

## **INDOCEMENT WON PLATINUM CHAMPION AWARD ON ENVIRONMENTAL ELEMENT AT BISRA 2023**

**PT Indocement Tunggal Prakarsa Tbk. (Indocement)** again won an award at the Bisnis Indonesia Corporate Social Responsibility Awards (BISRA) 2023. This year Indocement triumphed the **Platinum Champion in Corporate Social Responsibility Program** on the Environmental Element category. The award was received by Corporate Secretary of Indocement, Dani Handajani.

Theme of BISRA 2023 is Corporate Social Responsibility Toward Climate Changes Mitigation. This year Indocement presented a paper entitled **Energizing for a Greener Future**. This paper clarified Indocement's efforts to mitigate climate change, one of which is by using alternative fuels such as rice husk, oil sludge, municipal waste, used tires, sawdust, used cement bags and refused derived fuel (RDF). Indocement has also invested in building RDF facilities such as feeding facilities, shredders and mixing facilities and the latest investment is the hot-disc facility. Indocement's investment related to sustainability has reached more than IDR 1 trillion in the last 5-6 years.

These sustainable steps are proof of Indocement's efforts to continue increasing its capacity and ability to use alternative fuels, this is in line with Indocement's target to use alternative fuels for more than 40% of total fuel use.

Indocement also executes other programs such as the #Trashback program to collect used cement bags from consumers to be recycled, the Sedekah Sampah program to encourage an environmentally friendly lifestyle for employees and the SS45 program for partner village communities to recycle household waste.

"We congratulate all BISRA 2023 winners, we wish this award can set a good example for companies throughout Indonesia, moreover this award is a real proof of Indocement's commitment to mitigate climate change by reducing the use of coal in the production process and using environmentally friendly fuel," said Dani Handajani.

BISRA 2023 was held in collaboration between Bisnis Indonesia Daily and Habitat for Humanity Indonesia. The 2023 BISRA award was held on Tuesday, 15 August 2023, at the Ballroom of the Aryaduta Hotel, Jakarta.

### **About Indocement**

Indocement is one of the largest cement producers in Indonesia, which produce Semen Tiga Roda and Semen Rajawali brands. To date, Indocement and its subsidiaries are engaged in several business fields which include the manufacturing and sale of cement (as a core business) and ready-mix concrete, as well as aggregate mining, with approximately 3,400 employees. Indocement has 13 plants with a total annual production capacity of 25.5 million tons of cement. Ten plants are located in the Citeureup Factory, Bogor, West Java; two plants in the Cirebon Factory, Cirebon, West Java; and one plant in Tarjun Factory, Kotabaru, South Kalimantan. In 2022, Indocement has signed an Asset Lease Agreement with PT Semen Bosowa Maros and PT Bosowa Corporindo. Heidelberg Materials has been Indocement's majority shareholder since 2001.
