

CSR Philosophy of Indocement

CSR of PT Indocement Tunggal Prakarsa Tbk. is based on the principle of sustainable development that integrates community empowerment, environmental management, and synergy with stakeholders. We believe that community independence, local resource management, and environmental sustainability are the keys to achieving true sustainability. Through harmonious collaboration with various parties, we are committed to creating sustainable shared value, reducing the impact of climate change, and improving social welfare. Our CSR is designed to manage social and reputational risks, while encouraging community capacity development and advancing the local economy, thus, resulting in real positive impacts for the community and the surrounding environment.

CSR Objectives of Indocement

The general objectives of CSR are to manage social risks, reputational risks, and manage the impacts of operational risks, by:

1. Providing advocacy to the community through value creation activities and improving the community's economic independence.
2. Improving human resources in the community through activities for capacity development and accessibility.
3. Optimizing local potential to increase opportunities that encourage community welfare.
4. Developing environmental governance that contributes to reducing the impact of climate change.
5. Increasing public awareness to carry out sustainable environmental management.
6. Building collaboration and increasing cooperation with other communities, thus, ensuring achievement of effectiveness or efficiency of the activities.
7. Improving and maintaining a positive reputation as a Company that has a high commitment to society, communities, and the environment.

As time goes by and the concept of ESG (*environment, social, and governance*) develops, the implementation of the Company's CSR program has also changed. CSR is now part of the sustainability strategy that focuses on environmental, social, and governance aspects.

Strategi keberlanjutan Indocement diterjemahkan pada empat tujuan utama, yaitu:

1. Membangun masa depan nihil emisi;
2. Membangun masa depan yang sirkular dan tangguh;
3. Membangun masa depan yang aman dan inklusif; dan
4. Membangun masa depan alam yang positif.

Empat tujuan tersebut telah disesuaikan dengan poin-poin yang terdapat dalam TPB.

Indocement's sustainability strategy is translated into four main objectives, namely:

1. Building a future with zero-emission;
2. Building a future that is circular and resilient;
3. Building a future that is safe and inclusive; and
4. Building a future of positive nature.

The four objectives have been adjusted to the points contained in SDGs.

Penerapan Konsep ESG

ESG Concept Implementation

Sejalan dengan *New Purpose* Indocement, yaitu *Materials to Build Our Future* yang diperkenalkan pada 2022, Perseroan terus memperkuat komitmennya untuk menjadikan aspek lingkungan, sosial dan tata kelola sebagai bagian yang tidak terpisahkan dari operasional Perseroan sehari-hari. Setiap kebijakan dan inisiatif strategis yang diambil Perseroan terlebih dahulu harus mempertimbangkan dampak, baik positif maupun negatif, pada ketiga aspek tersebut.

Dari aspek lingkungan, Perseroan memastikan bahwa operasionalnya tidak menimbulkan dampak negatif terhadap lingkungan hidup. Jika terdapat aktivitas yang berdampak terhadap lingkungan hidup, maka Perseroan akan terus berupaya untuk mengurangi dampak tersebut. Wujud konkret dari komitmen tersebut adalah upaya yang dilakukan Perseroan untuk terus meningkatkan penggunaan bahan baku dan bahan bakar alternatif.

Industri semen dikenal sebagai salah satu penyumbang emisi karbon terbesar di dunia akibat pembakaran klinker yang utamanya menggunakan batu bara yang menghasilkan emisi karbon cukup tinggi. Untuk itu, Perseroan terus berupaya untuk mengurangi penggunaan batu bara dan menggantinya dengan bahan bakar alternatif yang lebih rendah emisi karbonnya. Dalam hal ini, Perseroan banyak memanfaatkan limbah industri dan sampah yang diolah menjadi *Refuse-Derived Fuel* (RDF) sebagai bahan bakar alternatif. Langkah ini, selain dapat menurunkan emisi karbon yang dihasilkan, juga dapat menjadi solusi terhadap permasalahan limbah industri dan sampah perkotaan yang selama ini menjadi persoalan bagi pemerintah.

In line with Indocement's *New Purpose*, namely *Materials to Build Our Future* introduced in 2022, the Company continues to strengthen its commitment to making environmental, social, and governance aspects an integral part of the Company's daily operations. Every policy and strategic initiative taken by the Company must first consider both positive and negative impacts on those three aspects.

From environmental aspect, the Company ensures that its operations do not have a negative impact on the environment. If there were activities that have an impact on the environment, the Company will continuously strive to reduce this impact. A concrete manifestation of this commitment is the Company's efforts to continuously increase the use of alternative materials and alternative fuels.

Cement industry is known as one of the largest contributors of carbon emissions in the world due to the clinker combustion that mainly uses coal and generates quite high carbon emissions. Therefore, the Company strives to reduce the use of coal and replace it with alternative fuels with lower carbon emissions. In this case, the Company makes extensive use of industrial waste and garbage processed into *Refuse-Derived Fuel* (RDF) as the alternative fuels. This step, in addition to reducing carbon emissions, can also be a solution to the issues of industrial waste and municipal waste has been an issue to the government.

Sebagai bagian dari langkah untuk mengurangi emisi, Indocement juga telah membangun *rooftop solar panel* di Kompleks Pabrik Citeureup sebagai sumber energi bersih dengan kapasitas 4,5 MWp yang sudah beroperasi dan *ground-mounted solar panel* dengan kapasitas 32,5 MWp yang sedang dibangun. Selain itu, Perseroan juga telah memasang *ground-mounted solar panel* di Kompleks Pabrik Tarjun dengan kapasitas 20 MWp yang saat ini masih dalam proses dan menunggu persetujuan dari Perusahaan Listrik Negara (PLN). Dengan inisiatif tersebut, Perseroan dapat menekan emisi CO₂ yang dihasilkan.

Selain itu, Perseroan juga terus melanjutkan inovasi dan mendorong pemasaran produk semen ramah lingkungan yang telah diperkenalkan sejak beberapa tahun lalu. Produk semen ramah lingkungan yang diproduksi Perseroan menggunakan bahan baku alternatif seperti slag dan produk semen dengan kandungan klinker yang lebih rendah seperti tipe portland pozzolan cement (PPC) dan semen tipe portland composite cement (PCC) dalam kemasan kantong, serta Semen Hidraulis dalam bentuk semen curah.

Indocement juga terus melakukan inovasi untuk menghasilkan produk semen dengan kandungan klinker yang lebih rendah namun tetap memiliki kualitas yang sama dengan produk sebelumnya yang memiliki kandungan klinker jauh lebih tinggi. Pada 2024, Indocement telah berhasil memproduksi semen kantong jenis PPC dan PCC dengan kandungan klinker 57%–58% namun memiliki kualitas yang sama dengan produk sebelumnya yang memiliki kandungan klinker 70%. Sedangkan di kategori semen curah, Indocement telah memperkenalkan tipe semen slag (42% kandungan klinker dan 55% *granulated blast furnace slag* (GBFS) dan tipe semen hidraulis (78% kandungan klinker dengan 11% GBFS dan 7% batu kapur) untuk menggantikan Semen OPC yang memiliki kandungan klinker 90%–92%.

Pada 2024, Indocement telah meluncurkan semen kantong dengan SNI baru (SNI 7064:2022). Semen dengan SNI baru ini merupakan jenis semen yang memiliki rasio klinker yang lebih rendah dibandingkan dengan jenis sebelumnya sehingga dapat menurunkan emisi CO₂ yang dihasilkan.

As part of the steps to reduce emissions, Indocement also builds a rooftop solar panel at Citeureup Factory, as a source of clean energy with a capacity of 4.5 MWp, that is already in operation. A ground-mounted solar panel with a capacity of 32.5 MWp is also under construction. In addition, the Company also has installed a ground-mounted solar panel at Tarjun Factory, with a capacity of 20 MWp, which is still in process and awaiting approval from Indonesia National Grid (PLN). With such initiatives, the Company can reduce the CO₂ emissions that are generated.

Furthermore, the Company continues to innovate and promote the marketing of environmentally friendly cement products introduced in recent years. These environmentally friendly cement products are manufactured by using alternative materials such as slag, and cement products with reduced clinker content, such as portland pozzolan cement (PPC) and portland composite cement (PCC), which are available in bag and Hydraulic Cement in bulk.

Indocement also continuously innovates to produce cement products with lower clinker content yet with the same quality as previous products which have much higher clinker content. In 2024, Indocement has succeeded in producing PPC and PCC bagged cements, with 57%–58% clinker content with the same quality as the previous product which has 70% clinker content. Meanwhile, in bulk cement category, Indocement has introduced slag cement type (42% clinker content and 55% granulated blast furnace slag (GBFS) and hydraulic cement type (78% clinker content with 11% GBFS and 7% limestone) to replace OPC Cement which has 90%–92% clinker content.

In 2024, Indocement launched bagged cement with new SNI (SNI 7064:2022). Cement with this new SNI is a type of cement with lower clinker ratio compared to the previous type, therefore it can reduce CO₂ emissions generated.

Pada 2024, penggunaan bahan baku dan bahan bakar alternatif Perseroan meningkat menjadi 21,4% dari tahun sebelumnya sebesar 18,3%. Hal ini menunjukkan komitmen Perseroan untuk terus mengurangi dampak lingkungan.

Dari aspek sosial, Perseroan juga terus menjaga hubungan yang harmonis dengan masyarakat di sekitar wilayah operasionalnya melalui program CSR. Sepanjang 2024, terdapat berbagai aktivitas yang dijalankan Perseroan yang terkait dengan masyarakat dan lingkungan sekitar Perseroan.

Untuk informasi lebih lanjut terkait pelaksanaan aktivitas yang dijalankan Perseroan terkait masyarakat dan lingkungan sekitar dapat dilihat pada Laporan Keberlanjutan 2024 Perseroan.

Selain itu, Perseroan juga memberikan perhatian yang sangat besar terhadap karyawan, baik dalam hal pengembangan kompetensi, kesejahteraan, hingga aspek kesehatan dan keselamatan kerja. Lebih jauh lagi, Perseroan juga memberikan perhatian yang besar terhadap penerapan hak asasi manusia, baik untuk karyawan, mitra kerja maupun masyarakat sekitar.

Sedangkan dari aspek tata kelola, Perseroan memastikan seluruh aktivitas operasionalnya telah sesuai dengan peraturan perundang-undangan yang berlaku. Pemenuhan peraturan perundang-undangan merupakan landasan dalam setiap aktivitas yang dijalankan Perseroan.

In 2024, the Company's use of alternative materials and fuels increased to 21.4% from that of the previous year of 18.3%. This shows the Company's commitment to constantly reducing environmental impacts.

From social aspect, the Company also continues to maintain harmonious relations with the community around its operational areas through CSR programs. Throughout 2024, there were various activities carried out by the Company related to the community and the environment around the Company.

For further information on the activities carried out by the Company related to the community and the surrounding environment, please see the Company's 2024 Sustainability Report.

Furthermore, the Company also pays great attention to employees, either in terms of competency development, welfare, or occupational health and safety aspects. Beyond that, the Company also pays great attention to the implementation of human rights, including for employees, work partners, and the surrounding community.

Meanwhile, from governance aspect, the Company ensures that all of its operational activities are in line with the applicable laws and regulations. This compliance with laws and regulations serves as the foundation of every activity carried out by the Company.

PT INDOCEMENT TUNGGAL PRAKARSA TBK

Opini

Kami telah mengaudit laporan keuangan konsolidasian PT Indocement Tunggal Prakarsa Tbk dan entitas anaknya ("Grup"), yang terdiri dari laporan posisi keuangan konsolidasian tanggal 31 Desember 2024, serta laporan laba rugi dan penghasilan komprehensif lain konsolidasian, laporan perubahan ekuitas konsolidasian dan laporan arus kas konsolidasian untuk tahun yang berakhir pada tanggal tersebut, serta catatan atas laporan keuangan konsolidasian, termasuk informasi kebijakan akuntansi yang material.

Menurut opini kami, laporan keuangan konsolidasian terlampir menyajikan secara wajar, dalam semua hal yang material, posisi keuangan konsolidasian Grup tanggal 31 Desember 2024, serta kinerja keuangan konsolidasian dan arus kas konsolidasiannya untuk tahun yang berakhir pada tanggal tersebut, sesuai dengan Standar Akuntansi Keuangan di Indonesia.

Basis Opini

Kami melaksanakan audit kami berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia. Tanggung jawab kami menurut standar tersebut diuraikan lebih lanjut dalam paragraf Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan Konsolidasian pada laporan kami. Kami independen terhadap Grup berdasarkan ketentuan etika yang relevan dalam audit kami atas laporan keuangan konsolidasian di Indonesia, dan kami telah memenuhi tanggung jawab etika lainnya berdasarkan ketentuan tersebut. Kami yakin bahwa bukti audit yang telah kami peroleh adalah cukup dan tepat untuk menyediakan suatu basis bagi opini audit kami.

Hal Audit Utama

Hal audit utama adalah hal-hal yang, menurut pertimbangan profesional kami, merupakan hal yang paling signifikan dalam audit kami atas laporan keuangan konsolidasian periode kini. Hal-hal tersebut disampaikan dalam konteks audit kami atas laporan keuangan konsolidasian secara keseluruhan, dan dalam merumuskan opini kami atas laporan keuangan konsolidasian terkait, kami tidak menyatakan suatu opini terpisah atas hal audit utama tersebut.

Opinion

We have audited the consolidated financial statements of PT Indocement Tunggal Prakarsa Tbk and its subsidiaries (the "Group"), which comprise the consolidated statement of financial position as at 31 December 2024, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2024, and its consolidated financial performance and its consolidated cash flows for the year then ended, in accordance with Indonesian Financial Accounting Standards.

Basis for Opinion

We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements paragraph of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Indonesia, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Hal audit utama yang teridentifikasi dalam audit kami diuraikan sebagai berikut:

Jumlah terpulihkan nilai goodwill

Lihat Catatan 2(h) - Informasi kebijakan akuntansi yang material - Penurunan nilai aset non-keuangan dan goodwill, Catatan 3(b) - Penggunaan pertimbangan, estimasi dan asumsi signifikan oleh manajemen - Estimasi dan asumsi - Penurunan nilai aset non-keuangan dan goodwill, dan Catatan 21 - Goodwill, atas laporan keuangan konsolidasian.

Pada tanggal 31 Desember 2024, Grup mencatat goodwill sebesar Rp 133 miliar yang diperoleh dari kombinasi bisnis. Grup diharuskan menguji goodwill terkait penurunan nilainya secara tahunan atau ketika terdapat indikasi penurunan nilai berdasarkan persyaratan PSAK 236 "Penurunan Nilai Aset".

Dalam melakukan pengujian penurunan nilai, diperlukan pertimbangan yang signifikan untuk mengestimasi arus kas masa depan dari unit penghasil kas ("UPK") terkait dan untuk menentukan asumsi-asumsi utama, termasuk tingkat pertumbuhan pendapatan yang digunakan dalam arus kas masa depan dan tingkat diskonto.

Kami mempertimbangkan bahwa pengujian penurunan nilai goodwill sebagai hal audit utama karena nilai goodwill yang signifikan, serta melibatkan pertimbangan yang signifikan yang dibuat oleh manajemen dalam pelaksanaan penilaian.

Bagaimana audit kami merespons Hal Audit Utama

Kami melakukan prosedur audit atas hal ini, termasuk:

- Kami memperoleh pemahaman dan menilai tentang proses pengujian penurunan nilai, termasuk model penurunan nilai yang digunakan oleh manajemen.
- Kami memperoleh pemahaman atas basis asumsi-asumsi utama yang digunakan oleh manajemen dalam model penurunan nilai.
- Kami menguji asumsi-asumsi utama yang digunakan dalam pengujian penurunan nilai dengan membandingkan asumsi-asumsi utama yang digunakan dengan kinerja keuangan historis dan rencana bisnis yang disetujui serta membandingkan dengan sumber-sumber informasi eksternal.
- Kami menguji keakuratan data dan perhitungan matematis dari model penilaian yang digunakan oleh manajemen.

The key audit matter identified in our audit is outlined as follows:

Recoverable amount of goodwill

Refer to Note 2(h) - Material accounting policy information - Impairment of non-financial assets and goodwill, Note 3(b) - Management's use of significant judgments, estimates and assumptions - Estimates and assumptions - Impairment of non-financial assets and goodwill and Note 21 - Goodwill, to the consolidated financial statements.

As at 31 December 2024, the Group recorded a goodwill of Rp 133 billion acquired in a business combination. The Group is required to test goodwill for impairment annually or when there is any indication of impairment based on the requirements of PSAK 236 "Impairment of Assets".

In performing the impairment test, significant judgement is required to estimate the future cash flows of the related cash generating unit ("CGUs") and determine the key assumptions, including the growth rates of revenue used in the future cash flows and the discount rate.

We considered the impairment test of goodwill to be a key audit matter due to the significant value of the goodwill, as well as the significant judgement made by management in performing the assessment.

How our audit addressed the Key Audit Matter

We performed audit procedures over this matter, including:

- We understood and assessed the process of the impairment test, including the impairment model used by management.
- We understood the basis for the key assumptions used by management in the impairment model.
- We tested the key assumptions used in the impairment test by comparing the key assumptions used to the historical financial performance and approved business plans as well as comparing to external sources of information.
- We tested the accuracy of the data and mathematical calculation of the assessment model used by management.

- Kami melakukan analisis sensitivitas atas asumsi-asumsi utama dalam penilaian untuk menilai dampak potensial dari berbagai hasil yang mungkin terjadi.

Informasi Lain

Manajemen bertanggung jawab atas informasi lain. Informasi lain terdiri dari informasi yang tercantum dalam Laporan Tahunan, tetapi tidak termasuk laporan keuangan konsolidasian dan laporan auditor kami. Laporan Tahunan diharapkan akan tersedia bagi kami setelah tanggal laporan auditor ini.

Opini kami atas laporan keuangan konsolidasian tidak mencakup informasi lain, dan oleh karena itu, kami tidak menyatakan bentuk keyakinan apapun atas informasi lain tersebut.

Sehubungan dengan audit kami atas laporan keuangan konsolidasian, tanggung jawab kami adalah untuk membaca informasi lain yang teridentifikasi di atas, ketika tersedia dan, dalam melaksanakannya, mempertimbangkan apakah informasi lain mengandung ketidakonsistensian material dengan laporan keuangan konsolidasian atau pemahaman yang kami peroleh selama audit, atau mengandung kesalahan penyajian material.

Ketika kami membaca Laporan Tahunan, jika kami menyimpulkan bahwa terdapat suatu kesalahan penyajian material di dalamnya, kami diharuskan untuk mengomunikasikan hal tersebut kepada pihak yang bertanggung jawab atas tata kelola dan mengambil tindakan tepat berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia.

Tanggung Jawab Manajemen dan Pihak yang Bertanggung Jawab atas Tata Kelola terhadap Laporan Keuangan Konsolidasian

Manajemen bertanggung jawab atas penyusunan dan penyajian wajar laporan keuangan konsolidasian tersebut sesuai dengan Standar Akuntansi Keuangan di Indonesia, dan atas pengendalian internal yang dianggap perlu oleh manajemen untuk memungkinkan penyusunan laporan keuangan konsolidasian yang bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan.

- *We performed sensitivity analysis of the key assumptions in the assessment to assess the potential impact of a range of possible outcomes.*

Other Information

Management is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the consolidated financial statements and our auditors' report thereon. The Annual Report is expected to be made available to us after the date of this auditors' report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Dalam penyusunan laporan keuangan konsolidasian, manajemen bertanggung jawab untuk menilai kemampuan Grup dalam mempertahankan kelangsungan usahanya, mengungkapkan, sesuai dengan kondisinya, hal-hal yang berkaitan dengan kelangsungan usaha dan menggunakan basis akuntansi kelangsungan usaha kecuali manajemen memiliki intensi untuk melikuidasi Grup atau menghentikan operasi, atau tidak memiliki alternatif yang realistis selain melaksanakannya.

