

# Indocement Regains Gold PROPER Recognition

Jakarta, February 25, 2025 – PT Indocement Tunggal Prakarsa Tbk. (Indocement) has regained the Gold rating in the Company Performance Rating Program (PROPER) organized by the Ministry of Environment of the Republic of Indonesia. This year, the Gold rating was awarded to the Palimanan Factory Complex in Cirebon, West Java. Previously, the Palimanan Complex also received the Gold PROPER rating in 2012 and 2013. This achievement reflects the success of the Palimanan Complex in reducing 946.9 tons of non-hazardous solid waste, cutting 86.46 tons of hazardous waste, and achieving energy efficiency of 5,545.32 GJ.

The Gold PROPER award was presented by the Minister of Environment of the Republic of Indonesia, Hanif Faisol Nurofiq, to Indocement's President Director, Christian Kartawijaya, on February 24, 2025, in Jakarta.

“This year, Indocement successfully earned one Gold PROPER for the Palimanan Factory and two Green PROPER ratings for the Citeureup Factory in West Java and the Tarjun Factory in South Kalimantan. This achievement is the result of extraordinary teamwork across all levels of the organization. It also demonstrates how the government values and recognizes the green initiatives undertaken by companies in Indonesia,” said Christian.

The attainment of Gold and Green PROPER ratings for Indocement's three factory complexes aligns with the company's New Purpose: “Material to Build Our Future.” Indocement continues to strengthen its sustainability commitment by creating environmentally friendly operations to build a greener future. Key initiatives include increasing the use of alternative raw materials and fuels, as well as adopting eco-friendly energy sources in the company's operations.

## About Indocement

Indocement is one of the largest cement producers in Indonesia, which produce Semen Tiga Roda, Semen Rajawali, Mortar Tiga Roda, and Semen Grobogan brands. To date, Indocement and its subsidiaries are engaged in several business fields which include the manufacturing and sale of cement (as a core business) and ready-mix concrete, as well as aggregate and trass mining, with approximately 3,700 employees. Indocement operates and owns 14 plants as well as two plants and one grinding mill on a rental basis, with a total annual production capacity of 33.5 million tons of cement. Ten plants are located in the Citeureup Factory, Bogor, West Java; two plants in the Cirebon Factory, Cirebon, West Java; and one plant in Tarjun Factory, Kotabaru, South Kalimantan; one plant in Grobogan, Central Java; two plants in Maros, South Sulawesi, and one grinding mill in Banyuwangi, East Java. In 2022, Indocement has operated Bosowa Plant after signing an Asset Lease Agreement with PT Semen Bosowa Maros and PT Bosowa Corporindo. Heidelberg Materials AG has been Indocement's majority shareholder since 2001.
