

## **NATIONAL RAIMUNA 2023: PARTICIPATING IN RENOVATING DECENT HOME FOR COMMUNITY, A COLLABORATION OF SCOUTS, MINISTRY OF PUPR AND INDOCEMENT**

Many positive activities were carried out at the 2023 National Raimuna Event which took place on August 14-21 2023, one of which was the **Decent Home Renovation activity for the Community**. This year, 127 National Raimuna participants repaired 15 uninhabitable houses (Rutilahu) in Karadenan Village, Cibinong District, Bogor Regency. This activity is a collaboration among the National Raimuna Committee, the Ministry of Public Works and Public Housing (PUPR) and PT Indocement Tunggal Prakarsa Tbk. (Indocement), producer of Semen Tiga Roda.

On 15 August 2023, a joint visit to the renovation site was also carried out by the team of the Ministry of PUPR which was attended by the Director General of Public Housing, Mr. Iwan Suprijanto, S.T., M.T.; Director General of Construction Development, Ir. Rachman Arief Dienaputra M.Eng., who was accompanied by Indocement Senior Sales Advisor Dion Sumedi and by the Head of the Bogor Regency People's Housing Service, Ajat Rochmat Jatnika.

Indocement played the role to provide training and debriefing for National Raimuna participants so they are able to carry out house renovation tasks in the field, moreover, the technical team from Semen Tiga Roda also provides assistance to all participants while working in the field so that they actually carry out construction work according to right standards. Indocement also donated Semen Tiga Roda and Mortar Tiga Roda products for home renovation and construction purposes.

Troy D. Sopotro, Director of Indocement, said that with the short duration of the debriefing, Indocement made every effort so that the participants could contribute maximally to this development process. "We focus on the participants being able to install bricks, plaster and mortar for walls, and by using the Mortar Tiga Roda series product, which is designed to be more practical in use, thus all participants are able to work well in the field immediately."

Teresa, one of the National Raimuna participants from East Kalimantan Province, said that by using the Mortar Tiga Roda, the participants could easily carry out wall work on site, because it was very practical. "Even though the debriefing was short and they had never done this activity before, they were able to do a very good job and met the target," said Indocement's Senior Sales Advisor, Dion Sumedi, during field visit.

Director General of Construction Development, Rahman Arief, expressed his gratitude for the collaboration of the Ministry of PUPR, Scouts and Indocement teams in this activity to provide great benefits to the community. In line with that, the Director General of Public Housing, Iwan Suprijanto, said this is a very good collaboration, which can be developed continuously in the future to make a real contribution to society, particularly in the housing sector. "We wish that Indocement will take part more in the development of the Indonesia in the future," said Iwan in his remarks.

### **About Indocement**

Indocement is one of the largest cement producers in Indonesia, which produce Semen Tiga Roda and Semen Rajawali brands. To date, Indocement and its subsidiaries are engaged in several business fields which include the manufacturing and sale of cement (as a core business) and ready-mix concrete, as well as aggregate mining, with approximately 3,400 employees. Indocement has 13 plants with a total annual production capacity of 25.5 million tons of cement. Ten plants are located in the Citeureup Factory, Bogor, West Java; two plants in the Cirebon Factory, Cirebon, West Java; and one plant in Tarjun Factory, Kotabaru, South Kalimantan. In 2022, Indocement has signed an Asset Lease Agreement with PT Semen Bosowa Maros and PT Bosowa Corporindo. Heidelberg Materials has been Indocement's majority shareholder since 2001.