Pihak yang bertanggung jawab atas tata kelola bertanggung jawab untuk mengawasi proses pelaporan keuangan Grup.

Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan Konsolidasian

Tujuan kami adalah untuk memperoleh keyakinan memadai tentang apakah laporan keuangan konsolidasian secara keseluruhan bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan, dan untuk menerbitkan laporan auditor yang mencakup opini kami. Keyakinan memadai merupakan suatu lingkup keyakinan tinggi, namun bukan merupakan suatu jaminan bahwa audit yang dilaksanakan berdasarkan Standar Audit akan selalu mendeteksi kesalahan penyajian material ketika hal tersebut ada. Kesalahan penyajian dapat disebabkan oleh kecurangan maupun kesalahan dan dianggap material jika, baik secara individual maupun secara agregat, dapat diekspektasikan secara wajar akan memengaruhi keputusan ekonomi yang diambil oleh pengguna berdasarkan laporan keuangan konsolidasian tersebut.

Sebagai bagian dari suatu audit berdasarkan Standar Audit, kami menerapkan pertimbangan profesional dan mempertahankan skeptisisme profesional selama audit. Kami juga:

- Mengidentifikasi dan menilai risiko kesalahan penyajian material dalam laporan keuangan konsolidasian, baik yang disebabkan oleh kecurangan maupun kesalahan, mendesain dan melaksanakan prosedur audit yang responsif terhadap risiko tersebut, serta memperoleh bukti audit yang cukup dan tepat untuk menyediakan basis bagi opini kami. Risiko tidak terdeteksinya kesalahan penyajian material yang disebabkan oleh kecurangan lebih tinggi dari yang disebabkan oleh kesalahan, karena kecurangan dapat melibatkan kolusi, pemalsuan, penghilangan secara sengaja, pernyataan salah, atau pengabaian pengendalian internal.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- *Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.*

- Memperoleh suatu pemahaman tentang pengendalian internal yang relevan dengan audit untuk mendesain prosedur audit yang tepat sesuai dengan kondisinya, tetapi bukan untuk tujuan menyatakan opini atas keefektifitasan pengendalian internal Grup.
- *Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.*
- Mengevaluasi ketepatan kebijakan akuntansi yang digunakan serta kewajaran estimasi akuntansi dan pengungkapan terkait yang dibuat oleh manajemen.
- *Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.*
- Menyimpulkan ketepatan penggunaan basis akuntansi kelangsungan usaha oleh manajemen dan, berdasarkan bukti audit yang diperoleh, apakah terdapat suatu ketidakpastian material yang terkait dengan peristiwa atau kondisi yang dapat menyebabkan keraguan signifikan atas kemampuan Grup untuk mempertahankan kelangsungan usahanya. Ketika kami menyimpulkan bahwa terdapat suatu ketidakpastian material, kami diharuskan untuk menarik perhatian dalam laporan auditor kami ke pengungkapan terkait dalam laporan keuangan konsolidasian atau, jika pengungkapan tersebut tidak memadai, harus menentukan apakah perlu untuk memodifikasi opini kami. Kesimpulan kami didasarkan pada bukti audit yang diperoleh hingga tanggal laporan auditor kami. Namun, peristiwa atau kondisi masa depan dapat menyebabkan Grup tidak dapat mempertahankan kelangsungan usaha.
- *Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.*
- Mengevaluasi penyajian, struktur dan isi laporan keuangan konsolidasian secara keseluruhan, termasuk pengungkapannya, dan apakah laporan keuangan konsolidasian mencerminkan transaksi dan peristiwa yang mendasarinya dengan suatu cara yang mencapai penyajian wajar.
- *Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.*
- Memperoleh bukti audit yang cukup dan tepat terkait informasi keuangan entitas atau aktivitas bisnis dalam Grup untuk menyatakan opini atas laporan keuangan konsolidasian. Kami bertanggung jawab atas arahan, supervisi dan pelaksanaan audit grup. Kami tetap bertanggung jawab sepenuhnya atas opini audit kami.
- *Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.*

Kami mengomunikasikan kepada pihak yang bertanggung jawab atas tata kelola mengenai, antara lain, ruang lingkup dan saat yang direncanakan atas audit serta temuan audit signifikan, termasuk setiap defisiensi signifikan dalam pengendalian internal yang teridentifikasi oleh kami selama audit.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Kami juga memberikan suatu pernyataan kepada pihak yang bertanggung jawab atas tata kelola bahwa kami telah mematuhi ketentuan etika yang relevan mengenai independensi, dan mengomunikasikan seluruh hubungan serta hal-hal lain yang dianggap secara wajar berpengaruh terhadap independensi kami, dan jika relevan, pengamanan terkait.

Dari hal-hal yang dikomunikasikan kepada pihak yang bertanggung jawab atas tata kelola, kami menentukan hal-hal tersebut yang paling signifikan dalam audit atas laporan keuangan konsolidasian periode kini dan oleh karenanya menjadi hal audit utama. Kami menguraikan hal audit utama dalam laporan auditor kami kecuali peraturan perundang-undangan melarang pengungkapan publik tentang hal tersebut atau ketika, dalam kondisi yang sangat jarang terjadi, kami menentukan bahwa suatu hal tidak boleh dikomunikasikan dalam laporan kami karena konsekuensi merugikan dari mengomunikasikan hal tersebut akan diekspektasikan secara wajar melebihi manfaat kepentingan publik atas komunikasi tersebut.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Key management represents the Company's Commissioners and Directors.

The Group had a total of 4,539 and 4,750 permanent employees as of 31 December 2024 and 2023, respectively (unaudited).

Management is responsible for the preparation and presentation of the consolidated financial statements that were completed and authorised for issuance on 21 March 2025.

2. INFORMASI KEBIJAKAN AKUNTANSI YANG MATERIAL

a. Dasar penyajian laporan keuangan konsolidasian

Laporan keuangan konsolidasian telah disusun dan disajikan sesuai dengan Standar Akuntansi Keuangan di Indonesia ("SAK"), yang mencakup Pernyataan Standar Akuntansi Keuangan ("PSAK") dan Interpretasi Standar Akuntansi Keuangan ("ISAK") yang dikeluarkan oleh Dewan Standar Akuntansi Keuangan ("DSAK") Ikatan Akuntan Indonesia dan peraturan yang terkait dengan penyajian dan pengungkapan laporan keuangan yang dikeluarkan oleh Otoritas Jasa Keuangan ("OJK").

Laporan keuangan konsolidasian, kecuali laporan arus kas konsolidasian, disusun dengan konsep harga perolehan dan basis akrual, kecuali disebutkan lain dalam catatan atas laporan keuangan konsolidasian yang relevan.

Laporan arus kas konsolidasian yang disusun dengan menggunakan metode langsung, menyajikan penerimaan dan pengeluaran kas dan setara kas yang diklasifikasikan ke dalam aktivitas operasi, investasi dan pendanaan.

2. MATERIAL ACCOUNTING POLICY INFORMATION

a. Basis of presentation of the consolidated financial statements

The consolidated financial statements have been prepared and presented in accordance with Indonesian Financial Accounting Standards ("SAK"), which comprise the Statements of Financial Accounting Standards ("PSAK") and Interpretations to Financial Accounting Standards ("ISAK") issued by the Financial Accounting Standards Board ("DSAK") of the Indonesian Institute of Accountants and the regulations relating to financial statements presentation and disclosures issued by the Otoritas Jasa Keuangan ("OJK").

The consolidated financial statements, except for the consolidated statement of cash flows, have been prepared on the historical cost concept and accrual basis, except as otherwise disclosed in the relevant notes herein.

The consolidated statement of cash flows, which has been prepared using the direct method, presents receipts and disbursements of cash and cash equivalents classified into operating, investing and financing activities.

**2. INFORMASI KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)**

**a. Dasar penyajian laporan keuangan
konsolidasian (lanjutan)**

Mata uang penyajian yang digunakan dalam penyusunan laporan keuangan konsolidasian adalah Rupiah, yang juga merupakan mata uang fungsional Perusahaan. Setiap entitas di dalam Kelompok Usaha menetapkan mata uang fungsional sendiri dan transaksi-transaksi di dalam laporan keuangan dari setiap entitas diukur berdasarkan mata uang fungsional tersebut.

Penyusunan laporan keuangan konsolidasian yang disusun berdasarkan Standar Akuntansi Keuangan Indonesia memerlukan penggunaan estimasi akuntansi tertentu dan asumsi-asumsi. Hal ini juga mengharuskan manajemen untuk melakukan pertimbangan dalam proses penerapan kebijakan akuntansi di dalam Kelompok Usaha. Area yang kompleks atau memerlukan tingkat pertimbangan yang lebih tinggi, atau area dimana asumsi dan estimasi dapat berdampak material terhadap laporan keuangan konsolidasian diungkapkan dalam Catatan 3.

**Perubahan pada Pernyataan Standar
Akuntansi Keuangan ("PSAK")**

Penerapan dari amendemen standar berikut, yang relevan bagi Kelompok Usaha dan berlaku efektif mulai 1 Januari 2024, tidak menimbulkan perubahan substantial terhadap kebijakan akuntansi Kelompok Usaha dan pengaruh material atas jumlah yang dilaporkan atas tahun berjalan atau tahun sebelumnya.

- Amendemen PSAK 201 "Penyajian Laporan Keuangan" tentang klasifikasi liabilitas sebagai jangka pendek atau jangka panjang.
- Amendemen PSAK 201 "Penyajian Laporan Keuangan" tentang liabilitas jangka panjang dengan kovenan.
- Amendemen PSAK 116 "Sewa" tentang sewa pada transaksi jual dan sewa-balik.
- Amendemen PSAK 207 "Laporan Arus Kas"
- Amendemen PSAK 107 "Instrumen Keuangan: Pengungkapan" tentang pengaturan pembiayaan pemasok.

**2. MATERIAL ACCOUNTING POLICY
INFORMATION (continued)**

**a. Basis of presentation of the consolidated
financial statements (continued)**

The presentation currency used in the preparation of the consolidated financial statements is the Indonesian Rupiah, which is also the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

The preparation of the consolidated financial statements in conformity with Indonesian Financial Accounting Standards requires the use of certain critical accounting estimates and assumptions. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where judgements and estimates are material to the consolidated financial statements are disclosed in Note 3.

**Changes to the Statements of Financial
Accounting Standards ("PSAK")**

The adoption of these amended standards, which are relevant to the Group and effective beginning on 1 January 2024, did not result in substantial changes to the Group's accounting policies and had no material effect on the amounts reported for the current or prior financial years.

- *Amendment to PSAK 201 "Presentation of Financial Statements" regarding classification of liabilities as current or non-current.*
- *Amendment to PSAK 201 "Presentation of Financial Statements" regarding non-current liabilities with covenants.*
- *Amendment to PSAK 116 "Leases" regarding lease on sale and leaseback transaction.*
- *Amendment to PSAK 207 "Statements of Cash Flows"*
- *Amendment to PSAK 107 "Financial Instruments: Disclosures" regarding supplier finance agreements.*

MATERIAL (lanjutan)**

**a. Dasar penyajian laporan keuangan
konsolidasian (lanjutan)**

Efektif sejak tanggal 1 Januari 2024, referensi terhadap masing-masing PSAK dan Interpretasi Standar Akuntansi Keuangan ("ISAK") diubah sebagaimana diterbitkan oleh Dewan Standar Akuntansi Keuangan Ikatan Akuntan Indonesia ("DSAK-IAI").

**Efektif 1 Januari 2025 dan penerapan dini
diperkenankan**

- Amandemen PSAK 221 "Pengaruh Perubahan Kurs Valuta Asing" terkait kekurangan ketertukaran.

Pada tanggal pengesahan laporan keuangan konsolidasian, Kelompok Usaha sedang mempertimbangkan implikasi dari penerapan standar-standar tersebut terhadap laporan keuangan konsolidasian Kelompok Usaha.

b. Prinsip-prinsip konsolidasi

Kelompok Usaha menerapkan metode akuisisi untuk mencatat kombinasi bisnis. Imbalan yang dialihkan untuk akuisisi suatu entitas anak adalah sebesar nilai wajar aset yang dialihkan, liabilitas yang diakui terhadap pemilik pihak yang diakuisisi sebelumnya dan kepentingan ekuitas yang diterbitkan oleh Kelompok Usaha, jika ada. Kelebihan jumlah imbalan yang dialihkan, dan kepentingan nonpengendali yang diperoleh dari pihak yang diakuisisi atas jumlah aset bersih teridentifikasi dicatat sebagai *goodwill*. *Goodwill* dicatat sebesar harga perolehan dikurangi dengan akumulasi kerugian nilai, jika ada.

Jika jumlah imbalan yang dialihkan lebih rendah dari nilai wajar aset bersih teridentifikasi atas entitas anak yang diakuisisi, selisihnya diakui langsung sebagai keuntungan di laporan laba rugi konsolidasian. Biaya yang terkait dengan akuisi dibebankan pada saat terjadinya.

**2. MATERIAL ACCOUNTING POLICY
INFORMATION (continued)**

**a. Basis of presentation of the consolidated
financial statements (continued)**

Effective from 1 January 2024, references to the individual PSAK and Interpretation of Financial Accounting Standards ("ISAK") was changed as published by Indonesian Financial Accounting Standards Board ("DSAK-IAI").

**Effective on 1 January 2025 and early
adoption is permitted**

- Amendment PSAK 221 "Effect of Changes in Foreign Exchange Rate" clarifies the lack of interchangeability.

As at the authorisation date of the these consolidated financial statements, the Group is assessing the implication of the above standards to the Group's consolidated financial statements.

b. Principles of consolidation

The Group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair value of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group, if any. The excess of the aggregate of the consideration transferred, and any non-controlling interest in the acquiree over the net identifiable assets acquired is recorded as *goodwill*. *Goodwill* is carried at cost less accumulated impairment losses, if any.

If this consideration is lower than fair value of the identifiable net assets of the subsidiary acquired, the difference is recognised directly as gain in the consolidated statements of profit or loss. Acquisition-related costs are expensed as incurred.

b. Prinsip-prinsip konsolidasi (lanjutan)

Kelompok Usaha mengakui kepentingan nonpengendali pada pihak yang diakuisisi sebesar bagian proporsional kepentingan nonpengendali atas aset bersih pihak yang diakuisisi.

Kelompok Usaha dapat memilih untuk menerapkan, atau tidak menerapkan, pengujian konsentrasi opsional sebagai penilaian yang disederhanakan, apakah serangkaian aktivitas dan aset yang diperoleh bukan bisnis. Kelompok Usaha dapat menentukan pilihan secara terpisah untuk setiap transaksi atau peristiwa lainnya.

Entitas anak

Laporan keuangan konsolidasian meliputi laporan keuangan Kelompok Usaha dimana Perusahaan memiliki pengendalian. Pengendalian diperoleh ketika Kelompok Usaha terekspos, atau memiliki hak atas imbal hasil variabel dari keterlibatannya dengan *investee* dan memiliki kemampuan untuk mempengaruhi imbal hasil tersebut melalui kekuasaannya atas *investee*.

Dengan demikian, Kelompok Usaha mengendalikan entitas jika dan hanya jika Kelompok Usaha memiliki seluruh hal berikut:

- Kekuasaan atas *investee*;
- Eksposur atau hak atas imbal hasil variabel dari keterlibatannya dengan *investee*; dan,
- Kemampuan untuk menggunakan kekuasaannya atas *investee* untuk mempengaruhi hasil usaha *investee*.

Saat Kelompok Usaha memiliki hak suara yang kurang dari mayoritas atau setingkat atas *investee*, Kelompok Usaha mempertimbangkan seluruh fakta dan keadaan yang relevan dalam menilai pengendalian yang dimiliki terhadap *investee* meliputi hal berikut ini:

- Perjanjian kontraktual dengan pemilik suara lain dari *investee*;
- Hak yang timbul dari perjanjian kontraktual lainnya; dan,
- Hak suara Kelompok Usaha dan hak suara potensial

INFORMATION (continued)**

b. Principles of consolidation (continued)

The Group recognises any non-controlling interest in the acquiree at the non-controlling interest's proportionate share of the acquiree's net assets.

The Group may elect to apply, or not apply optional concentration test as a simplified assessment of whether an acquired set of activities and assets is not a business. The Group may make such an election separately for each transaction or other event.

Subsidiaries

The consolidated financial statements of the Group include the accounts of the Company and entities where the Company has control. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Specifically, the Group controls an entity if and only if the Group has:

- *Power over the investee;*
- *Exposure, or rights, to variable returns from its involvement with the investee; and,*
- *The ability to use its power over the investee to affect its returns.*

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- *The contractual arrangement with the other vote holders of the investee;*
- *Rights arising from other contractual arrangements; and,*
- *The Group's voting rights and potential voting rights*

b. Prinsip-prinsip konsolidasi (lanjutan)

Entitas anak (lanjutan)

Kelompok Usaha menilai kembali apakah Kelompok Usaha mengendalikan *investee* jika fakta dan keadaan mengindikasikan adanya perubahan terhadap satu atau lebih dari tiga elemen pengendalian. *Investee* dikonsolidasi sejak tanggal ketika Kelompok Usaha memperoleh pengendalian secara efektif dan tidak dikonsolidasikan lagi sejak tanggal Kelompok Usaha kehilangan pengendalian.

Seluruh transaksi dan saldo akun antar entitas yang material telah dieliminasi pada proses konsolidasi.

Rugi entitas anak diatribusikan pada kepentingan nonpengendali bahkan jika rugi tersebut mengakibatkan kepentingan nonpengendali mempunyai saldo defisit.

Perubahan dalam bagian kepemilikan Perusahaan pada suatu entitas anak yang tidak mengakibatkan hilangnya pengendalian dicatat sebagai transaksi ekuitas.

Jika kehilangan pengendalian atas suatu entitas anak, maka Perusahaan:

- menghentikan pengakuan aset (termasuk setiap *goodwill*) dan liabilitas entitas anak;
- menghentikan pengakuan jumlah tercatat setiap kepentingan nonpengendali;
- menghentikan pengakuan akumulasi selisih penjabaran, yang dicatat di ekuitas, bila ada;
- mengakui nilai wajar pembayaran yang diterima;
- mengakui investasi yang tersisa pada nilai wajarnya;
- mengakui setiap perbedaan yang dihasilkan sebagai keuntungan atau kerugian dalam laba rugi; dan,
- mereklasifikasi bagian Perusahaan atas komponen yang sebelumnya diakui sebagai penghasilan komprehensif lain ke laba rugi, atau mengalihkan secara langsung ke saldo laba.

**2. MATERIAL ACCOUNTING POLICY
INFORMATION (continued)**

b. Principles of consolidation (continued)

Subsidiaries (continued)

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Investee are consolidated from the date of acquisition or incorporation, being the date on which the Group obtains control, and continue to be consolidated until the date such control ceases.

All material intercompany transactions and account balances have been eliminated in the consolidation process.

Losses of a subsidiary are attributed to non-controlling interests even if the losses cause a deficit balance for the non-controlling interests.

