

## Commemorating *Hari Bangunan Indonesia* 2023, Indocement Holds Futsal Tournament

- The theme of *Hari Bangunan Indonesia* (HBI) 2023 is "**Raising Togetherness and Collaboration of Indonesian Construction People for a Better Future of Indonesia**"
- Indocement holds futsal tournament and various HBI activities in all factories

**Jakarta, 11 November 2023 - PT Indocement Tunggal Prakarsa Tbk. (Indocement)** holds futsal tournament for construction people in Indonesia at Galaxy Sport Center, PIK 2, Jakarta. This tournament was participated by 16 teams from ministries, ready-mix concrete, contactors, developers, alumni of Sekolah Tukang Tiga Roda program, and others. The opening was attended by the Director General of Construction Development of the Ministry of PUPR, Rachman Arief Dienaputra and the Director of Indocement, Troy D. Sopotro, as well as several companies' chairman that took part in this competition.

"On 1-3 of November, the PUPR Ministry held an Indonesian Construction event, where Indocement was also part of the event, various new knowledge was shared in various seminar series, educating each other through exhibition booths and also competitions for Indonesian construction workers. The event was attended by representatives from various provinces in Indonesia. "To complement and strengthen the togetherness of Indonesian construction people while commemorating HBI on November 11, we took the initiative to hold a more fun activity in the form of a futsal tournament," said Troy D. Sopotro.

The winner of this futsal tournament will receive a cash prize and the PUPR Ministry's HBI Cup. This trophy is made from Semen Tiga Roda combined with used cement sack waste, which is a symbol of the importance of sustainability for all Indonesian construction workers.

Director General of Construction Development, Rachman Arief Dienaputra, officially opened this futsal tournament. Rachman Arief said that holding HBI 2023 Futsal tournament could create closeness, unity and integrity among construction actors to face future challenges so that the construction services industry would progress further and provide benefits for many parties. He wished that this futsal competition will become an opportunity to increase togetherness between the government, business players and the construction services industry, and the construction services community.

The winner of this tournament was the team from the Ministry of PUPR who managed to beat PT PPLI in a fierce final match. This cup will be contested again at HBI next year.

## **Indocement Continues to Improve Infrastructure and Buildings in Partner Villages**

In the context of HBI 2023, Indocement is also simultaneously carrying out a number of activities in three operational areas of its factories. All of these activities also involve employees and related stakeholders at each location.

### **Citeureup Factory**

- Working together among employees and the community in renovating two uninhabitable housing units (rutilahu) in Gunung Sari Village, Citeureup

### **Cirebon Factory**

- Management and employees renovate one rutilahu in West Palimanan Village and one in Gempol Village
- Renovation of the office and waste collection site belonging to Indah Makmur Waste Bank in Kedung Bunder Village
- Training of construction workers of partner villages

### **Tarjun Factory**

- Building satkambing post in Tegalorejo Village
- Renovating facility of posyandu in Tarjun Village
- Building Matawigi Bridge in Cantung Kiri Hilir Village

## **Calling the Public to Appreciate the Construction Profession**

In commemoration of HBI 2023, on 11 November 2023, Indocement collaborated with Conture Concrete Lab to hold an event inviting the public to appreciate the construction profession. The event was held at the Grand Kemang Hotel, Jakarta, as part of the ICAD (Indonesia Contemporary Art and Design) exhibition.

In this activity, various skills of mason were displayed, starting from stand-up comedy, body building, and playing music with builders' equipment. In this activity, the public is also invited to take part in a challenge to lift weights made of cement for 3 minutes and win attractive prizes.

"Through this event, we want to give appreciation to the profession of mason and invite the public to appreciate this profession even more. With this weightlifting challenge, the participants can feel how extraordinary the energy that builders contribute when building a house," said Dion Sumedi, Senior Sales Advisor of Semen Tiga Roda.

## **Education on the Maintenance of Cultural Heritage Buildings**

Still in the series of commemorations of Indonesian Building Day 2023, in collaboration with the Jogjakarta Provincial Culture Service, Indocement holds the socialization assistance of the 2023 restoration, in the context of cultural heritage and cultural heritage management activities. In this activity, seminars and education were conducted for 70 assistants of restoration of cultural heritage buildings in Jogjakarta.

Rahmat Jatmikanto, Technical Marketing Manager of Indocement, was present as the speaker.

At this seminar, Rahmat introduced TR15 Mortar and TR30 Mortar as materials suitable for use in maintaining cultural heritage buildings. On this occasion a mockup was also made which was witnessed by the participants. Several participants were also given the opportunity to use the mortar products.

"Cement and mortar products are improvements to colonial era building materials so that they obtain higher and more constant quality. "For walls without cracks and high durability, Mortar Tiga Roda products come with guaranteed quality, which is adapted to tropical buildings in Indonesia, therefore it is very suitable for maintaining cultural heritage buildings use," said Rahmat.

### **About Indocement**

Indocement is one of the largest cement producers in Indonesia, which produce Semen Tiga Roda and Semen Rajawali brands. To date, Indocement and its subsidiaries are engaged in several business fields which include the manufacturing and sale of cement (as a core business) and ready-mix concrete, as well as aggregate mining, with approximately 3,400 employees. Indocement has 13 plants with a total annual production capacity of 25.5 million tons of cement. Ten plants are located in the Citeureup Factory, Bogor, West Java; two plants in the Cirebon Factory, Cirebon, West Java; and one plant in Tarjun Factory, Kotabaru, South Kalimantan. In 2022, Indocement also operated Bosowa Plant after signing an Asset Lease Agreement with PT Semen Bosowa Maros and PT Bosowa Corporindo. Heidelberg Materials AG has been Indocement's majority shareholder since 2001.