Changes in the Company's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

In case of loss of control over a subsidiary, the Company:

- *derecognises the assets (including goodwill) and liabilities of the subsidiary;*
- *derecognises the carrying amount of any non-controlling interests;*
- *derecognises the cumulative translation differences, recorded in equity, if any;*
- *recognises the fair value of the consideration received;*
- *recognises the fair value of any investment retained;*
- *recognises any surplus or deficit in profit or loss; and,*
- *reclassifies its share of components previously recognised in other comprehensive income to profit or loss or retained earnings, as appropriate.*

Entitas anak (lanjutan)

Kepentingan nonpengendali mencerminkan bagian atas laba atau rugi dan aset neto dari entitas anak yang tidak dapat diatribusikan secara langsung maupun tidak langsung oleh Perusahaan yang disajikan dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian, dan dalam ekuitas pada laporan posisi keuangan konsolidasian, terpisah dari bagian yang dapat diatribusikan kepada pemilik Entitas Induk.

Entitas asosiasi

Investasi Kelompok Usaha pada entitas asosiasi diukur dengan menggunakan metode ekuitas. Entitas asosiasi adalah suatu entitas di mana Kelompok Usaha mempunyai pengaruh signifikan. Sesuai dengan metode ekuitas, nilai perolehan investasi ditambah atau dikurangi dengan bagian Kelompok Usaha atas laba atau rugi neto, dan penerimaan dividen dari, entitas asosiasi sejak tanggal perolehan.

Laporan laba rugi dan penghasilan komprehensif lain konsolidasian mencerminkan bagian atas hasil operasi dari entitas asosiasi. Bila terdapat perubahan yang diakui langsung pada ekuitas dari entitas asosiasi, Kelompok Usaha mengakui bagiannya atas perubahan tersebut dan mengungkapkan hal ini, jika dapat diterapkan, dalam laporan perubahan ekuitas konsolidasian. Laba atau rugi yang belum direalisasi sebagai hasil dari transaksi-transaksi antara Kelompok Usaha dengan entitas asosiasi dieliminasi pada jumlah sesuai dengan kepentingan Kelompok Usaha dalam entitas asosiasi.

b. Principles of consolidation (continued)

Subsidiaries (continued)

Non-controlling interests represent the portion of the profit or loss and net assets of the subsidiaries attributable to equity interests that are not owned directly or indirectly by the Company, which are presented in the consolidated statement of profit or loss and other comprehensive income, and under the equity section of the consolidated statement of financial position, respectively, separately from the corresponding portion attributable to owners of the Parent Company.

Associates

The Group's investments in associates are accounted for using the equity method. An associates is an entity in which the Group has significant influence. Under the equity method, the cost of investment is increased or decreased by the Group's share in net earnings or losses of, and dividends received from, the associates since the date of acquisition.

The consolidated statement of profit or loss and other comprehensive income reflects the share of the results of operations of the associates. Where there has been a change recognised directly in the equity of the associates, the Group recognises its share of any such changes and discloses this, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associates are eliminated to the extent of the Group's interest in the associates.

b. Prinsip-prinsip konsolidasi (lanjutan)

Entitas asosiasi (lanjutan)

Kelompok Usaha menentukan apakah perlu untuk mengakui rugi penurunan nilai atas investasi Kelompok Usaha dalam entitas asosiasi. Kelompok Usaha menentukan pada setiap tanggal pelaporan apakah terdapat bukti yang objektif yang mengindikasikan bahwa investasi dalam entitas asosiasi mengalami penurunan nilai. Dalam hal ini, Kelompok Usaha menghitung jumlah penurunan nilai berdasarkan selisih antara jumlah terpulihkan atas investasi dalam entitas asosiasi dan nilai tercatatnya, dan mengakui penurunan nilai tersebut dalam laba rugi.

Kombinasi bisnis entitas sepengendali

Kelompok Usaha menerapkan PSAK 338 (Revisi 2012), "Kombinasi bisnis entitas sepengendali". Berdasarkan PSAK 338 (Revisi 2012), oleh karena transaksi kombinasi bisnis entitas sepengendali tidak mengakibatkan perubahan substansi ekonomi kepemilikan atas bisnis yang dipertukarkan, transaksi tersebut diakui pada jumlah tercatat berdasarkan metode penyatuan kepemilikan. Dalam menerapkan metode penyatuan kepemilikan, unsur-unsur laporan keuangan dari entitas yang bergabung, untuk periode terjadinya kombinasi bisnis entitas sepengendali dan untuk periode komparatif sajian, disajikan seolah-olah penggabungan tersebut telah terjadi sejak awal periode entitas yang bergabung berada dalam sepengendalian.

Selisih antara jumlah tercatat dengan jumlah imbalan yang dialihkan dalam kombinasi bisnis entitas sepengendali atau jumlah imbalan yang diterima dalam pelepasan bisnis entitas sepengendali, jika ada, dicatat sebagai bagian dari akun "tambahan modal disetor" pada laporan posisi keuangan konsolidasian.

b. Principles of consolidation (continued)

Associates (continued)

The Group determines whether it is necessary to recognise an impairment loss on its investments in associates. The Group determines at each reporting date whether there is objective evidence that any of its investments in associates is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the investment in the associates and its carrying value, and recognises the impairment in profit or loss.

Business combinations under common control

The Group adopted PSAK 338 (Revised 2012), "Business combination of entities under common control". Under PSAK 338 (Revised 2012), since the transaction of business combination of entities under common control does not result in a change of the economic substance of the ownership of businesses which are exchanged, the said transaction is recognised at its carrying value using the pooling-of-interests method. In applying the pooling-of-interests method, the components of the financial statements of the combining entity, for the period during which the business combination of entities under common control occurred and for the comparative period, are presented in such a manner as if the combination has occurred since the beginning of the period the combining entity is under common control.

The difference between the carrying value and the value of considerations transferred in a business combination of entities under common control or considerations received in a disposal of business of entities under common control, if any, is recognised as part of "additional paid-in capital" in the consolidated statement of financial position.

c. Kas dan setara kas

Kas dan setara kas dalam laporan posisi keuangan konsolidasian terdiri dari kas, kas di bank, dan deposito jangka pendek dengan jangka waktu jatuh tempo tiga bulan atau kurang sejak tanggal penempatan dan tidak digunakan sebagai jaminan atas utang atau pinjaman.

d. Piutang usaha dan piutang lain-lain

Piutang usaha merupakan jumlah yang terutang dari pelanggan atas penjualan barang dagangan dalam kegiatan usaha biasa. Piutang lain-lain adalah piutang dari transaksi selain penjualan barang dagangan dalam kegiatan usaha biasa. Jika piutang diperkirakan dapat ditagih dalam waktu satu tahun atau kurang (atau dalam siklus operasi normal jika lebih panjang), piutang diklasifikasikan sebagai aset lancar. Jika tidak, piutang disajikan sebagai aset tidak lancar.

Penurunan nilai pada piutang usaha dan piutang lain-lain dijelaskan pada Catatan 2o.

e. Transaksi dengan pihak-pihak berelasi

Kelompok Usaha melakukan transaksi dengan pihak-pihak berelasi sebagaimana didefinisikan dalam PSAK 224, "Pengungkapan pihak-pihak berelasi".

Transaksi ini dilakukan berdasarkan persyaratan yang disetujui oleh kedua belah pihak, dimana persyaratan tersebut mungkin tidak sama dengan transaksi lain yang dilakukan dengan pihak-pihak yang tidak berelasi.

Seluruh transaksi dan saldo yang material dengan pihak-pihak berelasi telah diungkapkan dalam Catatan 26.

c. Cash and cash equivalents

Cash and cash equivalents in the consolidated statements of financial position comprise cash on hand and in banks and short-term bank deposits with maturities of three months or less at the time of placement and not pledged as collateral for loans or other borrowings.

d. Trade and other receivables

Trade receivables are amounts due from customers for merchandise sold in the ordinary course of business. Other receivables are receivables from transactions other than the sale of merchandises in the ordinary course of business. If collection is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Impairment of trade receivables and other receivables are described in Note 2o.

e. Transactions with related parties

The Group has transactions with certain parties which have related party relationships as defined under PSAK 224, "Related party disclosures".

The transactions are made based on terms agreed by the parties, whereas such terms may not be the same as those for transactions with unrelated parties.

All material transactions and balances with related parties are disclosed in Note 26.

f. Persediaan

Persediaan dinyatakan berdasarkan nilai terendah antara biaya perolehan atau nilai realisasi bersih. Biaya perolehan ditentukan dengan menggunakan metode rata-rata tertimbang. Cadangan keusangan/kerugian persediaan ditetapkan untuk menurunkan nilai tercatat persediaan ke nilai realisasi bersihnya.

Nilai realisasi bersih adalah taksiran harga jual dalam kegiatan usaha normal setelah dikurangi dengan taksiran biaya penyelesaian dan taksiran biaya yang diperlukan untuk melaksanakan penjualan.

g. Aset tetap

Aset tetap, kecuali tanah, dinyatakan sebesar biaya perolehan dikurangi akumulasi penyusutan, amortisasi dan deplesi, dan rugi penurunan nilai, jika ada. Biaya perolehan termasuk biaya penggantian bagian aset tetap saat biaya tersebut terjadi, jika memenuhi kriteria pengakuan. Selanjutnya, pada saat pemeliharaan dan perbaikan yang material dilakukan, biaya tersebut diakui ke dalam nilai tercatat aset tetap sebagai suatu penggantian jika memenuhi kriteria pengakuan. Apabila terdapat kewajiban untuk membongkar dan memindahkan aset tetap, maka beban yang terkait akan ditambahkan ke biaya perolehan aset tetap yang bersangkutan dan kewajiban atas biaya terkait tersebut diakui. Semua biaya pemeliharaan dan perbaikan yang tidak memenuhi kriteria pengakuan dibebankan langsung pada operasi tahun berjalan.

**2. MATERIAL ACCOUNTING POLICY
INFORMATION (continued)**

f. Inventories

Inventories are stated at the lower of cost or net realisable value. Cost is determined using the weighted average method. Allowance for inventory obsolescence/losses is provided to reduce the carrying value of inventories to their net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less estimated costs of completion and estimated costs necessary to make the sale.

g. Fixed assets

Fixed assets, except land, are stated at cost less accumulated depreciation, amortisation and depletion, and impairment loss, if any. Such cost includes the cost of replacing part of the fixed assets when that cost is incurred, if the recognition criteria are met. Likewise, when material renewals and betterments are performed, their costs are recognised in the carrying amount of the fixed assets as a replacement if the recognition criteria are satisfied. In the case of mandatory dismantling or asset removals, the related costs are added to the cost of the relevant assets and provisions are recognised to cover the costs. All other repairs and maintenance costs that do not meet the recognition criteria are charged directly to current operations.

g. Aset tetap (lanjutan)

Hak atas tanah secara umum dinyatakan sebesar biaya perolehan dan tidak diamortisasi. Kelompok Usaha menganalisis fakta dan keadaan untuk masing-masing jenis hak atas tanah dalam menentukan akuntansi untuk masing-masing hak atas tanah tersebut sehingga dapat merepresentasikan dengan tepat suatu kejadian atau transaksi ekonomis yang mendasarinya. Jika hak atas tanah tersebut tidak secara efektif memberikan pengendalian atas aset pendasar, melainkan hanya memberikan hak untuk menggunakan aset pendasar, transaksi tersebut dicatat sebagai sewa berdasarkan PSAK 116, "Sewa". Jika hak atas tanah secara substansi menyerupai pembelian tanah, maka hak atas tanah tersebut dicatat sebagai aset tetap berdasarkan PSAK 216 "Aset tetap".

Mesin dan peralatan tertentu yang berhubungan dengan produksi semen disusutkan dengan menggunakan metode unit produksi. Seluruh aset tetap lainnya, kecuali tanah, disusutkan, diamortisasi atau didepleksi dengan menggunakan metode garis lurus berdasarkan taksiran masa manfaat aset tetap sebagai berikut:

	Tahun/Years	
Pengembangan tanah, tambang, serta bangunan dan prasarana	8 - 30	Land improvements, quarry, and buildings and structures
Mesin dan peralatan	5 - 15	Machinery and equipment
Kapal	10 - 20	Vessels
Alat pengangkutan	5	Transportation equipment
Pengembangan gedung yang disewa, perabot dan peralatan kantor, serta perkakas dan peralatan lainnya	5	Leasehold improvements, furniture, fixtures and office equipment, and tools and other equipment
Biaya pemugaran kapal	2,5	Dry docking costs

Aset dalam pembangunan dinyatakan sebesar biaya perolehan. Biaya perolehan tersebut dikurangi dengan jumlah pendapatan neto yang diperoleh dari hasil penjualan produk selama tahap uji coba produksi setelah dikurangi beban produksi. Akumulasi biaya perolehan akan direklasifikasikan ke masing-masing akun aset tetap yang bersangkutan pada saat aset tersebut selesai dikerjakan dan siap untuk digunakan sesuai intensinya.

g. Fixed assets (continued)

Land use rights are generally stated at cost and are not amortised. The Group analyzes the facts and circumstances for each type of landrights in determining the accounting for each of these land rights so that it can accurately represent an underlying economic event or transaction. If the landrights do not effectively provide control of the underlying assets, but only give the rights to use the underlying assets, they are accounted for as leases under PSAK 116, "Leases". If the landrights are substantially similar to those of land purchases, they are accounted for as fixed assets under PSAK 216 "Fixed assets".

Certain machinery and equipment related to the production of cement are depreciated using the unit-of-production method. All other fixed assets, except land, are depreciated, amortised or depleted using the straight-line method based on their estimated useful lives as follows:

Construction in progress is stated at cost. Cost is reduced by the amount of revenue generated from the sale of finished products during the trial production run less the related cost of production. The accumulated cost is reclassified to the appropriate fixed assets account when the construction is substantially completed and the constructed asset is ready for its intended use.

g. Aset tetap (lanjutan)

Jumlah tercatat aset tetap dihentikan pengakuannya pada saat dilepaskan atau saat tidak ada manfaat ekonomis masa depan yang diharapkan dari penggunaan atau pelepasannya. Laba atau rugi yang timbul dari penghentian pengakuan aset (dihitung sebagai perbedaan antara jumlah neto hasil pelepasan dan jumlah tercatat dari aset) dikreditkan atau dibebankan ke laba rugi periode berjalan pada tahun aset tersebut dihentikan pengakuannya.

Pada setiap akhir periode pelaporan, nilai residu, umur manfaat dan metode penyusutan aset tetap direviu dan disesuaikan secara prospektif, jika diperlukan.

h. Penurunan nilai aset non-keuangan dan goodwill

Pada setiap akhir periode pelaporan, Kelompok Usaha menilai apakah terdapat indikasi suatu aset selain *goodwill* mengalami penurunan nilai. Jika terdapat indikasi tersebut, maka jumlah terpulihkan diestimasi untuk aset individual. Jika tidak mungkin untuk mengestimasi jumlah terpulihkan aset individual, maka Kelompok Usaha menentukan nilai terpulihkan dari Unit Penghasil Kas ("UPK") yang mana aset tercakup (aset dari UPK).

Jumlah terpulihkan dari suatu aset (baik aset individual maupun UPK) adalah jumlah yang lebih tinggi antara nilai wajarnya dikurangi biaya untuk menjual dengan nilai pakainya. Jika nilai tercatat aset lebih besar daripada nilai terpulihkannya, maka aset tersebut dianggap mengalami penurunan nilai dan nilai tercatat aset diturunkan menjadi sebesar nilai terpulihkannya. Rugi penurunan nilai diakui pada laba rugi sebagai "beban usaha". Dalam menghitung nilai pakai, estimasi arus kas masa depan neto didiskontokan ke nilai kini dengan menggunakan tingkat diskonto sebelum pajak yang menggambarkan penilaian pasar kini dari nilai waktu uang dan risiko spesifik atas aset.

Dalam menentukan nilai wajar dikurangi biaya untuk menjual, digunakan harga transaksi pasar terakhir, jika tersedia. Jika tidak terdapat transaksi tersebut, Kelompok Usaha menggunakan model penilaian yang sesuai untuk menentukan nilai wajar aset. Perhitungan-perhitungan ini didukung dengan penilaian berganda atas nilai saham kuotasian perusahaan yang diperdagangkan di pasar atau indikator nilai wajar lainnya yang tersedia.

**2. MATERIAL ACCOUNTING POLICY
INFORMATION (continued)**

g. Fixed assets (continued)

The carrying amount of an item of fixed assets is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising from the derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is credited or charged to profit or loss in the period of asset is derecognised.

At the end of each reporting period, the fixed assets' residual values, useful lives and methods of depreciation are reviewed and adjusted prospectively, if appropriate.

h. Impairment of non-financial assets and goodwill

The Group assesses at the end of each reporting period whether there is an indication that an asset other than goodwill may be impaired. If such indication exists, recoverable amount is estimated for the individual asset. If it is not possible to estimate the recoverable amount of the individual asset, the Group determines the recoverable amount of the Cash-Generating Unit ("CGU") to which the asset belongs (the asset's CGU).

An asset's (either individual asset or CGU) recoverable amount is the higher of the asset's fair value less costs to sell and its value in use. Where the carrying amount of the asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses are recognised in profit or loss as "operating expenses". In assessing the value in use, the estimated net future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

In determining fair value less costs to sell, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used to determine the fair value of the asset. These calculations are corroborated by valuation multiples quoted share price for publicly traded companies or other available fair value indicators.

goodwill (lanjutan)**

Aset yang memiliki masa manfaat yang tidak terbatas – sebagai contoh *goodwill* atau aset takberwujud yang tidak siap untuk digunakan – tidak diamortisasi namun diuji penurunan nilainya setiap tahun, atau lebih sering apabila terdapat peristiwa atau perubahan pada kondisi yang mengindikasikan kemungkinan penurunan nilai. Aset yang diamortisasi diuji ketika terdapat indikasi bahwa nilai tercatatnya mungkin tidak dapat dipulihkan.

Untuk keperluan pengujian penurunan nilai *goodwill*, *goodwill* yang diperoleh dari kombinasi bisnis dialokasikan pada setiap Unit Penghasil Kas ("UPK"), atau kelompok UPK, yang diharapkan dapat memberikan manfaat dari sinergi kombinasi bisnis tersebut.

Nilai tercatat dari *goodwill* dibandingkan dengan jumlah yang terpulihkan, yaitu nilai yang lebih tinggi antara nilai pakai dan nilai wajar dikurangi biaya untuk menjual. Rugi penurunan nilai dibebankan langsung dalam laba rugi dan selanjutnya tidak dibalik kembali.

Aset non-keuangan selain *goodwill* yang mengalami penurunan nilai diuji setiap tanggal pelaporan untuk menentukan apakah terdapat kemungkinan pemulihan penurunan nilai. Pembalikan rugi penurunan nilai, untuk aset selain *goodwill*, diakui jika, dan hanya jika, terdapat perubahan estimasi yang digunakan dalam menentukan jumlah terpulihkan aset sejak pengujian penurunan nilai terakhir kali. Pembalikan rugi penurunan nilai tersebut diakui segera dalam laba rugi, tetapi tidak boleh melebihi akumulasi rugi penurunan nilai yang telah diakui sebelumnya. Rugi penurunan nilai yang diakui atas *goodwill* tidak dibalik lagi.

**2. MATERIAL ACCOUNTING POLICY
INFORMATION (continued)**

**h. Impairment of non-financial assets and
goodwill (continued)**

Assets that have an indefinite useful life – for example, goodwill or intangible assets not ready for use - are not subject to amortisation but tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

For the purpose of impairment testing of goodwill, goodwill acquired in a business combination is allocated to each of the Cash Generating Units ("CGUs"), or groups of CGUs, that is expected to benefit from the synergies of the business combination.

The carrying value of goodwill is compared to the recoverable amount, which is the higher of value in use and the fair value less costs of disposal. Any impairment is recognised immediately as an expense in profit or loss and is not subsequently reversed.

Non-financial assets other than goodwill that have suffered impairment are reviewed for possible reversal of the impairment at each reporting date. Reversal on impairment loss for assets other than goodwill would be recognised if, and only if, there has been a change in the estimates used to determine the assets' recoverable amount since the last impairment test was carried out. Reversal on impairment losses will be immediately recognised in profit or loss, but not in excess of any accumulated impairment loss previously recognised. Impairment losses relating to goodwill would not be reversed.

i. Sewa

Kelompok Usaha sebagai penyewa

Pada tanggal permulaan kontrak, Kelompok Usaha menilai apakah kontrak merupakan, atau mengandung, sewa. Suatu kontrak merupakan atau mengandung sewa jika kontrak tersebut memberikan hak untuk mengendalikan penggunaan aset identifikasi selama suatu jangka waktu untuk dipertukarkan dengan imbalan.

Untuk menilai apakah kontrak memberikan hak untuk mengendalikan penggunaan aset identifikasi, Kelompok Usaha harus menilai apakah:

- Kelompok Usaha memiliki hak untuk mendapatkan secara substansial seluruh manfaat ekonomi dari penggunaan aset sepanjang periode penggunaan; dan
- Kelompok Usaha memiliki hak untuk mengarahkan penggunaan aset. Kelompok Usaha memiliki hak ini ketika Kelompok Usaha memiliki hak untuk pengambilan keputusan yang relevan tentang bagaimana dan untuk tujuan apa aset digunakan telah ditentukan sebelumnya dan:
 1. Kelompok Usaha memiliki hak untuk mengoperasikan aset; atau
 2. Kelompok Usaha telah mendesain aset dengan cara menetapkan sebelumnya bagaimana dan untuk tujuan apa aset akan digunakan.

Pada tanggal insepasi atau pada penilaian kembali atas kontrak yang mengandung sebuah komponen sewa, Kelompok Usaha mengalokasikan imbalan dalam kontrak ke masing-masing komponen sewa berdasarkan harga tersendiri relatif dari komponen sewa dan harga tersendiri agregat dari komponen nonsewa.

i. Leases

The Group as a lessee

At the inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is or contains a lease if the contract conveys the right to control the use of an identified assets for a period of time in exchange for consideration.

To assess whether a contract conveys the right to control the use of an identified asset, the Group shall assess whether:

- *The Group has the right to obtain substantially all the economic benefits from use of the asset throughout the period of use; and*
- *The Group has the right to direct the use of the asset. The Group has this right when it has the decision-making rights that are the most relevant to changing how and for what purpose the asset is used are predetermined and:*
 1. *The Group has the right to operate the asset; or*
 2. *The Group has designed the asset in a way that predetermined how and for what purpose it will be used.*

At the inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices and the aggregate stand-alone price of the non-lease components.

i. Sewa (lanjutan)

Kelompok Usaha sebagai penyewa (lanjutan)

Pada tanggal permulaan sewa, Kelompok Usaha mengakui aset hak-guna dan liabilitas sewa. Aset hak-guna diukur pada biaya perolehan, dimana meliputi jumlah pengukuran awal liabilitas sewa yang disesuaikan dengan pembayaran sewa yang dilakukan pada atau sebelum tanggal permulaan, ditambah dengan estimasi biaya yang akan dikeluarkan untuk membongkar dan memindahkan aset pendasar atau untuk merestorasi aset pendasar ke kondisi yang disyaratkan dan ketentuan sewa.

Aset hak-guna kemudian disusutkan menggunakan metode garis lurus dari tanggal permulaan hingga tanggal yang lebih awal antara akhir umur manfaat aset hak-guna atau akhir masa sewa.

Liabilitas sewa diukur pada nilai kini pembayaran sewa yang belum dibayar pada tanggal permulaan, didiskontokan dengan menggunakan suku bunga implisit dalam sewa atau jika suku bunga tersebut tidak dapat ditentukan, maka menggunakan suku bunga pinjaman inkremental. Pada umumnya, Kelompok Usaha menggunakan suku bunga pinjaman inkremental sebagai tingkat bunga diskonto.

Pembayaran sewa yang termasuk dalam pengukuran liabilitas sewa meliputi pembayaran tetap.

Setiap pembayaran sewa dialokasikan sebagai beban keuangan dan pengurangan liabilitas sehingga menghasilkan tingkat suku bunga yang konstan atas saldo liabilitas yang tersisa. Utang sewa yang terkait, dikurangi dengan beban keuangan, dimasukkan ke dalam "liabilitas sewa".

**2. MATERIAL ACCOUNTING
INFORMATION (continued)**

i. Leases (continued)

The Group as a lessee (continued)

At the lease inception date, the Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payment made at or before the commencement date, plus an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset to the condition required by the terms and conditions of the lease.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise fixed payments.

Each lease payment is allocated between finance charges and reduction of the lease liability so as to achieve a constant rate on the finance balance outstanding. The corresponding rental obligations, net of finance charges, are included in "lease liabilities".

Kelompok Usaha sebagai penyewa (lanjutan)

Elemen bunga dari beban keuangan dibebankan pada laba rugi selama periode sewa sehingga menghasilkan tingkat bunga periodik yang konstan untuk saldo liabilitas yang tersisa pada setiap periode.

Kelompok Usaha menyajikan aset hak-guna sebagai bagian dari "aset tetap" dan "liabilitas sewa" di dalam laporan posisi keuangan konsolidasian.

Sewa jangka pendek

Kelompok Usaha memutuskan untuk tidak mengakui aset hak-guna dan utang sewa untuk sewa jangka-pendek yang memiliki masa sewa 12 bulan atau kurang. Kelompok Usaha mengakui pembayaran sewa atas sewa tersebut sebagai beban dengan dasar garis lurus selama masa sewa.

j. Properti investasi

Properti investasi merupakan tanah dan bangunan yang dikuasai Kelompok Usaha untuk menghasilkan rental atau untuk kenaikan nilai atau kedua-duanya, dan tidak untuk digunakan dalam produksi atau penyediaan barang atau jasa untuk tujuan administratif atau dijual dalam kegiatan usaha sehari-hari. Properti investasi dinyatakan sebesar biaya perolehan termasuk biaya transaksi.

Kelompok Usaha telah memilih model biaya untuk mencatat properti investasinya.

Properti investasi dihentikan pengakuannya pada saat pelepasan atau ketika properti investasi tersebut tidak digunakan lagi secara permanen dan tidak memiliki manfaat ekonomis di masa depan yang dapat diharapkan dari pelepasannya. Keuntungan atau kerugian yang timbul dari penghentian atau pelepasan properti investasi diakui dalam laba rugi dalam tahun penghentian atau pelepasan tersebut terjadi.

INFORMATION (continued)**

i. Leases (continued)

The Group as a lessee (continued)

The interest element of the finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

The Group presents right-of-use assets as part of "fixed assets" and "lease liabilities" in the consolidated statement of financial position.

Short-term leases

The Group has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

j. Investment properties

Investment properties represent land and building which are held by the Group to earn rental or for capital appreciation or both, rather than for use in the production or supply of goods or services or for administrative purposes or sale in the ordinary course of business. Investment properties are initially measured at cost, including transaction costs.

The Group has chosen the cost model to account for its investment properties.

Investment property is derecognised when either it has been disposed of or when it is permanently withdrawn from use and no future benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognised in profit or loss in the year the retirement or disposal occurred.

Transfer ke atau dari properti investasi dilakukan jika, dan hanya jika, terdapat perubahan penggunaan yang ditunjukkan dengan dimulainya penggunaan oleh pemilik, dimulainya pengembangan untuk dijual, atau berakhirnya pemakaian oleh pemilik, dimulainya sewa operasi ke pihak lain.

Untuk transfer dari properti investasi ke aset tetap yang digunakan dalam operasi, Kelompok Usaha menggunakan metode biaya pada tanggal perubahan penggunaan. Jika properti yang digunakan Kelompok Usaha menjadi properti investasi, Kelompok Usaha mencatat properti tersebut sesuai dengan kebijakan aset tetap sampai dengan saat tanggal terakhir perubahan penggunaannya.

k. Aset takberwujud dan goodwill

Aset takberwujud diukur sebesar nilai perolehan pada pengakuan awal. Setelah pengakuan awal, aset takberwujud dicatat pada nilai perolehan dikurangi akumulasi amortisasi dan akumulasi rugi penurunan nilai. Umur manfaat aset takberwujud dinilai apakah terbatas atau tidak terbatas.

Aset takberwujud dengan umur terbatas diamortisasi dengan metode garis lurus selama umur manfaat ekonomi aset dan dievaluasi apabila terdapat indikator adanya penurunan nilai untuk aset takberwujud. Periode dan metode amortisasi untuk aset takberwujud dengan umur terbatas direviu setidaknya setiap akhir tahun tutup buku.

Aset takberwujud dihentikan pengakuannya pada saat:

- i. dijual; atau
- ii. ketika tidak ada manfaat ekonomis di masa depan yang dapat diharapkan dari penggunaan atau penjualan aset tersebut.

Aset takberwujud Kelompok Usaha terdiri dari izin usaha pertambangan, merek dagang dan aplikasi piranti lunak yang digunakan pada komputer.

Pengukuran goodwill dijabarkan pada Catatan 2b dan Catatan 2h.

j. Investment properties (continued)

Transfers are made to or from investment property when, and only when, there is a change in use, evidenced by commencement of owner occupation, commencement of development with a view to sell, the end of owner occupation, or commencement of an operating lease to another party.

For a transfer from investment property to fixed assets used in operations, the Group uses the cost method at the date of change in use. If the property used by the Group becomes an investment property, it accounts for such property in accordance with the policy stated under fixed assets up to the date of change in use.

k. Intangible assets and goodwill

An intangible asset is measured on initial recognition at cost. Following initial recognition, the intangible asset is carried at cost less any accumulated amortisation and any accumulated impairment loss. The useful life of the intangible asset is assessed to be either finite or indefinite.

An intangible asset with finite life is amortised using straight-line method over the asset's useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

An intangible asset is derecognised:

- i. on disposal; or
- ii. when no future economic benefits are expected from its use or disposal.

The Group's intangible assets consist of mining licenses, trademarks and application software for use on computers.

The measurement of Goodwill is described in Note 2b and Note 2h.

Kelompok Usaha telah menerapkan PSAK 115 yang mengharuskan pengakuan pendapatan memenuhi 5 langkah analisa sebagai berikut:

The Group has applied PSAK 115, which requires revenue recognition to fulfill 5 steps of assessment:

1. Identifikasi kontrak dengan pelanggan;
 2. Identifikasi kewajiban pelaksanaan dalam kontrak. Kewajiban pelaksanaan merupakan janji-janji dalam kontrak untuk menyerahkan barang yang memiliki karakteristik berbeda ke pelanggan;
 3. Penetapan harga transaksi. Harga transaksi merupakan jumlah imbalan yang berhak diperoleh suatu entitas sebagai kompensasi atas diserahkannya barang yang dijanjikan ke pelanggan.
 4. Alokasi harga transaksi ke setiap kewajiban pelaksanaan dengan menggunakan dasar harga jual berdiri sendiri relatif dari setiap barang berbeda yang dijanjikan di kontrak.
 5. Pengakuan pendapatan ketika kewajiban pelaksanaan telah dipenuhi dengan menyerahkan barang yang dijanjikan ke pelanggan (ketika pelanggan telah memiliki kendali atas barang tersebut).
1. *Identify contract(s) with a customer;*
 2. *Identify the performance obligations in the contract. Performance obligations are promises in a contract to transfer to a customer goods that are distinct;*
 3. *Determine the transaction price. Transaction price is the amount of consideration to which an entity expects to be entitled in exchange for transferring promised goods to a customer.*
 4. *Allocate the transaction price to each performance obligation on the basis of the relative stand-alone selling prices of each distinct goods promised in the contract.*
 5. *Recognise revenue when performance obligation is satisfied by transferring a promised goods to a customer (which is when the customer obtains control of that goods).*

Biaya/beban umumnya diakui dan dibebankan pada operasi pada saat terjadinya.

m. Imbalan kerja

Imbalan kerja jangka pendek

Kelompok Usaha mengakui liabilitas imbalan kerja jangka pendek ketika jasa diberikan oleh karyawan dan imbalan atas jasa tersebut akan dibayarkan dalam waktu dua belas bulan setelah jasa tersebut diberikan.

Imbalan pascakerja

Perusahaan menyelenggarakan program pensiun iuran pasti (Program Pensiun) untuk semua karyawan tetapnya yang telah memenuhi kriteria dan liabilitas imbalan kerja yang tidak didanai yang ditentukan berdasarkan Kesepakatan Kerja Bersama (KKB) yang berlaku. Liabilitas imbalan kerja yang tidak didanai tersebut dihitung dengan membandingkan imbalan yang akan diterima oleh karyawan pada usia normal pensiun dari Program Pensiun dengan imbalan sesuai dengan KKB, setelah dikurangi dengan akumulasi kontribusi karyawan dan hasil pengembangannya. Jika bagian pemberi kerja pada imbalan Program Pensiun kurang dari imbalan yang diharuskan oleh KKB, Perusahaan akan mencadangkan kekurangan tersebut.

m. Employee benefit

Short-term employee benefit

The Group recognises short-term employee benefits liability when services are rendered and the compensation for such services is to be paid within twelve months after rendering such services.

Post-employment benefit

The Company has a defined contribution retirement plan (Pension Plan) covering all of its qualified permanent employees and an unfunded employee benefits liability determined in accordance with the existing Collective Labor Agreement (CLA). The unfunded employee benefits liability is calculated by comparing the benefit that will be received by an employee at normal pension age from the Pension Plan with the benefit as stipulated in the CLA, after deducting the accumulated employee contribution and the related investment results. If the employer-funded portion of the Pension Plan benefit is less than the benefit as required by the CLA, the Company provides for such shortfall.

Imbalan pascakerja (lanjutan)

Perusahaan dan DAP juga menyelenggarakan program imbalan kesehatan pascakerja dimana karyawan yang mencapai usia pensiun normal setelah tanggal 1 Januari 2003 dan seterusnya berhak untuk menerima imbalan kesehatan selama 5 tahun dari tanggal pensiun normal mereka. Jumlah imbalan kesehatan pascakerja setara dengan imbalan rawat inap dengan maksimal 60 hari penggantian rawat inap per tahun yang diterima oleh karyawan yang bersangkutan pada saat sebelum pensiun.

Entitas Anak tidak menyelenggarakan program pensiun. Namun demikian, beban tunjangan pensiun Entitas Anak telah dicadangkan sesuai dengan KKB.

Beban pensiun dihitung menggunakan metode *projected-unit-credit* dengan menerapkan asumsi atas tingkat diskonto menggunakan imbal hasil Obligasi Pemerintah yang didenominasikan dalam Rupiah, tingkat pengembalian dana pensiun yang diharapkan dan tingkat kenaikan kompensasi.

Keuntungan atau kerugian aktuarial yang timbul dari penyesuaian dan perubahan asumsi-asumsi aktuarial diakui seluruhnya dalam penghasilan komprehensif lain. Biaya jasa lalu diakui secara langsung di laporan laba rugi, kecuali perubahan terhadap program pensiun tersebut mensyaratkan karyawan tersebut untuk bekerja selama periode waktu tertentu.

Biaya bunga dan imbal hasil yang diharapkan atas program diukur dengan menghitung tingkat diskonto dengan liabilitas atau aset imbalan pasti neto pada setiap awal periode pelaporan.

Post-employment benefit (continued)

The Company and DAP also provide post-retirement healthcare benefits wherein employees who reach normal retirement age as of 1 January 2003 and onwards are entitled to receive healthcare benefits for 5 years from their normal retirement date. The amount of post-retirement healthcare benefits is equivalent to the benefits limited to reimbursement for in-patient hospital bills for a year not exceeding 60 days per year under the same standard as that which an employee used to have prior to the retirement.

The Subsidiaries do not maintain any pension plan. However, retirement benefit expenses for those Subsidiaries are accrued based on CLA.

Pension costs are determined using the *projected-unit-credit* method and applying the assumptions on discount rate using the yield at the reporting date of government bonds that are denominated in Indonesian Rupiah, expected return on plan assets and annual rate of increase in compensation.

All actuarial gains and losses arising from adjustment and changes in actuarial assumption are recognised as other comprehensive income. All past service costs are recognised immediately in profit or loss, unless the changes to the pension plan are conditional on the employees remaining in service for a specified period of time.

The interest cost and expected return on plan assets are measured by applying the discount rate to the net defined benefit liability or asset at the start of each reporting period.

Imbalan kerja jangka panjang lainnya

Kelompok Usaha memiliki penghargaan masa kerja dan cuti berimbalan jangka panjang untuk karyawan tertentu. Hak atas imbalan ini biasanya berdasarkan pencapaian masa kerja karyawan sesuai dengan KKB. Estimasi biaya imbalan ini diakui selama masa kerja. Imbalan ini dihitung dengan menggunakan metode yang sama dengan metode yang digunakan untuk program pensiun imbalan pasti, kecuali untuk keuntungan dan kerugian aktuarial yang diakui pada laporan laba rugi konsolidasian.

n. Transaksi dan saldo dalam mata uang asing

Laporan keuangan konsolidasian disajikan dalam Rupiah, yang merupakan mata uang fungsional Perusahaan dan mata uang penyajian Kelompok Usaha. Perusahaan dan Entitas Anak mempertimbangkan indikator utama dan indikator lainnya dalam menentukan mata uang fungsionalnya. Jika ada indikator yang tercampur dan mata uang fungsional tidak jelas, manajemen menggunakan penilaian untuk menentukan mata uang fungsional yang paling tepat menggambarkan pengaruh ekonomi dari transaksi, kejadian dan kondisi yang mendasarinya.

Kurs rata-rata untuk sebulan digunakan untuk semua transaksi dalam mata uang asing yang terjadi selama periode tersebut. Pada akhir periode pelaporan, aset dan liabilitas moneter dalam mata uang asing dijabarkan ke dalam Rupiah berdasarkan rata-rata kurs jual dan beli yang diterbitkan oleh Bank Indonesia pada tanggal terakhir transaksi perbankan pada tahun yang bersangkutan. Laba atau rugi selisih kurs yang timbul dikreditkan atau dibebankan pada operasi tahun berjalan.

m. Employee benefit (continued)

Other long-term employee benefits

The Group provides long service awards and leave benefits for some of its employees. The entitlements to these benefits are usually based on the completion of a certain service year by the employees in accordance with the CLA. The estimated costs of these benefits are recognised over the year of employment. These benefits are accounted for using the same method as for the defined benefit pension plan, except for actuarial gains and losses which are recognised in the consolidated profit or loss.

n. Foreign currency transactions and balances

The consolidated financial statements are presented in Indonesian Rupiah (Rupiah), which is the Company's functional currency and the Group's presentation currency. The Company and Subsidiaries considers the primary indicators and other indicators in determining its functional currency. If indicators are mixed and the functional currency is not obvious, management uses its judgment to determine the functional currency that most faithfully represents the economic effects of the underlying transactions, events and conditions.

An average rate for a month is used for all foreign currency transactions occurring during that period. At the end of the reporting period, monetary assets and liabilities denominated in foreign currencies are adjusted to reflect the average buying and selling rates of exchange quoted by Bank Indonesia at the closing of the last banking day of the year. The resulting gains or losses are credited or charged to current operations.

dari satu entitas dan liabilitas keuangan atau
instrumen ekuitas dari entitas lainnya.

i. Aset keuangan

Klasifikasi dan pengukuran

Kelompok Usaha mengklasifikasikan aset
keuangannya berdasarkan pada model
bisnis dan arus kas kontraktual - apakah
semata dari pembayaran pokok dan bunga.

Aset keuangan diklasifikasikan dalam dua
kategori sebagai berikut:

- Aset keuangan yang diukur dengan biaya
diamortisasi.
- Aset keuangan yang diukur dengan nilai
wajar melalui laba rugi (FVTPL) atau
melalui penghasilan komprehensif lain
(FVTOCI).

Kelompok Usaha menentukan klasifikasi
aset keuangan tersebut pada pengakuan
awal. Kelompok Usaha mereklasifikasi aset
keuangan jika dan hanya jika model bisnis
untuk mengelola aset tersebut berubah.

financial liability or equity instrument of another
entity.

i. Financial assets

Classification and measurement

The Group classified its financial assets
based on the business model and
contractual cash flows - whether from solely
payment of principal and interest.

Financial assets are classified in the two
categories as follows:

- Financial assets at amortised cost.
- Financial assets at fair value through profit

income (FVTOCI).

The Group determined the classification of
its financial assets at initial recognition. The
Group reclassifies the financial assets if and
only if business model for managing those
assets changes.

o. Instrumen keuangan (lanjutan)

i. Aset keuangan (lanjutan)

Semua aset keuangan pada awalnya diakui sebesar nilai wajarnya ditambah dengan biaya-biaya transaksi, kecuali aset keuangan dicatat pada nilai wajar melalui laba rugi, biaya transaksi yang dapat diatribusikan secara langsung dengan perolehan dibebankan pada laba rugi.

Aset keuangan Kelompok Usaha meliputi kas dan setara kas, piutang usaha dan piutang lain-lain, dan aset keuangan lancar dan tidak lancar lainnya. Aset keuangan diklasifikasikan sebagai aset lancar, jika jatuh tempo dalam waktu 12 bulan, jika tidak maka aset keuangan ini diklasifikasikan sebagai aset tidak lancar.

Aset keuangan yang diukur dengan biaya diamortisasi selanjutnya diukur dengan metode suku bunga efektif ("EIR"), setelah dikurangi dengan penurunan nilai. Biaya perolehan yang diamortisasi dihitung dengan memperhitungkan diskonto atau premi atas biaya akuisisi atau biaya yang merupakan bagian integral dari EIR tersebut. Amortisasi EIR dicatat dalam laba rugi. Kerugian yang timbul dari penurunan nilai juga diakui pada laba rugi.

ii. Penghentian pengakuan aset

Aset keuangan (atau mana yang lebih tepat, bagian dari aset keuangan atau bagian dari kelompok aset keuangan serupa) dihentikan pengakuannya pada saat: (1) hak kontraktual arus kas yang berasal dari aset keuangan tersebut telah berakhir; atau (2) Kelompok Usaha telah mengalihkan hak kontraktual mereka untuk menerima arus kas yang berasal dari aset keuangan atau mempertahankan hak kontraktual untuk menerima arus kas yang berasal dari aset keuangan, tetapi juga menanggung kewajiban kontraktual untuk membayar arus kas yang diterima tersebut kepada satu atau lebih pihak penerima.

**2. MATERIAL ACCOUNTING POLICY

o. Financial instruments (continued)

i. Financial assets (continued)

All financial assets are recognised initially at fair value plus transaction costs, except in the case of financial assets which are recorded at fair value through profit or loss, transaction costs that are directly attributable to the acquisition are expensed in profit or loss.

The Group's financial assets include cash and cash equivalents, trade and other receivables and other current and non-current financial assets. Financial assets in this category are classified as current assets if expected to be settled within 12 months, otherwise they are classified as non-current assets.

Financial assets at amortised costs are subsequently measured using the Effective Interest Rate ("EIR") method less impairment. Amortised costs is calculated by taking into account any discount or premium on acquisition fee or costs that are an integral part of the EIR. The EIR amortisation is included in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

ii. Derecognition of financial assets

A financial asset (or where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when: (1) the contractual rights to the cash flows from the financial assets expire; or (2) the Group has transferred its contractual rights to receive the cash flows of the financial assets or retains the contractual rights to receive the cash flows of the financial assets, but assumes a contractual obligation to pay the cash flows to one or more recipients.

iii. Liabilitas keuangan

Kelompok Usaha hanya memiliki liabilitas keuangan yang dinilai dengan biaya perolehan yang diamortisasi, yang terdiri dari utang usaha, utang lain-lain, uang jaminan pelanggan, akrual, utang bank jangka pendek dan liabilitas sewa. Setelah pengakuan awal yang sebesar nilai wajar ditambah biaya transaksi, Kelompok Usaha mengukur semua liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi menggunakan metode suku bunga efektif. Liabilitas keuangan dihentikan pengakuannya pada saat dihapuskan.

Terkait dengan perjanjian Kelompok Usaha untuk pembayaran kepada pemasok melalui perjanjian pembiayaan pemasok dengan bank, manajemen melakukan penilaian apakah terdapat perubahan substansial atas syarat utang usaha. Untuk transaksi dimana tidak terdapat perubahan substansial atas syarat utang usaha, Kelompok Usaha melanjutkan untuk menyajikan angka terkait sebagai utang usaha pada laporan posisi keuangan konsolidasian. Namun, apabila terdapat perubahan substansial atas syarat utang usaha, Kelompok Usaha akan menyajikan angka terkait sebagai liabilitas pengaturan pembiayaan pemasok pada laporan posisi keuangan konsolidasian.

iv. Saling hapus instrumen keuangan

Aset keuangan dan liabilitas keuangan disalinghapus dan nilai bersihnya disajikan dalam laporan posisi keuangan konsolidasian jika, dan hanya jika, entitas saat ini memiliki hak yang dapat dipaksakan secara hukum untuk melakukan saling hapus atas jumlah yang telah diakui dan berniat untuk menyelesaikan secara neto, atau untuk merealisasikan aset dan menyelesaikan kewajibannya secara simultan. Hak yang berkekuatan hukum tersebut tidak harus bergantung pada kejadian masa depan dan harus dapat dilaksanakan dalam kegiatan usaha normal dan dalam hal gagal bayar, pailit atau kebangkrutan dari Kelompok Usaha atau pihak lawan.

iii. Financial liabilities

The Group only had financial liabilities measured at amortised cost, which consists of trade payables, other payables, customers' deposits, accruals, short-term bank loan and lease liabilities. After initial recognition which is at fair value plus transaction costs, the Group measures all financial liabilities at amortised cost using the effective interest rates method. Financial liabilities are derecognised when extinguished.

In relation to the agreement entered by the Group for the payments to suppliers through a supplier financing arrangement with the banks, management performs assessment whether there is a change in the substance of the term of trade payables. For the transactions with the banks where there is no change in the substance of the term of trade payables, the Group continues presenting the relevant amounts within trade payables in the consolidated statements of financial position. However, if there is a change on the substance of the trade payables, the Group will present the relevant amounts as supplier financing arrangement liabilities in the consolidated statement of financial position.

iv. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

v. Penurunan nilai dari aset keuangan

Kelompok Usaha menerapkan metode yang disederhanakan untuk mengukur kerugian kredit ekspektasian terhadap piutang usaha, yang mensyaratkan kerugian sepanjang umur piutang yang diharapkan harus diakui sejak pengakuan awal piutang.

p. Perpajakan

Pajak kini

Aset dan liabilitas pajak kini untuk tahun berjalan diukur sebesar jumlah yang diharapkan dapat direstitusi dari atau dibayarkan kepada otoritas perpajakan.

Beban pajak kini ditentukan berdasarkan laba kena pajak tahun berjalan yang dihitung berdasarkan peraturan perpajakan yang berlaku pada tanggal pelaporan keuangan. Manajemen secara periodik mengevaluasi posisi yang dilaporkan di Surat Pemberitahuan Tahunan (SPT) sehubungan dengan situasi dimana aturan pajak yang berlaku membutuhkan interpretasi. Jika perlu, manajemen menentukan provisi berdasarkan jumlah yang diharapkan akan dibayar kepada otoritas pajak.

Kekurangan/kelebihan pembayaran pajak penghasilan dicatat sebagai bagian dari "beban pajak penghasilan - neto" dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian. Kelompok Usaha juga menyajikan bunga/denda yang berasal dari kurang bayar pajak penghasilan, jika ada, sebagai bagian dari "beban pajak penghasilan-neto".

Koreksi terhadap liabilitas perpajakan diakui pada saat surat ketetapan pajak diterima atau, jika diajukan keberatan, pada saat keputusan atas keberatan ditetapkan.

v. Impairment of financial assets

The Group applied a simplified approach to measure expected credit loss for trade receivables, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

p. Taxation

Current tax

Current income tax assets and liabilities for the current year are measured at the amount expected to be recovered from or paid to the taxation authority.

Current tax expense is determined based on the taxable profit for the year computed using the tax laws enacted at the reporting date. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provision where appropriate on the basis of amounts expected to be paid to the tax authorities.

Underpayment/overpayment of income tax are presented as part of "income tax expense - net" in the consolidated statement of profit or loss and other comprehensive income. The Group also presented interest/penalty from the underpayment of income tax, if any, as part of "income tax expense - net".

Amendments to tax obligations are recorded when a tax assessment letter is received or, if appealed against, when the result of the appeal is determined.

Pajak tangguhan

Aset dan liabilitas pajak tangguhan diakui menggunakan metode liabilitas neraca atas konsekuensi pajak pada masa mendatang yang timbul dari perbedaan jumlah tercatat aset dan liabilitas menurut laporan keuangan dengan dasar pengenaan pajak aset dan liabilitas pada setiap tanggal pelaporan. Liabilitas pajak tangguhan diakui untuk semua perbedaan temporer kena pajak dan aset pajak tangguhan diakui untuk perbedaan temporer yang boleh dikurangkan dan akumulasi rugi fiskal, sepanjang besar kemungkinan perbedaan temporer yang boleh dikurangkan dan akumulasi rugi fiskal tersebut dapat dimanfaatkan untuk mengurangi laba kena pajak pada masa depan.

Jumlah tercatat aset pajak tangguhan ditelaah ulang pada akhir setiap periode pelaporan dan diturunkan apabila laba fiskal mungkin tidak memadai untuk mengkompensasi sebagian atau semua manfaat aset pajak tangguhan tersebut. Pada akhir setiap periode pelaporan, Kelompok Usaha menilai kembali aset pajak tangguhan yang tidak diakui. Kelompok Usaha mengakui aset pajak tangguhan yang sebelumnya tidak diakui apabila besar kemungkinan bahwa laba fiskal pada masa depan akan tersedia untuk pemulihannya.

Pajak tangguhan dihitung dengan menggunakan tarif pajak yang berlaku atau secara substansial telah berlaku pada tanggal pelaporan. Perubahan nilai tercatat aset dan liabilitas pajak tangguhan yang disebabkan oleh perubahan tarif pajak dibebankan pada usaha periode berjalan, kecuali untuk transaksi-transaksi yang sebelumnya telah langsung dibebankan atau dikreditkan ke ekuitas.

Aset dan liabilitas pajak tangguhan disajikan secara saling hapus dalam laporan posisi keuangan konsolidasian, kecuali aset dan liabilitas pajak tangguhan untuk entitas yang berbeda, sesuai dengan penyajian aset dan liabilitas pajak kini.

p. Taxation (continued)

Deferred tax

Deferred tax assets and liabilities are recognised using the balance sheet liability method for the future tax consequences attributable to differences between the carrying amounts of existing assets and liabilities in the financial statements and their respective tax bases at each reporting date. Deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for deductible temporary differences and accumulated fiscal losses to the extent that it is probable that taxable profit will be available in future years against which the deductible temporary differences and accumulated fiscal losses can be utilised.

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax asset to be utilised. At the end of each reporting period, the Group reassesses unrecognised deferred tax assets. The Group recognises previously unrecognised deferred tax assets to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax is calculated at the tax rates that have been enacted or substantively enacted at the reporting date. Changes in the carrying amount of deferred tax assets and liabilities due to a change in tax rates are charged to current period operations, except to the extent that they relate to items previously charged or credited to equity.

Deferred tax assets and liabilities are offset in the consolidated statement of financial position, except if they are for different legal entities, consistent with the presentation of current tax assets and liabilities.

- Receivables and payables that are stated with the amount of VAT included.

q. Segment reporting

The Group identifies its operating segments on the basis of internal reports that are regularly reviewed by the Group's chief operating decision-maker in order to allocate resources to the segment and assess its performance.

The Group's businesses are grouped into three major operating businesses: cement, ready-mix concrete and aggregates quarries. Financial information on operating segments is presented in Note 22.

r. Stock issuance costs

All costs related to the issuance of equity securities are offset against additional paid-in capital.

s. Earnings per share

The amount of the basic earnings per share is computed by dividing the profit for the year attributable to the owners of the Parent by the weighted-average number of shares outstanding during the year.

t. Provisions

A provision is recognised when the Group has a present obligation (legal or constructive) where, as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

All provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligations, the provisions are reversed.

u. Treasury shares

When the Company or other members of the group acquires the Company's equity share capital, the consideration paid, including any directly attributable incremental costs (net of income taxes), is deducted from equity. In the consolidated financial statements, the Company's and subsidiaries' interests in the Company's equity instruments are presented as "treasury shares". No gain or loss is recognised on the purchase, sale, or cancellation of the treasury stock. The difference between the carrying amount and the consideration on sale is recognised as additional paid-in capital.

**3. PENGGUNAAN PERTIMBANGAN, ESTIMASI
DAN ASUMSI SIGNIFIKAN OLEH MANAJEMEN**

Penyusunan laporan keuangan konsolidasian Kelompok Usaha mensyaratkan manajemen untuk membuat pertimbangan, estimasi dan asumsi yang mempengaruhi jumlah yang dilaporkan atas pendapatan, beban, aset dan liabilitas, serta pengungkapan liabilitas kontinjensi, pada akhir periode pelaporan. Namun, ketidakpastian asumsi dan estimasi ini dapat menyebabkan hasil yang memerlukan penyesuaian material atas nilai tercatat aset atau liabilitas yang berdampak pada masa mendatang.

a. Pertimbangan

Dalam proses penerapan kebijakan akuntansi Kelompok Usaha, manajemen telah membuat pertimbangan-pertimbangan berikut ini, yang terpisah dari estimasi dan asumsi, yang memiliki pengaruh paling material terhadap jumlah yang dicatat dalam laporan keuangan konsolidasian:

- Penentuan kombinasi bisnis atau pembelian aset

Menentukan apakah akuisisi memenuhi definisi kombinasi bisnis memerlukan pertimbangan untuk diterapkan atas dasar kasus per kasus. Akuisisi dinilai berdasarkan kriteria yang relevan untuk menetapkan apakah transaksi tersebut merupakan kombinasi bisnis atau pembelian aset. Kelompok Usaha mengadopsi PSAK 103 "Kombinasi bisnis"

Pada tahun 2023, Kelompok Usaha mengadakan Perjanjian Jual Beli Saham untuk mengakuisisi SGB. Kelompok Usaha menganggap akuisisi SGB tersebut sebagai kombinasi bisnis karena kelompok aset yang diakuisisi memenuhi kriteria suatu bisnis berdasarkan PSAK 103 "Kombinasi bisnis".

- Sewa

Penentuan apakah suatu perjanjian merupakan, atau mengandung, sewa dibuat berdasarkan substansi perjanjian itu sendiri dan penilaian apakah pemenuhan atas perjanjian bergantung dari penggunaan aset tertentu atau aset, dan apakah perjanjian memberikan hak untuk menggunakan aset.

**3. MANAGEMENT'S USE OF SIGNIFICANT
JUDGMENTS, ESTIMATES AND ASSUMPTIONS**

The preparation of the Group's consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the assets or liabilities affected in future years.

a. Judgments

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those including estimations and assumptions, which have the most material effect on the amounts recognised in the consolidated financial statements:

- *Determination of a business combination or purchase of assets*

Determining whether the acquisition meets the definition of a business combination requires judgement to be applied on a case by case basis. Acquisitions are assessed under the relevant criteria to establish whether the transaction represents a business combination or an asset purchase. The Group adopted PSAK 103 "Business combination".

In 2023, the Group entered into Share Sale and Purchase Agreement to acquire SGB. The Group considered the acquisition of the SGB as business combination because the group of assets acquired fulfill the criteria of business under PSAK 103 "Business combinations".

- *Leases*

Determination whether an arrangement is, or contains, a lease is made based on the substance of the arrangement and assessment of whether fulfilment of the arrangement is dependent on the use of a specific asset or assets, and the arrangement conveys a right to use the asset.

a. Pertimbangan (lanjutan)

• Sewa (lanjutan)

Dalam menentukan jangka waktu sewa, Kelompok Usaha mempertimbangkan semua fakta dan keadaan yang menimbulkan insentif ekonomi untuk menggunakan opsi perpanjangan, atau tidak menggunakan opsi penghentian. Opsi perpanjangan (atau periode setelah opsi penghentian kontrak) hanya termasuk dalam jangka waktu sewa jika cukup pasti akan diperpanjang (atau tidak dihentikan).

Penilaian tersebut ditinjau jika terjadi peristiwa material atau perubahan material dalam situasi yang memengaruhi penilaian ini dan berada dalam kendali Kelompok Usaha. Untuk tahun yang berakhir pada tanggal 31 Desember 2024, terdapat perubahan yang mengakibatkan peningkatan aset hak-guna dan liabilitas sewa sebesar Rp86.060.

Terutama untuk sewa pabrik semen yang dilakukan oleh Kelompok Usaha selama tahun berjalan, pertimbangan yang material diperlukan dalam menentukan perlakuan akuntansi untuk transaksi tersebut karena Kelompok Usaha juga menandatangani perjanjian lainnya dengan pesewa, seperti pembelian bahan baku dan jasa penyediaan karyawan.

• Pengaruh signifikan atas entitas dimana Kelompok Usaha mempunyai kepemilikan sebesar 50,0%

Kelompok Usaha memiliki investasi dimana persentase kepemilikan efektifnya sebesar 50,0% tetapi Kelompok Usaha tidak memiliki kekuasaan yang signifikan untuk mengendalikan entitas tersebut. Situasi ini pada umumnya diindikasikan dari ketidakmampuan untuk mengarahkan aktivitas relevan yang mempengaruhi imbal hasil entitas tersebut secara signifikan. Sebagai akibatnya, investasi ini diklasifikasikan sebagai entitas asosiasi.

• Leases (continued)

In determining the lease term, the Group considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

The assessment is reviewed if a material event or a material change in circumstances occurs which affects this assessment and that is within the control of the Group. For the year ended ended 31 December 2024, there was changes to the lease term which is increase the scope of lease which resulted into increase of right-of-use assets and lease liabilities of Rp86,060.

In particular to the lease of the cement plant that was entered into by the Group during the year, material judgment was required in determining the accounting for the transaction as the Group also entered into other arrangements with the lessor, such as purchase of raw materials and outsourcing of employees.

• Significant influence of entity in which the Group holds 50.0%

The Group has investments whereby its percentage of effective ownership is 50.0% but the Group does not have significant power to control the entity. Such situations are generally indicated by the inability direct the relevant activities where it may significantly affect these entity's returns. Consequently, this investment was classified as an associate.

b. Estimasi dan asumsi

Asumsi kunci mengenai masa depan dan sumber kunci lainnya untuk ketidakpastian estimasi pada akhir periode pelaporan yang memiliki risiko signifikan yang menyebabkan penyesuaian material terhadap nilai tercatat aset dan liabilitas dalam tahun pelaporan berikutnya dijabarkan sebagai berikut:

- Estimasi masa manfaat aset tetap

Kelompok Usaha mengestimasi masa manfaat dari aset tetap berdasarkan utilisasi dari aset yang diharapkan dapat didukung dengan rencana dan strategi usaha yang juga mempertimbangkan perkembangan teknologi di masa depan dan perilaku pasar. Estimasi dari masa manfaat aset tetap adalah berdasarkan penelaahan Kelompok Usaha secara kolektif terhadap praktek industri, evaluasi teknis internal dan pengalaman untuk aset yang setara.

Estimasi masa manfaat direviu paling sedikit setiap akhir tahun pelaporan dan diperbarui jika ekspektasi berbeda dari estimasi sebelumnya dikarenakan pemakaian dan kerusakan fisik, keusangan secara teknis atau komersial dan pembatasan hukum atau lainnya atas penggunaan aset. Tetapi, adalah mungkin, hasil operasi di masa depan dapat dipengaruhi secara material oleh perubahan-perubahan dalam estimasi yang diakibatkan oleh perubahan faktor-faktor yang disebutkan di atas.

Jumlah dan saat beban dicatat setiap tahun akan terpengaruh oleh perubahan atas faktor-faktor dan situasi tersebut. Pengurangan dalam estimasi masa manfaat dari aset tetap Kelompok Usaha akan meningkatkan beban usaha dan menurunkan aset tidak lancar yang dicatat.

b. Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

- *Estimating useful lives of fixed assets*

The Group estimates the useful lives of its fixed assets based on expected asset utilization as anchored on business plans and strategies that also consider expected future technological developments and market behavior. The estimation of the useful lives of fixed asset is based on the Group's collective assessment of industry practice, internal technical evaluation and experience with similar assets.

The estimated useful lives are reviewed at least at each financial year end and are updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limitations on the use of the assets. It is possible, however, that future results of operations could be materially affected by changes in the estimates brought about by changes in the factors mentioned above.

The amounts and timing of recorded expenses for any year will be affected by changes in these factors and circumstances. A reduction in the estimated useful lives of the Group's fixed assets will increase the recorded operating expenses and decrease non-current assets.

b. Estimasi dan asumsi (lanjutan)

- Estimasi cadangan untuk penurunan nilai atas piutang

Tingkat provisi yang spesifik dievaluasi oleh manajemen dengan dasar faktor-faktor yang mempengaruhi tingkat tertagihnya piutang tersebut. Dalam kasus ini, Kelompok Usaha menggunakan pertimbangan berdasarkan fakta dan kondisi terbaik yang tersedia meliputi, tetapi tidak terbatas pada, jangka waktu hubungan Kelompok Usaha dengan pelanggan dan status kredit pelanggan berdasarkan laporan dari pihak ketiga dan faktor-faktor pasar yang telah diketahui, untuk mencatat pencadangan spesifik untuk pelanggan terhadap jumlah jatuh tempo untuk mengurangi piutang Kelompok Usaha menjadi jumlah yang diharapkan tertagih.

Pencadangan secara spesifik ini dievaluasi kembali dan disesuaikan jika terdapat informasi tambahan yang diterima yang memengaruhi jumlah yang diestimasi. Selain provisi khusus terhadap piutang yang signifikan secara individual, Kelompok Usaha juga mengakui provisi penurunan nilai secara kolektif terhadap risiko kredit debitur yang dikelompokkan berdasarkan karakteristik kredit yang sama, dan meskipun tidak secara spesifik diidentifikasi membutuhkan provisi khusus, memiliki risiko gagal bayar lebih tinggi daripada ketika piutang pada awalnya diberikan kepada debitur.

Kelompok Usaha menerapkan pendekatan yang disederhanakan untuk mengukur kerugian kredit ekspektasian yang menggunakan cadangan kerugian kredit ekspektasian sepanjang umur piutang untuk seluruh piutang lain-lain. Dalam penentuan kerugian kredit ekspektasian, manajemen diharuskan untuk menggunakan pertimbangan dalam pembuatan asumsi dan estimasi, untuk menghubungkan informasi yang relevan tentang kejadian masa lalu, kondisi terkini dan perkiraan atas kondisi ekonomi.

b. Estimates and assumptions (continued)

- *Estimating allowance for impairment of receivables*

The level of a specific provision is evaluated by management on the basis of factors that affect the collectibility of the accounts. In these cases, the Group uses judgement based on the best available facts and circumstances including, but not limited to, the length of the Group's relationship with the customers and customers' credits status based on third-party credit reports and known market factors, to record specific reserves for customers against amounts due in order to reduce the Group's receivables to amounts that it expects to collect.

These specific reserves are re-evaluated and adjusted as additional information received affects the amounts estimated. In addition to specific provision against individually significant receivables, the Group also recognises a collective impairment provision against credit exposure of its debtors which are grouped based on common credit characteristics, and although not specifically identified as requiring a specific provision, have a greater risk of default than when the receivables were originally granted to the debtors.

The Group applies simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all other receivables. In determining expected credit losses, management is required to exercise judgement in making assumptions and estimates to incorporate relevant information about past events, current conditions and forecasts of economic conditions.

b. Estimasi dan asumsi (lanjutan)

• Sewa

Karena Kelompok Usaha tidak dapat dengan mudah menentukan suku bunga implisit, manajemen menggunakan suku bunga pinjaman inkremental Kelompok Usaha sebagai tingkat diskonto. Ada beberapa faktor yang perlu dipertimbangkan dalam menentukan suku bunga pinjaman inkremental, yang banyak di antaranya memerlukan pertimbangan untuk dapat secara andal mengukur penyesuaian yang diperlukan untuk sampai pada tingkat diskonto akhir.

Dalam menentukan suku bunga pinjaman inkremental, Kelompok Usaha mempertimbangkan faktor-faktor utama berikut: risiko kredit korporat Kelompok Usaha, jangka waktu sewa, lingkungan ekonomi, waktu di mana sewa dimulai dan mata uang pembayaran sewa.

• Estimasi beban pensiun dan imbalan kerja lainnya

Beban dari program pensiun dan nilai kini dari kewajiban pensiun ditentukan dengan menggunakan metode *projected-unit-credit*. Penilaian aktuaris termasuk membuat variasi asumsi yang terdiri dari, antara lain, tingkat diskonto, tingkat pengembalian dana pensiun yang diharapkan, tingkat kenaikan kompensasi dan tingkat kematian. Dikarenakan kompleksitas dari penilaian dan dasar asumsinya dan periode jangka panjang, kewajiban manfaat pasti sangat sensitif terhadap perubahan asumsi.

Meskipun Kelompok Usaha percaya bahwa asumsi mereka adalah wajar dan tepat, perbedaan signifikan dalam pengalaman aktual Kelompok Usaha atau perubahan signifikan dalam asumsi dapat mempengaruhi secara material beban dan kewajiban pensiun dan imbalan kerja jangka panjang lainnya. Semua asumsi direviu pada setiap tanggal pelaporan.

b. Estimates and assumptions (continued)

• Leases

Since the Group could not readily determine the implicit rate, management uses the Group's incremental borrowing rate as a discount rate. There are a number of factors to consider in determining an incremental borrowing rate, many of which need judgement in order to be able to reliably quantify any necessary adjustments to arrive at the final discount rates.

In determining incremental borrowing rate, the Group considers the following main factors: the Group's corporate credit risk, the lease term, the economic environment, the time at which the lease is entered into and the currency in which the lease payments are denominated.

• Estimation of pension cost and other employee benefits

The pension cost and the present value of the pension obligation are determined using the projected-unit-credit method. Actuarial valuation includes making various assumptions which consist of, among other things, discount rates, expected rates of return on plan assets, rates of compensation increases and mortality rates. Due to the complexity of the valuation and its underlying assumptions and long-term nature, a defined benefit obligation is highly sensitive to changes in assumptions.

While the Group believes that its assumptions are reasonable and appropriate, significant differences in the Group's actual experience or significant changes in its assumptions may materially affect the costs and obligations of pension and other long-term employee benefits. All assumptions are reviewed at each reporting date.

b. Estimasi dan asumsi (lanjutan)

- Estimasi beban pembongkaran aset tetap

Kelompok Usaha telah mengakui provisi untuk pembongkaran aset tetap terminal semen dan pabrik beton siap pakai. Dalam menentukan nilai wajar dari provisi tersebut, maka asumsi dan estimasi dibuat sehubungan dengan tingkat diskonto, taksiran biaya dan waktu pembongkaran dan pemindahan aset tetap terkait. Ketidakpastian ini dapat menimbulkan perbedaan antara pengeluaran aktual dengan jumlah yang dicadangkan saat ini. Jumlah yang dicadangkan pada tanggal pelaporan merupakan estimasi terbaik dari manajemen untuk nilai kini atas beban pembongkaran aset tetap masa depan.

- Penurunan nilai aset non-keuangan dan *goodwill*

Penurunan nilai terjadi ketika nilai tercatat suatu aset atau UPK melebihi nilai terpulihkan, yaitu jumlah yang lebih tinggi antara nilai wajar setelah dikurangi biaya untuk menjual dan nilai pakainya. Nilai wajar setelah dikurangi biaya untuk menjual dihitung berdasarkan data yang tersedia dari transaksi penjualan yang mengikat dan dilakukan secara *arm's length* atas aset sejenis atau harga pasar yang dapat diobservasi dikurangi tambahan biaya untuk melepaskan aset tersebut.

Perhitungan nilai pakai didasarkan pada model arus kas yang didiskontokan. Nilai terpulihkan paling dipengaruhi oleh tingkat diskonto dan tingkat pertumbuhan jangka panjang yang digunakan dalam model arus kas yang didiskontokan, sebagaimana juga jumlah arus kas masuk di masa depan yang diharapkan dan tingkat pertumbuhan yang digunakan untuk tujuan ekstrapolasi. Asumsi-asumsi kunci yang digunakan untuk menentukan nilai terpulihkan dari UPK Kelompok Usaha, dimana jumlah tercatat *goodwill* dialokasikan ke unit tersebut diungkapkan pada Catatan 21.

b. Estimates and assumptions (continued)

- Estimation for dismantling costs

The Group has recognised a provision for dismantling costs associated with its cement terminals and batching plants for ready-mix concrete. In determining the fair value of the provision, assumptions and estimates are made in relation to discount rates, the expected costs to dismantle and remove the terminals and plants from the sites and the expected timing of those costs. These uncertainties may result in future actual expenditure differing from the amounts currently provided. The provision at reporting date represents management's best estimate of the present value of the future dismantling cost required.

- Impairment of non-financial assets and *goodwill*

An impairment exists when the carrying value of an asset or its CGU exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. The fair value less costs to sell calculation is based on available data from binding sales transactions in arm's length transactions of similar assets or observable market prices less incremental costs for disposing of the asset.

The value in use calculation is based on a discounted cash flow model. The recoverable amount calculation is sensitive to the discount rate and long-term growth rate used for the discounted cash flow model, as well as the expected future cash inflows and the growth rate used for extrapolation purposes. The key assumptions used to determine the recoverable amount of the Group's CGUs for which the carrying amount of goodwill allocated to that unit, is disclosed in Note 21.

b. Estimasi dan asumsi (lanjutan)

• Kombinasi bisnis

Proses awal akuisisi melibatkan pengidentifikasian dan penentuan nilai wajar yang akan dialokasikan ke aset dan liabilitas yang dapat diidentifikasi dari entitas yang diakuisisi. Nilai wajar dari aset tetap dan aset takberwujud ditentukan oleh penilai independen dengan mengacu pada harga pasar atau biaya penggantian atau nilai sekarang dari arus kas bersih yang diharapkan dari aset tersebut.

Setiap perubahan dalam asumsi yang digunakan dan estimasi yang dibuat dalam menentukan nilai wajar dari entitas yang diakuisisi akan berdampak pada nilai tercatat aset dan liabilitas tersebut.

• Amortisasi aset takberwujud

Manajemen menentukan estimasi masa manfaat dan biaya amortisasi terkait aset takberwujud manfaat terbatas dengan mempertimbangkan faktor-faktor seperti manfaat ekonomi masa depan yang dihasilkan dari aset tersebut dan keusangan teknologi. Manajemen akan merevisi biaya amortisasi jika masa manfaat berbeda dengan yang diperkirakan sebelumnya, atau akan menghapusbukukan atau menurunkan nilai aset yang tidak dapat lagi menghasilkan manfaat ekonomi di masa depan.

• Perpajakan

Kelompok Usaha beroperasi di bawah peraturan perpajakan di Indonesia. Pertimbangan yang material diperlukan untuk menentukan provisi pajak penghasilan badan dan pajak lainnya. Apabila keputusan final atas pajak tersebut berbeda dari jumlah yang pada awalnya dicatat, perbedaan tersebut akan dicatat di laba rugi pada periode dimana hasil tersebut dikeluarkan.

b. Estimates and assumptions (continued)

• Business combination

The initial process on the acquisition involves identifying and determining the fair values to be assigned to the identifiable assets and liabilities of the acquired entities. The fair value of fixed assets and intangible assets are determined by independent valuer by reference to market price or replacement cost or present value of expected free cash flows from the assets.

Any changes in the assumptions used and estimates made in determining the fair values of the acquired entity will impact the carrying amount of these assets and liabilities.

• Amortisation of intangible assets

Management determines the estimated useful lives and related amortisation charges for finite intangible assets considering factors such as future economic benefits generated from the assets and technology obsolescence. Management will revise the amortisation charges if useful lives are different to those previously estimated, or it will write-off or writedown those assets which can no longer generate future economic benefits.

• Taxation

The Group operates under the tax regulations in Indonesia. Material judgement is required in determining the provision for corporate income taxes and other taxes. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will be recorded in profit or loss in the period in which such determination is made.

5. PIUTANG USAHA (lanjutan)

Piutang individual yang diturunkan nilainya terkait dengan pelanggan pada segmen semen dan beton siap pakai yang secara tidak terduga mengalami situasi ekonomi yang sulit.

Kelompok Usaha menerapkan cadangan kerugian ekspektasian yang disederhanakan seluruh piutang usaha. Untuk mengukur kerugian kredit ekspektasian, piutang usaha telah dikelompokkan berdasarkan karakteristik risiko kredit dan waktu jatuh tempo yang serupa.

Berdasarkan hasil penelaahan kolektibilitas akun piutang usaha pada akhir tahun, manajemen berkeyakinan bahwa cadangan kerugian penurunan nilai atas piutang usaha di atas adalah cukup.

Pada tanggal 31 Desember 2024 dan 2023, jumlah piutang usaha yang dijamin oleh bank melalui "Surat Kredit Berdokumen Dalam Negeri" ("SKBDN") masing-masing sebesar Rp15.722 dan Rp10.639.

Pada tanggal 31 Desember 2024 dan 2023, tidak terdapat piutang usaha yang dijaminan sehubungan dengan liabilitas apapun.

5. TRADE RECEIVABLES (continued)

The individually impaired receivables relate to customers in cement and ready-mix concrete segment, which are in unexpectedly difficult economic situations.

The Group applies the simplified expected loss provision for all trade receivables. To measure the expected credit losses, trade receivables have been grouped based on similar credit risk characteristics and the days past due.

Based on the review of the collectability of the trade receivables at the end of the year, management believed that the allowance for impairment losses on trade receivables was sufficient.

As of 31 December 2024 and 2023, the trade receivables guaranteed by the banks through "Surat Kredit Berdokumen Dalam Negeri" ("SKBDN") mechanism amounting to Rp15,722 and Rp10,639, respectively.

As of 31 December 2024 and 2023, there were no trade receivables used as collateral for any obligations.

6. PERSEDIAAN

6. PERSEDIAAN (lanjutan)

Kecuali untuk persediaan yang dimiliki oleh DAP, PBI, MSS, BI, LBA, TRUS, dan TBM masing-masing sejumlah Rp65.151 dan Rp61.366 pada tanggal 31 Desember 2024 dan 2023, seluruh persediaan dengan nilai buku masing-masing sebesar Rp2.527.910 dan Rp2.843.333 pada tanggal 31 Desember 2024 dan 2023, diasuransikan terhadap risiko kebakaran dan risiko lainnya dalam suatu paket polis asuransi gabungan.

Mutasi cadangan keusangan/kerugian persediaan adalah sebagai berikut:

	2024	2023
Saldo awal tahun	84.832	74.163
Cadangan selama tahun berjalan	3.329	27.931
Pembalikan selama tahun berjalan	(1.413)	(3.778)
Dihapusbukkan selama tahun berjalan	(7.127)	(13.484)
Saldo akhir tahun	79.621	84.832

Manajemen berpendapat bahwa cadangan keusangan/kerugian persediaan di atas adalah cukup untuk menurunkan nilai tercatat persediaan ke nilai realisasi bersihnya.

Pada tanggal 31 Desember 2024 dan 2023, tidak terdapat persediaan yang dijaminan sehubungan dengan liabilitas apapun.

Perusahaan melakukan pembayaran di muka kepada beberapa pemasok untuk membeli persediaan tertentu. Saldo uang muka pembelian pada tanggal 31 Desember 2024 dan 2023 masing-masing adalah sebesar Rp113.880 dan Rp159.377, disajikan sebagai bagian dari "uang muka dan jaminan" pada laporan posisi keuangan konsolidasian.

6. INVENTORIES (continued)

With the exception of inventories owned by DAP, PBI, MSS, BI, LBA, TRUS, dan TBM totaling Rp65,151 and Rp61,366 as of 31 December 2024 and 2023, respectively, all other inventories with a total net book value of Rp2,527,910 and Rp2,843,333 as of 31 December 2024 and 2023, respectively, are insured against fire and other risks under a combined insurance policy package.

The movements of the allowance for inventory obsolescence/losses are as follows:

Balance at beginning of year	74.163
Provision during the year	27.931
Reversal during the year	(3.778)
Written off during the year	(13.484)
Balance at end of year	84.832

Management believes that the above allowance for inventory obsolescence/losses is sufficient to reduce the carrying amounts of inventories to their net realisable values.

As of 31 December 2024 and 2023, there were no inventories used as collateral for any obligations.

The Company made advance payments to several suppliers for the purchase of certain inventories. The outstanding balances of the purchase advances as of 31 December 2024 and 2023 amounted to Rp113,880 and Rp159,377, respectively, are presented as part of "advances and deposits" in the consolidated statement of financial position.

Kelompok usaha memiliki "Hak Guna Bangunan" (HGB) dan "Hak Pakai" (HP) atas tanah dengan jumlah masing-masing seluas 4.534 dan 4.537 hektar pada tanggal 31 Desember 2024 dan 2023. Pada tanggal 31 Desember 2024 dan 2023, Kelompok Usaha memiliki hak penambangan atau "Izin Usaha Pertambangan" (IUP) atas tanah masing-masing seluas 12.510 dan 12.768 hektar di beberapa lokasi di Indonesia, dengan masa berlaku antara 5 hingga 30 tahun. Manajemen yakin bahwa kepemilikan hak atas tanah dan izin pertambangan tersebut dapat diperpanjang pada saat berakhirnya masa berlaku hak dan izin tersebut.

Pada tanggal 31 Desember 2024 dan 2023, tidak ada aset tetap yang dihentikan dari penggunaan aktif dan tidak diklasifikasikan sebagai tersedia untuk dijual. Pada tanggal yang sama, tidak ada aset tetap yang digunakan sebagai jaminan untuk pinjaman.

7. FIXED ASSETS (continued)

As of 31 December 2024, BI, LBA and CAB's vessels with net book value of Rp96,964 are covered by insurance against damage of Hull and Machinery and increased value under blanket policies for USD20,935,000. BI, LBA and CAB's vessels are also covered by P&I (Protection and Indemnity) insurance including third party losses connected with the vessels' operations with maximum liability of USD5,450,000,000 per vessel and environmental pollution with maximum liability of USD1,000,000,000 per vessel.

Management believed that there was no impairment in the value of fixed assets as of 31 December 2024 and 2023, except as indicated above.

As of 31 December 2024 and 2023, the total gross carrying amount of the Group's fully depreciated fixed assets amounted to Rp9,040,955 and Rp8,820,294, respectively.

The fair values of land and land for quarry as of 31 December 2024 and 2023 are higher compared to their carrying amounts by Rp6,293,185 and Rp6,355,086, respectively, which has been determined based on the Tax Office's sale value of tax objects (NJOP).

The Group owned building/construction rights or "Hak Guna Bangunan" (HGB) and land-use rights or "Hak Pakai" (HP) over land covering approximately 4,534 and 4,537 hectares, respectively, as of 31 December 2024 and 2023. As of 31 December 2024 and 2023, the Group owned mining rights or "Izin Usaha Pertambangan" (IUP) covering approximately 12,510 and 12,768 hectares each, in several locations in Indonesia, with legal terms ranging from 5 to 30 years. Management believes that such rights can be extended upon their expiration.

As of 31 December 2024 and 2023, there were no fixed assets that were retired from active use and not classified as held for sale. At the same date, none of the fixed assets were used as collateral for loans.

Kelompok Usaha telah menandatangani perjanjian pembiayaan pemasok dengan Standard Chartered Bank, Cabang Indonesia pada tahun 2016 dan PT Bank Central Asia Tbk pada tahun 2022. Perjanjian ini diperbarui secara otomatis setiap tahun kecuali dihentikan oleh Kelompok Usaha dan bank. Sesuai dengan syarat dan ketentuan yang ditetapkan dalam perjanjian, bank akan melakukan pembayaran kepada pemasok Kelompok Usaha, dengan syarat dan ketentuan utama sebagai berikut:

- Pemasok Kelompok Usaha yang berpartisipasi dalam pengaturan pembiayaan pemasok harus menandatangani perjanjian pembiayaan pemasok terpisah dengan masing-masing bank.
- Tidak ada perbedaan signifikan untuk rentang ketentuan pembayaran antara pemasok yang berpartisipasi dalam pengaturan pembiayaan ini dan yang tidak berpartisipasi.
- Tidak ada biaya yang dikenakan oleh bank kepada Kelompok Usaha terkait pengaturan ini.

Pengaturan ini tidak mengakibatkan penghapusan utang usaha Kelompok Usaha kepada pemasok, karena kriteria penghapusan sesuai dengan PSAK 109 tidak terpenuhi. Oleh karena itu, Kelompok Usaha tetap mengakui utang usaha kepada pemasok.

The Group entered into supplier finance agreements with Standard Chartered Bank, Indonesian Branch in 2016 and PT Bank Central Asia Tbk in 2022. These agreements are automatically renewed each year unless terminated by the Group and the banks. According to the terms and conditions stipulated in the agreement, the banks will make payments to the Group's suppliers, with the following key terms and conditions:

- *The Group's suppliers participating in the supplier financing arrangement must enter into a separate supplier finance agreement with the banks, respectively.*
- *There are no significant differences in the range of payment terms between suppliers participating in this financing arrangement and those that are not.*
- *There are no costs charged by the banks to the Group related to this arrangement.*

This arrangement did not result in the derecognition of the Group's trade payable to the suppliers, as the derecognition criteria in accordance with PSAK 109 were not fulfilled. Therefore, the Group still recognises trade payable to the suppliers.

Peraturan Menteri Keuangan No. PMK-136 Tahun 2024 (PMK-136) tentang Implementasi Global Anti-Base Erosion (GloBE) atau Pajak Minimum Global Pilar II telah diberlakukan di Indonesia, yurisdiksi di mana Perusahaan didirikan, dan mulai berlaku pada 1 Januari 2025. Oleh karena PMK-136 belum efektif pada tanggal pelaporan, Kelompok Usaha tidak memiliki dampak pajak kini terkait. Kelompok Usaha menerapkan pengecualian atas pengakuan dan pengungkapan informasi mengenai aset dan liabilitas pajak tangguhan terkait dengan pajak penghasilan Pilar Dua, sebagaimana diatur dalam amandemen PSAK 212 yang diterbitkan pada Desember 2023.

Kelompok Usaha sedang dalam proses menilai apakah Kelompok Usaha berada dalam cakupan model Pilar Dua, termasuk menilai pemenuhan persyaratan ketentuan *Safe Harbour*, dan apakah ada dampak terhadap PMK-136 ketika peraturan tersebut mulai berlaku. Oleh karena kompleksitas dalam penerapan PMK-136, dampak kuantitatif dari penerapan peraturan belum dapat diestimasi secara wajar.

The Ministry of Finance Regulation No. PMK-136 Year 2024 (PMK-136) regarding the Implementation of Global Anti-Base Erosion (GloBE) rules or Pillar II Global Minimum Tax was enacted in Indonesia, the jurisdiction in which the Company is incorporated and came into effect from 1 January 2025. Since the PMK-36 was not effective at the reporting date, the Group has no related current tax exposure. The Group applies the exception on recognition and disclosure of information about deferred tax assets and liabilities related to Pillar Two income taxes, as provided in the amendments to PSAK 212 issued in December 2023.

The Group is in the process of assessing whether the Group is within the scope of Pillar Two model, including assessing the eligibility to satisfy the *Safe Harbour* provisions, and if there is any exposure to the PMK-136 for when it comes into effect. Due to the inherent complexities in applying the PMK-136, the quantitative impact of the enacted regulation is not yet reasonably estimable.

d. Aset/(liabilitas) pajak tangguhan

Manajemen berkeyakinan bahwa aset pajak tangguhan dapat terpulihkan seluruhnya melalui penghasilan kena pajak di tahun-tahun yang akan datang.

Aset dan liabilitas pajak tangguhan per 31 Desember 2024 telah dihitung dengan memperhitungkan tarif pajak yang diharapkan berlaku pada saat realisasi.

e. Ketetapan pajak

Entitas anak - DAP

Tahun pajak 2022

Pada April 2024, DAP menerima surat ketetapan kurang bayar atas pajak penghasilan badan tahun pajak 2022 sebesar Rp130.707 terkait dengan transaksi pembelian produk jadi dari Perusahaan. Manajemen tidak menyetujui surat ketetapan pajak tersebut dan mengajukan keberatan ke Kantor Pajak pada bulan Juli 2024.

Pada tanggal penyelesaian laporan keuangan konsolidasian ini, proses keberatan masih berlangsung.

Entitas anak - PBI

Tahun pajak 2021

Pada April 2023, PBI menerima surat ketetapan pajak terkait kurang bayar atas pajak penghasilan dan pajak pertambahan nilai masing-masing sejumlah Rp76.318 dan Rp38.339. PBI tidak menyetujui hasil dari surat ketetapan pajak tersebut dan mengajukan keberatan ke Kantor Pajak pada bulan Juli 2023. Pada April 2024, PBI menerima hasil keberatan di mana Direktur Jenderal Pajak menerima keberatan PBI.

11. TAXATION (continued)

d. Deferred tax assets/(liabilities)

Management believes that the above deferred tax assets can be fully utilised against taxable income in future years.

Deferred tax assets and liabilities as of 31 December 2024 have been calculated taking into account tax rates expected to be prevailing at the time they realise.

11. PERPAJAKAN (lanjutan)

e. Ketetapan pajak (lanjutan)

Tahun pajak 2017

Pada Oktober 2019, PBI menerima surat ketetapan pajak terkait lebih bayar pajak penghasilan badan sejumlah Rp324 dari jumlah Rp7.538 yang di klaim oleh PBI. Selain itu, Kantor Pajak juga melakukan koreksi atas rugi fiskal sebesar Rp84.805 yang diklaim oleh PBI menjadi laba fiskal sebesar Rp29.813. PBI tidak setuju dengan surat ketetapan pajak tersebut dan mengajukan keberatan ke Kantor Pajak.

Pada Januari 2021, Kantor Pajak menolak keberatan dari PBI. PBI tidak setuju dengan hasil keberatan dan mengajukan banding ke Pengadilan Pajak pada tanggal 23 Juni 2021 dan pada saat tanggal penyelesaian laporan konsolidasian keuangan ini, proses banding masih berlangsung.

f. Administrasi

Peraturan perpajakan yang berlaku di Indonesia mengharuskan Perusahaan dan entitas anak yang berada di dalam negeri untuk menyampaikan surat pemberitahuan tahunan pajak penghasilan badan masing-masing berdasarkan perhitungan sendiri.

Berdasarkan peraturan perpajakan yang berlaku, Direktorat Jenderal Pajak ("DJP") dapat menetapkan atau mengubah pajak dalam jangka waktu lima tahun sejak saat terutangnya pajak.

11. TAXATION (continued)

e. Tax assessment (continued)

2017 fiscal year

In October 2019, PBI received a tax assessment letter confirming an overpayment of corporate income tax amounting to Rp324 out of Rp7,538 as claimed by PBI. In addition, the Tax Office also made a correction on the tax loss of Rp84,805 as claimed by PBI to taxable income of Rp29,813. PBI did not agree with the tax assessment letter and submitted an objection to the Tax Office.

In January 2021, Tax Office rejected the objections from PBI. PBI did not agree with the objections results and filed an appeal to the Tax Courts on 23 June 2021 and as of the date of completion of these consolidated financial statements, the appeal process is still ongoing.

f. Administration

The taxation laws of Indonesia require that the Company and its local subsidiaries to submit their respective annual corporate income tax return on the basis of self assessment.

Under the prevailing tax regulations, the Directorate General of Taxation ("DGT") may assess or amend taxes within five years from the time the tax becomes due.

14. LIABILITAS IMBALAN KERJA (lanjutan)

14. EMPLOYEE BENEFIT LIABILITIES (continued)

a. Imbalan pensiun (lanjutan)

a. Retirement benefit (continued)

Sensitivitas dari liabilitas imbalan pensiun terhadap perubahan asumsi aktuarial utama adalah sebagai berikut:

The sensitivity of the retirement benefit liabilities to changes in the principal assumptions as follow:

	Dampak terhadap liabilitas imbalan pensiun/ <i>Impact on retirement benefit liabilities</i>			
	<i>Perubahan asumsi/ Change in assumption</i>	<i>Kenaikan asumsi/ Increase in assumption</i>	<i>Penurunan asumsi/ Decrease in assumption</i>	
Tingkat diskonto	1%	Turun/Decrease (16.695)	Naik/Increase 18.548	Discount rate
Kenaikan gaji dan upah	1%	Naik/Increase 36.792	Turun/Decrease (28.904)	Wage and salary increase

Analisis sensitivitas didasarkan pada perubahan atas satu asumsi aktuarial dimana asumsi lainnya dianggap konstan. Dalam prakteknya, hal ini jarang terjadi dan perubahan beberapa asumsi mungkin saling berkorelasi. Dalam perhitungan sensitivitas liabilitas imbalan pensiun atas asumsi signifikan aktuarial, metode yang sama (perhitungan nilai kini liabilitas imbalan pensiun dengan menggunakan metode *projected-unit-credit* di akhir periode) telah diterapkan seperti dalam penghitungan kewajiban pensiun yang diakui dalam laporan posisi keuangan.

The sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the retirement benefit liabilities to significant actuarial assumptions the same method (present value of the retirement benefit liabilities calculated with the projected-unit-credit method at the end of the reporting period) has been applied as when calculating the retirement liability recognised within the statement of financial position.

Rata-rata durasi liabilitas imbalan pensiun adalah 5,35 tahun.

The weighted average duration of the retirement benefit liabilities is 5.35 years.

Analisis jatuh tempo yang diharapkan dari manfaat pensiun yang tidak terdiskonto adalah sebagai berikut:

Expected maturity analysis of undiscounted retirement benefit is as follow:

	Kurang dari 1 tahun/ <i>Less than a year</i>	1 sampai 2 tahun/ <i>Between 1-2 years</i>	2 sampai 5 tahun/ <i>Between 2-5 years</i>	Lebih dari 5 tahun/ <i>Over 5 years</i>	Jumlah/ <i>Total</i>

19. SALDO LABA

Dalam rangka memenuhi Undang-undang Perusahaan Terbatas No. 40 Tahun 2007 tanggal 16 Agustus 2007, yang mengharuskan perusahaan-perusahaan secara bertahap mencadangkan sekurang-kurangnya 20% dari modal yang ditempatkan sebagai cadangan dana umum, para pemegang saham telah menyetujui pencadangan sebagian dari saldo laba Perusahaan dalam rapat umum tahunan pemegang saham sebagai cadangan dana umum. Jumlah saldo laba yang telah dicadangkan sebagai cadangan dana umum sampai dengan tanggal 31 Desember 2024 and 2023 adalah sebesar Rp400.000.

19. RETAINED EARNINGS

In compliance with Corporation Law No. 40 of 2007 dated 16 August 2007, which requires companies to set aside, on a gradual basis, an amount equivalent to at least 20% of their subscribed capital as general reserve, the shareholders have approved the partial appropriation of the Company's retained earnings as general reserve during their annual general meetings. Total appropriation of the Company's retained earnings as general reserve as of 31 December 2024 and 2023 amounted to Rp400,000.

20. KOMBINASI BISNIS

Pada November 2023, Perusahaan dan DAP, menandatangani Perjanjian Jual Beli Saham dengan pemegang saham SGB sebelumnya, pihak ketiga, untuk pembelian 345.860 saham yang merupakan 100% kepemilikan dari SGB dengan jumlah imbalan yang dialihkan sebesar Rp1.492.248. Transaksi ini diaktakan melalui akta No. 20 dari Deni Thanur, S.E., S.G., M.Kn. yang disahkan oleh Menteri Hukum dan Hak Asasi Manusia Republik Indonesia berdasarkan surat keputusan No. AHU-AH.01.09-0190900 tanggal 30 November 2023.

20. BUSINESS COMBINATION

In November 2023, the Company and DAP, entered into a Share Sale and Purchase Agreement with the previous shareholders of SGB, a third party, to purchase 345,860 shares representing 100% ownership of SGB with total consideration transferred of Rp1,492,248. The transaction was notarised through notarial deed No. 20 of Deni Thanur, S.E., S.G., M.Kn. which was approved by the Minister of Law and Human Rights of the Republic of Indonesia in its Decision Letter No. AHU-AH.01.09-0190900 dated 30 November 2023.

Melalui akuisisi tersebut, Kelompok Usaha diharapkan dapat memperkuat posisi pasar Kelompok Usaha, khususnya di Jawa Tengah dan meningkatkan efisiensi biaya logistik.

Through the acquisition, the Group is expected to strengthen the Group's market position, especially in Central Java and increase logistical cost efficiency.

Catatan

Notes

1. Jumlah imbalan yang dialihkan sebesar Rp1.492.248 terdiri dari pembayaran kas ke pemegang saham SGB sebelumnya.

1. Total consideration transferred amounting to Rp1,492,248 consists of cash consideration to the previous shareholders of SGB.

2. Sebagian besar aset tetap terdiri dari pabrik semen, tanah, dan bangunan lainnya (Catatan 7). Nilai wajar dari aset tetap diestimasi menggunakan pendekatan biaya dan pendekatan pasar, tergantung dari jenis aset yang dinilai.

2. Fixed assets mainly represent cement plant, land and other buildings (Note 7). The fair value of fixed assets was estimated using the cost approach and market approach, depending on the type of assets being valued.

Nilai wajar dari aset tetap diestimasi dengan menggunakan asumsi kunci seperti:

The fair value of fixed assets was estimated using the following key assumptions:

- Biaya penggantian baru - Biaya penggantian baru diperoleh dengan mengaplikasikan biaya perolehan dan tingkat inflasi sebesar 2,5%, tergantung dari jenis aset yang dinilai.
- Penyusutan - Biaya penggantian baru dikurangkan dengan beban penyusutan dengan mempertimbangkan penyusutan fisik dan fungsi.

- New replacement cost – New replacement cost was derived by applying historical cost and inflation rate of 2.5%, depending on the assets being valued.

- Depreciation - The new replacement cost was deducted with the depreciation expenses by considering physical and functional depreciation.

3. Izin usaha pertambangan sebesar Rp500.886 dan merek dagang sebesar Rp45.328 disajikan sebagai “aset takberwujud” bersama dengan aset takberwujud lainnya (perangkat lunak komputer) dalam laporan posisi keuangan konsolidasian. Nilai wajar dari aset takberwujud diestimasi menggunakan pendekatan pendapatan dengan asumsi kunci seperti proyeksi penjualan semen dan batu gamping, tingkat diskonto sebesar 14,5% dan tingkat pertumbuhan jangka panjang sebesar 2,5%.

3. The mining licenses amounting to Rp500,886 and trademarks Rp45,328 are presented as part of “intangible assets” together with other intangible assets (computer software) in the consolidated statement of financial position. The fair value of intangible assets was estimated using the income approach with the key assumptions such as projection of cement and limestone sales, discount rate of 14.5 % and Long-term growth rate of 2.5%.

20. KOMBINASI BISNIS (lanjutan)

Catatan (lanjutan)

4. Aset lancar dan tidak lancar lainnya terdiri dari piutang usaha dan lain-lain, persediaan, aset pajak tangguhan yang diakui dan aset lain-lain yang dimana nilai tercatat mendekati nilai wajarnya.
5. Liabilitas pajak tangguhan yang diakui terkait dengan penyesuaian nilai wajar atas aset teridentifikasi.
6. *Goodwill* yang timbul dari akuisisi dapat diatribusikan ke skala ekonomi yang diharapkan dari akuisisi SGB. *Goodwill* yang diakui tidak diharapkan untuk dapat dikurangkan untuk keperluan pajak penghasilan.

Untuk mendapatkan substansi transaksi berdasarkan PSAK 103 "Kombinasi Bisnis", aset teridentifikasi yang diperoleh dan liabilitas yang diambil alih dari SGB pada transaksi ini harus diukur nilai wajarnya. Nilai wajar diukur berdasarkan penilaian yang dilakukan oleh penilai independen, Kantor Jasa Penilai Publik ("KJPP") Suwendho Rinaldy dan Rekan dalam laporannya tertanggal 20 Maret 2024. Alokasi harga pembelian dilaporkan sebagai final dalam laporan keuangan konsolidasian.

Biaya yang terkait dengan akuisisi sebesar Rp3.592 telah dibebankan pada laba rugi konsolidasian dan termasuk dalam "beban umum dan administrasi" untuk tahun yang berakhir pada tanggal 31 Desember 2023.

20. BUSINESS COMBINATION (continued)

Notes (continued)

4. Other current and non-current assets consist of trade and other receivables, inventories, deferred tax assets recognised and other assets where the carrying amount reasonably approximates its fair values.
5. The deferred tax liabilities were recognised in relation to the fair value adjustments of identifiable assets.
6. *Goodwill* arising from the acquisition is attributable to the economies of scale expected from acquiring SGB. None of the goodwill recognised is expected to be deductible for income tax purposes.

In order to gain the substance of the transaction based on PSAK 103 "Business Combination", the identifiable assets acquired and liabilities assumed from SGB in this transaction must be measured at fair value. The fair values was measured based on the valuation performed by independent valuer, Kantor Jasa Penilai Publik ("KJPP") Suwendho Rinaldy dan Rekan in their report dated 20 March 2024. The purchase price allocation was reported as final in the consolidated financial statements.

Acquisition related costs of Rp3,592 have been charged to the consolidated profit or loss and included as "general and administrative expenses" for the year ended 31 December 2023.

21. GOODWILL

Pada tanggal 31 Desember 2024, Kelompok Usaha mengakui *goodwill* sebesar Rp 133.422 (lihat Catatan 20) sehubungan dengan akuisisi SGB pada tahun 2023. Untuk tujuan pengujian penurunan nilai, *goodwill* telah dialokasikan ke UPK bisnis semen SGB.

Tidak terdapat pergerakan atas nilai tercatat *goodwill* selama tahun 2024.

Pengujian penurunan nilai atas *goodwill* dilakukan setiap tahun (pada tanggal 31 Desember) atau ketika terdapat suatu indikasi bahwa nilai tercatatnya mengalami penurunan nilai. Nilai *goodwill* yang dapat terpulihkan ditentukan berdasarkan nilai pakainya ("VIU"). Perhitungan ini menggunakan proyeksi arus kas sebelum pajak berdasarkan anggaran keuangan yang disetujui Manajemen yang meliputi periode lima tahun. Arus kas yang melampaui periode lima tahun diekstrapolasi dengan menggunakan tingkat pertumbuhan.

Asumsi kunci yang digunakan dalam perhitungan VIU pada tanggal 31 Desember 2024 adalah sebagai berikut:

Pertumbuhan penjualan
(% Tingkat pertumbuhan tahunan) 2.44% -12%

Tingkat diskonto sebelum pajak 10.96%

Tidak ada penurunan nilai *goodwill* yang diidentifikasi.

Nilai terpulihkan yang diestimasi oleh manajemen pada tanggal 31 Desember 2024 adalah sebesar Rp7.743.034, yang lebih tinggi dibandingkan dengan nilai tercatatnya.

Analisis sensitivitas menunjukkan bahwa kenaikan tingkat diskonto di atas 14% akan menyebabkan penurunan nilai *goodwill*.

21. GOODWILL

As of 31 December 2024, the Group recognised *goodwill* of Rp 133,422 (see Note 20) in relation to the acquisition of SGB in 2023. For the impairment testing purposes, the *goodwill* has been allocated to the CGU of SGB's cement business.

There were no movements in the carrying amount of *goodwill* during 2024.

Goodwill is tested for impairment annually (as of 31 December) or when circumstances indicate that the carrying value may be impaired. The recoverable amount of *goodwill* is determined based on value in use ("VIU") method. This calculation uses pre-tax cash flow projections based on financial budgets approved by Management covering a five-year period. Cash flows beyond the five-year period are extrapolated using the estimated growth rates.

Certain key assumptions used in the VIU calculation at 31 December 2024 are as follows:

Sales growth (% annual growth rate)

Pre-tax discount rate

No impairment of the *goodwill* was identified.

The recoverable amount estimated by management as of 31 December 2024 was Rp7,743,034, which is higher compared to the carrying value.

The sensitivity analysis indicates that an increase in the discount rate exceeding 14% would cause an impairment of the *goodwill*.

- a. Perusahaan memiliki perjanjian distribusi ekspor ("Perjanjian Distribusi") dengan HC Trading Malta Limited dan HM Trading Global APAC Pte. Ltd., entitas anak Heidelberg Materials AG, yang berlaku sampai dengan 10 April 2026.
- b. Perusahaan mempunyai perjanjian dengan Kementerian Lingkungan Hidup dan Kehutanan Republik Indonesia (DK) mengenai eksploitasi bahan baku untuk semen, pembangunan prasarana dan fasilitas pendukung lainnya di kawasan hutan seluas 2.453,04 hektar yang berlokasi di Kota Baru dan Tanah Bumbu, Kalimantan Selatan. Berdasarkan perjanjian tersebut, DK bersedia memberi izin kepada Perusahaan untuk menggunakan kawasan hutan di atas untuk tujuan tersebut di atas tanpa imbalan apapun. Namun demikian, Perusahaan diwajibkan untuk membayar biaya-biaya tertentu sesuai dengan peraturan yang berlaku, menanam kembali wilayah yang tidak produktif setiap tahun, memelihara wilayah hutan yang dipinjam oleh Perusahaan dan mengembangkan kehidupan masyarakat disekitarnya. Izin tersebut tidak dapat dialihkan dan akan berakhir pada April 2027 untuk batu gamping dan pada April 2032 untuk tanah lempung dan laterit.
- c. Kelompok usaha memiliki fasilitas bank garansi, cerukan dan *letter of credit* yang tidak terpakai dari berbagai bank berjumlah USD54.265.466 atau setara dengan Rp877.038 (2023: USD52.941.099 atau setara dengan Rp816.140)

**28. TUJUAN DAN KEBIJAKAN MANAJEMEN RISIKO
KEUANGAN**

A. MANAJEMEN RISIKO

Risiko utama dari instrumen keuangan Kelompok Usaha adalah risiko pasar (risiko mata uang asing dan risiko harga komoditas), risiko kredit dan risiko likuiditas. Direksi Perusahaan menelaah dan menyetujui kebijakan untuk mengelola risiko-risiko tersebut yang dirangkum sebagai berikut:

**27. SIGNIFICANT AGREEMENTS AND
COMMITMENTS**

- a. The Company has an export distribution agreement ("Distribution Agreement") with HC Trading Malta Limited and HM Trading Global APAC Pte. Ltd., subsidiaries of Heidelberg Materials AG, which is effective until 10 April 2026.
- b. The Company has an outstanding agreement with the Ministry of Environment and Forestry of The Republic of Indonesia (FD) for the exploitation of raw materials for cement, construction of infrastructure and other supporting facilities over 2,453.04 hectares of forest located in Kota Baru and Tanah Bumbu, South Kalimantan. Based on the agreement, the FD agreed to grant a license to the Company to exploit the above forest area for the above mentioned purposes without any compensation. However, the Company is obliged to pay certain expenses in accordance with applicable regulations, to reclaim and replant the unproductive area each year, to maintain the forest area borrowed by the Company and to develop local community livelihood. Such license is not transferable and will expire in April 2027 for limestones and in April 2032 for clays and laterites.
- c. The Group had unused bank guarantee, overdraft and letter of credit facilities obtained from various banks amounted USD54,265,466 or equivalent to Rp877,038 (2023: USD52,941,099 or equivalent to Rp816,140).

**28. FINANCIAL RISK MANAGEMENT OBJECTIVES
AND POLICIES**

A. RISK MANAGEMENT

The main risks arising from the Group's financial instruments are market risk (foreign currency risk and commodity price risk), credit risk and liquidity risk. The Board of Directors reviews and approves policies for managing each of these risks, which are summarized as follows:

KEUANGAN (lanjutan)

A. MANAJEMEN RISIKO (lanjutan)

Risiko pasar

Risiko pasar adalah risiko dimana nilai wajar dari arus kas masa depan dari suatu instrumen keuangan akan berfluktuasi karena perubahan harga pasar. Kelompok Usaha dipengaruhi oleh risiko pasar, terutama risiko mata uang asing dan risiko harga komoditas.

Risiko mata uang asing

Risiko mata uang asing adalah risiko dimana nilai wajar atau arus kas masa mendatang dari suatu instrumen keuangan berfluktuasi karena perubahan dari nilai tukar mata uang asing. Pengaruh dari risiko perubahan nilai tukar mata uang asing terutama berhubungan dengan aktivitas Kelompok Usaha ketika pendapatan dan beban terjadi dalam mata uang yang berbeda dari mata uang fungsional Kelompok Usaha.

Pada tanggal 31 Desember 2024, Kelompok Usaha memiliki aset dan liabilitas keuangan dalam mata uang Dollar A.S. dan Euro sebagai berikut:

	Aset dalam mata uang asing/ Assets in foreign currency	Liabilitas dalam mata uang asing/ Liabilities in foreign currency	Posisi neto/ Net position	Setara dengan Rupiah/ Equivalent in Rupiah		
				31 Desember/ December 2024	21 Maret/ March 2025	
USD	11.186.087	(4.659.823)	6.526.264	105.478	107.559	USD
EUR	1.771.978	(11.936.953)	(10.164.975)	(171.293)	(182.255)	EUR

Sebagaimana disajikan dalam tabel di bawah ini, nilai mata uang Rupiah telah mengalami perubahan berdasarkan kurs tengah yang telah diterbitkan oleh Bank Indonesia:

Mata uang asing	31 Desember/ December 2024	21 Maret/ March 2025	Foreign currency
Euro (EUR)	16.851,32	17.929,69	Euro (EUR)
Dolar A.S. (USD)	16.162,00	16.481,00	U.S. Dollar (USD)

Jika aset dan liabilitas dalam mata uang asing pada tanggal 31 Desember 2024 disajikan dengan menggunakan kurs tengah pada tanggal 21 Maret 2025, maka liabilitas neto dalam mata uang asing, sebagaimana yang disajikan di atas, akan naik sekitar Rp8.881.

28. FINANCIAL RISK MANAGEMENT OBJECTIVES
AND POLICIES (continued)

A. RISK MANAGEMENT (continued)

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The Group is exposed to market risks, in particular, foreign currency risk and commodity price risk.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities when revenue or expenses are denominated in a currency different from the Group's functional currency.

As of 31 December 2024, the Group has financial assets and liabilities denominated in U.S. Dollar and Euro as follows:

The Rupiah currency has changed in value based on the middle rates of exchange published by Bank Indonesia as shown below:

Had the assets and liabilities denominated in foreign currencies as of 31 December 2024 been reflected using the above middle rates of exchange as of 21 March 2025, the net foreign currency denominated liability, as presented above, would have increased by approximately Rp8,881.

**28. TUJUAN DAN KEBIJAKAN MANAJEMEN RISIKO
KEUANGAN (lanjutan)**

A. MANAJEMEN RISIKO (lanjutan)

Risiko mata uang asing (lanjutan)

Mata uang fungsional dan mata uang penyajian Kelompok Usaha adalah Rupiah. Kelompok Usaha menghadapi risiko nilai tukar mata uang asing karena penjualan ekspor dan beban atas beberapa pembelian utama dalam mata uang USD atau harganya secara signifikan dipengaruhi oleh tolak ukur dalam mata uang asing (terutama USD) seperti yang ditetapkan pada pasar internasional. Dalam hal terdapat pendapatan dan pembelian oleh Kelompok Usaha dalam mata uang selain Rupiah, maka Kelompok Usaha menghadapi risiko mata uang asing.

Kelompok Usaha memonitor secara ketat fluktuasi dari nilai tukar mata uang asing dan ekspektasi pasar sehingga dapat mengambil langkah-langkah yang akan menguntungkan Kelompok Usaha pada waktu yang tepat. Manajemen tidak menganggap perlu untuk melakukan transaksi *forward/swap* mata uang asing saat ini.

Tabel berikut menunjukkan sensitivitas terhadap kemungkinan perubahan yang wajar dalam USD dan EUR, dengan semua variabel lainnya dianggap tetap, maka laba sebelum pajak Kelompok Usaha untuk tahun yang berakhir pada tanggal 31 Desember 2024 dan 2023:

	Persentase kenaikan (penurunan)/ <i>Increase (decrease) percentage</i>	Efek kenaikan/ (penurunan) terhadap laba sebelum pajak 2024/ <i>Effect the increase /(decrease) on profit before tax 2024</i>	Efek kenaikan/ (penurunan) terhadap laba sebelum pajak 2023/ <i>Effect the increase /(decrease) on profit before tax 2023</i>	
USD - Rupiah	5% (5%)	5.274 (5.274)	11.207 (11.207)	USD - Rupiah
EUR - Rupiah	5% (5%)	(8.565) 8.565	(9.072) 9.072	EUR - Rupiah

**28. FINANCIAL RISK MANAGEMENT OBJECTIVES
AND POLICIES (continued)**

A. RISK MANAGEMENT (continued)

Foreign currency risk (continued)

The Group's functional currency and presentation currency are both the Rupiah. The Group faces foreign exchange risk as export sales and the costs of certain key purchases are either denominated in USD or whose price is significantly influenced by their benchmark price movements in foreign currencies (mainly USD) as quoted in the international markets. To the extent that the revenues and purchases of the Group are denominated in currencies other than Rupiah, the Group has an exposure to foreign currency risk.

The Group closely monitors the foreign exchange rate fluctuation and market expectation so it can take necessary actions that will benefit the Group in due time. Management currently does not consider the necessity to enter into any currency forward/swaps.

The following table demonstrates the sensitivity to a reasonably possible change in the USD and EUR exchange rates, with all other variables held constant, thus the Group's profit before tax for the year ended 31 December 2024 and 2023:

**28. TUJUAN DAN KEBIJAKAN MANAJEMEN RISIKO
KEUANGAN (lanjutan)**

A. MANAJEMEN RISIKO (lanjutan)

Risiko harga komoditas

Dampak risiko harga komoditas yang dihadapi Kelompok Usaha terutama sehubungan dengan pembelian bahan baku utama seperti *gypsum*, batu bara dan bahan bakar. Harga bahan baku tersebut secara langsung dipengaruhi oleh nilai tukar mata uang asing (USD) serta tingkat permintaan dan penawaran di pasar.

Kebijakan Kelompok Usaha untuk meminimalkan risiko yang berasal dari fluktuasi harga komoditas adalah dengan mengadakan kontrak pembelian dengan para pemasok, menjaga tingkat optimal persediaan *gypsum*, batu bara dan bahan bakar untuk produksi yang berkelanjutan. Selain itu, Kelompok Usaha juga berusaha mengurangi risiko tersebut dengan cara mengalihkan kenaikan harga kepada pelanggannya.

Risiko kredit

Risiko kredit adalah risiko bahwa Kelompok Usaha akan mengalami kerugian yang timbul dari pelanggan atau pihak lawan yang gagal memenuhi kewajiban kontraktual mereka. Risiko kredit terutama berasal dari piutang usaha dari para pelanggan sehubungan dengan penjualan produk semen dan beton siap pakai.

Untuk mengurangi risiko ini, Kelompok Usaha mempunyai kebijakan untuk memastikan penjualan produk hanya dilakukan kepada pelanggan yang dapat dipercaya dan mempunyai sejarah kredit yang baik. Ini merupakan kebijakan Kelompok Usaha dimana semua pelanggan yang akan melakukan pembelian secara kredit harus melalui prosedur verifikasi kredit. Kelompok Usaha memiliki kebijakan yang membatasi jumlah kredit untuk pelanggan tertentu, seperti, mengharuskan distributor dan pelanggan untuk memberikan uang muka/bank garansi. Selain itu, saldo piutang dimonitor secara terus menerus untuk mengurangi kemungkinan piutang yang tidak tertagih.

**28. FINANCIAL RISK MANAGEMENT OBJECTIVES
AND POLICIES (continued)**

A. RISK MANAGEMENT (continued)

Commodity price risk

The Group's exposure to commodity price risk relates primarily to the purchase of major raw materials, such as gypsum, coal and fuel. The prices of these raw materials are directly affected by the foreign exchange rates (USD) and the level of demand and supply in the market.

The Group's policy is to minimise the risks arising from the fluctuations in the commodity prices by entering purchase contracts with suppliers, maintaining the optimum inventory level of gypsum, coal and fuel to ensure continuous production. In addition, the Group may seek to mitigate its risks by passing on the price increases to its customers.

Credit risk

Credit risk is the risk that the Group will incur a loss arising from its customers' or counterparties' failure to fulfill their contractual obligations. Credit risk arises mainly from trade receivables from customers relating to sale of cement and ready-mix concrete products.

To mitigate this risk, the Group has policies in place to ensure that sales of products are made only to creditworthy customers and have a good credit history. It is the Group's policy that all customers who wish to trade on credit are subject to credit verification procedures. The Group has policies that limit the amount of credit exposure to any particular customer, such as requiring distributors and customers to provide deposits/bank guarantee. In addition, receivable balances are monitored on an ongoing basis to reduce the exposure to bad debts.

A. MANAJEMEN RISIKO (lanjutan)

Risiko kredit (lanjutan)

Ketika pelanggan tidak mampu melakukan pembayaran dalam jangka waktu yang telah diberikan, Kelompok Usaha akan menghubungi pelanggan untuk menindaklanjuti piutang yang telah lewat jatuh tempo. Jika pelanggan tidak melunasi piutang yang telah jatuh tempo dalam jangka waktu yang wajar, maka Kelompok Usaha dapat menggunakan uang jaminan pelanggan atau mencairkan bank garansi sebagai penyelesaian piutang. Kelompok Usaha akan menindaklanjuti melalui jalur hukum jika dianggap perlu. Tergantung pada penilaian Kelompok Usaha, cadangan khusus mungkin dibuat jika piutang dianggap tidak tertagih.

Untuk mengurangi risiko kredit, Kelompok Usaha akan menghentikan penyediaan semua produk kepada pelanggan jika terjadi keterlambatan pembayaran atau wanprestasi.

Kelompok Usaha meminimalkan risiko kredit aset keuangan seperti kas di bank dan setara kas dengan memilih bank dengan reputasi baik untuk penempatan dananya.

Tabel di bawah ini menunjukkan risiko kredit maksimum untuk komponen-komponen dari laporan posisi keuangan konsolidasian:

**28. FINANCIAL RISK MANAGEMENT OBJECTIVES
AND POLICIES (continued)**

A. RISK MANAGEMENT (continued)

Credit risk (continued)

When a customer fails to make payment within the credit term granted, the Group contacts the customer to act on the overdue receivable. If the customer does not settle the overdue receivable within a reasonable time, then the Group may apply the customer's deposit against the receivable or collect from available bank guarantee. The Group may proceed to commence legal proceedings if deemed necessary. Depending on the Group's assessment, specific provision may be made if the receivable is deemed uncollectible.

To mitigate credit risk, the Group ceases the supply of all products to the customer in the event of late payment or default.

The Group minimises credit risk on its cash in banks and cash equivalents by selecting reputable banks in the placement of its funds.

The table below shows the maximum exposure to credit risk on the components of the consolidated statement of financial:

Risiko likuiditas

Kelompok Usaha mengelola profil likuiditasnya untuk dapat membiayai pengeluaran modalnya dan membayar utang yang jatuh tempo dengan menjaga kecukupan kas dan ketersediaan pendanaan melalui analisa proyeksi keuangan yang dilakukan pada awal tahun.

Kelompok Usaha secara berkala mengevaluasi proyeksi arus kas dan arus kas aktual untuk memastikan ketersediaan dana untuk memenuhi kebutuhan operasional dan pembayaran liabilitas yang jatuh tempo. Secara umum, dana yang dibutuhkan untuk melunasi liabilitas jangka pendek diperoleh dari kegiatan penjualan kepada pelanggan.

Liquidity risk

The Group manages its liquidity profile to be able to finance its capital expenditure and service its maturing debts by maintaining sufficient cash and the availability of funding through an analysis of financial projection which is performed at the beginning of the year.

The Group regularly evaluates its projected and actual cash flows to ensure the availability of funds for its operations and to settle its maturing obligations. In general, the funds needed to settle the current liabilities are obtained from sales activities to customers.

¹⁾ Nilai wajar atas liabilitas sewa dengan jatuh tempo lebih dari satu tahun diperkirakan mendekati nilai tercatat karena suku bunga yang dibebankan mendekati suku bunga pasar.

¹⁾ *The fair value of the lease liabilities which has maturities more than one year approximates its carrying value as the interest rate charged approximates the market rate.*

Nilai wajar adalah harga yang akan diterima untuk menjual suatu aset atau harga yang akan dibayarkan untuk mengalihkan suatu liabilitas dalam transaksi teratur antara pelaku pasar pada tanggal pengukuran. Pengukuran nilai wajar didasarkan pada anggapan bahwa transaksi untuk menjual suatu aset atau mengalihkan suatu liabilitas yang berlangsung pada:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- Pasar utama untuk aset atau kewajiban, atau
- Dengan tidak adanya pasar utama, di pasar yang paling menguntungkan untuk aset atau kewajiban.

- *In the principal market for the asset or liability, or*
- *In the absence of a principal market, in the most advantageous market for the asset or liability.*
